Toner Supplies: Networked Printers and Non-networked Printers

1. ***Networked printer*** devices are maintained by Konica Minolta through Managed Print Services (MPS). ***Networked printers*** are identified by a Konica Minolta asset sticker. This sticker will contain a number that will identify the print device within the Global Client Services (GCS) database. All parts, service/labor, and toner are included in this agreement for **networked printers**. Every department is responsible for placing service calls and ordering supplies using the information on the asset sticker located on their **networked printer**.

Konica Minolta asset sticker
(located on networked printers)

2. ***Non-networked printer*** devices are maintained by ITS, and supplies must be purchased through an Office Depot BPO. ITS may offer other recommendations for purchasing printer supplies for these devises. Supplies cannot be purchased through the Konica Minolta MPS for the **non-networked printer** devices.
