New Annotated Standards  
The new annotated standards have been released by the ACCJC and a copy will be sent to the committee members for review following this meeting.

College Planning Council Update  
This committee has met and was charged with evaluating how the District is doing on overall planning, assessing how the District is doing on the Strategic Plan, developing a scorecard and making recommendations to Dr. Shannon on policies that are at a stalemate in other committees.

Survey Update  
Students, adjunct and full time faculty, management and classified staff were recently sent surveys which addressed the accreditation standards. We received a good response rate from students, but so far, there is a low response rate from the adjuncts and classified. The Coordinators and the Senate representatives were asked to encourage their constituents to respond to the survey. Surveys will be sent to local governments, as well as business and industry leaders. The response data will be available mid-June and will be presented to the AOC during the summer meeting.

Mission Statement Update  
The draft of the new mission statement is still not Board approved; it is pending more input from the Board.

Self-Study Outline Update  
The subcommittee charged with writing the self-study has not completed the draft yet. An outline should be ready for review and refinement in time for the summer AOC meeting.

Website  
The redesign of the accreditation website needs to be addressed by the website subcommittee (Patty Quach, Grace Roetutar, Tara Johnson and Carol Hutte). The redesign needs to be based on what information we will populate it with. A decision needs to be made as to how we will organize the evidence for the standards.

Other  
The committee has agreed to convene in summer after the survey results are ready.

The meeting was adjourned at 10:55am.
