ENROLLMENT STEPS

1. SUBMIT A FREE APPLICATION
   Application online at www.chaffey.edu/application.
   You will receive an email with a confirmation of your application and your Chaffey student ID number.
   Visit the Admissions Office at the Rancho Cucamonga, Fontana, or Chino campuses for additional assistance.
   To contact admissions, please call 909-652-6600 or visit their website at www.chaffey.edu/admissions

2. ATTEND THE CHAFFEY COLLEGE ORIENTATION
   Orientation provides information about the college, the assessment test, the Educational Plan,
   and additional support to prepare you for success. To schedule a date for the Orientation,
   visit the Orientation page at www.chaffey.edu/orientation or call the Counseling Department at 909-652-6200.
   Counseling website: www.chaffey.edu/counseling

3. TAKE THE ASSESSMENT TEST
   The Assessment Test is a placement test determines each student's proficiency level in Mathematics and
   English. Chaffey College does not accept assessment scores from other colleges/universities. It is
   important that you schedule an appointment to take the assessment test as soon as possible. Visit:
   www.chaffey.edu/assessment or call the Counseling Department at, to schedule your appointment.

4. CREATE AN EDUCATION PLAN WITH A COUNSELOR
   After completing the Orientation and Assessment Test, the next step is to develop an Educational Plan.
   This plan will keep you on track for taking the appropriate classes for your educational goal.
   To meet with a counselor, contact the Counseling Department at 909-652-6200, to schedule an appointment.

5. TO RECEIVE YOUR REGISTRATION DATE
   Your registration date will be available on MyChaffeyVIEW at www.chaffey.edu/mychaffeyview
   after you have completed the Orientation, Assessment Test, and Educational Plan. Visit the
   Counseling Department website for exemptions.
   To register for classes, log on to MyChaffeyVIEW www.chaffey.edu/mychaffeyview. Click on
   “Register for classes”. It is important that you register for your classes on or after your
   assigned registration date. Waiting can affect your chances of enrolling in the classes you
   need to complete your goal.
   Admissions Phone Number: 909-652-6600
   Admissions website: www.chaffey.edu/admissions

6. PAY ENROLLMENT FEES
   Enrollment fees can be paid through MyChaffeyVIEW www.chaffey.edu/mychaffeyview. You have ten (10)
   calendar days to pay for a class once you’ve registered. If you do not pay within the 10 days, you will be
   dropped from the class. Enrollment fees can be paid using your VISA or MasterCard online through
   MyChaffeyVIEW, paid in person at any of the three campuses, or mailed to the Cashier’s Office.
   Cashier Phone Number: 909-652-6600
   Cashier website: www.chaffey.edu/cashier

7. ATTEND FIRST CLASS MEETING
   It is important to attend your first class meeting. Students who do not attend may be dropped
   from a class they are enrolled in.
Becoming a student at Chaffey is simple. Through MyChaffeyVIEW on the Chaffey College website www.chaffey.edu, you can apply, register, and pay fees online. For more information, visit the admissions page on the website or one of the Chaffey College locations near you.

opportunities

Chaffey College offers more than 60 Career and Technical Education programs of study. Whether you want to attend school during the day or evening you’re sure to find the right program. We even offer classes online for individuals with difficult schedules. For a list of Career and Technical Education programs and courses visit the college website at www.chaffey.edu

simple

Your education is an excellent investment. For just $46 a unit, ($138 per 3-unit class) a college education is affordable. Financial assistance opportunities are available to qualified students through scholarships, grants, and financial aid.

Accounting/Financial Services

Program Description
The Accounting Program at Chaffey College is designed to serve four functions:

• Prepare non transfer accounting students for entry-level positions.
• Provide appropriate classes for students who want to upgrade their accounting skills.
• Prepare transfer accounting students for upper-division courses at four-year institutions.
• Provide non accounting majors with sufficient expertise to enable them to make intelligent use of accounting information and to provide them with the basic accounting courses that transfer to four-year institutions.

Career Opportunities
The demand for accounting professions is on the rise in the Inland Empire due to the recent growth in population and new businesses. Former program graduates enjoy positions such as general ledger accountants, bookkeepers, account receivable clerks, accounts payable clerks, tax preparers, finance analysts, payroll clerks, cost accountants, and budget analysts.

Students who intend to become an accounting major at a CSU campus should pursue the Associate in Science Degree for Transfer – Business Administration. (see page 7)

Degree/Certificates Available
• Associate in Science Degree Accounting
• Accounting Certificate
• Bookkeeping Certificate
• Accounting for Government and Not-for-Profit Organizations Certificate
• Accounting Paraprofessional Certificate
• Financial Planning Certificate
• Payroll and Income Tax Preparer’s Certificate

Careers
Accountant
Bookkeeper
AR/AP clerk
Tax preparer
Financial analyst
Payroll clerk
Budget analyst

HIGHLIGHTS
Our courses help students obtain employment in accounting.

• Upon satisfactory completion of ACCTGFS 453 (U.S. and California Tax Preparation), students will be recognized by the State of California as registered tax preparers.
• In addition to ACCTGFS 453, students can complete basic preparation for the IRS Enrolled Agents exam by taking ACCTGFS 454 (corporate income tax).
• The college encourages accounting students to participate in the Voluntary Income Tax Assistance (VITA) program. In this program students are trained in federal and state income tax preparation in order to assist low-income and elderly taxpayers.
• Chaffey College instructors have experience as accountants in addition to completing academic studies in accounting.
Business

Program Description
The Business Administration Program offers courses in business administration, small business management, marketing, advertising, business law, global business, professional selling, real estate, business math, retail management, and human resources. Whether you want to transfer to a four-year college, obtain an Associate degree, or just further your education, the Business Program provides students with important business skills.

Career Opportunities
Recent Chaffey College graduates have entered the job market as marketing managers/directors, retail store managers, merchandising coordinators, credit analysts, loan officers, management analysts, personnel managers, warehouse managers, purchasing agents, wholesale and retail buyers.

Careers
Customer Service
Marketing manager
Retail manager
Merchandising coordinator
Loan officer
Management analyst
Personnel manager
Warehouse manager
Purchasing agent
Buyer

Degree/Certificates Available
• Associate in Science Degree for Transfer Business Administration
• Associate in Science Degree - General Business
• Associate in Science Degree - Business Management
• Associate in Science Degree Business - Logistics
• Associate in Science Degree Business - Retail Management
• Associate in Science Degree Business - Supervision
• Business - General Certificate
• Business - Marketing Certificate
• Business - Small Business Entrepreneur Certificate
• Management Certificate
• Logistics Management Certificate
• Retail Management Certificate
• Supervision Certificate

HIGHLIGHTS
The Business Administration Program is continually keeping current with industry trends. The Small Business Entrepreneur program has been modified to meet the needs of current and prospective entrepreneurs. Two new additions to the program include a global business class and a business ethics class. The Retail Management Certificate and program was created by the Western Association of Food Chains.

A new logistics management degree and certificate have been added to the curriculum to prepare students for a career in the fast growing logistics industry.
Business and Office Technologies

Program Description
The Business and Office Technologies Program offers two Associate Degrees and six certificates for students who wish to fulfill general education requirements, transfer opportunities, and career/occupational goals. There is a focus on computer application skills and office management.

Career Opportunities
The program prepares students for employment as office support personnel, administrative assistants, and office managers. It also develops computer competencies for the workplace, educational advancement, and personal use. The program provides a foundation for developing workplace and lifelong learning skills and knowledge.

Careers
Office manager
Administrative assistant
Office and clerical support
Information clerk
Executive assistant

Degree/Certificates Available
• Associate in Science Degree Professional Office Management
• Associate in Science Degree Professional Administrative Assistant
• Office Management Certificate
• Professional Office Management Certificate
• Professional Administrative Assistant Certificate
• Professional Office Skills Certificate
• Microsoft Office Excel Certificate
• Microsoft Office Certificate
• Microsoft Word Certificate

HIGHLIGHTS
As an applied academic area, the Business and Office Technologies Program serves students from all disciplines through computer competencies and written communications, as well as developing skills, competencies, and knowledge for success in the workplace and for personal use.
Program Description

The Computer Information Systems (CIS) Program is designed to prepare students for entry-level employment positions and careers in information technology, to upgrade current skills for those already employed, to provide a foundation for students who plan to transfer to a four-year educational program in CIS, or to provide computer competency for non-CIS majors.

Career Opportunities

Students completing degrees and/or certificates in one of the Computer Information Systems areas can pursue careers in information technology, computer, network and telephone service and repair, as well as website design, development and maintenance.

Careers

Information technology
Network specialist
Website development
Computer game development
Computer programming
Hardware repair

Degree/Certificates Available

- Associate in Science Degree Computer Information Systems
- Cisco CCNA Levels I-III Certificates
- Cisco CCNP Levels IV-IX Certificates
- Computer Information Systems Certificate
- Computer Game
- Computer Support
- Project Management
- Web Developer

HIGHLIGHTS

The CIS Program at Chaffey College continuously strives to meet the industry need for trained information technology personnel. The program offers many classes and certificates that enable students to meet job and career goals. Several classes and certificate programs are offered online.
Business: Paralegal Studies

Program Description
The Paralegal Studies Certificate Program is intended to prepare students for employment as a paralegal in various legal and business sectors. The Chaffey College Paralegal Studies Certificate Program emphasizes practical application and the development of up-to-date paralegal related job skills in addition to teaching legal theory. The certificate program is designed to enhance the ability of students to reason, understand and apply correct principles of law by teaching analytical and critical thinking skills. Graduates of the certificate program possess skills to enter the paralegal profession. The paralegal program also allows those already in the paralegal field to improve their understanding of the paralegal profession.

Certificate Available
• Business: Paralegal Studies Certificate

Careers
Paralegal
Legal assistant
Legal document assistant

Career Opportunities
The Paralegal Studies Certificate Program meets and exceeds California statutory guidelines for paralegal educational. Upon satisfactory completion of the program, students will be recognized by the State of California as a paralegal.

The Paralegal Studies Certificate Program is designed to prepare students for successful paralegal careers through a teaching philosophy that stresses practical application, as well as the development of up-to-date paralegal related job skills and critical thinking skills. The program provides a comprehensive understanding of the legal system and the role and responsibilities of paralegals while acquiring essential paralegal skills such as conducting legal research online research tools used in the legal profession, calendaring; drafting legal documents and legal memoranda.

Students will learn to work with other legal professionals and may become eligible for court externships.

HIGHLIGHTS
Classes are taught by attorneys, senior legal office managers/paralegals, or other qualified professionals. Learn hands-on job skills to enter the paralegal profession.
Careers in Performing Arts
Program Description

The Digital Media program is a cross-discipline program designed to prepare students for employment in the fields of visual design for print, screen, and time based media including web, multimedia and motion graphics. The programs’ focus is to educate students for college transfer to four-year programs or professional training in digital media design. Both fundamental and advanced courses are offered in state of the art facilities taught by distinguished professors from the fine art, graphic design and multimedia industries.

The program offers transfer credits, AA degrees and certificate programs in three separate digital media career field emphases: Computer Graphic Design for Print Media, Design for Multimedia, and Web Design. The focus of these programs is to examine the creative design and content development process in relationship to technology in a rapidly evolving communication environment. Certificates of Achievement prepare students for the graphic design, multimedia design, and web design industry with entry-level skills for a variety of digital media employment opportunities. The Digital Media program prepares students for transfer to the University of California, California State University, and most private art colleges in the nation.

Career Opportunities

Students completing the Art/Digital Media Certificate Program can seek employment in graphic design, web design, advertising, illustration, 3D animation, motion graphics animation, fine art, photography editing, film and video, special effects, industrial design, exhibition and trade show design, etc.

Careers

Graphic designer, Web designer, Illustrator, Animator, Artist
Film/video editor, Special effects, Industrial designer
Exhibit/trade show designer

Degree/Certificates Available

- Associate in Arts Degree Computer Graphics for Print Media Emphasis
- Associate in Arts Degree Design for Multimedia Emphasis
- Associate in Arts Degree Web Design Emphasis
- Computer Graphics Design for Print Media Certificate
- Design for Multimedia Certificate
- Web Design Certificate

HIGHLIGHTS

- Fundamental and advanced courses lead to a certificate or transfer to four-year programs
- Professional and fundamental training in Design for Print, Motion Graphics, Editing, Animation and Interactive Multimedia
- State-of-the-Art Digital Media Classrooms
- Courses taught by distinguished professionals from the Fine Art, Multimedia and Entertainment Industries
- Update your skills with today’s Digital Media Technology
Broadcasting and Cinema

Program Description

The Broadcasting and Cinema Certificate program is designed to provide students with transferable academic credits in cinema studies, motion picture production, television, radio broadcasting, and screenwriting. It also prepares students to obtain excellent jobs in the media and entertainment industries. The curriculum includes the critical and historical studies of American and World Cinemas, live radio and television studio production, an overview of the broadcasting industry, and internship opportunities for students entering jobs or universities in fields related in media production, radio, television, cable, and motion pictures.

Degree/Certificates Available

- A. S. Degree in Broadcasting and Cinema
- Motion Picture Production Certificate
- On-Air Radio Production Certificate
- Post Production Editing Certificate
- Screenwriting Certificate
- Television and Video Production Certificate

Careers

Cinematographer  Editor
Television production  News Reporter
Cinema production  Screenwriter
Radio production
Screenwriter

Career Opportunities

Students completing the broadcasting and cinema certificate program are prepared for entry-level work in the radio, television, feature movies, media and entertainment industries. Job opportunities include: commercial, cable, independent, industrial, governmental, medical, and religious television production, management and operations and Internet audio and video streaming.

Students have also been placed in jobs for digital editing, as well as script analysis and screenwriting for broadcasting and cinema. Many Chaffey College graduates have gone on to become radio personalities, broadcast technicians, movie producers, television and film actors, screenwriters, cable television producers and managers, and some have formed their own independent production companies.

Graduates from the Broadcast and Cinema degree program have successfully transferred to USC and UCLA film schools and other colleges and universities, including Loyola Marymount University, CSU Northridge, CSU Fullerton, CSU Long Beach, CSU Los Angeles, and Chapman University.

HIGHLIGHTS

The program places an emphasis on hands-on use of current technologies in high definition video equipment, multi-track digital audio workstations, video editing, screenwriting software tools and access to professional internships. Chaffey’s unique program houses a professional HD television studio and state-of-the-art equipment for motion pictures, television, on-air AM radio station and audio production facilities. The college has recently invested significant resources in the electronic media arena with audio and postproduction labs and lighting equipment; including 4K HD Video and Pro 8mm motion picture production cameras, multi-camera HD TV production facility and live on-air radio broadcast station 1630 AM with radio Internet streaming.
Fashion Design/Merchandising

Program Description

The Fashion Design Program prepares the student for employment in fashion design, product development and manufacturing. The two-year curriculum may be completed by taking a combination of day, afternoon and evening courses. Specific courses for the certificate cover apparel construction, patternmaking, fashion illustration, apparel production, CAD design and patternmaking, draping, textiles and industrial sewing.

The Fashion Merchandising Program prepares the student for the planning, organization, and development of fashion products. Apparel manufacturing and retail sales constitute one of the largest business sources in Southern California. The two-year curriculum may be completed by taking a combination of day, afternoon, and evening courses. Specific training in for this field covers fashion trends, consumer demand, and wholesale concepts. Courses include merchandising, management, visual display, history of fashion, textiles, personal style and business classes.

Career Opportunities

Fashion Merchandising is an interdisciplinary program one shared with the business department and prepares the student for employment in buying, visual merchandising, product development, e-commerce, and retail management.

Degree/Certificates Available

- Associate in Science Degree in Fashion Design
- Fashion Design Certificate
- Industrial Sewing Certificate
- Custom Dressmaking Certificate
- Patternmaking Certificate
- Associate in Science Degree in Fashion Merchandising
- Fashion Merchandising Certificate

Careers

Fashion designer  
Sample maker  
Custom dressmaker  
Patternmaker  
Production assistant  
Designer assistant  
Technical design  
Quality control supervisor  
Fashion merchandiser  
Retail buyer  
Retail management  
Display and exhibit designer  
Special events and promotions  
Image/fashion consultant

HIGHLIGHTS

The above programs offer the largest industry based program in the Inland Empire. All the program faculty come from the apparel and design industries of Southern California. Our program is unique because it requires students to complete a 60-hour internship which provides on-the-job training and opportunities for employment upon graduation. The program is housed in a state-of-the-art facility on the Chaffey College Chino Campus.
Program Description
The Interior Design degree and certificate curriculum focuses on a broad-based approach to the interior design profession which prepares students for entry-level positions in design firms, as entrepreneurs, business owners or for transfer to four-year institutions. Courses include design principles and creativity, the historical development of furnishings and interior spaces, textiles, color theory, space planning, principles of lighting, computer-aided design and drafting, as well as industry internships and advanced studio design involving collaborative design projects.

Career Opportunities
Job opportunities for the Interior Design degree and certificate programs include entry-level positions in residential and commercial design firms, kitchen and bath specialty firms, retail firms specializing in DIY projects and planning, owner-operated businesses, and hotel, health care and hospitality fields needing the skills of a professional interior designer.

Careers
Interior Designer
Kitchen/Bath designer

Degree/Certificates Available
• Associate in Science Degree Interior Design
• Interior Design Certificate

HIGHLIGHTS
The Interior Design Program at Chaffey provides a very broad based background so that our future interior designers are well prepared in all important aspects of the profession: creative, technical, historical, and business.
Journalism

Program Description
The Journalism Program prepares students for transfer to a degree program in journalism or mass communications and for a career in mass media, writing, photography, publishing, or public relations. The journalism department offers classes in basic newswriting, multimedia newswriting, and newspaper production (print and web based). These courses also introduce other forms of media writing and production, such as video presentations of news and feature stories, magazine writing, and broadcasting. The Breeze is the program’s independent, student-written and student-edited newspaper. The program is committed to the conviction that democracy depends on a free and independent press.

Career Opportunities
The Journalism Program provides training for students to pursue careers as reporters, writers, photographers, and editors in newspapers, magazines, radio, and television. Other related careers and fields include graphic design, blogging, web design, social media, public relations, and advertising. Journalism students develop the critical thinking, research, and writing skills required in today’s multimedia environment.

Certificate Available
- Associate in Science Degree for Transfer Journalism
- Journalism Certificate

Careers
reporter
writer
photographer
editor
copy editor
public relations
social media specialist
advertising copywriter

HIGHLIGHTS
The Journalism Program provides an excellent opportunity for hands-on preparation of print and digital publications which may lead to future job opportunities or bylines in the field. Students gain practical experience in interviewing, writing, editing, rewriting, photography, layout, web design, and social media.
Program Description

The Commercial Music Associate Degree is designed to give students a pre-professional background in commercial music concepts and practices. Areas of study include music theory, songwriting, recording, electronic music, and music business.

The Music Associate for Transfer Degree prepares students for bachelor’s degree programs and careers in music performance, music education, and broader arts-related fields. Their pre-professional curriculum includes music theory; instrumental, voice, or composition lessons with a private teacher; and performance in Chaffey musical ensembles.

Career Opportunities

Studio musician (vocal and instrumental), concert musician (vocal and instrumental), music educator, studio instructor, conductor, composer, songwriter, arranger, copyist, arts manager, music librarian, music theorist, musicologist, ethnomusicologist, music critic, music journalist.

Careers

Music producer
songwriter
sound designer
sound engineer
recording artist
commercial composer

Degrees Available

• Associate in Arts Transfer Degree Music
• Associate in Science Degree Commercial Music

HIGHLIGHTS

Our outstanding music faculty—all of whom are both distinguished teachers and working music professionals—advise, empower, and support their students, both at Chaffey and as they move on to further professional and educational pursuits.
Photography

Program Description

The Photography Program offers both a vocational certificate and an Associate in Arts degree. Through the certificate program, students develop a strong technical background in photography which includes studio lighting, black and white photography, color photography, history of photography, and other specialty areas such as photography for media, public relations, and wedding photography. This diverse background prepares students for job placement in the field. A component of the program is focused on training in digital imaging using state-of-the-art digital cameras, computers and printers. The combination of curriculum and technology places students in the forefront of the field of photography field.

Career Opportunities

Students completing the photography degree and certificate programs can seek employment as a commercial photographer, studio photographer, digital imaging, photojournalism, freelance photographer, digital technician, wedding, portrait, photo lab technician, fine art, photo editor, advertising, public relations, retail specialist.

Degree/Certificates Available

- Associate in Arts Degree Photography
- Still Photography Certificate

Careers

Commercial photographer
Studio photographer
Photojournalist
Digital imaging technician
Wedding photographer
Photo lab technician
Photo editor
Advertising

HIGHLIGHTS

The Chaffey College Photography Program integrates highly focused technical skills with artistic practice and conceptual rigor. The program gives students access to an outstanding array of photographic processes and equipment which include high-end digital cameras and professional lighting equipment. Also unique to the Chaffey College Photography Department is the student invitational. Through this program, students have the opportunity to apply to an honors class in which they create and exhibit a body of work in the campus museum. Many students are encouraged to explore a cross-discipline approach with digital media and the art areas. Each year many four-year colleges come to Chaffey to recruit transfer students because they know that our students enter with a solid theoretical and technical background.
Careers in Criminal Justice and Fire Technology
Administration of Justice

Program Description
The Administration of Justice Program is designed to prepare students for a career in law enforcement. Courses are designed to acquaint students with the American justice system, crime causes, the role of law enforcement, roles of administration of justice practitioners, evidence procedures, juvenile procedures, and misdemeanor and felony violations of criminal law.

Career Opportunities
Individuals who complete the Administration of Justice program may find employment as police or sheriff officers. Professionals in the field may receive pay increases or promotion upon completion of a degree program.

Careers
Police
Sheriff’s deputy
Dispatcher
Sargent
Security guard
Correctional offices
Probation officer

Degree/Certificates Available
- Associate in Science Degree for Transfer in Administration of Justice
- Administration of Justice Certificate

HIGHLIGHTS
Prepares students for careers in law enforcement, security and court operations. Provides existing law enforcement personnel with educational accelerating higher P.O.S.T. certification.
Program Description

The Correctional Science Program is designed to provide a solid foundation for students preparing for a career in the field of corrections. Courses are designed to acquaint students with the various roles and responsibilities of professionals working within the diverse career paths of probation, parole, custody facilities, and other community-based correctional programs. Students will attain levels of competency in crime causation, delinquency prevention, correctional law, juvenile and adult procedures, counseling, emerging trends related to supervision, as well as an advanced awareness of the American Criminal Justice System.

Career Opportunities

Students who complete the Correctional Science Program may find employment as county custody assistants, police officers, deputy sheriffs, county/state/federal correctional officers, correctional counselors, county probation officers, juvenile corrections officers, and other allied community based non-peace officer careers. Students who complete the Correctional Science Program will also find that eight of our courses are articulated with the CSU system and meet many of the private and UC lower division requirements towards their Bachelors Degree in Criminology, Criminal Justice and related fields of study. Graduates of this program assimilate extremely well into the rigors of the university programs.

Degree/Certificates Available

- Associate in Science Degree Correctional Science
- Correctional Science Certificate

Careers

Police Officers
Deputy Sheriff
Correctional Officer
Probation Officer
Juvenile Corrections
Custody Assistant

HIGHLIGHTS

The Chaffey College Correctional Science Program is the region’s premiere professional preparation program for this area of study. Our faculty, who work in a broad cross section within the profession, bring extensive and incredible depth of knowledge and experience to the classroom. Preparing tomorrow’s workforce today, assisting the working professional prepare for career advancement, and ensuring our graduates transferability to universities across the country is our primary goal.
Fire Technology

Program Description

The Fire Technology degree and certificate programs are designed to:

• prepare interested students for careers in public or private fire service
• provide existing fire service personnel with continuing in-service training in skills applicable to their present position
• provide existing fire service personnel with upgraded skills needed to avail themselves of promotional opportunities
• prepare college transfer students pursuing a higher education degree in Fire Protection Administration and Technology

Career Opportunities

Students who begin a career in Fire Technology may find job opportunities as a Firefighter, Fire Safety Technician, and Safety Inspector. With additional training, students can become a Paramedic or Emergency Medical Technician. Employers include local, county, state, federal, and private fire agencies.

Careers

Firefighter
Fire safety technician
Safety inspector
Paramedic
Emergency Medical Technician (EMT)

Degree/Certificates Available

• Associate in Science Degree Fire Technology
• Professional Firefighter Certificate

HIGHLIGHTS

Courses are taught by firefighters who have extensive experience and practical knowledge to share with students.
Culinary Arts

Program Description
The Culinary Arts certificate program is designed for individuals seeking skills for employment in the culinary industry, and those who are presently employed but seeking to update their culinary skills for career advancement.

Career Opportunities
Job opportunities are excellent for students who receive the Culinary Arts Certificate. Graduates of this program are prepared for both entry-level and advanced level positions within the food and beverage industry. The certificate emphasizes food preparation, production, baking and pastry techniques, catering techniques, proper equipment training, and the use of sanitation standards applicable to the food service industry. Job opportunities include positions in resorts, hotels, caterers, restaurants, cruise-lines, hospitals & retirement communities and with contract food service companies.

Careers
Chef
Kitchen Manager
Sous chef
Private/personal chef
Food production manager
Pastry chef
Baker
Caterer
Banquet chef

Degree/Certificates Available
• Culinary Arts Certificate

HIGHLIGHTS
Chaffey College takes pride in our hands on skill development and work experience, which prepares students to work within the food industry. Students combine theory with practical experience and internships creating the foundations of a successful career in a rapidly growing and exciting industry.
Program Description
The Hotel Management Program is designed for people interested in career advancement and employment within the hospitality industry. The program combines theory and practical application of skills and abilities to meet the needs of the industry.

Career Opportunities
Job opportunities are excellent for students who receive the Associate in Science degree or certificate in this program. Graduates of this program will be prepared to work in entry-level management positions of the hospitality industry. Areas of employment include restaurants, hotels, institutions, catering, bed and breakfast operations, and owner-operated businesses.

Careers
Restaurant Manager/Trainee
Banquet Manager
Dining Room Supervisor
Food and Beverage Manager
Kitchen Manager
Catering Manager
Cruise line Dining Room Supervisor
Purchasing and Inventory Manager
Food and Beverage Controller

HIGHLIGHTS
The Hospitality program offers a well-rounded education of industry standards and practices. The program offers evening and afternoon classes suitable to students who are currently working within the industry and those seeking to enter the industry. The Chaffey college hospitality program is unique. Our curriculum balances both theory and practical learning by combining culinary arts classes in our state of the art kitchen, and our established internship program with industry leaders.

Degree/Certificates Available
- Associate in Science Degree Food Service
- Food Service Management Certificate
- Associate in Science Degree Hotel Management
- Hotel Management Certificate
Nutrition and Food

Program Description

The Dietetic Service Supervisor (DSS) Program and certificate is approved by the California State Department of Public Health. The Nutrition and Food major is designed for students training in the field of health and wellness based on nutrition and fitness as a lifestyle. The Dietetic Service Supervisor certificate is approved by the California State Department of Public Health.

Career Opportunities

The Associate in Science degree in Nutrition & Food is an excellent pathway to advanced degrees in Nutrition and Dietetics at the university level for those students wishing to continue their education and career goals to becoming a Registered Dietitian. It may also qualify students for entry-level positions as dietary aides/clerks in health care facilities, community centers, and school districts.

The Nutrition and Food certificate qualifies students for entry-level positions in health spas, retirement and convalescent homes, counseling centers, and youth daycare/camps.

Degree/Certificates Available

- Associate in Science Degree Nutrition & Food
- Nutrition & Food Certificate
- Dietetic Service Supervisor Certificate

HIGHLIGHTS

Our faculty are industry leaders in management, health care and culinary arts who bring excellent experience to the classroom. Students enrolled in the program also have the opportunity to learn from major employers in the area.

Careers

Dietetic service supervisor (DSS)
Dietary clerks/aids

The Dietetic Service Supervisor certificate prepares students for entry-level management in a food service department in health care, community care, or school food service organizations, including entry levels of supervision. The program fulfills the federal and state training regulations for positions in the general acute-care hospitals, acute psychiatric hospitals, skilled nursing facilities, and intermediate-care facilities.
Child Development

Program Description
The Child Development Program provides students with competencies needed for employment in public and private child development programs. Courses are designed to acquaint students with basic issues in child development, curriculum design, parenting, and the impact of family, community, and school on the growing child. Courses are useful for parents or any adults interested in children’s issues.

Career Opportunities
Early childhood educators; professional nannies; parent educators; advisors to business, medical, recreational organizations; entrepreneurs; policy makers. Careers abound for students well-versed in child development theory and practice.

Careers
Early childhood educator
Professional nanny
Parent educator

Degree/Certificates Available
- Associate in Science Degree Child Development
- Associate in Science Degree for Transfer
  Early Childhood Education Certificate

HIGHLIGHTS
The Child Development Program is both an academic as well as a vocational program.

The program prepares students for the joy and challenges of working with young children in preparation for careers in daycare and preschool settings.
Program Description

The Education Paraprofessional Program offers a Certificate and an Associate in Science degree. The program prepares students to work as an instructional aide in a K-12 classroom and serves as a stepping stone to prepare for transfer to a teacher education program. The certificate plus the passing of an Instructional Aide assessment test qualifies students to work as an assistant in a classroom while continuing on with their education. It is possible for a full-time student to complete Level I Certificate requirements in just one semester. The program provides a strong foundation in education theory and practice and introduces students to careers in education, classroom management and teaching strategies.

Students build their skills through implementing teaching techniques, and developing lesson plans based on the California Standards for the Teaching Profession and Teacher Performance Expectations. In addition, students complete 30-45 hours of hands-on fieldwork experience with a carefully selected mentor teacher in a K-12 classroom. Fieldwork placements connect students to local schools and may lead to future employment. These classroom hours may also be used to fulfill prerequisite requirements for teacher credentialing. An essential component of the program is the requirement for students to develop a professional teaching portfolio.

These portfolios help to make our students highly competitive for employment. The Education Paraprofessional program is a dynamic introduction to teacher education that emphasizes structured professional development so that students can work in a school setting as they continue on with their education.

Career Opportunities

Working with children in educational settings as an Instructional Aide, a Tutor, or an After School Program Leader.

Certificates Available

• Education Paraprofessional Level I Certificate

Careers

Instructional aide
Tutor
Afterschool program leader

HIGHLIGHTS

• Prepare for employment as a highly qualified instructional aide
• Develop a professional teaching portfolio
• Learn effective teaching strategies and lesson planning
• Implement knowledge of California’s content and performance standards
• Gain hands-on classroom experience with a mentor teacher
• Prepare for transfer to a teacher education program
Kinesiology

Program Description
Kinesiology/Athletics is an integral component of the general education and vocational education programs at Chaffey College. Kinesiology/Athletics is essential to develop an individual’s physiological and social well being. The Coaching Certificate program provides students with information on training, first aid, officiating and curriculum development. Students have the opportunity to pursue hands-on experience working with athletes competing on Chaffey’s 14 intercollegiate athletic teams.

Career Opportunities
The Coaching Certificate prepares students for employment as head coaches and is also for those individuals interested in pursuing coaching as a career.

Careers
Coach
Assistant coach

Certificate Available
- Associate in Arts Degree for Transfer Kinesiology
- Associate in Arts Degree for Physical Education
- Coaching Certificate
- Athletic Training Certificate

HIGHLIGHTS
The School of Kinesiology, Nutrition, and Athletics offers a wide variety of lecture, activity and team courses designed to meet the needs of all students regardless of their abilities.
Automotive Technology

Program Description
The Automotive Technology Program at Chaffey College is designed to provide students with the skills and knowledge needed to succeed as technicians in the automotive service industry. Chaffey College’s Automotive Technology courses are taught to exceed the standards set by the National Automotive Technician Education Foundation (NATEF). Students who successfully complete the requirements for the Associate of Science degree or the General Automotive Technology Certificate will be qualified to take the Automotive Service Excellence (ASE) examinations required for certification as an Automotive Master Technician and will receive credit for one year of related work experience towards the two years required for certification.

Career Opportunities
The Automotive Technology Program at Chaffey College allows students to develop the skills necessary to be a “bumper-to-bumper” technician or to concentrate in one or more specialty areas such as electrical systems or engine performance. Former Chaffey automotive students are employed by automotive manufacturers, new car dealers, independent repair shops and other automotive related industries and enterprises. Many former students own their own businesses. The demand for automotive technicians is strong and will grow stronger in the future. Qualified technicians can find good paying jobs in any economy.

Degree/Certificates Available
- Associate in Science Degree Master Automotive Technician
- Associate in Science Degree General Automotive Service Technician
- Master Automotive Technician Certificate
- Automotive Electrical Systems Certificate
- Engine Performance (Smog Check) Technician Certificate
- Engine Rebuilding Certificate
- General Automotive Service Technician Certificate
- High Performance Engines Building and Blueprinting Certificate

Careers
Automotive technician
Smog check technician
High performance engine specialist
Automotive machinist

HIGHLIGHTS
The Chaffey College Automotive Technology Program incorporates the standards set by the National Technician Education Foundation (NATEF) and offers the training required for ASE certifications, including certification as an ASE Master Technician.

The Chaffey College Automotive Technology Program provides instruction on equipment that incorporates the latest in teaching technology including electronic vehicle system simulators, state of the art wheel alignment equipment and the most current engine machining and rebuilding equipment.
Airframe • Powerplant

Program Description

The Aviation Maintenance Technology program is designed to prepare students to become certified airframe and powerplant technicians. Certified technicians command a wide choice of employment opportunities in commercial and general aviation. Both the “A” and “P” sections at Chaffey College are courses approved by the FAA which are continually updated to meet industry standards. To fulfill the 1,900-hour FAA experience requirements in two years, it is recommended that students enroll full-time for a minimum of four semesters.

Career Opportunities

The need for FAA certified maintenance technicians in commercial aviation is projected to grow in the future as many of the technicians currently employed by the airlines are nearing retirement age. Starting pay is approximately $40,000 and quickly moves up to $60,000–$80,000 with travel and other excellent benefits. Graduates also find employment in general aviation, avionics, and other maintenance related fields.

Careers

Airframe technician
Powerplant technician
Maintenance technician

Degree/Certificates Available

- Associate in Science Degree Aviation Maintenance Technology: Airframe
- Associate in Science Degree Aviation Maintenance Technology: Powerplant
- Aviation Maintenance Technology: Airframe Certificate
- Aviation Maintenance Technology: Powerplant Certificate
- Aviation Maintenance Technology: Aviation Maintenance Certificate

HIGHLIGHTS

The Chaffey College Aviation Maintenance Technology Program has a 100% pass rate in both the Airframe and Powerplant Certification areas.
Drafting Technician

Architectural • Mechanical

Program Description
The Drafting Program provides students with the skills, knowledge, and background to succeed in many areas of engineering, architecture, and interior design. Students usually choose to study one of two programs:

Architectural Career Opportunities
Upon completion of the program, students find work with architects, structural engineers, mechanical engineers, and related industries as architectural aides or technicians.

Careers
Architectural drafter
Architectural assistant
Structural engineering drafting
Industrial drafter
Engineering assistant

Degree/Certificates Available
- Associate in Science Degree Drafting Technician: Architectural
- Drafting Technician: Architectural Certificate

Mechanical Career Opportunities
There are many companies in the Inland Empire that hire drafting professionals. With the inclusion of cooperative education, students qualify for work as engineering aides or drafting technicians in one of the many engineering or industrial firms in this area.

Careers
Industrial drafter
Mechanical engineer
Engineering assistant

Degree/Certificates Available
- Associate in Science Degree Drafting Technician: Mechanical
- Drafting Technician: Mechanical Certificate
- CAD/CAM Operator

HIGHLIGHTS
The Chaffey College Drafting Technician Program uses state-of-the-art computer systems. The CAD courses offer the latest version of AutoCAD to assist in the Drafting Program.
Program Description

Industrial Electrical Technology is a lecture/lab program that provides a broad working base for handling the many facets of industrial electricity as it relates to light and heavy industry, construction, and utility companies which provide electrical power. The program meets the needs of those entering the trade for the first time, and allows those already in the trade the ability to improve their understanding of the craft. The curriculum covers electricity, micro-processing, and automation, including modern sophisticated concepts and practical applications including the latest PLCs.

Career Opportunities

The Industrial Electrical Technology specialization prepares the student for entry-level employment as a maintenance electrician helper, electric forklift maintenance technician, and construction electrician or as a PLC programmer and troubleshooter. Technicians already employed in the industry can use coursework to upgrade from “B” to “A” technicians. The Instrumentation Technology (IT) specialization qualifies the student for an entry level position in instrumentation technology. Advanced coursework qualifies the student to calibrate, troubleshoot, and repair instruments ranging from pneumatic booster relays to microprocessor based automatic controllers.

The Electromechanical Technology (ET) specialization qualifies the student for an entry-level position or to advance to technician-level work in installing, programming, and repairing robots and related equipment such as programmable controllers, robot controllers, end-of-arm tools, conveyors, and parts reenters, applying knowledge of electrical circuits, mechanics, pneumatics, hydraulics and programming, using power tools, hand tools, and testing instruments, and following manuals, schematic diagrams, and blueprints.

Degree/Certificates Available

- Associate in Science Degree Industrial Electrical Technology
- Electromechanical Technology Level I Certificate
- Industrial Electrical Technology Level I Certificate
- Industrial Electrical Technology Level II Certificate
- Industrial Electrical Technology Level III Certificate

Careers

Maintenance electrician assistant
Electric forklift maintenance technician
Construction electrician
Robot installation & maintenance

HIGHLIGHTS

The field of electricity is fast growing. New technologies have created a demand for trained electrical technicians. Chaffey College’s Industrial Electrical Technology Program combines theory and application with practical skills to prepare students for employment. The program utilizes a computer-based modular training system. It also incorporates built-in circuit modification and fault-insertion training capabilities.
CAREERS IN HEALTH SCIENCES

The school of Health Science provides exceptional curriculum and training necessary to become skilled, caring health care professionals. The Chaffey College nursing program has been training students since the 1950’s. The college’s Health Sciences programs have a reputation for graduation superior health care professionals.

A benefit to the programs is that the Chaffey College faculty are licensed nurses, dental assistants, radiologic technologists or pharmacy technicians.

Chaffey offers degree and certificate programs in

- DENTAL ASSISTING
- GERONTOLOGY
- NURSING
  - NA/HHA (CNA)
  - VN (LVN)
  - ADN (RN)
- PHARMACY TECHNICIAN
- RADIOLOGIC TECHNOLOGY

Health Sciences programs are located on:
Rancho Cucamonga Campus
Chino Health Science Center
Rancho San Antonio Medical Center
Dental Assisting

Program Description
Accredited by the Commission on Accreditation of Dental Schools and Dental Auxiliary Educational Programs, this is a one-year program which begins in the fall semester of each academic year. Included is clinical experience in a community dental office. Although technical skill is the main thrust of the program, students also study oral anatomy and microbiology. The program is a partner with Loma Linda University Medical Center.

Career Opportunities
Upon completing the Dental Assisting Program, graduates are eligible for employment in dental offices, clinics, and hospitals. They may also serve as supervising dental assistants in dental colleges, as administrative assistants, and as instructors in college dental assisting programs once they have completed their Associate in Science degree and any additional education and experience required by the position.

Careers
Registered Dental Assistant
Registered Dental Hygienist

Specialties
Oral Surgery, Orthodontics, Expanded Functions, Dental Practice Management Administrator, Registered Dental Hygienist, Dentist

Degree/Certificates Available
- Associate in Science Degree Dental Assisting
- Dental Assisting Certificate

Students who complete this program will earn the California radiation safety certificate awarded by Chaffey College. A coronal polish certificate, a sealant certificate and an ultrasonic scaler certificate may also be awarded after completion of these courses and passing the registered dental assistant examination of the State of California.

HIGHLIGHTS
The Dental Assisting Program is accredited by the Commission on Dental Accreditation through the American Dental Association and California State Board of Dental Examiners. Graduates of the program are eligible to take the Registered Dental Assisting examination (state exam) and the Certified Dental Assisting examination (national exam that allows the graduate to practice in all 50 states.)
Program Description

The older adult population is increasing with the 85 and older growing more than any other age group in the United States. This trend will continue as the “Baby Boomers begin to turn age 65 in 2011. Gerontology, the study of aging, prepares students for careers working directly or indirectly with older adults and their families. This is an interdisciplinary field: psychological, sociological, biological, and environmental aspects of aging are explored, as well as public policy and social ethics. The program prepares students to enter the workforce or to continue their education in gerontology. Family caregivers and older adults also find the courses helpful.

Many courses offer continuing education units (CEUs) for Nurses, Social Workers, and administrators of care facilities (RCFEs). Two short term intensive training certificate courses are offered for Social Work Designees and Activity Coordinators.

Career Opportunities

Employment opportunities can be found in residential communities, skilled nursing facilities, dementia care facilities, adult day care agencies, recreation, nutrition, counseling and referral, social work, and other direct care professions. New career areas that specialize in working with older adults and their families are developing in established professions such as elder law, architecture, interior design, fashion design, technology design, and marketing.

Degree/Certificates Available

- Associate in Science Degree Gerontology
- Gerontology Certificate
- Community Caregiver Certificate

Community Caregiver Program Description

The Community Caregiver program prepares the student for employment in a variety of settings, providing direct care to persons with dementia or other individuals who need non-medical, personal care, assistance, and companionship.

HIGHLIGHTS

Chaffey College is one of the only community colleges in this region offering an Associate in Science degree or Certificate in Gerontology. Courses are offered days, evenings, weekends, and online to accommodate the schedules of both working adults and family caregivers.
Nursing/Associate Degree (ADN)

Program Description
This program leads to an associate degree. The scope of practice of the ADN graduate centers on direct client care and encompasses the nurse as a care provider, client teacher, communicator, manager of care, and member within the registered nurse profession. Nursing is viewed as the establishment of a therapeutic, interpersonal process which assists individuals, families, and communities to prevent and/or cope with threats to basic needs in health or illness.

The graduate is eligible to apply to take the national council licensing exam (NCLEX) for licensure as a registered nurse in the state of California.

Career Opportunities
Students completing this program have the ability to become employed as a registered nurse (RN), flight nurse or a nurse in specialties including: pediatrics, intensive care, obstetrics and neurology. They also have the opportunity to work in a medical facility or doctor’s office.

HIGHLIGHTS
Our Associate Degree in Nursing Program is well respected throughout the Inland Empire. All faculty are master prepared and are clinical nurse specialists in their area of concentration.

Careers
- Registered nurse
- Flight nurse
- Acute caregiver
- Home health care
- Emergency care
- Vocational nurse

Degree Available
- Associate in Science Degree Nursing (ADN)
- Associate in Science Degree Nursing VN to RN
**Program Description**

The Vocational Nursing (VN) Program is accredited by the State of California Board of Vocational Nurse and Psychiatric Technician Examiners. Upon completion of the program, students are eligible to apply to take the Board of Vocational Nurse and Psychiatric Technician licensing examination to practice as a Vocational Nurse. The VN Program is an 18 month program consisting of lecture and laboratory instruction in actual nursing situations. Students entering the VN Program must be a certified nursing assistant and meet the required pre-requisites.

**Career Opportunities**

The vocational nurse is a care giver in acute and extended care facilities. In addition, VNs are employed in home health care, emergency clinics, and as reviewers of health care utilization.

**Careers**

- Vocational nurse
- Acute care technician
- Extended care nurse
- Home health care
- Health care reviewer

**Degree/Certificates Available**

- Associate in Science Degree Vocational Nursing (VN)
- Acute Care Technician Certificate
- Vocational Nursing Certificate

**HIGHLIGHTS**

The Chaffey College VN Program provides quality education in the field of nursing. We have an excellent reputation in the health care facilities.
Nursing

Nursing Assistant (NA) Home Health Aide

Program Description
The Nursing Assistant Program offers opportunities for entry-level employment in health care facilities. Preparation in the fundamental principles of basic nursing care necessary to meet the hygiene, comfort, safety and psychosocial needs of clients is highlighted. Students develop skills in communication and interpersonal relations. The program follows the guidelines established by the California Department of Public Health. After completion of the Nursing Assistant (NA) program, the student may apply to become a Certified Nursing Assistant through the California Department of Public Health.

The Home Health Aide Program follows the model curriculum as developed by the California Department of Public Health. It introduces students to the role of a home health aide and employers expectations. It also assists with the interpretation of the medical and social needs of patients, personal and in-home care and service skills, nutrition, and food preparation for the client, and cleaning and care tasks in the home.

Career Opportunities
Home Health Aides are employed by home care agencies. There is projected growth with both CNA and Home Health Aide jobs.

Careers
Nursing assistant
Home health care

Certificates Available
• Home Health Aide Certificate
• Nursing Assistant Certificate

HIGHLIGHTS
The Nursing Assistant Program has a consistently high pass rate through an approved State testing agency and may apply for certification through the California Department of Public Health. Students completing the Nursing Assistant Program have the ability to enter the field of nursing while taking general education courses for advancement in nursing.
Program Description

The Pharmacy Technician Program offers the training required to apply for State of California licensure as a pharmacy technician and can also lead to an Associate Degree in Pharmacy Technology. This program prepares students for entry into one of the fastest growing health care careers. Through this program students have the opportunity to develop strong technical skills in the hospital, community, and ambulatory settings. The technical training is focused on sterile technique, pharmaceutical calculations, accuracy, and communication skills. This training allows technicians to function in all aspects of pharmacy service. The Pharmacy Technician Program follows guidelines established by the American Society of Health-System Pharmacists, and provides the training needed to take the Pharmacy Technician Certification Board’s national exam.

Career Opportunities

Students who complete the Pharmacy Technician Program are able to obtain employment as pharmacy technicians and affiliated positions. Good job opportunities are expected for full-time and part-time work, especially for technicians with formal training.

Degree/Certificates Available

- Associate in Science Degree Pharmacy Technician
- Pharmacy Technician Certificate

HIGHLIGHTS

Students who complete the program gain a valuable education that prepares them to take the Pharmacy Technician Certification Board’s national exam. The Pharmacy Technician Program is affiliated with renowned regional medical centers and community pharmacies. Students learn current pharmaceutical practices in a high-tech pharmacy laboratory.

Students in the Pharmacy Technician program proceed through the program as a cohort group. This structured curriculum allows students to complete the program in three semesters including externship. Completion of the program affords students the opportunity to register with the California Board of Pharmacy and to take the national Pharmacy Technician Certificate Exam.
Radiologic Technology

Program Description

The Radiologic Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the State of California. Students may receive an associate in science degree upon completion of the program. Graduates are eligible to apply for admission to the certification examination administered by the American Registry of Radiologic Technologists (ARRT) and the State of California (CRT) fluoroscopy examination. There are fees for obtaining licensure by examination. The program articulates with the California State University, Northridge and Loma Linda University Radiologic Technology Programs for the bachelor’s degree.

The program accepts a limited number of students each year during the month of February. Prospective students are encouraged to see a counselor early to determine eligibility.

Career Opportunities

The Chaffey College Radiologic Technology Program prepares students for employment as a Radiologic Technologist.

Careers

Radiologic technologist

Degree Available

Students must earn an Associate in Science degree to be eligible to apply for the national certification exam.

- Associate in Science Degree Radiologic Technology

HIGHLIGHTS

The Radiologic Technology Program provides quality education in the field of Radiology. We have an excellent reputation in the health care facilities.

The Radiologic Technology Program routinely has a 100% pass rate.
