What the Best College Teachers Do Workshops Series:

How do the best college teachers treat their students?

"Is there something in the way the best professors view and treat their students that might help explain their success?"
~Ken Bain, p. 136

Come explore with us as we discuss our experiences of how we treat our students and please feel free to bring in examples of your own.

Let's share our experiences in which we have overcome an issue or our current difficulties with students so that we can learn from each other!

"Ken Bain has conducted years of careful research on a variety of campuses, and the result is an inspirational summary of what teachers do that truly makes a difference in students’ lives, and what any teacher can do to improve."

-Richard Light, author of Make the Most of College: Students Speak Their Minds.

Monday
February 24
12:30 PM - 1:30 PM
FSC (ATL 109)

Please join us, even if you haven't read the chapter :)
