

Academic and Career Communities

In this section, Chaffey's degree and certificate programs are organized into six Academic and Career Communities based on job families, interest areas, and similarities in coursework. The program maps within each Academic and Career Community represent the sequencing and combinations of major and general education coursework recommended by faculty to inform your educational plan. Degree maps show how requirements can be completed in two years if enrolled full-time (approximately 15 units per semester). Program completion is dependent on your schedule availability and when courses are offered. For degree and certificate maps not included in the Academic and Career Communities workbook, please meet with a Counselor and/or Faculty Advisor to discuss recommended course sequencing.
