We want success for all students; however, many of our students today are facing challenges associated with stereotype threat, unconscious bias, and microaggressions. Join this year's Faculty Summer Institute (FSI) as we expand our perspectives of teaching and learning in 2015. We will discuss the challenges of and strategies for addressing unconscious bias, stereotype threat, microagressions, and other related issues. Additionally, we will develop confidence and effectiveness in engaging students and colleagues in difficult conversations and collaboratively build inclusive instruction strategies.

Day 1 (5/26/15): Focusing on the Power of Perspective
Day 2 (5/27/15): Exposing our Blindspots
Day 3 (5/28/15): Adjusting the Lens of Instruction
Day 4 (5/29/15): Looking to the Future
