About The College

The College
Chaffey College, one of the first colleges to be established in California, is a two-year public community college situated in an area of natural and tranquil beauty in Southern California. The campus occupies 200 acres of rolling lawns and native foliage in the foothills of the majestic San Gabriel Mountains. Founded in 1883 as a private college, Chaffey has been a publicly funded college since 1916.

Curricula
Chaffey College offers two year associate in art or science degrees in academic or vocational fields, one-year certificates of achievement, and transfer programs that meet the lower-division requirements for a baccalaureate degree to be obtained at a four-year college or university. The college operates on the semester system, which consists of fall, spring, and summer terms.

Chaffey courses are offered at the college's three campuses in Rancho Cucamonga, Chino, and Fontana.

District
The college district serves a population of 725,000 in the west end of the vibrant Inland Empire of San Bernardino County, including the communities of Chino, Chino Hills, Fontana, Montclair, Ontario, Rancho Cucamonga, and Upland.
GETTING STARTED

The application and registration process for online courses is the same as it is for traditional on-campus courses. To attend Chaffey College students must complete an application for admission, once admitted students may register for online courses on or after their assigned registration date, just as they would for on-campus courses. For more information about the application and registration process, visit the Chaffey College website at www.chaffey.edu.

Tuition and registration costs are the same for online classes as they are for their on-campus counterparts. Online courses do not usually require materials fees that are sometimes associated with traditional courses.

Just like traditional courses, online courses have required textbooks and other materials. In addition, some online courses may require the purchase of an access key (sold with the textbook) to access course materials. More information about online textbooks and access keys can be obtained on the Chaffey College Distance Education and bookstore websites at www.chaffey.edu/onlineed and www.books.chaffey.edu.

To attend online courses, you need only to be able to access the Internet. No additional specialized software is required. Some instructors do use multimedia tools that require you be able to play podcasts, videos, and mp3 files.

ORIENTATION

Each semester the Office of Distance Education hosts several in-person student orientations. These orientations are designed to assist students in familiarizing themselves with the online environment. Students will learn how to participate in collaboration sessions, discussion boards, submit assignments, as well as take quizzes and tests. Attendance at the orientations is not required, but students are encouraged to participate prior to taking an online course, to see if the online learning environment works with their learning style. Orientation videos are also available for download and viewing on the Distance Education website at www.chaffey.edu/onlineed.

Looking for…

• courses that meet your schedule?
• classes that fit your learning style?
• an environment that lets you learn at your own pace?
• the ability to attend class anytime, anywhere?
• more contact with your instructor?
• less time traveling to and from campus?

Chaffey College offers a variety of Distance Education courses designed to allow you the flexibility of completing classes outside the traditional classroom, during times that fit your schedule. Various Distance Education courses are offered each semester. All courses offer full credit and flexible schedules, and many courses can be completed completely online. For those interested, it is possible to complete the majority of your liberal arts degree online. We also offer several online certificates.

Distance Education offers three types of courses:

**Online Courses**

Online courses are attended exclusively on the Internet; there are no campus meeting dates. Some online classes require specific dates or times for interactive Internet class activities; instructors provide details of these requirements in the class syllabus.

**Hybrid Courses**

Hybrid courses are a combination of on-campus and online instruction. Students meet on campus on the designated days and times and receive additional instruction online. Instructors give students course access information at the first on-campus class meeting.

**Enhanced Courses**

Enhanced Courses are those in which the instructor uses web and Internet resources to augment the face-to-face course. These courses meet the same time and place as other campus courses; your instructor will explain more about the use of the web and Internet during the first week of school.

**Schedule of Classes.** Both can be accessed online at www.chaffey.edu.
