Day 1 - light breakfast will be provided in FSC (ATL 109) at 8:30 AM.

EFFECTIVE ASSESSMENT STRATEGIES THAT PROMOTE LEARNING

What is one of the best ways to give students frequent and effective feedback? How can you quickly and effectively ascertain if your students have truly learned? Formative assessment is one of the most effective ways to provide frequent feedback and help students and you discover how much learning has taken place. Join us as we discover how to use formative assessment to improve participation, develop a growth mindset in students, engage students in deep learning and critical thinking, and give faculty the opportunity to objectively reflect on the effectiveness of their instruction. Participants will also practice developing many types of assessments appropriate to their discipline, and discuss strategies for infusing many types of assessments into their teaching.
