Dear Student:

Chaffey College needs your help. As part of Chaffey's learning outcomes initiative, the Math Success Center faculty and staff are collecting data to evaluate student use of learning strategies and study skills in math.

Please answer the following questions as best as you can. Your answers are anonymous. When you have finished the survey, please return it to a Math Success Center staff member or click on the submit button. If you have any questions about this survey, please contact Tim Arner at 909-652-6429. We appreciate you answering the questions on the survey. Thank you for your help.

**Math Study Skills Assessment**

The following questions ask about your learning strategies and study skills for this class. There are no right or wrong answers. Use the scale below to answer the questions. If you think the statement is very true of you, then choose 7; if a statement is not true of you, choose 1. If the statement is more or less true of you, find the number between 1 and 7 that best describes you. Please identify the learning strategies and study skills that you used before you received help at the MSC and after you received help at the MSC.
