

Dear Campus Community,

As part of our commitment to keep you informed about developments related to COVID-19, we wish to share facts about a recent incident on campus.

A Chaffey College student who attended an in-person science lab last Monday Sept. 21 on the Rancho Cucamonga campus has since tested positive for COVID-19. The student has been advised to self-quarantine until he/she is medically cleared to return to campus. Other students in the class had minimal exposure, but have been notified.

As per our normal protocol with in-person labs, the classroom was thoroughly cleaned prior to the next class entering.

We have made contact with all employees and students with whom the student had contact.

We will continue to keep you updated and appreciate your assistance in keeping the campus community safe. In order to work on campus and attend in-person classes, we require you to:

- Practice social distancing
- Wear a face covering
- Frequently wash hands
- Stay home if you show any signs of sickness. COVID-19 symptoms include fever, cough, sore throat and shortness of breath

Please refer to our "[Safe Campus Reopening](#)" report for more information.

If you believe you are sick or have been exposed to someone with COVID-19, please contact your primary health care provider as soon as possible. If you are a San Bernardino County resident, visit the [COVID-19 testing site](#) page to schedule an appointment if you'd like to get tested. If you test positive, please contact Susan Hardie in human resources at susan.hardie@chaffey.edu immediately. If you are a student with health concerns, please visit the [Chaffey College Student Health Services page](#).

Thank you,

Reopening Committee Tri-Chairs
