This year’s FSI centers on the theme of Deconstruct and Design: Building Success among a Diverse Student Population. Through a variety of interactive discussions, activities, and readings, participants will explore concepts, strategies, and student experiences around the issues of the achievement gap, learning identities, social and academic capital, and culturally responsive academic environments. Participants will examine the complex challenges that students face, create a tool box of strategies for creating culturally responsive environments, and develop strategies for empowering and engaging our students in developing important non-cognitive skills such as resiliency, curiosity, a growth mindset, and grit.

**FACILITATORS**

Jonathan Mooney  
Carol Dickerson  
Cindy Walker  
Charles Williams  
Diana Sanchez  
Melissa DiLorenzo
