Hours

- The Disability Programs and Services was established to provide support services for students with a variety of disabilities.
- Instructors suspecting a student could benefit from services provided should contact a Resource Specialist in the DP&S office and discuss the circumstances.
- The program has been designed to respond on an individual basis to students' needs.
- DP&S is a support system designed to maximize the potential of students whose educational goals might otherwise be compromised.
- The primary focus is in helping students develop independent skills and knowledge.
- The services offered are designed to circumvent functional limitations.
