Re: Fall 2021 Student COVID-19 Vaccine Incentive Program Phase 2

Student COVID-19 Vaccine Incentive Program (Phase 2)

1. Chaffey students (credit or non-credit) currently enrolled in Chaffey courses for **the fall 2021 semester** may be eligible for a one-time **\$300 Fall 2021 Student COVID-19 Vaccine Incentive**. Students must meet the following in order to receive the \$300 vaccine incentive:
 - a. You must be a currently enrolled (or completed your fast track course(s)) Chaffey fall 2021 student who enrolled in a Chaffey course(s) for the **fall 2021** semester between **September 8, 2021 and October 22, 2021; and**
 - b. You must submit valid documentation through [MyChaffey Log In](#) by no later than **December 1, 2021** showing you have received either: (1) both of the two-dose mRNA series (Pfizer or Moderna) COVID-19 vaccinations; or (2) the single dose of Johnson & Johnson's Janssen COVID-19 vaccine.
2. Valid COVID-19 vaccination documentation is the completed Center for Disease Control Vaccination Record card issued as part of the COVID-19 vaccination process.
3. This \$300 COVID-19 Student Vaccine Incentive is only available while allocated funding lasts. Once the funds allocated for this COVID-19 Vaccine Incentive Program are used, the Incentive Program will be discontinued.
4. Students who were eligible for the one-time \$300 fall 2021 incentive (i.e., those students who enrolled in fall 2021 courses on or before September 7, 2021) are ineligible for this vaccine incentive.
5. The form of the student incentive payment is still to be determined, but the College anticipates that it will come vis-à-vis a debit card, direct payment, or other means in January 2022 (notification will be issued via Panther email).

****Los estudiantes de habla hispana pueden recibir ayuda adicional con respecto al Programa de incentivo de la vacuna COVID-19 para estudiantes de primavera de 2021. Para más información puede contactar a Patty Bopko a patricia.bopko@chaffey.edu.**
