

International Students Events 2006-2007

■ International Education Day - November 15, 2006

This annual event is celebrated world wide! Our International students brought items to represent their home countries and displayed them at booths set up in our campus center. There was a very colorful fashion show with students and faculty modeling native dress from several countries. We had international food sampling and an international company named 10,000 Villages sent handcrafted items for sale to benefit those handcrafters. [Click here for photos:](#)

■ Holiday Luncheon- December 4, 2006

The international student's office provides a traditional American holiday meal served buffet style. Students come during their final exams in early December to enjoy a quick respite from their hectic schedules. This casual event also allows students to get to know the international student services staff and to make friends on campus. [Click here for photos:](#)
