

Dear Campus Community:

Due to the increase in COVID-19 exposures as a result of the Omicron variant, Chaffey College will make the following modifications to the spring 2022 semester start on January 10:

- All hybrid lecture-only sections for spring 22 will begin the semester remotely from January 10 and will continue through January 31. Classes will meet online as scheduled, and faculty should notify their students via email of this change.
- Many essential career education courses and labs will continue in the originally scheduled mode per the attached list.
- Some sections that involve a higher COVID-19 exposure risk will also begin the semester remotely from January 10 and will continue through January 31. Classes will meet online as scheduled, and faculty should notify their students via email of this change.
- Counseling, Library and Success Center work/appointments will remain available online only through January 31. However, these employees will work onsite as scheduled and conduct their work online during this time.
- Managers may schedule staff to work remotely during this time as appropriate.
- Some employees (e.g. Admissions and Records, Financial Aid, Campus Police, M&O, IT, Campus Store) will continue to work on-site in some capacity.
- During this time, all meetings among employees and/or with students will be held remotely.
- Employees who are required to test for COVID-19 must continue to follow testing protocols during this time.
- All employees are required to wear minimum 3-ply face coverings indoors, such as disposal surgical/medical masks, while working on-site in any Chaffey College facility. The District has these masks available for all members of our campus community. To request these, please contact your supervisor. The CDC no longer recommends cloth masks, gators, bandanas and/or scarves.

If you have any questions regarding these modifications, please contact your supervisor. Chaffey College is committed to continuing our safe, slow and sustainable practices as we have since the onset of the pandemic. While these changes to our practice sometimes appear endless, we encourage you to remember we are all in this together. During this time, we will continue to monitor and assess and pivot as necessary to provide a safe and healthy campus environment for our students and our employees.

Thank you,

Henry D. Shannon
