July 9, 2013

Dear Chaffey College Community,

Things are looking brighter at Chaffey College and it’s because of all your hard work and commitment. As you know the passage of Proposition 30 provided much needed funding to community colleges.

We are pleased to share that the additional funding allowed Chaffey College to increase class offerings to our students.

- We were able to offer a robust summer session with over 500 classes; providing access to more than 8,000 students.
- We increased the number of sections offered in the fall semester: 1,758 classes – 88 more than fall 2012 – representing a 5.2% increase.
- The new Weekend College program launches this fall with 71 classes held Friday evenings and Saturdays.
- By offering additional classes, it alleviates the challenges students have experienced the past 3 years.

Join us in sharing with students, family, friends, and neighbors that Chaffey College has added classes, new programs and we are committed to student success and each individual’s education.

We are pleased to provide more educational opportunities and a make attending Chaffey College a reality.

Sincerely,

Kathy Brugger
Governing Board President

Henry Shannon
Superintendent/President
