The Cooperative Agencies Resources for Education (CARE) program was established in 1982. CARE founders Blanche G. Goldstein and Assemblywoman Teresa P. Hughes, deeply believed in the value of college education as the key that empowers single parent students to achieve personal self-esteem, independence, and self-reliance.

As a supplemental component of EOPS, CARE provides educational support services designed for the academically underprepared, low income, single parent population.

Reimbursements for educationally-related expenses may be awarded as a means of strengthening the retention, persistence, graduation and transfer rates of these individuals.
