The College
Chaffey College, one of the first colleges to be established in California, is a two-year public community college situated in an area of natural and tranquil beauty in Southern California. The campus occupies 200 acres of rolling lawns and native foliage in the foothills of the majestic San Gabriel Mountains. Founded in 1883 as a private college, Chaffey has been a publicly funded college since 1916.

Curricula
Chaffey College offers two-year associate in art or science degrees in academic or vocational fields, one-year certificates of achievement, and transfer programs that meet the lower-division requirements for a baccalaureate degree to be obtained at a four-year college or university. The college operates on the semester system, which consists of fall, spring, and summer terms.

Courses are offered at the main campus in Rancho Cucamonga and at campuses in Chino and Fontana, as well as online through the Distance Education program.

District
The college district serves a population of 750,000 in the west end of the vibrant Inland Empire of San Bernardino County, including the communities of Chino, Chino Hills, Fontana, Montclair, Ontario, Rancho Cucamonga, and Upland.

Statement of Equal Opportunity
Non-Discrimination and Prohibition of Harassment Policy
The District and each individual who represents the District shall provide equal access to employment and educational opportunities without regard to race, color, national origin, ancestry, religion, creed, sex, age (over 40), physical disability (including HIV and AIDS) or mental disability, marital status, medical condition (including cancer and genetic characteristics), sexual orientation, or military status as a Vietnam-era veteran, or the perception that a person has one or more of the foregoing characteristics.

What our graduates say about the program.

“I completed the program at the end of July and am now a valued member of the health care community. In two years I went from having no marketable skills and working minimum wage jobs, to being a productive, valued member of a health care team – making triple my pre-program wage.”

“The knowledge I received from the program was excellent. I began my employment feeling confident and prepared. Although I trained at a facility with digital equipment, I had no problems starting a job with only film equipment.”

“I felt that the program really prepared me for an entry level radiologic technologist position. My current position has enhanced the skills that Chaffey gave me.”

“The program is a wonderful program to graduate from. The success of the individual depends on how much he or she wants to achieve. The resources are there, all you have to do is take advantage of them.”

“Chaffey is the “gold standard”... highly respected, ethical, safe and professional. Chaffey College speaks for itself with a long history of outstanding graduates. I earned everything I paid in tuition and books in my first three weeks on the job!”

How are applicants selected for admission?
Students are admitted to the Radiologic Technology Program on a point-system basis. Only courses completed prior to the application period will be included for full point calculation.

How long does it take to complete the Radiologic Technology Program?
After prerequisites and general education are completed, the program is 24 months in length, which consists of 6 continuous semesters of full time study.

Clinical Practice
Students in the RT program attend classes or clinical education daily. In the clinical setting, students are active participants of the health care team. Clinical education includes operation of X-ray equipment, exposing and processing images, practicing radiation protection, positioning patients, and providing quality patient care in a hospital setting. Radiologic Technology students have the opportunity to interface with health professionals throughout the community including San Antonio Community Hospital, Pomona Valley Hospital Medical Center, Kaiser Permanente Medical Center in Fontana, Kaiser Permanente Medical Center in Riverside, Riverside County Regional Medical Center, Corona Regional Medical Center, Jerry L. Pettis VA Memorial Hospital, and Desert Valley Medical Center.

What if I want to specialize in CT, MRI, Ultrasound, Nuclear Medicine or Radiation Therapy?
The Chaffey College Radiologic Technology Program provides high quality, intensive radiography education. Students who wish to continue their education may transfer to a four-year college or university. Students should contact that school to determine which courses are transferable.

Contact Us
For more information about the Radiologic Technology Program, visit the website at www.chaffey.edu/radtec or contact the Radiologic Technology Program Office at 909-652-7606. Contact the Chaffey College Counseling Department at 909-625-6200 to create an educational plan for acquiring a degree.

Radiologic Technology Program
Prerequisites and Requirements
To be eligible for admission to the program, the applicant must meet the following criteria:
1. Eligibility for admission to Chaffey College.
2. Minimum cumulative GPA of 2.8
3. Minimum age of 18 years
4. Completion of the following prerequisite courses with a minimum grade of C, or in progress at the time of application:
   a. MATH 425 or higher level math, or STAT 10, or SCSCI 10, or as required for graduation
   b. CHEM 9, 10, or PHYS 5 or higher, or one year of high school chemistry or physics
   c. BIOL 20 (or BIOL 424 and 424L)
   d. BIOL 30
5. All coursework for Chaffey College Graduation Requirements - General Education, Multi-Cultural/Gender Studies, Physical Education, Recreation and Wellness, Electives, Basic Skills Competency Requirements -- must be completed OR in progress at the time of application. No courses other than RT Program courses can be taken while in the program.

Mission Statement
The mission of the Radiologic Technology Program is to meet the needs of the community it serves by providing an education for individuals from diverse ethnic and cultural backgrounds that will enable them to acquire a high level of skills to enhance quality patient care with the professionalism necessary to become effective Registered Radiologic Technologists.

THE PROGRAM
The Radiologic Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the State of California. Students receive an Associate Degree upon completion of the program. Graduates are eligible to apply for admission to the certification examination administered by the American Registry of Radiologic Technologists (ARRT) and the State of California (CRT) fluoroscopy examination. There are fees for obtaining licensure by examination. The program articulates with the California State University, Northridge and Loma Linda University Radiologic Technology Program for the bachelor’s degree.

How Do I Get Started in the Radiologic Technology Program?
Applications for the Radiologic Technology Program are accepted each year during the month of February only.

WHAT YOU WILL NEED:
- Official college transcripts (if attended).
- Completed general education and prerequisites.
- Cumulative GPA of 2.8 or higher.
- Completed Radiologic Technology application form.

Complete instructions, timeline and information are available online at www.chaffey.edu/radtec.
