The mission of the Chaffey College Child Development Center is to:
• Provide high quality child care and educational experiences for children
• Support parents in their educational and vocational goals
• Facilitate the needs of Chaffey College students

The Center provides quality child care to children of Chaffey College students and, if space available, to college faculty, staff, and community.

The Child Development Center is fully licensed by the State of California and is staffed by outstanding professional and paraprofessional individuals. It has well rounded programs, emphasizing the educational, physical, and social development of children and instruction in effective parent-child interaction concepts and practices. Nutritious breakfasts, lunches, and snacks are provided.

Parents who are eligible for subsidized child care services according to the guidelines of the State Department of Education pay fees based on a sliding fee scale according to the gross income and number of children in the family. Information on fees for children of faculty, staff, and community is available upon request.

The Child Development Center welcomes all children without regard to gender, race, religion, ethnicity, or physical limitations. The Center currently serves children ages 18 months through pre-school.

Application Forms
Application forms are available at the Child Development Center or on the college’s website www.chaffey.edu/childctr (page will open in a new window above this one).

Parents may apply for Child Development Center services prior to college registration.
