Course Change(s) Information

- Students can add courses online via MyChaffeyVIEW using Add Codes. This can be done during the late registration period. They can also drop courses online. If the instructor accidentally dropped the student, he/she can request the student to be reinstated using an Add Card up to 61% of the class. In this case, the student signature is not required.

- Students cannot be added to 18-week classes after the end of the first Monday following the first day of instruction. For short-term classes, deadlines vary. For specific information and deadline dates, refer to the Schedule of Classes.

- Effective Fall semester 2009. When students drop classes on MyChaffeyVIEW during the W period, the system will automatically generate an e-mail to faculty letting them know that the student has dropped his/her class.
