7. Discussion Items:

7.1. DE Modifications for Summer 2020 and Fall 2020: The Curriculum Chair shared with the committee that she and Ryan will do tech review for all the new DE modifications that have been launched due to COVID-19 adaptations. The proposals will be on the consent agenda when they are ready for Curriculum Committee approval. Jeff Laguna asked about the status of online class offerings for the fall. Laura Hope shared that all courses will be offered online in the summer. She also shared that majority of the courses will be offered online in the fall; however, there are Aviation, clinical, and skills lab courses that will be scheduled with the intention to be offered face-to-face in the fall. If circumstances require that courses can only be offered online in the fall, some face-to-face courses may be removed from the fall schedule. Both the Curriculum Chair and Laura Hope expressed how proud they were of faculty in ensuring that students can receive instruction online during this time.

7.2. Local GE Pattern Best Practice:

- 1. The Chair shared that there are some courses that are approved for CSUGE and/or IGETC but are not included the local GE pattern. The Chair presented the following standard procedure to be formally implemented: Courses that have CSUGE and IGETC articulation will automatically be added to the appropriate area of Chaffey's local GE pattern by the Articulation Officer during the annual GE cleanup. Courses that are not already in any of the patterns would continue to go through their individual review process. She asked if the Articulation Officer could automatically add courses that already have CSUGE and IGETC approval into the Local GE pattern as a standard practice. The committee shared no concerns and voted for this as a standard practice 20/0/1.
- **7.3. Academic and Career Communities Follow-Up:** The Chair asked the committee to discuss how they would like to move forward with the upcoming elections in terms of moving to ACC representation. The committee shared the following concerns:
 - 1. The possible increase in workload for the Curriculum Representatives. Some representatives feel that communicating with areas outside of their schools and disciplines would add to their workload. The Chair shared that integration between the different meta majors will be the direction of the college in the future. She also shared that the roles of Curriculum Representatives will likely shift in responsibility (e.g. less tedious readings) which would allow more time for communication with the faculty in their areas.
 - 2. There should be a full integration campus wide before moving to this model as the ACCs feel somewhat disconnected. Some departments like Health Sciences discuss curriculum altogether due to the integration of the curriculum and pathways. These discussions may be impacted with an ACC model since the mechanism for curriculum discussions in the ACCs has not been formalized.

The committee also asked if the Faculty Senate is doing representation per ACC in the future. The Faculty Senate President shared that discussion has not happened in Senate, but the Senate would more than likely endorse the Curriculum Committee in its decision to do an ACC representation model.

The committee feels that they should wait to organize by ACC until the ACC structure becomes more formalized and natural campus wide. Because of this, the committee voted to table the discussion 21/0/0 until mid-fall.

- **7.4. IGETC/ADT and Communication Studies Discussion Continued:** The committee voted to table this discussion 21/0/0 until the next meeting.
- **8. Floor Items:** Laura Hope thanked the Curriculum Office and the Faculty for their flexibility and for working so diligently, quickly, and efficiently on the DE modifications for the summer and fall schedules.
- **9. Adjournment:** The meeting was adjourned at 2:28 p.m.
