DENTAL CAREER LADDER

The career ladder for the dental profession begins here at Chaffey College.

- Dental Assistant
- Registered Dental Assistant
- Registered Dental Hygienist
- Dentist

The Registered Dental Assisting (RDA) program complements and assists students in achieving additional degrees by showing that you have the commitment to the profession. Many students are employed as RDAs while they are taking the prerequisites for degrees in hygiene or dentistry.

See a counselor for more information or attend one of the information sessions for the RDA program. For times and dates of information sessions, please call (909) 652-6067.

ASSOCIATE DEGREE IN NURSING

Registered Nurses (RNs) provide direct patient care which includes:

- Formulating nursing care plans which ensures that nursing care provides for client safety, comfort, hygiene, and for disease prevention and treatment measures.
- Delegating tasks for care of the client based on the legal scope of practice of the LVN, and CNA.

- Instructing patients and their families in proper care.
- Serving as the client’s advocate.
- Evaluating the effectiveness of care given and modifying plans according to the needs of the client.

An RN working in San Bernardino County is expected to earn up to $32/hour to start.

There are several ways to become a Registered Nurse. The career ladder offers the individual with the opportunity to gain experience and to work while pursuing a degree.

- An LVN may work in the field and continue with educational opportunities at Chaffey College by completing ADNS and then the last 2 semesters of the nursing program and general education course for an Associate Degree in Nursing (ADN).
- A CNA may enter the ADN program directly by completing the required prerequisites for enrollment.
- A student without any previous nursing experience may enter the program upon completion of program prerequisites.

RADIOLOGIC TECHNOLOGY

The Radiologic Technology Program is a respect-
ably well-known program that is for two years in length (including both summers). It is accredited by the Joint Review Commission on Education in Radiologic Technology and by the State of California. This full-time course of study provides lecture classes with concurrent hands-on training in hos-
pitals.

Students must earn an Associate degree (with the major in radiography) in order to graduate from the program to become board eligible. Graduates are eligible to take the National Registry Examination for Technologists (ARRT) and the State Radiation Safety Examination. Graduates are required to take an examination with salaries ranging from $25 to $30 per hour depending on location and skill.

The program accepts a limited number of students each year during the month of February. Prospective students are encouraged to see a counselor early to determine eligibility. For more information, please visit www.chaffey.edu/radtec.

GERONTOLOGY

Gerontology courses prepare students for careers in gerontology and working with older people. This is an interdisciplinary field, incorporating research on aging in the areas of psychology, biology, sociology, as well as public policy and social services.

Course content for the VN program includes: anatomy & physiology, pharmacology, medical/surgical nursing, leadership/supervision, ethics, psychosocial development, nursing fundamentals, gerontology, patient education, rehabilitation nursing, pharmacology, communication, normal growth & development, nutrition, health assessment, legal aspects of nursing, psychological, communicable disease, pharmacology, patient education, rehabilitation nursing, pediatric nursing. An LVN working in San Bernardino County is expected to earn approximately $58 - $80 per hour.

A LVN working in San Bernardino County is expected to earn approximately $58 - $80 per hour.

To start the VN program you need to be a CPA, LN/BNV 401, Math 401, ESL 424 (Anatomy and Physiology), and be eligible to take the California Department of Health Services for the Home Health Aide Certificate. Visit www.chaffey.edu/healthscience for more information.

PHARMACY TECHNICIAN

The Pharmacy Technician Program offers the opportunity to learn about the growing health careers. This program offers either a certificate or Associate of Science Degree in Pharmacy Technology.

Students take courses which assist with the development of strong technical skills that are necessary in hospital, community, and ambulatory settings. The technical training is focused on IV addition preparation, data entry skills, pharmacy profile skills, medication dosage calcula-
tions, home health care and long term care order processing, community pharmacy operations, and patient services.

Because of the shortage of pharmacy technicians, there are great job opportu-
nities for the future. The salary range, depending on education, experience and type of facility, varies from $22,000 to $38,000 a year. For more information, please visit www.chaffey.edu/pharmacy.

CHAFFEY COLLEGE NURSING

• Nursing Assistant
• Home Health Aide (optional)
• Licensed Vocational Nurse
• Registered Nurse

CERTIFIED NURSING ASSISTANT/ HOME HEALTH AIDE

A Nursing Assistant (NA) assists nursing service personnel with a variety of patient care activities in order to provide safe and effective care. A Nursing Assistant working in San Bernardino County is expected to earn $11 - $13 per hour.

To start the NA program you need to be at least 18 years of age, complete an application for the California Department of Health Services which includes a criminal back-
ground screening. You do not need a high school diploma or GED.

Home Health Aides (HHA) provide personal care in the home environment. They help, coexisting, con-
centrate, or disabled people live in their own homes instead of in a healthcare facility. Under the direction of a registered nurse or medical staff, they provide health-related services, such as checking pulse, temperature, and other vital signs; basic hygiene, exercises, and simple prescribed exercises and help patients move from bed, bathe, dress, groom, and assist with eating meals and oral medications. (NA program is optional, not required. To see up the chart ladder is earning).

A HHA working in San Bernardino County is expected to earn $15 - $18 per hour.

To start the HHA program you need to be a Certified Nursing Assistant and apply to the California Department of Health Services for the Home Health Aide Certificate.

Chaffey College Nursing Visit www.chaffey.edu/healthscience for more information.

EDUCATIONAL OCCUPATION

Licensed Vocational Nurses (LVNs) provide basic bedside nursing care to clients under the direction of a physician or registered nurse. The LVN utilizes scientific and techni-
cal expertise and manual skills. Duties typic-
ally include, but are not limited to, provision of basic hygiene and nursing care, measurement of vital signs, basic client assessment; documentation, performance of prescribed medical treatment, administration of pre-
imedicated medications, and performance of non-medicated intravenous therapy (requires separate Board certification).

Course content for the VN program includes: anatomy & physiology, nursing process, nutrition, immunity, nursing chemistry, medical/surgical nursing, pharmacology, microbiology, psychology, communication, normal growth & development, nursing fundamentals, legal aspects of nurs-
ing, communicable disease, pharmacology, patient education, rehabilitation nursing, pediatric nursing. An LVN working in San Bernardino County is expected to earn approximately $58 - $80 per hour.

To start the VN program you need to be a CPA, LN/BNV 401, Math 401, ESL 424 (Anatomy and Physiology), and be eligible to quality for English 451. Visit www.chaffey.edu/healthscience for more information.

Pharmacists work with other health personnel with a variety of patient care activities in order to provide safe and effective care. A Pharmacy Assistant working in San Bernardino County is expected to earn approximately $100 - $125 per hour.
