Chaffey College

SCHEDULE OF CLASSES

Summer 2026
June 1 – July 24

Fall 2026
August 17 – December 18

Registration
Begins April 27

Enroll online at
www.chaffey.edu

PRESIDENT'S WELCOME

Welcome to Chaffey College!

Whether you are pursuing a degree, certificate or planning to transfer to a four-year university, Chaffey College is here to help you reach your goals. The summer and fall 2026 semesters will offer an abundance of in-person, hybrid and online courses, a wealth of student support services and opportunities to get involved on campus.

Our focus is on you and your success. With more than 200 degree or certificate programs, 14 athletic programs, and more than 40 clubs and organizations, there are countless ways for you to make the most of your Chaffey experience.

We continue to increase ways of making a college education more accessible to students, with about 60 percent of our courses offering Zero-Cost Textbook options. We have plenty of evening course offerings to accommodate our students who have daytime responsibilities. And students have access to a wealth of resources at our library, including free Wi-Fi hotspot and Chromebook rentals, and free printing, among other resources.

Whether you are a student taking classes in the daytime or evenings, there are plenty of things to experience on campus. Just stop by Student Life, and you can find students playing board games, singing karaoke or sharing some popcorn while watching a movie together. You can also witness some inspirational talks from our dedicated faculty, and catch a workshop on improving your public speaking, conflict resolution, building a resume and more.

The activity does not stop once the sun goes down. When our students are heading to class, they might find some of our outreach specialists serving complimentary pizza, cookies or chicken bites to make learning even more enjoyable.

We opened our new Library Learning Commons in spring 2026, providing you with access to 27 study rooms and 136 computer stations. This state-of-the-art facility is just one of numerous projects underway at our campuses, including the new MACC building, which is slated for completion in summer 2026. All of these projects are made possible thanks to taxpayer support through Measure P. It is an exciting time to be a Panther! Have an excellent semester!

Sincerely,

Henry D. Shannon, Ph.D.
Superintendent/President, Chaffey College

VISION STATEMENT

Chaffey College: Improving lives through education.

MISSION STATEMENT

Chaffey College improves lives and our communities through education with a steadfast commitment to equity and innovation to empower our diverse students who learn and thrive through excellent career, transfer, and workforce education programs that advance economic and social mobility for all.

SERVING THE COMMUNITIES OF

Summer Term 2026: June 1 - July 24

8-Week Session Classes

Began October 1, 2025	Application period (online with OpenCCC)
April 13	Registration notifications
April 27	Registration period begins
Day prior to class start date	Registration period ends
June 1	**INSTRUCTION BEGINS**
First day of class	Late registration begins (Add Authorization required)
June 8	Late registration ends (Deadline to ADD classes)
Varies (see pages 15-16)	Refund deadline for classes
June 10	Deadline to DROP classes without a "W" grade
July 3	Deadline to DROP classes with a "W" grade
July 2	Deadline to apply for degrees and certificates
July 11	Deadline to ADD open-entry/exit classes
July 24	**INSTRUCTION ENDS**
August 1	Grades available online

First 6-Week and Second 6-Week Classes

	First 6-Week	Second 6-Week
Registration period begins	April 27	
Registration period ends	Day prior to class start date	
Instruction begins	**June 1**	**June 15**
Late registration begins (Add Authorization required)	First day of class	
Late registration ends (Deadline to ADD classes)	June 5	June 19
Deadline to DROP classes without a "W" grade	June 7	June 21
Deadline to DROP classes with a "W" grade	June 24	July 8
Deadline to ADD open/entry-exit classes	June 30	July 14
Deadline to apply for degrees and certificates	July 2	
Instruction ends	**July 10**	**July 24**
Grades available online	July 18	August 1

Holidays (college closed)

May 25 ..... Memorial Day
June 19 ..... Juneteenth
July 3 ..... Independence Day

Becoming a Panther

Who is eligible to attend?

- All high school graduates.
- Anyone who has a Certificate of Proficiency or G.E.D.
- High school students who meet specific requirements – see section on High School Dual Enrollment in this schedule for more information.
- International students who meet specific admission requirements – these students must contact the International Student Office or check the program's webpage for guidance on beginning the application process. See section on International Students in this schedule for more information.

Who must apply?

- New students: those who have never attended Chaffey College.
- Returning students: those who have not attended for two or more regular semesters.

Who must submit transcripts?

Official transcripts from colleges or universities previously attended must be submitted to the Admissions and Records Office for the following:

- Students who plan to complete a degree or certificate at Chaffey College, and/or transfer to a four-year college or university.
- Veterans receiving educational benefits.
- Students needing to show completion of course prerequisites.
- Students who have earned an associate's degree or higher who want exemption from placement.

Official high school transcripts must be submitted for the following students:

- Students who plan to apply for the radiologic technology, registered nursing, and vocational nursing programs.
- Private and home school high school students enrolling for the first time through High School Dual Enrollment.
- Students seeking language other than English certification for Intersegmental General Education for transfer to the University of California (IGETC).
- Students who plan to use high school courses to clear course prerequisites.

Students With Limitations

- Students with learning, physical, psychological, or other health limitations are encouraged to contact Disability Programs and Services online, at (909) 652-6379, or dps.staff@chaffey.edu for assistance.

Step 1

Apply for Admission

Please allow 2 weeks to complete the Chaffey College Matriculation Process (steps 1-5). You must complete these steps to receive the best possible registration date.

1. Go to www.chaffey.edu
2. Click on the "Prospective Students" link at the top of the page.
3. Click on "Apply Now"
4. Create an Account
5. Complete the Application
   Be sure to click the submit button.

   Check your email for an immediate confirmation receipt (if you do not receive it, go back and finish the application). You will receive a confirmation of registration email within 24 hours.

The registration email includes:

- Your Chaffey ID number
- MyChaffey Portal log-in instructions
- Links to the Schedule of Classes
- Additional critical registration information

6. International students must complete a secondary application through the International Student Center. Visit the International Student Center webpage online, call (909) 652-6195, or email international@chaffey.edu for more information.

How to earn a prioritized registration date

The Student Success Act was passed to help California Community College students successfully complete their educational goals in a timely manner. Following these steps can help new and returning students reach these goals:

1. Submit your application to Chaffey
2. Complete online Chaffey College orientation and placement for math and English
3. Create a Counselor approved Student Education Plan

Registration Status

You may check your registration date and the registration steps you have completed through the MyChaffey Portal.

Your registration date will be available approximately two weeks prior to the start of registration.

MyChaffey online services are typically available year-round, 24 hours a day, 7 days a week.

MyChaffey

http://my.chaffey.edu/

Step 2

Apply for Financial Aid

1. Complete the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.gov using the Chaffey College Federal School Code 001163. Dreamers, AB 540 and DACA students: complete the CA Dream Act Application online at https://dream.csac.ca.gov. First-time, full-time students who are California residents or AB 540 may be eligible to receive the Chaffey College Panther Promise. Panther Promise provides the first two years of FREE TUITION to all first-time, full-time (enrolled in 12 units) college students. For eligibility requirements and to apply, visit the Panther Promise webpage.
2. You must have a current Admissions application on file with the Admissions and Records Department. Applications are submitted online. Make sure your correct Social Security Number is listed on the application.
3. Once the Financial Aid Office receives your information from the U.S. Department of Education or the California Student Aid Commission, you will receive an email from the Financial Aid Office indicating if awards are available, or if additional documentation is needed to complete your file. Your Financial Aid status is available via the Financial Aid – Student Self-Service Portal.

   To view a list of required documents/Actions and any additional documentation you are required to complete, follow these steps:

   - Log onto the MyChaffey Portal
   - Click on Financial Aid Self Service link under the Financial Aid menu
   - Review your checklist for required documents and/or My Awards
4. Your Financial Aid will be reviewed for eligibility and you will be notified by email of your award(s). If you are eligible for the California College Promise Grant (CCPG - formerly BOGFW), this will automatically be applied after your FAFSA or Dream Act application is received. Once eligibility has been determined, and you have been awarded a Federal Pell Grant, or any other type of aid, it will be automatically accepted in the award letter. For more information on the CCPG and types of Grants, please refer to the Financial Aid section in this Schedule of Classes.

Do you need assistance with your financial aid application? Attend a financial aid FAFSA/Dream Act application workshop. Workshop times and locations are available on our website.

Financial Aid Office Assistance

The Financial Aid Office is available to serve you online through ConexED.

Join the virtual line:

Financial Aid Virtual Lobby

Financial Aid staff are available to assist online Monday and Thursday 7:30am-7:00pm, and Tuesday, Wednesday, and Friday 7:30am-4:30pm.

If you need to contact Financial Aid after business hours, please email us at financialaid@chaffey.edu with your name and Chaffey ID number.

Step 3

Complete Orientation and Placement

Orientation is a presentation about Chaffey College and the programs and services available to enrolled students. All new and returning students must complete the Chaffey College Orientation in order to receive the best possible registration date. Orientation prepares you to be a successful student at Chaffey College. It includes information about the college, the multiple measures placement, the education plan, and important information about policies and procedures.

New and returning students are required to complete the Chaffey College Orientation after submitting the application. The English and math placement process is a part of the application process. Once Orientation is completed, students will be immediately directed to review or retake their placement. The Chaffey College Orientation is available online via Self-Service.

Student Orientation Online Placement Online

Step 4

Create an Education Plan

The next step in the enrollment process is very important; it includes creating an educational plan. It assists you in taking the appropriate classes to meet your education goal. Together with a Counselor you will discuss the courses needed to achieve your goal. In order to receive the best possible registration date, you must complete an Education Plan. We recommend completing Steps 1-3 before scheduling an appointment with a counselor.

To complete an Education Plan

Schedule an appointment through ConexED

1. Read and agree to the Informed Consent Statement
2. Click on the Chaffey Login Portal button
3. Enter your Chaffey Portal credentials
4. Schedule an appointment that works best for your availability
5. Complete the Intake Form
6. Click on "Schedule Appointment"

Students with External Transcripts

Students who plan to complete a degree or certificate at Chaffey College, and/or transfer to a four-year college or university must submit official transcripts from colleges or universities previously attended to the Admissions and Records Office.

Once your official transcripts have been received and processed by Admissions and Records, the following students can proceed to schedule their counseling appointment online through ConexED.

- Students interested in completing a certificate and/or non-transfer associate degree
- Students who have earned a bachelor's degree or higher
- Students who are interested in applying to Chaffey College's ADN, LVN, RT, or PTA programs

For students who are pursuing a transfer pathway with or without an associate degree for transfer, a Transcript Evaluation Request Form is needed prior to your counseling appointment. If your transcript evaluation is not complete before your counseling appointment, your appointment may be rescheduled. The form is available online.

For more information, visit the Academic and Career Counseling Department online or contact counseling@chaffey.edu. Watch this tutorial to learn how to schedule an online counseling appointment.

Step 5

Register for Classes

To Register

After completing Steps 1 through 4, a registration date and time will be assigned and shared in the MyChaffey Portal about two weeks before registration begins. It's best to register as soon as your time opens; waiting too long can make it harder to get into the classes you want.

Need help? Visit this link for video tutorials on registering for courses, paying for classes, accessing your Panther email, navigating MyChaffey, connecting with counseling services, and more.

Maximum Unit Load

Students can take up to 18 units in fall and spring semesters, and up to 12 units in the summer session. If more units are needed, a Unit Overload request with counselor approval is required.

Multiple Enrollments

Students can only enroll in one section of a non-repeatable course at a time.

Time Conflicts

Students may not enroll in sections that have meeting time conflicts with other sections, or courses that meet at the same time.

High School Dual Enrollment

Through Dual Enrollment, high school students can take tuition-free college courses taught by college faculty. All 9th-12th grade students are eligible. For more information about enrollment and registration processes, visit High School Dual Enrollment online.

Wait List Information

- You may place yourself on a wait list for a class that is closed, provided the option to wait list is available and the wait list is not already full.
- If a seat becomes available, you will automatically be registered based on your rank on the wait list, as long as you do not have a restriction or conflict preventing registration.
- You will be contacted through your personal email if you are automatically registered.

Wait List Restrictions and Disclaimers

You may wait list for only one section of a specific course.

- Time conflicts are not checked systematically for overlapping sections when a student is wait listed.
- Professors have the discretion to approve registration by issuing Add Authorizations to students on the first day of instruction.
- You may not enroll in and wait list in different sections of the same course at the same time. Enrollment in a course will drop you from the wait listed section.
- The wait list will remain active until instruction begins. If you have not been registered from the wait list prior to the first day of instruction, you can contact the instructor to request Add Authorization.

Add Authorization and Late Registration

Once the semester begins, all students are required to have an Add Authorization for all open and closed classes. The Add Authorization is issued by the instructor and must be used before it expires on the last day to add. The Admissions and Records Office cannot extend the deadline to add classes.

The last day to add classes is as follows:

- Full-Term.....January 26
- Fast-Track I.....January 16
- Early 14-Week.....January 16
- 14-Week .....February 6
- Fast Track II.....March 27

For more information, check your account summary through the MyChaffey Portal or contact the Admissions and Records Office online through ConexED during business hours.

Add Authorizations for Online (Distance Education) Classes:

To add an online class after registration closes, or after the class start date has passed, email the class instructor promptly. The email should include the following information: your full name, Chaffey ID number, position on the wait list (if applicable), and the name and section number of the course.

Faculty email addresses can be located on the Employee Directory page of the Chaffey College website.

Once you have received an Add Authorization from an instructor, be sure to register as soon as possible via the "Self-Service (Registration)" link in the MyChaffey Portal. If you experience issues with registration, review this video tutorial on registering for classes after a class has started, or contact the Admissions and Records Office online through ConexED during business hours.

Step 6

Pay Enrollment Fees

All fees are approved by the State of California and are subject to change without advance notice. For a current list of all enrollment fees, visit the Cashier's Office webpage.

Enrollment Fee

CA Resident..... $46 per unit
Non-CA Resident U.S. Citizen
and Non-U.S. Citizen ..... $460 per unit
($409 per unit, plus $46 per unit enrollment fee, plus $5 Capital Outlay charge)

College Services Fee (optional)

- $8.00 (Fall/Spring); $5.00 (Summer)

Health Services Fee*

This fee funds the Student Health Services Program. Certain laboratory tests and medications may require an additional fee.

Non-California College Promise Grant (CCPG)
- $21.00 (Fall/Spring); $18.00 (Summer)

California College Promise Grant (CCPG)** (A)
- $10.50 (Fall/Spring); $9.00 (Summer)

California College Promise Grant (CCPG)** (B)
- $21.00 (Fall/Spring); $18.00 (Summer)

California College Promise Grant (CCPG)** (C)
- $21.00 (Fall/Spring); $18.00 (Summer)

Materials Fee.....Variable

Some classes require a materials usage fee. The charge is noted under the appropriate class at the end of the description. Material fees must be paid at registration, and are not subject to waiver.

Parking Fee

Parking permits are required on the Chino (College Park location only), Fontana, and Rancho Cucamonga campuses. Permits can be ordered through the MyChaffey Portal by selecting the "Parking Permit" link under the Shortcuts panel.

Auto Parking Permit (including CCPG eligible):
- $30.00 (Fall/Spring); $15.00 (Summer)

Motorcycle Parking Permit:
- $10.00 (Fall/Spring); $10.00 (Summer)

NSF/Chargeback/Stop Payment Fee..... $25.00

(Only cash, money order, or cashier's check accepted to clear these fees)

Student Representation Fee*** (optional)... $2.00

Technology Fee

- $8.00 (Fall/Spring); $5.00 (Summer)

Transportation Fee

To be eligible for ridership services from Omnitrans, students must possess their own current, valid Chaffey ID card, must remain registered in classes for the duration of the current academic term, and must have paid the transportation fee for the current academic term. Students who withdraw from classes during a term are no longer eligible for services at the point of withdrawal.

Registered in fewer than 6 units:
- $8.00 (Fall/Spring); $5.00 (Summer)

Registered in 6 units or more:
- $9.00 (Fall/Spring); $6.00 (Summer)

**Pursuant to section 76355 of the Education Code, students who can provide documentation of active membership in a religious organization that relies exclusively on prayer for healing may request to have the Health Fee waived. Applications for waiver are available in the Student Health Services office.*

***California College Promise Grant (CCPG - formerly BOG Fee Waiver)*

****The $2 Student Representation Fee (AB 1504) is used by the Associated Students of Chaffey College and the Student Senate of California Community Colleges to advocate and lobby for legislative issues that affect and benefit community colleges and community college students both at the state and federal level.*

For information related to the waiver of enrollment fees, contact the Financial Aid Office at financialaid@chaffey.edu or (909) 652-6199.

Methods of Payment

1. Pay Online
   Online payments can be made through the MyChaffey Portal. Visa, MasterCard, Discover, and American Express are accepted. Split payments cannot be processed online.
2. Pay Using NBS Tuition Payment Plan: https://mycollegepaymentplan.com/chaffey/
3. Pay by U.S. Mail
   We accept personal checks or money orders payable to Chaffey College. Please write your student ID number in the memo section of your check. Chaffey College is not liable for mail lost or delayed by the postal service. Mail payments to:

   Chaffey College
   Cashier's Office
   5885 Haven Avenue
   Rancho Cucamonga, CA 91737
4. Bank Wire
   Log onto the MyChaffey Portal, click on the "Make a Payment" link at the center of the screen under Widgets, and select Bank Wire. The exact payment amount must be initiated. Once the bank wire payment is submitted, submit confirmation via email to cashier.staff@chaffey.edu to avoid being dropped from classes.
5. Third Party/Sponsor Paid
   All vouchers and paperwork must be submitted via email to cashier.staff@chaffey.edu prior to the student's payment deadline.

Verification of Payment

Once payment is made, we recommend you print out your receipt for your records.

NBS Tuition Payment Plan: https://mycollegepaymentplan.com/chaffey/

Pay for tuition and fees over time. Tuition payment plans break down your tuition balance into affordable monthly payments. There's no interest, payment options are flexible, setup fees are affordable, and it's easy to enroll.

FACTS Payment Methods:

- Automatic bank payment (ACH)
- Credit card/debit card

Cost to Participate:

- $25 enrollment fee per semester (ACH & credit card)
- $2 enrollment fee for an immediate full payment
- $30 returned payment fee if a payment is returned

Simple Steps to Enroll in the Payment Plan *(a new payment plan must be set up for each semester)*:

- Go to https://mycollegepaymentplan.com/chaffey/.
- Select "Enroll Today" located at the top of the screen.
  NOTE: All down payments and enrollment fees are processed immediately. NBS scheduled payments are processed on the 5th of each month. You must have a minimum balance of $100 to enroll in the payment plan.

If an invalid account number is supplied or any monthly payment is returned by the supplied bank *prior to the start of the term*, the payment plan with NBS will be terminated and the student's classes may be dropped.

If an invalid account number is supplied or any monthly payment is returned by the supplied bank *once the term begins*, the payment plan with NBS will be terminated and there will be a hold placed on the student's record until the balance is cleared in full.

If there are any changes made to the student's Chaffey College account including but not limited to adding and/or dropping classes, obtaining the California College Promise Grant (CCPG), or updating residency status, the student must adjust their payment balance by visiting https://mycollegepaymentplan.com/chaffey/ and selecting "Enroll Today" located at the top of the screen. If the student has any questions regarding their agreement, they may email the Chaffey College Cashier's Office at cashier.staff@chaffey.edu.

Payment is due at the time of registration. As the student, you are responsible for dropping classes by the stated deadlines. If you register for a class and later change your mind, it is your responsibility to drop the class. You may be responsible for some or all of the fees for dropped courses as per the Refund Policy. If you are a Financial Aid recipient, your award will not cover all of your fees. You are responsible to submit payment for any balance due. An outstanding balance will result in a Hold placed on your account.

Methods of payment include Visa, MasterCard, American Express, Discover, Check or Money Order payable to Chaffey College (include Chaffey ID number).

Financial Holds

In accordance with title 5, section 59410, students or former students who have unpaid financial obligations to the college may have their registration privileges withheld, and an academic hold placed on their record. This hold will be lifted once the financial obligation has been resolved.

Financial Aid Students

The California College Promise Grant (CCPG) (formerly BOGFW) does not cover all fees for registration. Students who receive the CCPG must pay the remaining fees by the first day of instruction. If payment is not received, a financial hold will be placed on the student's account. For questions regarding your financial aid award, contact the Financial Aid Office online through ConexED during business hours.

Returned Payments

Returned payments due to insufficient funds, invalid account number entry or stopping payment on a check or credit card transaction does NOT constitute withdrawal from classes and will result in a $25 charge and a financial block on the student's account.

Fee Collection by the Franchise Tax Board

Failure to pay any outstanding balance will result in the student's name being submitted to the Franchise Tax Board for collection of any balance owed to Chaffey College.

Unofficial Withdrawal from Classes

A student will be charged fees for classes he/she is enrolled in, even if the student does not attend any class meetings. It is the student's responsibility to ensure all classes are dropped by the refund deadline to avoid being charged.

Refund Policy for Credit Amounts Less Than $20

Refunds for credit amounts less than $20 are not automatic and must be initiated by the student:

- A refund request for a credit amount less than $20 must be received by the Cashier's Office by the last day of the term.
- To request a refund, the student must send an email to cashier.staff@chaffey.edu.
- For security reasons, the following information is required:
  - Student's full name
  - Chaffey ID Number
  - Refund credit amount
- When all the required information is received, the Cashier's Office will begin the refund process. Refunds will be processed within 45 business days.

Automatic Refund Process

Refunds will still be processed automatically for the following:

- Credit amounts of $20 or more
- Classes canceled by the college
- California College Promise Grant (CCPG) reimbursements (No refund request required).

Automatic refunds will be processed after the last day to add full term classes. Processing may take up to 45 business days to complete. Students will receive a refund in the form of original payment, excluding cash. Cash payments will be refunded as a check. Students who were enrolled in the NBS payment plan and are due a refund will receive a check in the mail. To ensure prompt delivery, students must verify the correct address information is on the MyChaffey Portal.

Eligibility Requirement for Refunds

A student is eligible for a refund if classes are dropped by the published refund deadline. Refund deadlines vary and are easily located by logging into the MyChaffey Portal, selecting the Registration widget, and choosing "Info."

To be eligible for a refund, classes must be dropped within the first two weeks of instruction for full-term classes, and before the 10% point of any short-term class. The following fees are subject to refund if classes are dropped before the deadline: enrollment, health, materials, college services, transportation, student representation, technology, and non-resident tuition.

Refund for Parking Permits

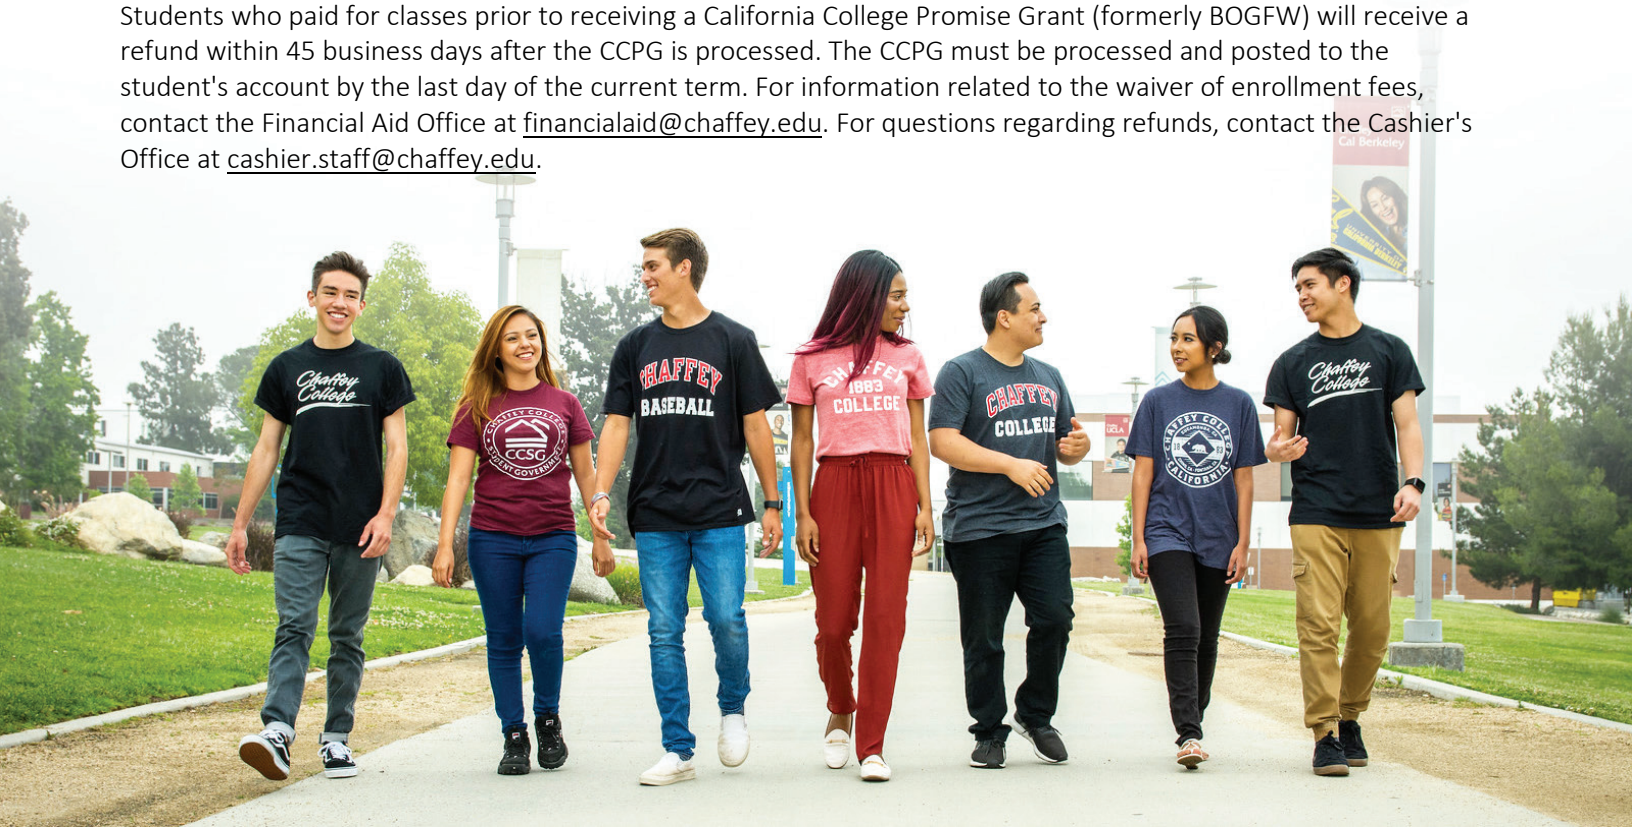

To receive a parking refund, the request must be submitted on or before the appropriate refund deadline date. Refund requests may be submitted via the Parking Permit Refund Request form online.

Refund for Canceled Classes

If the district cancels a class, all fees will be refunded automatically. A refund request is not required.

Financial Aid California College Promise Grant (CCPG) Account Re-Bill/Reimbursement

Students who paid for classes prior to receiving a California College Promise Grant (formerly BOGFW) will receive a refund within 45 business days after the CCPG is processed. The CCPG must be processed and posted to the student's account by the last day of the current term. For information related to the waiver of enrollment fees, contact the Financial Aid Office at financialaid@chaffey.edu. For questions regarding refunds, contact the Cashier's Office at cashier.staff@chaffey.edu.

College Services Fee

The College Services Fee is budgeted by the Chaffey College Student Government (CCSG) to provide a range of opportunities, activities, and services to support and engage the students at Chaffey College. CCSG allocates the funds to benefit the students and foster the spirit of excellence and commitment to learning in all areas of the institution. This includes supporting: book grants, scholarships, lectures, cultural events, festivals, field trips, retreats, conferences, student clubs, the class gift and much, much more. Students who wish to be exempt from paying the College Services fee may submit a Student Opt Out Request form prior to the refund deadline for the applicable term.

Health Services Fee

This fee funds the Student Health Services program and is used to assist currently enrolled students in achieving and maintaining optimum physical health. In addition to in-person services at the Rancho Campus Health Clinic, 24/7 telemedicine for medical and mental health is provided. There is no copay for visits, and lab tests are available at a low cost. The clinic also provides affordable TB tests, immunizations, physicals for certain programs, and referrals. Pursuant to section 76355 of the Education Code, students who can provide documentation of active membership in a religious organization that relies exclusively on prayer for healing may request to have the Health Services Fee waived. Applications for waiver are available in the Student Health Services office. CCPG-eligible students will be responsible for all or a portion of the Health Services Fee as listed on the Tuition and Fees webpage.

Student Representation Fee

The $2 Student Representation fee is used by the Chaffey College Student Government and the Student Senate of California Community Colleges to advocate and lobby for legislative issues that affect and benefit community colleges and community college students both at the state and federal level. Students who wish to be exempt from paying the Student Representation fee may submit a Student Opt Out Request form prior to the refund deadline for the applicable term.

Technology Fee

The Chaffey College technology fee directly supports the cost of providing student access to college technology. This fee is optional and will be used, for example, to help ensure student computer labs are equipped with current hardware and software and to provide high-speed wireless access and connectivity to the internet. The technology fee is $8.00 per semester in the fall and spring and $5.00 in the summer and will only be used for student-related technology. Students who wish to be exempt from paying the Technology fee may submit a Student Opt Out Request form prior to the refund deadline for the applicable term.

Transportation Fee

All students enrolled in credit courses during the fall, spring, and summer semesters are subject to the fee. The transportation fee allows students to ride all of Omnitrans' fixed route bus services at no charge during the semester by using their Student ID card.

High school partnership students and students enrolled in zero-unit classes may opt to pay the transportation fee separately to take advantage of ridership services by submitting a Transportation Fee Opt-In form.

Ridership is valid as long as active enrollment is maintained. Privileges will end immediately if classes are dropped.

Payment Chart Summer 2026

If you register for a class on the following date:	Full payment is due by:
Monday, April 27, 2026	Thursday, April 30, 2026

Thursday, October 15-Sunday, October 18, 2026	Sunday, October 18, 2026

If you register less than 3 days prior to class starting, payment is due the day before class begins.

All payments must be made within 3 calendar days (including holidays and weekends) from the date of registration. Partial payments are not accepted; all fees must be paid in full. Failure to pay will result in all classes dropped. Full-term, Fast Track, and 14-Week classes are included in the payment chart. Once the class has started, we strongly recommend paying immediately to avoid any financial restrictions.

Methods of Payment

Visa, MasterCard, American Express, Discover, Payment Plan, or mail in a cashier's check or money order payable to Chaffey College (include Chaffey ID number).

Attend First Class Meeting

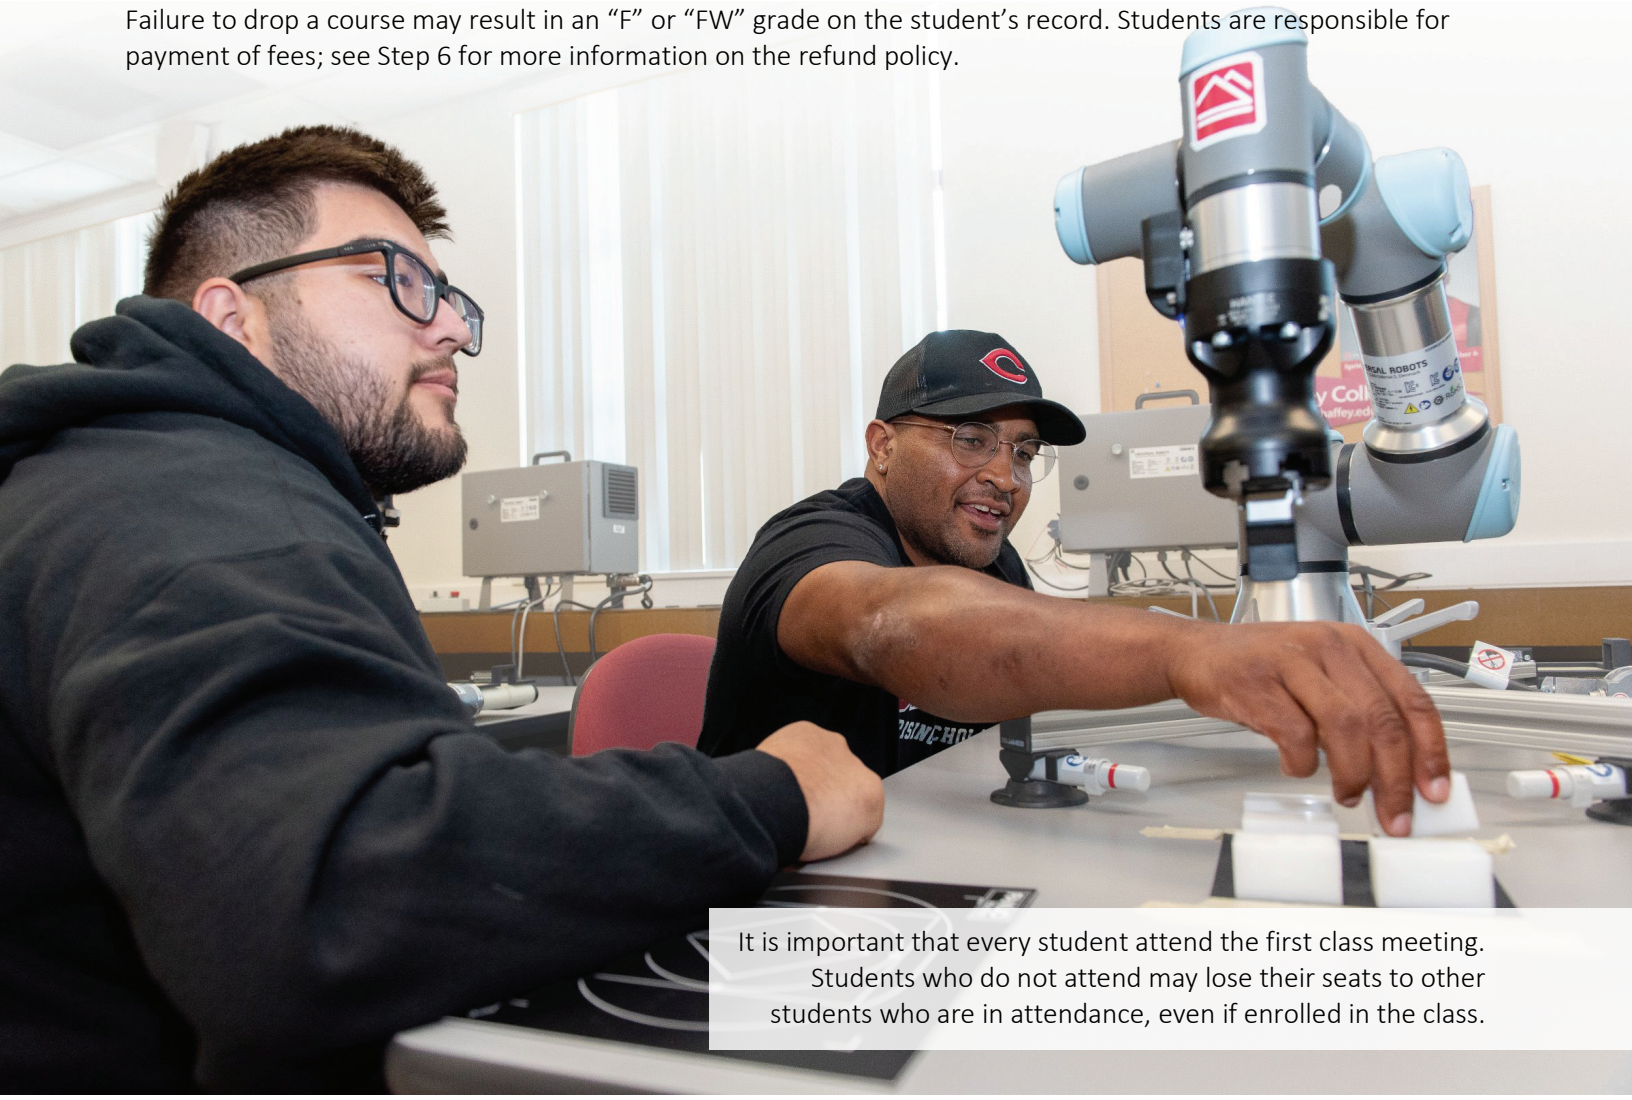

Attendance

It is your responsibility to make sure that you are officially enrolled in the class. Regular attendance at all class meetings is expected, and if you are unable to attend a class, promptly notify your instructor. You may not continue attending the class if you are not enrolled.

Dropping Classes

You can drop classes through the "Self-Service (Registration)" link in the MyChaffey Portal. Drop deadlines differ for each class and can be found on your registration receipt. It is your responsibility to ensure your classes are officially dropped, as simply not attending does not count as a formal drop.

Students who drop classes prior to the date census rosters are due will receive no entry on their academic records. Course drops processed after the census deadline and on or before 61% of the course will receive a "W" grade on the permanent record. Drops cannot be processed by a student or an instructor after 61% of the course has elapsed. Failure to drop a course may result in an "F" or "FW" grade on the student's record. Students are responsible for payment of fees; see Step 6 for more information on the refund policy.

It is important that every student attend the first class meeting. Students who do not attend may lose their seats to other students who are in attendance, even if enrolled in the class.

Obtain Your Textbooks

The Chaffey College Campus Store

The Campus Store is dedicated to supporting the mission of the College, academic programs, and student life by providing a wide range of services including new, used, rental, and digital textbooks, supplies, art kits, food items, apparel, electronics, uniforms, and much more. Campus Store proceeds stay with the college and benefit Chaffey students.

Visit the Campus Store online for current and extended hours of operation, textbook availability and price comparisons, textbook buyback information, and more.

Grants and Scholarships

Chaffey College offers many grants and scholarships to help with purchasing materials from the Chaffey College Campus Store. Please be sure to check your Chaffey College issued Panther email for more information on book grants, scholarships and other CCSG events.

Textbook Reserves

Some textbooks are available on reserve for short-term checkout at campus libraries. Check online at the Library's website or contact one of the Chaffey College Library locations for more information.

Obtain Your Parking Permit

Effective Summer 2026

Chaffey College will transition to **virtual** parking permits, and physical permits will no longer be issued. Once a permit is purchased, you may park in any unmarked stall. Your license plate will serve as your parking permit, so be sure your vehicle is registered to your parking account before parking on campus to avoid a citation.

Are parking permits required?

Parking permits are required on the Rancho and Fontana Campuses, as well as the Chino Campus located on College Park. Permits are not required at the Chino Education Center on Central Avenue or the Chino Information Technology Center on Seventh Street.

What hours are parking permits required?

Monday - Friday: 7:00am-11:00pm.
Saturday: 7:00am-3:00pm.
Sunday: No permit required.

How much do parking permits cost?

Fall and Spring: $30 (Auto); $10 (Motorcycle)
Summer: $15 (Auto); $10 (Motorcycle)

Frequently Asked Questions

Where can I purchase a parking permit?

You can order a parking permit through the MyChaffey Portal by selecting the "Parking Permit" link under the Shortcuts panel.

How can I get a parking permit refund?

To receive a parking refund, the request must be submitted on or before the appropriate refund deadline date. Refund requests may be submitted via the Parking Permit Refund Request form online.

Can I park wherever I want with my parking permit?

No. Parking permits allow students to park in student spaces. Students are not permitted to park in any stall marked Staff, Visitor, or Reserved. No parking is allowed in any area that does not have a clearly marked parking stall.

What if I only have one or two classes a week and I don't want to purchase a parking permit?

You can **pay with a credit card** online using the ParkMobile app. ParkMobile signs with instructions are posted in all student parking lots. You may also **purchase permits with cash** from permit machines located in most student parking lots. Be sure to insert the exact amount only, as permit machines do not dispense change. One-hour permits are $1.00, and full day permits are $4.00.

I ride a motorcycle. Do I have to buy a parking permit?

Yes. Motorcycle permits cost $10 each semester.

What if I drive a different car?

You may add up to two vehicles to your permit, but only one vehicle can be active on campus at a time, so be sure to select which vehicle you will be parking each day through the MyChaffey portal by selecting the "Parking Permit" link under the Shortcuts panel.

Why is parking so difficult on the Rancho Campus?

The first few weeks of a new semester are always the busiest. Try using alternate transportation such as carpooling or taking the bus. You can also try parking lots at the east or south end of the campus. Having a parking permit does not guarantee a parking space close to your destination and it is your responsibility to find legal parking.

For more information on parking regulations, please refer to the "Parking and Traffic Rules and Regulations" brochure available at the Campus Police office or online, or contact Campus Police at (909) 652-6632.

Ensure Your Success

Student Success Centers

Chaffey's virtual and in-person student Success Centers provide free tutoring, workshops, conversation groups, and focused learning activities. Functioning as an "extension of the classroom," the Success Centers strategically design curriculum for every stage of the learning process.

For hours and more information, visit the Success Center webpage.

Rancho Campus Success Center

Room BEB-101 · (909) 652-6452
Room LLC-130 · (909) 652-6180

Fontana Campus Success Center

Room FNFC-122 · (909) 652-7430

Chino Campus Success Center

Room CHMB-145 · (909) 652-8150

Supplemental Instruction

Supplemental Instruction (SI) is a series of weekly study sessions facilitated by a trained student leader. Attendance is voluntary and open to anyone enrolled in the selected courses. The study sessions help students improve understanding of course material, develop study strategies, and prepare for tests. For more information, visit the Supplemental Instruction webpage or call (909) 652-6468.

Library

The Chaffey College Library has branches at the Rancho, Chino, and Fontana sites. For current hours visit the Library online or call (909) 652-6800.

The Chaffey College Library provides access to over two dozen databases that include magazines, newspapers, journals, and encyclopedias in full-text format. These are available 24/7 via the Library homepage to current students, staff, and faculty at Chaffey College.

A valid Chaffey ID card in good condition is required for check-out of items, including reserve materials. Please consult our website or contact us for more information regarding our services and resources.

Disability Programs and Services

The Disability Programs and Services (DPS) office provides a variety of services to support student success in the classroom. Services vary based on the nature and severity of the disability. For more information, visit Disability Programs and Services online or call (909) 652-6379. Some example services include:

Counseling for Students with Disabilities

Classroom Services
- Note taking software
- Sign language interpreters
- Assistance with test taking

Adapted Technology Services
- Assistive Technology Lab
- Text recording and e-text
- Text and print enlarging
- Text brailing
- Computer-assisted reading and writing

Mobility Services
- Courtesy trams
- Campus orientation

Cómo Empezar en Chaffey College

¿Quién es apto para asistir a Chaffey College?

Todos los graduados de la escuela secundaria, cualquier persona que tenga un certificado de aptitud o prueba de desarrollo educativo general (General Educational Development Test, GED), y cualquier persona que tenga al menos 18 años de edad pueden beneficiarse de un curso de estudio en Chaffey College.

¿Cómo solicito la admisión?

Complete una solicitud visitando www.chaffey.edu y seleccionando el enlace "Prospective Students" (Futuros estudiantes) en la parte superior de la página. Después, seleccione "Apply to Chaffey College" (Aplicar a Chaffey College) para crear una cuenta y comenzar su solicitud. La solicitud es gratuita.

¿Cuánto cuestan las clases?

Los costes de matrícula se cobran por unidad. Una clase típica es de 3 o 4 unidades.

- Residentes de California: $46 por unidad.
- Ciudadanos de EE. UU. y no residentes en California: $460 por unidad.

También hay una cuota de Servicios Médicos que cuesta $21 en otoño y primavera, y $18 en verano. Las cuotas de estacionamiento son de $30 en otoño y primavera y de $15 en verano, y son obligatorias en los campus de Chino (solo en College Park), Fontana y Rancho Cucamonga. En caso de que las cuotas y los permisos de estacionamiento no sean requeridos para el período, los estudiantes serán notificados a través de su correo electrónico Panther emitido por Chaffey College. Además, hay costes asociados a la compra de libros y materiales, que varían según la clase. Para obtener una lista actualizada de todas las cuotas de la matrícula, visite la página web de la Oficina de Caja.

¿Puedo obtener ayuda para cubrir los costes de las clases y otros gastos?

La oficina de ayuda financiera administra una serie de programas diseñados para ayudar a los estudiantes con recursos limitados a hacer frente a sus gastos educativos, incluida la "Beca Promesa Universitaria de California" (California College Promise Grant, CCPG; antes conocida como BOGFW) que exime de los gastos de matrícula, subsidios, becas y estudio de trabajo federal. Para ser considerado para cualquiera de estos programas, es necesario completar la Solicitud Gratuita de Ayuda Federal para Estudiantes (Free Application for Federal Student Aid, FAFSA), o la Solicitud Dream Act de California (California Dream Act Application, CADAA). Asegúrese de incluir el código institucional de Chaffey, 001163, en su FAFSA.

¿Cómo puedo saber qué ofrece la escuela para planificar mi educación?

Asista a una orientación. La orientación incluye información sobre el colegio y sus programas y servicios, la colocación de medidas múltiples, el plan de educación e información importante sobre políticas y procedimientos. La orientación está disponible en línea a través del Departamento de Consejería, o llamando al (909) 652-6200 para inscribirse en una sesión. Debe completar la orientación y un plan educativo para recibir la mejor fecha de inscripción posible.

¿Cómo puedo inscribirme en las clases que quiero?

Puede inscribirse en las clases en la fecha de inscripción asignada o después de ella utilizando la inscripción en línea en https://my.chaffey.edu/. También puede inscribirse en persona en cualquiera de los campus de Chaffey College.

¿Qué debo hacer después de inscribirme?

1. Pagar las cuotas de matrícula. Al inscribirse, los pagos en línea se pueden hacer a través del portal MyChaffey. También se aceptan pagos en persona o por correo. Los métodos de pago aceptados incluyen tarjeta de crédito (VISA, MasterCard, Discover y American Express), efectivo, cheque o giro postal.
2. Conseguir sus libros de texto. Los libros de texto pueden comprarse o solicitarse a préstamo en las librerías del campus, o a través de la Tienda del campus en línea.
3. Asistir a las clases. Es importante que todos los estudiantes asistan a la primera reunión de clase. Los estudiantes que no asistan pueden perder su plaza en favor de otros estudiantes que sí asistan, aunque estén matriculados en la clase.

¿Qué otros servicios están a disposición de los estudiantes?

Hay muchos servicios disponibles para los estudiantes de Chaffey College. Algunos que están disponibles incluyen:

Asesoramiento académico

Los estudiantes disponen de asesores durante todo el año para ayudarlos a alcanzar sus objetivos académicos. Los asesores pueden diseñar un plan educativo para los estudiantes que los ayude a elegir el programa de estudios y las clases adecuadas para alcanzar sus objetivos. Para hacer una cita con un consejero, visite el Departamento de consejería en línea o llame al (909) 652-6200.

Programas y Servicios de Igualdad de Oportunidades (Equal Opportunity Programs and Services, EOPS)

EOPS es un programa financiado por el estado que les ofrece servicios de apoyo a estudiantes económicamente desfavorecidos que no han tenido éxito en la escuela secundaria o en la universidad. Los estudiantes que reúnen los requisitos disfrutan de una serie de servicios, como vales para libros, asesoramiento académico, pases de autobús y matrícula prioritaria. Visite EOPS en línea o llame al (909) 652-6349 para obtener más información.

Servicios médicos estudiantiles

Los servicios de salud estudiantiles están diseñados para ayudar a los estudiantes a lograr y mantener una salud física, mental y emocional óptima mediante la prestación de atención médica de calidad a un costo razonable. Cada semestre, la cuota de servicios de salud les permite a todos los estudiantes matriculados en la actualidad tener acceso a un médico, una enfermera con formación avanzada o un consejero matrimonial y familiar sin coste alguno. Todos los estudiantes tienen a su disposición diversos servicios, algunos de los cuales pueden ser de pago. Además de los servicios en persona que se prestan de lunes a viernes en la clínica de salud del campus de Rancho, se ofrece telemedicina médica y de salud mental las 24 horas del día, los 7 días de la semana. Para obtener más información, visite Servicios médicos estudiantiles en línea o llame al (909) 652-6331.

¿Cuáles son mis derechos ante la ley?

AB 540 Exención de Matrícula para No Residentes: un estudiante que califica para la exención de matrícula de no residente no tendrá que pagar la cuota de matrícula de no residente. Hay criterios específicos que deben cumplirse para una exención. Una lista de criterios y documentación requerida junto con una solicitud se puede encontrar en línea a través de la Página Web de Admisiones, o se puede obtener a través de la oficina de Admisiones y Registros.

Política de Prevención del Acoso Sexual

Es la política del distrito del Colegio Comunitaria de Chaffey proporcionarles a todos los estudiantes y empleados un ambiente educativo, de empleo y de negocios libre de toda forma de acoso, explotación, intimidación o avances sexuales no deseados, solicitudes de favores sexuales y otras conductas o comunicaciones verbales, visuales o físicas de naturaleza sexual como se definen y de otra manera prohibidas por la Ley de Empleo y Vivienda Justa de California, el Código de Educación de California y las normas, los reglamentos, los estatutos y las leyes estatales y federales que prohíben el acoso sexual y las represalias.

El distrito se opone firmemente al acoso sexual y prohíbe expresamente el acoso sexual de sus estudiantes y empleados por parte de profesores, gerentes, personal, estudiantes o miembros del público en general. El colegio tomará cualquier acción apropiada para prevenir, corregir y, cuando sea necesario, disciplinar el comportamiento inapropiado.

El acoso sexual deberá reportarse de inmediato al oficial de cumplimiento del distrito, Dr. Tomeika Carter, Coordinadora del Título IX, Chaffey College, 5885 Haven Avenue, Rancho Cucamonga, CA 91737, teléfono (909) 652-6536, correo electrónico tomeika.carter@chaffey.edu o a cualquier decano, director o gerente para su reporte inmediato al oficial de cumplimiento del distrito, o su designado. Se harán todos los esfuerzos para asegurar que se mantenga la confidencialidad.

Declaración de Igualdad de Oportunidades/No Discriminación y Prohibición de Acoso

El distrito del Colegio Comunitaria de Chaffey se compromete a proporcionar igualdad de oportunidades educativas y de empleo. El distrito afirma su compromiso con las políticas que incluyen un trato justo y equitativo de los estudiantes y empleados, prohíbe la discriminación en su admisión, el acceso, el tratamiento en los programas, las actividades de la universidad, la solicitud y el tratamiento en el empleo de la universidad sobre la base de raza, religión, color, sexo (incluidos el género, la identidad de género, la expresión de género, el embarazo, y la lactancia materna), orientación sexual, origen nacional, ascendencia, estado civil, edad, afección médica, características genéticas o información, militar y condición de veterano, discapacidad física o mental o la percepción de que una persona tiene una o más de estas características percibidas, o sobre la base de la asociación con una persona o grupo con una o más de estas características reales o percibidas.

De acuerdo con las regulaciones del Título IX, el distrito ofrece igualdad de oportunidades académicas, ocupacionales y extracurriculares sin importar el sexo/género del individuo. La oficial de cumplimiento del Título IX, Dr. Tomeika Carter, puede contactarse al (909) 652-6536 o por correo electrónico a tomeika.carter@chaffey.edu, o en 5885 Haven Avenue, Rancho Cucamonga 91737. El distrito, autorizado bajo la ley federal a matricular estudiantes no inmigrantes y extranjeros, y, de acuerdo con las regulaciones del título 5, afirma que la falta de conocimiento del idioma inglés no será una barrera para la admisión y participación en los programas del distrito.

Las personas que buscan información o resolución de presuntos actos de discriminación ilegal, represalias o acoso se dirigen a ponerse en contacto con el oficial de cumplimiento del distrito, Dr. Tomeika Carter, Coordinadora del Título IX, Chaffey College, 5885 Haven Avenue, Rancho Cucamonga, CA 91737-3002; teléfono (909) 652-6536 o correo electrónico tomeika.carter@chaffey.edu.

Special Student Classifications

High School Dual Enrollment

High school students may enroll at Chaffey College through Dual Enrollment to pursue advanced scholastic or vocational education [Education Code 48800(a)]. All high school, private, and home-schooled students attending Chaffey for the first time must complete an online application, the Dual Enrollment Agreement, and Waiver of Liability Form (if applicable). Private and home-schooled students must provide official high school transcripts showing their most recent grade level. Continued enrollment in subsequent semesters will only require the Dual Enrollment Agreement and Waiver of Liability, if applicable.

Students who attend a local district high school should submit the electronic Dual Enrollment Form. This form will be automatically routed directly to the high school and returned to Chaffey Admissions and Records once approved. Students eligible to submit the electronic form do not need to submit the additional Waiver of Liability Form. NOTE: If a high school is not listed in the drop-down menu on the form then the student will need to submit a PDF Agreement and Waiver of Liability Form.

Students who attend a private school or are home-schooled must submit the PDF version of the Dual Enrollment Agreement and the Waiver of Liability Form, available online. The student will be responsible for obtaining the required signatures from the principal/designee of the high school to approve the requested course. Home-schooled students must also submit a valid Home School Affidavit from the California Department of Education.

High school students are eligible to enroll in any approved courses except those that are remedial in nature (courses numbered 500-599) or KINACT (PE activity) courses. Students may enroll in KINLEC lecture courses with permission from the high school. Select seniors may be eligible to enroll in KINTM team courses if recruited by a Chaffey coach. An official letter from the coach will be required at time of registration.

Students may take up to 11 units in fall and spring semesters, and 6 units in summer, from the list of approved courses on the Dual Enrollment Agreement for that term.

Enrollment, health, and college service fees are waived for Dual Enrollment students. Other costs (e.g., materials fees, transportation, technology, and student representation fees, books, and parking) must be paid by the student. Students enrolling in 12 or more units in a semester will lose special-admit status and will be responsible for payment of all assessed fees. Students residing out of state will be responsible for payment of all assessed fees, including nonresident and capital outlay fees.

CTE Career Transitions

High school/ROP students who attend Career Technical Education (CTE) courses articulated with Chaffey College may be able to earn advanced placement or college credit. For additional information contact your counselor or career technician or email act.staff@chaffey.edu.

For more information about Dual Enrollment, visit the Dual Enrollment webpage. For information on placement, orientation, and counseling, visit the Academic and Career Counseling Department webpage.

Puente Project

An outgrowth of the Puente Project founded in 1981 at Chabot College in Hayward, the Puente Project is designed to provide individual assistance to students interested in transferring to four-year colleges and universities. Puente students are provided with intensive English instruction, focused personal counseling, introductory tours of UC and Cal State campuses, and helpful personal mentoring. Every element is an essential part of the Puente experience.

Prospective students must be eligible for English 1A (CCN: ENGL C1000) when submitting their interest form. The Puente team is interested in learning about students' academic and career goals and how joining Puente can support their success. Interest forms and essays are evaluated by the Puente program faculty, who select 30 students each year for participation.

For more information about the program, visit the Puente Project webpage.

Veterans

Active Duty Service Members Prior to Enrollment

You are required to speak with your Educational Services Officer (ESO) or counselor within your military service prior to enrolling at our institution. The ESO and related staff can assist in providing information and options regarding furthering your education. After meeting with your ESO or related counselor, Chaffey College is happy to further discuss educational pathways, enrollment options, and related information.

VA Education Benefits

All veterans and eligible dependents who wish to receive VA Education Benefits while attending Chaffey College are required to meet with the Veteran Certifying Official to begin the process. Official transcripts of all previous college coursework must be submitted to the college for evaluation. Completing new student orientation and the placement process is required. For more information on veterans' benefits, please visit the Veteran Services webpage. Veterans interested in using the Post 911 GI Bill®, please contact the Department of Veterans Affairs at (888) 442-4551 or visit the GI Bill® website at www.gibill.va.gov for more information.

Veterans are welcome to visit our Veterans Resource Center at the Rancho Cucamonga campus in AD-125.

The Veterans Administration (VA) specifies a minimum load for educational benefits (these apply to full-term classes only; see Veterans Certifying Official for information regarding short-term classes). Please note: the unit ranges noted below are for non-Chapter 33 benefits:

Status	Fall & Spring	Summer
Full-time	12 or more units	Unit Requirements
Three-fourth time	9-11.5 units	Contact the
One-half time	6-8.5 units	Veterans Resource
Less than half-time	Less than 6 units	Center

Before the semester begins, students are allowed 3 calendar days (including weekends and holidays) from the date of registration to submit full payment. If payment is not received within the 3 calendar days, students will be dropped for non-payment. For payment deadlines, please refer to the Payment Chart in this Schedule of Classes. **Students with veteran benefits including active duty or dependent eligible for VA Chapter Benefits 31 and 33 will have their fees deferred while being certified by the VA and the Veteran Services office and no late fees shall be incurred.** The veteran, active duty or dependent eligible for chapter benefits 31 and 33 will need to provide a Certificate of Eligibility, a Statement of Benefits, or VA Authorization Notification form either before or during the first semester of benefits. Please see 38 USC 3679(e) for complete details.

Veterans and active duty service members are eligible for priority registration. Students requesting priority registration must submit a DD214 Member-4 copy showing type of discharge or an active military ID as proof of service. Students are not required to use Veterans Education benefits to receive priority registration. You may submit your military documentation to the Veterans Resource Center at the Rancho Cucamonga campus in AD-125 or the Admissions and Records Office at the Chino and Fontana campuses. For more information, please visit the Veteran Services webpage.

Academic Matters

Auditing Courses

Auditing may be permitted on a space available basis, solely at the discretion of the instructor. Once audit enrollment is completed, no student will be permitted to change his/her enrollment to receive credit. Conversely, a student is not permitted to change his/her enrollment from credit to audit. No course credit or grade is received for an audited class, nor does the college maintain any attendance or transcript records. Priority in class enrollment shall be given to students desiring to take the course for credit; therefore, enrollment for audit purposes will not be permitted until the class has met at least once. The instructor's approval is required to audit a class. If a student is participating only in the class(es) being audited, that student can obtain a photo ID card and will have access to labs and Success Centers at all locations, but will not have access to the library book check-outs or online library resources. High school students are not eligible to audit courses. The cost to audit a course is $15.00 per unit. For additional information, contact Admissions and Records at (909) 652-6600 or admissions@chaffey.edu.

Change of Address/Phone Number

It is the student's responsibility to maintain a current email address, physical address, and telephone number(s) in the MyChaffey Portal. Changes can be made online in the portal via the Address Change link or in person in the Admissions and Records Office at any Chaffey campus. For additional information, please contact the Admissions and Records Office at (909) 652-6600 or admissions@chaffey.edu.

Credit by Examination

A student may challenge certain courses for Credit by Examination. Applications are available in the Admissions and Records Office. Grading is on a pass/fail basis only, there is a $25 per test fee that must be paid in advance, and the student must certify that they have not previously attempted examination for credit in the course. Additional criteria must also be met; those criteria can be found in the college catalog, which can be accessed by visiting www.chaffey.edu.

Enrollment Verification Requests

Enrollment Verification forms can be presented to health insurance agencies, housing authorities, consumer product companies, banks, etc. to provide evidence of official enrollment at Chaffey College.

Enrollment Verification Request forms are available in the MyChaffey Portal under Student Records and Information Forms.

Students providing their own form for verifications may submit the form along with the Chaffey College Enrollment Verification Request form. Students may request up to two enrollment verifications at no charge. Subsequent verifications are $5.00 each.

Grading

Letter Grading: Plus and Minus Symbols

Effective Fall Semester 2002, plus and minus symbols have the following point values attached:

A+	4.0 points	C+	2.3 points
A	4.0 points	C	2.0 points
A-	3.7 points	D+	1.3 points
B+	3.3 points	D	1.0 points
B	3.0 points	D-	0.7 points
B-	2.7 points	F	0 points

Pass/No Pass Grading

Courses that are Pass/No Pass Only or provide students the option of selecting Pass/No Pass in lieu of a letter grade are so designated in the schedule description. Courses without such information are letter grade only. Pass/No Pass must be elected before the last day to add for the session.

Petitions for Grade Changes

Students have two (2) years following the semester in which a questioned grade was recorded to request a change of grade. A petition is required to change a failing grade to a Withdrawal (W), Excused Withdrawal (EW), or to request a removal of a grade through the Office of Admissions and Records. This petition process must be completed within two years of the date the original grade was issued.

Students who wish to challenge a letter grade must do so through the grade grievance process, facilitated by the Office of Student Support Services. Petitions must be submitted within six (6) months of the date the final grade was issued.

Access to Grades

Students may access grade information for the term just completed by visiting the MyChaffey Portal. Please allow 10 business days after the last day of instruction for processing.

Degrees and Certificates

The deadline to apply for summer degrees and certificates is July 2, and November 13 for fall degrees and certificates.

To participate in the May 2027 commencement ceremony, you must receive your degree or certificate in summer 2026, fall 2026, or spring 2027.

Apply for graduation online by logging onto MyChaffey Portal. For graduation verification and application assistance contact the Academic and Career Counseling Department at (909) 652-6200 or counseling@chaffey.edu.

Degree candidates must complete 60 degree-applicable semester units with a minimum 2.0 degree applicable cumulative grade point average (GPA), and must meet all graduation requirements as stated in the Chaffey College Catalog. Students with a cumulative 3.5 GPA or above in degree applicable units will graduate with honors. The GPA for honors at commencement is computed after the fall semester grades are recorded on the transcript.

Non-Traditional Credit

Students may be eligible to receive college credit by passing a written examination or demonstrating proficiency via another approved method that shows mastery of a course's objectives. Approved testing methods include Credit for Prior Learning, College Level Examination Program (CLEP), College Entrance Examination Board Advanced Placement (AP) and International Baccalaureate (IB) tests. Unit credit is recognized for AP tests in which a score of 3, 4, or 5 is awarded; more information is available in the Academic and Career Counseling Office. Refer to the college catalog for more nontraditional credit information.

Transcripts

Chaffey College has appointed Parchment as the designated agent for processing and sending official transcripts on behalf of Chaffey College. The PDF transcript that is produced using this service contains the identical information as the printed transcript and can be certified as unaltered by uploading the file to the company's website that is provided during the delivery process. Parchment has been granted the authority to deliver all such electronic transcript requests on behalf of Chaffey College and respond to any inquiries regarding the transactions. Students will be given an option to select the PDF transcript or the standard printed transcript during the ordering process.

To order a transcript, visit Chaffey's Parchment order form online.

Unofficial Transcripts

For a printout of unofficial transcripts, go to the MyChaffey Portal, click the "Self-Service" link under the Shortcuts panel, then click on Unofficial Transcript.

Unit Evaluation

A unit evaluation determines the total number of degree applicable units that Chaffey College will accept from a regionally accredited external college or university. It is **not** a course-by-course evaluation and **does not** clear prerequisites. The only students who require an immediate unit evaluation are veterans and those who are applying to the ADN and RT programs. Health Science evaluations will be expedited only during the application period for the program. If you are a veteran and need a unit evaluation, please contact the Admissions and Records Office at (909) 652-6600 or admissions@chaffey.edu for details. For these specific programs, the evaluation will be completed in approximately 15 business days from the date the Unit Evaluation Request form is received by the Admissions and Records Office.

Students who are not part of the above-mentioned groups may submit a Unit Evaluation Request at any time during a term. Processing time is 4-6 weeks, depending on workload. Contact the Admissions and Records Office at (909) 652-6600 or admissions@chaffey.edu for more details.

Official Evaluation of Credit Completed at Other Schools

Students who have completed coursework at other institutions and wish to obtain a degree or certificate from Chaffey College or transfer to a CSU or UC, may request an official evaluation through the Academic and Career Counseling Department. To have your general education coursework from another college evaluated:

1. Submit official transcripts from other schools to Admissions and Records electronically, by mail, or in person;
2. Allow a minimum of 10 business days for the transcripts to be received and processed at Chaffey College;
3. Depending on your academic goal, complete one of the following steps:
   a) Complete the Transcript Evaluation Request form if you are pursuing a transfer pathway with or without an associate degree for transfer. You will receive an email once this is completed. After receiving a confirmation email that your transcripts have been evaluated, book an online appointment with a counselor.
   b) Make an appointment to meet with a counselor if you have a bachelor's degree or higher and/or your goal is one of the following:
      - Completion of a certificate and/or non-transfer associate degree
      - Interest in applying to Chaffey College's ADN, LVN, RT, or PTA programs

Transcript Evaluation Services for Foreign Transcripts

Chaffey College accepts the following Transcript Evaluation Services for foreign transcripts:

- Academic and Professional International Evaluations, Inc. (APIE)
- Academic Credentials Evaluation Institute (ACEI)
- Arizona International Credential Evaluators
- Educational Credential Evaluators, Inc.
- Educational Records Evaluation Service (ERES)
- International Education Research Foundation, Inc. (IERF)
- SpanTran: The Evaluation Company
- World Education Services, Inc. (WES)

Note: Credits from an evaluation service are counted as earned credits only. Grade point averages from foreign institutions are not included on the Chaffey academic transcript. For specific information, contact the Admissions and Records Office.

Limitations on Enrollment

Prerequisites and Enforcement

When a course has a prerequisite, it means that a student must possess a certain body of knowledge to be successful in the course. The preexisting knowledge may be a skill, an ability, a placement preparation score, or successful completion of a course. Completion of a prerequisite course requires a grade of C or better, CR (credit) or P (pass). A grade of "C-" is not acceptable for completion of a prerequisite/corequisite course.

When a course has a corequisite, it means that the student is required to take a course at the same time as another course. Knowing the information presented in the corequisite is considered necessary for the student to be successful in the course.

Chaffey's registration process allows for automated prerequisite/corequisite checking. Students attempting to enroll in the computer-checked courses will be blocked from registration if they do not meet the specified prerequisites. Students are responsible for meeting prerequisites as stated in the schedule of classes and college catalog. See a counselor for assistance in determining eligibility for a specific class.

Any student who has completed prerequisite and/or corequisite courses at another college or in high school must submit official transcripts to the Admissions and Records Office. A Request for Prerequisite/Corequisite Clearance form must be completed and submitted to the Academic and Career Counseling Department. The student will be unable to register for specific courses if prerequisites are not met. The student will receive notification by email or mail within a week upon processing.

Students who are enrolled in the prerequisite course at Chaffey at the time of their registration will be permitted to enroll in the subsequent course. Students who do not pass the prerequisite course with at least a grade of C or do not complete the prerequisite course will be dropped prior to the start of classes by the Admissions & Records Office.

Any student planning to clear a math prerequisite for a math course by using their high school transcript must complete a clearance form. See prerequisite/corequisite clearance instructions for more details.

Prerequisite/Corequisite Clearance:

Prerequisites for courses will be enforced according to college policy. Students have the right to challenge prerequisites on the following grounds:

1. A prerequisite for a course necessary for graduation, transfer, or a certificate is not offered and the unavailability of that prerequisite poses a hardship.
2. The prerequisite has not been validated.
3. The student has the knowledge or ability to succeed in the course despite not meeting the prerequisite.
4. The prerequisite is discriminatory or being applied in a discriminatory manner.

The student must provide appropriate documentation when filing a clearance. Documentation may include, but is not limited to, official high school or college transcripts, additional test results, work experience, or writing sample. Prior enrollment in the course does not exempt a student from the current prerequisite of that course. Students challenging a prerequisite must submit a

Prerequisite/Corequisite Clearance form. The form must be submitted ideally up to one week prior to the beginning of each term.

Prerequisite/Corequisite Clearance Process:

1. It is advised that you meet with a counselor to assess whether you will benefit from the clearance process.
2. Complete the Prerequisite/Corequisite Clearance form linked below and attach documentation to establish your right to challenge this prerequisite/ corequisite request. Examples of documentation include official high school and/or college transcripts, international transcripts, certificates, test scores, etc. All official transcripts must be on file with Admissions and Records.
   a) Identify the course in which you wish to register and the prerequisite/corequisite you wish to challenge.
   b) If you are attempting to use high school coursework to meet a course prerequisite, submit your high school transcript to Admissions and Records in order to verify the coursework completed.
3. Register during the registration period. (Refer to class schedule for the last day to add.)
4. The department coordinator will resolve the clearance within five (5) business days.
5. For approved clearance decisions, you will be notified by email and you will be allowed to remain in the class.
6. For denied clearance decisions, you will be notified by email, the Academic and Career Counseling Department designee will remove the prerequisite/corequisite course entered on your record, the Admissions Office will drop you from the class, and the Cashier's Office will process your refund.
7. If you wish to appeal the denied decision, you may do so by contacting the Dean in the school/department for the prerequisite you have challenged.

The Prerequisite/Corequisite Clearance form is available online. Additional information is available through the Counseling Department webpage. Questions should be directed to counseling@chaffey.edu or by joining the Counseling Staff Support Lobby online.

Corequisites

When a course has a corequisite, it means that a student is required to take a course at the same time as another course. Knowing the information presented in the corequisite course is considered necessary for a student to be successful in the course. Students wishing to challenge a corequisite should follow the same procedure for challenging a prerequisite.

Limitation on Enrollment

A limitation on enrollment is a non-course requirement for entry into a course or educational program, without which a student will not be permitted to remain in the selected course or program. These requirements are frequently (but not always) driven by health and safety regulations and/or mandates by outside accrediting/licensing agencies.

Advisory

An advisory is a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program. Since an advisory is not required, students will not be blocked from enrolling in a class if they do not meet the conditions of the advisory.

Student Rights, Responsibilities and Exemptions

Students Rights and Responsibilities

Students are entitled to certain rights under matriculation procedures. These rights include: being informed of any district investigations of complaints challenging matriculation regulations; being provided alternative services according to language or disability needs; and filing a complaint of unlawful discrimination if they feel the placement process, orientation, counseling or any other matriculation procedure is being applied in a discriminatory manner.

Matriculation requirements also include certain student responsibilities. Upon admission to the college, students must express a broad educational goal and provide transcripts from previous college work. They must complete the placement process and orientation prior to registering for classes and must develop a comprehensive Student Education Plan (SEP) with a counselor within their first six months at Chaffey. Students are responsible for attending class, completing their assignments and coursework, and maintaining progress toward their educational goal.

Exemptions and Refusal

Students may be exempt from matriculation services if they:

- Have earned an associate degree or higher (diploma or transcripts required), or
- Have completed certain coursework at another college (transcripts required), or
- Will enroll in one course only, with no intention of earning a degree at Chaffey, or
- Will enroll in performance/activity courses only.

Students have the right to refuse matriculation services and choose not to participate in the placement process, orientation, and/or counseling. A student wishing to be exempt from these services based on one of the above criteria or wishing to decline participation must contact the Counseling Department to complete the necessary documentation. Students concurrently enrolled in high school and participating in High School Dual Enrollment are not eligible for exemptions and cannot refuse matriculation services. Students refusing services and concurrently enrolled high school students are not eligible for priority registration.

Photo ID Cards

All enrolled students are eligible for a Chaffey College photo ID card. Photo ID cards are required for use of labs, library, and other services. Students must be currently enrolled and have paid all outstanding fees in order to receive a Photo ID or reprint. Photo IDs are issued while you wait in the Admissions and Records Offices at the Rancho, Chino, or Fontana campuses.

Photo IDs may now be requested online through the Student ID form on the MyChaffey Portal. Students may upload a personal photo to the order form and request the ID card be picked up or sent by U.S. mail.

Photo ID Re-Print Policy

Re-prints are available at no cost on Thursdays only during regular business hours. There is an $8 rush fee for reprints processed on any day other than Thursday.

In person

- Show proof of government-issued photo ID.
- Pay any outstanding balance.

Online

- Pay any outstanding balance.
- Complete the Photo ID request form on the MyChaffey Portal.
- The photo on file will be used to create the duplicate card. If an alternate photo is submitted it will be used only if Admissions and Records determine there has been a significant change in the student's appearance.

Note: All picture submitted for Photo ID purposes must adhere to guidelines on the request form. Admissions and Records reserve the right to reject any photo that is inappropriate or does not follow guidelines.

Proxy Transactions and Identification Requirements

A student who is unable to initiate a transaction may designate an appointed person to complete the transaction by submitting a Proxy Transaction Form. Proxy forms are available in the Admissions and Records Office.

The Proxy Transaction form must include all of the following: student's full name, Chaffey ID number, and date of birth; name of the appointed person; a description of the transaction needed; signature of the student; and a copy of the student's picture identification with a signature. (Ed Code 76243)

The appointed person will be required to provide photographic identification before the transaction can be completed. With the exception of transcripts and enrollment verifications, Admissions and Records will mail a copy of the requested transaction directly to the student; a copy will not be released to the appointed person.

Release of Information

Students who wish to make their information available to parents or other designated individuals may file a Release of Information Form with the Admissions & Records Office. The authorization is valid until revoked in writing and covers only the educational records specified by the student. This form is for educational records protected under FERPA and is not valid for medical or other records protected under HIPAA or other privacy laws.

Registration Date Assignment

Registration priority will be assigned in the following order:

1. Students who have completed orientation, the placement process, and an education plan, and are enrolled in and receiving services from an eligible priority group as defined by Education Code 66025 and title 5, section 58108.
2. Students who have completed orientation, the placement process, and an education plan. Continuing and returning students must also be in good academic standing.
3. Students who fail to meet one or more eligibility requirements.
4. Students who have completed more than 100 units and/or have received a bachelor's degree.
5. High school and adult education students.

Course Repetition

Repetition of courses is allowed in certain circumstances (title 5, 55040-55046, 58161, 58161.7 and Chaffey College Board Policy).

Course Repetition in a Non-Repeatable Course

1. Students who received a satisfactory grade ("A", "B", "C", "CR", or "P") may not normally repeat the course. Exceptions exist for significant lapse of time, extenuating circumstances, and legally-mandated training requirements as a condition of continued paid or volunteer employment (see exceptions below for details). Such exceptions require a petition, available from the Admissions and Records Office.
2. Students who have received an incomplete grade ("I") may not repeat the course. Required coursework must be completed within one year, or the "I" grade will default to an alternate grade indicated by the instructor (usually substandard).
3. Students who have received an In-Progress grade ("IP") must repeat the course by enrolling in it in the subsequent term (excluding summer). Coursework must be completed in that semester or the "IP" grade will default to an alternate grade indicated by the instructor (usually substandard). "IP" grades are issued for open-entry classes that extend past the end of the term or team-sports that have seasons that overlap semesters. The IP grade issued in the first semester will remain on the student's transcript and the course grade will be recorded in the subsequent term.

4. Students who have received an unsatisfactory grade ("D", "F", "FW", "NC", or "NP") or have withdrawn from the course ("W") may repeat the course once. If unsuccessful in the second attempt, the student must file a Petition for Substandard Grade (3rd Attempt) to be considered for a third attempt at the course. Petitions are available in the MyChaffey Portal under Academic Progress Forms. To be considered for a fourth attempt, contact the Admissions and Records Office regarding an extenuating circumstances petition. The academic dean over the subject area being petitioned evaluates and approves/denies each petition on a case-by-case basis. The Admissions and Records Office reserve the right to deny a petition that does not meet the standards set by title 5 of the California Code of regulations.
5. Students who have withdrawn for verified military service - military withdrawal ("MW"), or petitioned for an excused withdrawal ("EW"), may repeat courses from which they have withdrawn. The MW and EW grades do not affect GPA, nor do they count toward the permitted number of repetitions. The college's course repetition policy concerning military withdrawal may be different from that of the Veterans Administration. Students receiving Veterans' educational benefits should check with the Veterans Certifying Official in the Veteran's Resource Center before repeating any course.

Course Repetition in a Repeatable Course

Only courses involving Intercollegiate Academic or Athletic competition are repeatable (title 5, section 55041). These courses are identified as repeatable in their description and may be taken a maximum of four times (repeated three times).

1. All attempts at a repeatable course count in the limitation on repeats, including any that result in an unsatisfactory grade ("D", "F", "FW", "NC" and "NP") or a withdrawal annotation ("W") on the student's permanent record.
2. When a repeatable course is taken and a substandard grade ("D", "F", "FW", "NC", and "NP") is earned, a student may elect to have the satisfactory grade earned in the first subsequent repeat of the course alleviate the substandard grade. Forms for this election are available in the Admissions and Records Office.

Exceptions to Repetition Restrictions:

Significant Lapse of Time: A student may petition to repeat a course that is not designated as repeatable and in which he or she has received a satisfactory grade ("A", "B", "C", "CR", or "P") when:

1. there has been a significant lapse of time of no less than 36 months since that grade was obtained, **and**
2. the district has properly established a recency prerequisite for a course or program, or another institution of higher education to which the student seeks to transfer has established a recency requirement which the student will not be able to satisfy without the course in question (title 5, section 55043).

Extenuating circumstance: A student may petition to repeat a course in which the previous grade is, at least in part, the result of extenuating circumstances (verified cases of accidents, illness, or other circumstances beyond the control of the student) (title 5, section 55043).

Legally-Mandated Training Requirement: A student may petition to repeat a course in which a satisfactory grade was previously earned and such repetition is necessary due to a change in industry licensure standards such that repetition of the course is necessary for employment or licensure.

Residency Determination

Residency status for tuition purposes is determined at the time of application. Students determined to be non-resident at the time of application are notified by email with instructions to complete a Residency Questionnaire (title 5, sections 54012, 54045.5). Upon review of the questionnaire by Admissions and Records staff, students will be informed of any additional documentation required to be submitted.

Resident: A person not precluded from establishing residence in California who has resided in California for at least one year and one day prior to the first day of instruction for the term. Any person who has lived in California for less than two (2) years must clearly demonstrate the following:

- Intent to make California his/her permanent residence (title 5, section 54024)
- Physical presence in California for at least one year and one day immediately prior to the first day of instruction for the term. (title 5, section 54022)

Physical presence within the state solely for educational purposes does not constitute establishing California residence regardless of the length of that presence.

Non-Resident: (a) a citizen or permanent resident of the United States but a resident of California for less than one year on the day before the first day of instruction for the term; (b) a person who is neither a citizen nor permanent resident of the United States.

Persons who are not citizens or permanent residents of the United States who wish to enroll at Chaffey College should contact the Admissions and Records Office for further information.

Reclassification of Residency: Students who have been classified as non-residents are not automatically reclassified as residents. A student seeking reclassification as a resident must meet the requirements for intent, physical presence, and financial independence in accordance with Education Code section 68044. Residency regulations clearly state that the burden of proof of residence rests upon the applicant or student. To verify your residency status, please contact the Admissions and Records Office at (909) 652-6600 or online through ConexED during business hours.

AB 540 Non-Resident Tuition Exemption Request

A student who qualifies for the Non-Resident Tuition Exemption will not have to pay the non-resident tuition fee. The qualifications for the waiver are stated below.

A student other than a non-immigrant alien within the meaning of paragraph (15) of subsection (a) of Section 1101 of Title 8 of the United States Code, who meets all of the following requirements shall be exempt from paying nonresident tuition at Chaffey College:

Requirement 1: Attendance at California schools.
Two paths (Education Code 68130.5(a)(1)):

1. Total attendance (or attainment of credits earned) in California equivalent to three or more years of full-time attendance at California high schools, California high schools established by the State Board of Education, California adult schools (established by a county office of education, a unified school district or high school district, or the Department of Corrections and Rehabilitation), campuses of the California Community Colleges, or a combination of these; or
2. Three or more years of full-time California high school coursework, and a total of three or more years of attendance in California elementary schools, California secondary schools, or a California elementary and secondary school.

Full-time attendance at a California community college means either 12 units of credit per semester (or quarter equivalent per year) or a minimum of 420 class hours per years (or semester of quarter equivalent per year) in non-credit courses authorized by Education Code 84757. Attendance in credit courses at a California community college counted towards this requirement shall not exceed a total of two years of full-time attendance (Education Code 68130.5, subds. (a)(1)(C)(i), (a)(1)(C)(ii)). Full-time attendance at a California adult school means a minimum of 420 class hours of attendance for each school year in classes or courses authorized by Education Code 41976, or Penal Codes 2053 or 2054.2 (Education Code 68130.5(a)(1)(C)(i)).

Requirement 2: Completion of a course of study.
This requirement may be met in any of the following ways:

- Graduation from a California high school or equivalent.
- Attainment of an associate degree from a California community college.
- Fulfillment of the minimum transfer requirements established for the University of California or the California State University for students transferring from a California community college (Education Code 68130.5(a)(2)).

Requirement 3: Registration.
Requires registration as an entering student at, or current enrollment at, an accredited institution of higher education in California (Education Code 68130.5(a)(3)).

Requirement 4: Affidavit of student without lawful immigration status.
Students without lawful immigration status must file an affidavit with their college or university stating that the student has either filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so (Education Code 68130.5(a)(4)).

A student who meets the qualifications for the Non-Resident Tuition Exemption Request is not a resident of the state of California until he or she meets physical presence and intent requirements as stated in the "Residency Determination" section above. Therefore, students may not be eligible for any federal or state supported financial aid. There are two types of non-resident students: a non-resident U.S. citizen and a non-resident alien (or non-citizen). Non-resident U.S. citizens may not be eligible for state supported financial aid. A nonresident alien may be eligible for state financial aid. Contact the Financial Aid Office for more information at (909) 652-6199 or financialaid@chaffey.edu .

Special Immigrant Visas

Education Code section 68075.6 grants an immediate nonresident tuition fee exemption to eligible Special Immigrant Visa (SIV) holders and refugee students who settled in California upon entering the United States. This exemption is granted for one year from the date the student settled in California upon entering the United States.

The exemption applies to the following:

- Iraqi citizens or nationals (and their spouses and children) who were employed by or on behalf of the United States Government in Iraq (Pub. L. No. 110-181, section 1244)
- Afghan and Iraqi translators (and their spouses and children) who worked directly with the United States Armed Forces (Pub. L. No. 109-163, section 1059)
- Afghanistan nationals who were employed by or on behalf of the U.S. government or in the International Security Assistance Force (ISAF) in Afghanistan (Pub. L. No. 111-8, section 602)
- Refugee students admitted to the United States under section 1157 of Title 8 of the United States Code

Student Services

Academic and Career Counseling

Throughout the year, Counselors are available in person and online to assist students in developing an education plan that outlines the courses and services necessary to achieve their goals. Students may meet with a counselor by chat, drop-in, or appointment via the online Counseling webpage. Students who plan to transfer to a four-year college or university are strongly encouraged to consult with a counselor on a regular basis regarding requirements for general education, major preparation, and grade and unit requirements. In addition, students should also connect with the Transfer and Career Center as early as possible for important dates and deadlines.

Course Evaluation of External Transcripts

Students who have completed course work at other institutions and wish to obtain a transfer degree from Chaffey College or transfer to a CSU or UC must request an official evaluation of their transcript(s) by completing the Transcript Evaluation Request Form. Students interested in completing a certificate and/or non-transfer associate degree, or who have earned a bachelor's degree or higher, do not need to have their courses evaluated. Students may proceed to meet with a counselor once transcripts have been received by the Admissions and Records Office.

Student Planning

Student Planning is an online tool that will facilitate the way you plan, schedule and register for your classes based on your active Program of Study/Major at Chaffey. With Student Planning, you can review all courses you have completed and that are in-progress at Chaffey, show which requirements (general education, and/or major preparation) you have completed, and indicate which requirements are remaining. This will allow you to plan and register for the correct classes for future terms and get you to your educational goal efficiently. Log in to the MyChaffey Portal to access your education plan.

Athletics

Chaffey Community College participates in the following sports:

Men: Football, Basketball, Swimming & Diving, Baseball, Cross Country, Soccer, and Water Polo

Women: Volleyball, Basketball, Swimming & Diving, Softball, Cross Country, Soccer, and Water Polo

Twelve units of course work are required for participation. See the Chaffey Panthers webpage and make an appointment with an Athletic Counselor for eligibility requirements.

CalWORKs Programs for Parents

CalWORKs (California Work Opportunity Responsibility to Kids) Program for Parents is a program that supports students who receive public assistance (cash aid) while attending Chaffey College. Program staff are here to help students succeed in their educational and career goals through services such as: developing a comprehensive educational plan, priority registration, CalWORKs Work Study and job placement, work readiness support, personal and professional development workshops, assistance with completing county documentation related to their education, advocacy for their continued education and success, referrals for additional academic support, and many more services. The office for the CalWORKs Program for Parents is located in the Administration (AD) building, Room 190. For more information visit the CalWORKs webpage or call (909) 652-6045.

Career Services and Student Employment Office

Chaffey College is committed to expanding opportunities to help students and alumni reach their career goals. Career Services offers student employment services, assessments, and other career planning resources. In-person services are not currently available while the office undergoes relocation. To reach Career Services, visit Career Services online, email careercenter@chaffey.edu, or call (909) 652-6233.

The Student Employment Office manages Chaffey's online career services portal and offers a variety of employer services to local organizations including job announcements and on-campus recruiting opportunities. This office also serves as the personnel office for all on-campus student positions and provides assistance with employment requirements, new hire processes, employment verifications, and training. While in-person services are temporarily unavailable the Student Employment Office can be reached via email at careercenter@chaffey.edu, or during normal business hours at (909) 652-6233.

Student Employment Program Eligibility Requirements

Chaffey College is a learning-centered environment where student success is highly valued, supported, and assessed. As such, the Student Employment Office monitors the academic success of current student employees and enforces the following procedures:

To apply for student employee positions, new and returning students must be actively enrolled in at least 6 units for fall and spring semesters or 3 units for summer sessions. Active enrollment means actively attending and participating in classes. Applicants must also have a cumulative GPA of at least 2.0 at the time of application.

While employed, student employees must maintain enrollment in at least 6 units during fall and spring semesters (summer enrollment is not required for continuing students) and a cumulative GPA of at least 2.0. Failure to maintain the required enrollment and/or GPA requirement will result in termination of the student employee's position.

Center for Culture and Social Justice (CCSJ)

The Center for Culture and Social Justice (CCSJ), located at the Rancho Cucamonga campus in Campus Center East (CCE), Room 100, is a culturally conscious safe-haven dedicated to cultivating socially responsive leaders. Unwaveringly committed to fostering solidarity and amplifying the student voice, the CCSJ will evolve with the needs of our student population, always seeking to empower, inspire, and encircle the Panther community. You can find our upcoming programs and events on the Center for Culture and Social Justice webpage.

Disability Programs and Services (DPS)

Disability Programs and Services (DPS) is a state funded program designed to assist those students with physical, psychological, or learning disabilities. Services are offered to help students circumvent their functional limitations and become active, productive members of the college community. The program emphasizes independence and self-reliance while providing the support necessary for individuals to achieve their goals. The program is open to any student who has a verifiable physical, psychological, or learning developmental disability, either temporary or permanent, which causes educational limitations.

DPS is located at the Rancho Cucamonga campus in the Administration (AD) building, Room 109. Limited services are available at both the Chino and Fontana Campuses. For more information, please call (909) 652-6379 or visit the DPS webpage.

EOPS, CARE, & NextUp

Extended Opportunity Programs & Services (EOPS) is a state funded counseling program that provides "over and above" academic, personal and financial support to qualified community college students whose educational and socioeconomic backgrounds might prevent them from successfully attending college. Services provided are specifically designed for under-represented students with the ultimate goal being completion of a certificate program, an associate degree, and/or transfer to a four-year university.

Cooperative Agencies Resources for Education (CARE) is a program that provides additional educational counseling support to meet the unique needs of single parents. CARE is open to students who are eligible for EOPS, are single parents, and receive TANF/CalWORKs assistance.

NextUp, formerly known as CAFYES (Cooperating Agencies Foster Youth Educational Support), is a supplemental component of EOPS. NextUp identifies and addresses barriers that current and former foster youth face. NextUp supports the health and well-being of current and former foster youth students and their academic success by providing extra “over and above” specialized services. The program offers eligible current and former foster youth support and services that may include assistance with books, supplies, transportation, technology, and housing referrals. Students interested in joining or learning more about foster youth related services may complete the Unified Foster Youth Services Application.

For locations, hours, and more information about these programs, visit the EOPS webpage, email eops@chaffey.edu, or call (909) 652-6349.

Financial Aid

The Financial Aid Office administers a number of programs funded by federal, state and private sources designed to help students with limited resources meet their educational expenses. Awards may come from one or more or any combination of grants, scholarships, or federal work study. All students may be eligible for some form of assistance based on their financial need and may apply for aid by filing a Free Application for Federal Student Aid (FAFSA).

How and When to Apply

Students who are a permanent resident or citizen of the United States are eligible to apply through the FAFSA online at https://studentaid.gov/h/apply-for-aid/fafsa. To be considered for financial aid, students must complete the FAFSA each academic year.

Students can apply for financial aid as early as October 1 for the new academic year. The ideal time to apply is between October 1 and March 2 to ensure your application is processed in a timely manner in preparation for summer, fall, and spring terms. The priority deadline to apply is March 2; however, you can still apply after this date. Filing after the priority deadline may make students ineligible for certain types of aid. If you are planning on attending Chaffey College, you will need to indicate Chaffey College’s school code of 001163 on your FAFSA.

The information reported on the FAFSA may be verified by the Financial Aid Office using parent and/or student federal income tax information. Other documents may also be requested such as a copy of the Alien Registration card (if applicable) or other types of documents needed to verify or resolve conflicting data.

Recipients of aid from Federal and State funded programs must be students enrolled in eligible programs of study for the purpose of obtaining a degree, an approved Title IV certificate, or transfer. In addition to financial need, other eligibility requirements for most Federal and State programs include:

1. Having a high school diploma or equivalent such as a GED.
2. Being a U.S. citizen or eligible non-citizen.
3. Maintaining satisfactory progress in accordance with the standards.
4. Not be in default on a federal loan or owe a grant overpayment.

California Dream Act Application (CADAA) (AB 540)

Students who meet the AB 540 nonresident tuition exemption are eligible to apply for state financial aid through the California Dream Act Application online. Students who are eligible to complete the FAFSA should not complete the CADAA. To be considered for financial aid, students must complete the CADAA each academic year. This application is typically available beginning in October for the following academic year.

The CADAA applies for the following State programs:

- Panther Promise
- California College Promise Grant (CCPG) (formerly BOG fee waiver)
- State Cal Grants
- Need-based scholarships

The information reported on the application may be verified by the Financial Aid Office using parent and/or student federal income tax information. Other documents may also be requested to verify or resolve conflicting data.

Recipients of aid from state-funded programs must be students enrolled in eligible programs of study for the purpose of obtaining a degree, certificate, or transfer. In addition to financial need, other eligibility requirements for state programs include:

1. Having a high school diploma or equivalent such as a GED.
2. Being an AB 540 resident.
3. Maintaining satisfactory progress in accordance with the standards.
4. Not owe a grant overpayment.

Fee Waivers

There are several ways for students to reduce their college fees. Visit the college's Types of Financial Aid webpage for more information.

California College Promise Grant (CCPG) (Formerly BOGFW)

The majority of Chaffey College students are eligible for the CCPG Grant, which is available to California residents and AB 540 students who meet specific income eligibility requirements. The CCPG waives mandatory enrollment cost per unit. There are no minimum or maximum unit requirements. If you qualify for the Promise Grant your per-unit enrollment fees are waived and you will be responsible for a portion of the Student Health fees, all other fees, and any materials fees which apply. The CCPG is valid for the entire academic year beginning with the summer term and ending with the following spring semester. The best way to determine your eligibility for the Promise Grant is to complete the FAFSA or California Dream Application (only for AB 540 students).

CCPG Policy

Under State regulations, once you have qualified for the CCPG, it is important to ensure that you meet the academic and progress standards to avoid losing the fee waiver. Students must:

- Maintain a cumulative GPA of 2.0
- Successfully complete at least 50% of all units attempted

Students will lose eligibility for the CCPG if they are on academic probation for two consecutive primary terms (fall and spring semesters are primary terms). Loss of eligibility will become effective at the first registration opportunity after such determination is made. Students with extenuating circumstances will have the opportunity to appeal the loss of the CCPG.

Students will lose eligibility for the California Promise Grant if they are on academic probation for two consecutive primary terms (fall and spring semesters are primary terms). Loss of eligibility will become effective at the first registration opportunity after such determination is made.

Students with extenuating circumstances will have the opportunity to appeal the loss of the California Promise Grant (Formerly BOGFW).

Federal Pell Grants

Federal Pell Grants are need-based and awarded to every undergraduate student who qualifies. In most cases, these grants DO NOT need to be paid back. These grants may be used for tuition, fees, books, transportation, and living expenses. Initial awards are estimated based on the results of the FAFSA. Estimates will change if any criteria used to determine your eligibility, such as major, degree status, satisfactory academic progress, income or family information changes. Actual payment will not be determined until your file is completed and enrollment status is verified. The amount of the Pell Grant disbursed is based on your Expected Family Contribution and enrollment status. You may even receive a Pell Grant if you attend school less than half-time provided you are otherwise eligible.

Students are only eligible to receive a Pell Grant for 6 years (12 fulltime semesters). This includes all semesters the Pell Grant has been received during a student's educational lifetime. Students can view their current Pell Grant usage online at the U.S. Department of Education's Federal Student Aid website using the FSA ID to access grant history.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The Federal Supplemental Educational Opportunity Grant is a need-based federal grant available to undergraduate students with the highest need. Priority is given to Pell Grant recipients with a zero Expected Family Contribution (EFC) who meet the priority filing deadline (March 2).

Federal Work Study (FWS)

Federal Work Study is a need-based federally funded part-time employment program, which allows eligible students to earn money to help pay for educational expenses. Students may work up to 20 hours per week and earn a monthly paycheck. Federal Work Study awards are determined by financial need and are available to students enrolled in six (6) units or more per semester. FWS job listings are available online in Student Employment for eligible FWS students and are filled on a first-come, first-serve basis.

Cal Grants

Cal Grants are state funds awarded in addition to the Federal Pell Grant. Cal Grant recipients are selected by the California Student Aid Commission (CSAC). To apply, you must submit the FAFSA and a Cal Grant GPA Verification form to CSAC by the March 2nd priority deadline each year. The Chaffey College Office of Financial Aid will electronically submit GPAs for students who have completed at least 24 units at Chaffey College and have an established GPA. Students who do not meet this requirement must request that their previous college or high school submit their GPA to CSAC. Students who miss the March 2nd deadline have a second opportunity to apply for Cal Grants by filing the FAFSA and GPA Verification form by September 2nd. Additional eligibility requirements and program information are available from the California Student Aid Commission.

Cal Grant B provides low-income students with a living allowance and assistance with tuition and fees.

Cal Grant C assists students with tuition and training costs for technical, occupational, vocational or career training programs. Funding is available for up to two years, depending upon the length of the program. To qualify, you must enroll in an occupational, technical or vocational program that is at least four months long at a California Community College. To find out more information visit the California Student Aid Commission website.

Panther Promise

Chaffey College's Panther Promise provides the first two years of **FREE** tuition to all first-time full-time (enrolled in 12 units) college students. For eligibility requirements and to apply visit the Panther Promise webpage.

Chafee Grant

The California Chafee Grant Program awards up to $5,000 annually to eligible foster youth and former foster youth between the ages of 16 and 22 years to use for college courses or vocational school training. The Financial Aid Office disburses Chafee Grant in accordance with the regulatory statutes of this program. For more information visit the Chafee Grant website.

Student Success Completion Grant (SSCG)

The Student Success Completion Grant is a California Community College financial aid program for students who receive a Cal Grant B or Cal Grant C and who are enrolled at least full time (12+ units). The SSCG provides additional financial assistance to students attending at least 12 to 15 units per semester (24 to 30 plus units per academic year). Students will be automatically reviewed for eligibility for the SSCG. Eligible students may receive $2,596 annually if enrolled in 12 to 14.99 units per term, or up to $4,000 per semester ($8,000 per year) if enrolled in 15 or more units per term. Eligibility criteria include:

- Must be a Cal Grant B or C recipient that received a full-time Cal Grant payment
- Must be enrolled full-time (12 units or more)
- Must be meeting Federal Satisfactory Academic Progress (SAP) standards
- Must have unmet need to receive the SSCG

Student with Dependent Children Grant

Students attending a UC, CSU, or CCC who have dependent children, receiving more than half of their support from you and who are under the age of 18, may be eligible to receive an access award of up to $6,000 for eligible Cal Grant B or up to $4,000 for eligible Cal Grant C recipients. The award amounts will be prorated to be consistent with the students' enrollment status: full-time, three-quarter-time, half-time.

Scholarships

Scholarships are usually, but not always, based on a combination of need and merit. Some scholarships are based on your major, community service, educational goals, or other criteria. It is free money that does not need to be paid back. Scholarship applications are available at the Chaffey College Foundation Office and through the Office of Student Life.

Important Facts

In the event that a financial aid applicant at Chaffey College enrolls in coursework and then completely withdraws from all coursework may be subject to repayment of Federal Financial Aid funds. In this case, a student will be billed for the amount of aid that must be repaid, and holds will be placed on your record until the overpayment is resolved. If you have a reduction in units after receiving a disbursement, you may enter into an over award status which will result in financial assistance funds having to be repaid.

Foundation

Each year the Chaffey College Foundation awards scholarships to deserving students. The Chaffey College Foundation facilitates a variety of scholarship awards including merit-based, discipline/major, academic, co-curricular activities and community service; for which students are able to apply during the first two weeks of the fall and spring semesters. For more information and to access the scholarship application visit the Foundation webpage, email foundation@chaffey.edu, or call (909) 652-6545.

GPS (Guiding Panthers To Success) Centers

The GPS Centers support student success and achievements by providing new and returning students with registration assistance using Self-Service, development of an Educational

Plan, unit load planning, navigation of the MyChaffey Portal, academic progress checks, campus resources, and many other services. The centers are staffed with Counseling faculty and Success Guides. Virtual walk-in services are available Monday-Friday and can be accessed online through the Guiding Panthers to Success Centers Lobby. For more information visit the GPS webpage.

Independent Scholars Program

Independent Scholars Program is a Counseling support program aimed at providing unique and personalized educational services to current and former Foster Youth (this includes Chaffey College students who are currently in Foster Care as well as those who are emancipated Foster Youth and who are 24 years of age or younger). Program participants are eligible to receive priority registration, assistance in purchasing books and supplies, individual counseling support, mentoring, referrals to community and campus resources, and much more. Students may visit the Independent Scholars webpage for further information.

International Student Center

An international student (F-1 visa) is defined as a student who has entered the United States temporarily and solely for the purpose of study and has a permanent residence in another country that he or she has no intention of abandoning. Individuals on a B-1/B-2 Visitor's Visa may not enroll in classes at Chaffey College. In addition, prospective students holding visas such as J-1, H-4, or F-2 may obtain information from the International Student Center. A variety of services are provided to international students, including academic guidance, F-1 Visa/Immigration information, career development, housing homestay referrals, and other services to meet the unique needs of international students in adjusting to college life in the United States.

The International Student Center staff warmly welcomes high school, transfer and new international students from all over the globe. For office hours and more information visit the International Student Center webpage, email international@chaffey.edu, or call (909) 652-6195.

Library

The Chaffey College Library has branches at the Chino, Fontana, and Rancho Cucamonga campuses. Visit the Library website for current hours. The Library provides access to over two dozen databases that include magazine, newspaper, journal and encyclopedias in full-text format. These are available 24/7 via the Chaffey College Library homepage to current students, staff, and faculty at Chaffey College. A valid Chaffey ID in good condition is required to check-out items, including reserve materials. Please consult our website or contact us for more information regarding our services and resources.

Panther Care

Panther Care serves as a comprehensive basic needs and wellness center at Chaffey College, providing essential support to all students regardless of their socio-economic status through state funding and donations. The center focuses on addressing fundamental student needs so they can fully concentrate on their academic pursuits without worry. Services include access to food, snacks, hygiene products, and emergency situation referrals. Located in the Administration Building, Room 189 (AD-189), also known as Panther Essentials, the program makes accessibility a priority by requiring only a student ID number for enrollment. Panther Care extends its reach through drive-thru pantries at all three Chaffey College campuses. Additionally, the program serves the broader community through farmers markets provided by Heritage Farms, offering students the opportunity to purchase locally produced fresh fruits and vegetables. Through Panther Care, Chaffey College demonstrates its commitment to student success by ensuring that basic needs don't become obstacles to educational achievement.

Placement

California Assembly Bill (AB) 705 gives students the opportunity to enroll directly in transfer-level math and English courses. We are confident that our students can succeed in these courses, and additional support is provided to assist with completion through our Success Centers.

The placement process is a free, computerized placement tool that uses multiple measures, such as high school performance information, to place a student in math and English courses. The math and English placement process is a part of the application process. All new students will be placed in math and English after applying to Chaffey and can review or retake the placement via Self-Service online. Language prerequisite challenge exams are administered after the student has met with a counselor to determine if the student will benefit from the challenge process. For guidance in choosing an ESL course, students should visit a counselor or the ESL webpage for information about each level. Further information about the placement process can be found on the Orientation and Placement webpage.

Social Wellness and Behavioral Support

Chaffey College is dedicated to promoting the mental and emotional well-being of its students. With nearly 1 in 3 college students nationwide reporting significant mental health challenges (Healthy Minds Network, 2024), our Social Wellness and Behavioral Support (SWBS) program provides accessible, strength-based services to help students stay safe, focused, and connected. SWBS offers short-term individual and group counseling, crisis intervention, safety planning, mental health assessments, and psychoeducational workshops. The program also helps coordinate care and connect students with both on-campus and community resources. Licensed and pre-licensed clinicians use a solution-focused approach to address immediate concerns and build coping strategies. Students are encouraged to reach out early because mental health matters and support is available.

The Social Wellness and Behavioral Support team is located in the Child Development Center (CDC-C) building on the Rancho Campus. For more information and office hours, visit the Social Wellness and Behavioral Support webpage. For general inquiries, call (909) 652-6510, or email social.wellness@chaffey.edu.

Student Health Services

Student Health Services is dedicated to assisting students achieve and maintain optimal physical health, by providing quality healthcare at a reasonable cost. The Health Fee charged each semester entitles all currently enrolled students to be seen by a doctor, nurse practitioner, or registered nurse. A variety of free services are available to students; some services may require a fee. A nurse is on staff at the Rancho Campus Monday through Friday to answer questions.

Student Health Service clinics are located at the Rancho and Chino campuses. The Student Health Services clinic on the Rancho Campus is temporarily located in CDC-A; call (909) 652-6331 for appointments. The Student Health Services clinic on the Chino Campus is located in CHMB-105; call (909) 652-8190 for appointments. For information about the Student Health Services clinic on the Chino Campus, call (909) 652-6331.

Student Life

The Office of Student Life is the place students go to get help and to get involved. We are committed to complementing the academic curriculum in the development of the whole student within a diverse campus community by offering opportunities and services to support, engage, and empower our students to get the most out of their time at Chaffey. We are always happy to help in any way we can!

The Office of Student Life is located in Campus Center East (CCE-124) on the Rancho Campus. The office publishes the annual Student Planner and Handbook in the fall term and oversees student elections. The office supports student government and all other student organizations and oversees a student lounge. Students interested in getting involved on campus are invited to visit the office or study and relax between classes in the lounge. Follow us on social media to stay connected!

- Instagram: @chaffeystudentlife

Chaffey College Student Government (CCSG)

Chaffey College Student Government is the college student government. CCSG is supported by students and is for the benefit of students. The College Services Fee of $8.00 per semester ($5.00 for summer session) funds CCSG sponsored programs and activities, including scholarships (please check your Chaffey College issued Panther email for information; scholarships are awarded in the spring term), annual book grants, lectures, cultural events, service projects for students and community, giveaways, the textbook rental program that is administered in the Chaffey College Campus Store, and more. The College Services Fee is an optional fee endorsed by CCSG annually and is approved by the college Governing Board. Individuals who wish to learn more about the College Services Fee, including its benefits to students and service to the community may contact CCSG for more information. Students who wish to be exempt from paying the College Services Fee may contact the Cashier's Office at cashier.staff@chaffey.edu on or before the appropriate refund deadline for the current term. If you would like more information about CCSG, visit the Student Government webpage.

Transfer and Career Center

The Transfer and Career Center provides information and resources to help students continue their education after Chaffey College. The center maintains a library of college catalogs and reference materials, provides access to the internet and specialized software programs for college research and applications, hosts college representatives for individual appointments with students, sponsors transfer-related workshops, and schedules campus visits and college fairs. All services are free and available to any Chaffey student. The Transfer and Career Center welcomes the opportunity to assist students considering transfer to four-year colleges. The center is located in SSA-120 on the Rancho Campus. For more information and office hours, visit the Transfer and Career Center webpage.

Umoja

Umoja is a community and critical resource dedicated to enhancing the cultural and educational experiences of African American and other students. Participants have the opportunity to enroll in Umoja Learning Community courses, in addition to receiving a variety of tools and resources that will assist them in navigating the Chaffey College campus and completing their goals. Through Leadership development, mentoring, counseling, and Umoja Practices, students are connected to strategies and activities that promote achievement, self-esteem and cultural understanding. The Umoja Program promotes student success for all students through a curriculum that is responsive to the legacy of the African and African American diasporas. The Umoja Program promotes student success for all students through a curriculum that is responsive to the legacy of the African and African American diasporas. For more information visit the Umoja webpage or email brent.mclaren@chaffey.edu.

College Policies

Policies, procedures, and regulations are subject to change. Visit the Policies and Procedures webpage for the most current information.

Academic Freedom

The District is committed to academic freedom, but recognizes that academic freedom does not allow sexual harassment or any other form of unlawful harassment or discrimination. The lecture, content, and discourse that are an intrinsic part of the course content shall, in no event, constitute sexual harassment or other form of unlawful harassment or discrimination. It is recognized that an essential function of education is a probing of received opinions and an exploration of ideas that may cause some student's discomfort. It is further recognized that academic freedom ensures the faculty's right to teach and the student's right to learn. Finally, nothing in the District's policy shall be interpreted to prohibit bona fide academic requirements for a specific program, course or activity.

Academic Integrity (Cheating)

Integrity is an essential component of the student academic experience. The academic evaluation a student receives for a course becomes a permanent college record and it is critical that such records be accurate and consistent. The integrity students learn and exhibit at the college will be a model for the professional integrity they practice when they complete the college work. Accordingly, Chaffey College has classified academic dishonesty into the following categories:

- Cheating
- Unauthorized Collaboration
- Facilitating Academic Dishonesty
- Interference or Sabotage
- Plagiarism
- Fabrication
- Retaliation

The entire policy is written in the Student Planner and Handbook and available at the Office of Student Life or online.

Americans with Disabilities Act of 1990

The Americans with Disabilities Act (ADA) of 1990 prohibits discrimination against people with disabilities in employment, public services including public and private transportation, public accommodations, and telecommunications services. Support services for students with disabilities are provided through Disability Programs and Services (DPS). Anyone needing information about services for students with disabilities should contact Disability Programs and Services at (909) 652-6379; if in need of TDD/TTY please contact (909) 652-6393, or email dps.staff@chaffey.edu. The toll-free numbers for the California Relay Service are 1-800-735-2929 or 1-877-735-2929 for TDD/TTY users. Employees (faculty, non-faculty, or student worker) requiring accommodations should contact Alisha Serrano, Interim Executive Director of Human Resources, by phone at (909) 652-6531 or by email at alisha.serrano@chaffey.edu.

Behavior Code

All members of the Chaffey College community are expected to behave in an ethical and moral fashion, respecting the human dignity of all members of our community and resisting behavior that may cause danger or harm to others which shall include, but not limited to, violence, theft, or bigotry. All members of the Chaffey College community are expected to observe established standards of scholarship and academic freedom by respecting the intellectual property of others and by honoring the right of all students to pursue their education in an environment free from harassment and intimidation. The entire policy is written in the Student Planner and Handbook and available at the Office of Student Life or online.

Commitment To Student Equity

The Governing Board has taken action to actively pursue equity for all students. This means that our programs and services strive to provide access, opportunity, and fairness to all students, of all ages, disabilities, diverse cultures, and alternative lifestyles. It means being sensitive to the personal and professional needs of its diverse populations and cultures. Expect to find an expression of the commitment to equity in our curriculum and student programs and services. The governing board, administration, faculty, and staff want you to learn in a respectful and supportive climate. It is our commitment to you.

Compliance

Students are responsible for compliance with the regulations published in the college catalog, the schedule of classes, course syllabi, and in department rules and regulations.

Computer Use and Internet Access

Chaffey College owns and operates a network and a variety of computer systems for use by its faculty, students, and staff. Chaffey College encourages the use of its network and computer systems for education, academic development, and other approved purposes. When using the Chaffey College network and computer systems, all users are required to abide by the Policy for District Network and Computer Use established by the Governing Board and the associated procedures and to use the system in an ethical and lawful manner. The Policy for District Network and Computer Use is published in the Student Planner and Handbook.

Disciplinary and Grievance Appeal Procedures

Procedures for grievance appeal hearings are written in the Student Planner and Handbook and available at the Office of Student Life or online.

Institutional Learning Outcomes

Chaffey College strives to develop lifelong learners who exhibit the following:

Communication

Students will practice effective communication skills, demonstrate empathy, and engage in appropriate technology and online use. Examples include the following:

- Compose and present content that demonstrates an intentional awareness of audience and clear choices in language.
- Engage with people in ways that affirm diversity, demonstrate an awareness of identity and impact, and consider diverse perspectives to accomplish tasks.
- Employ appropriate technology tools to improve collaboration and communication, evaluate the credibility of online information sources, and share digital information in an ethical manner.

Critical Thinking and Information Competency

Students will demonstrate critical thinking and quantitative reasoning skills and seek out new information and innovative approaches to problem solving. Examples include the following:

- Examine information and data to evaluate viewpoints for bias, investigate issues or problems holistically, and implement reasoned, feasible solutions.
- Use quantitative reasoning and/or analytical mathematical skills to interpret, evaluate, and process data to draw logical conclusions and support claims.
- Seek out new information and experiences, take innovative approaches to accomplishing tasks, combine different sources of information, and generate unique work, arguments, or products.

Personal, Academic and Career Development

Students will adapt to new situations and demonstrate resilience and professionalism. Examples include the following:

- Adapt to new situations, circumstances and environments; analyze feedback to make improvements; and revise goals in response to new information.
- Leverage strengths in pursuit of goals, engage in new experiences for continuous self-development, view challenges and obstacles as opportunities for growth, and successfully manage stress.
- Exercise initiative, apply personal strengths and interests in academic and career goals, and understand appropriate professional norms in different situations.

Community/Global Responsibility and Leadership

Students will demonstrate knowledge and consideration of significant social, cultural, environmental perspectives in their personal and collaborative civic actions. Examples include the following:

- Acknowledge the impact of systemic racism on individuals and communities of color, recognize the value of fundamental human rights in society, and advocate for equity through civic participation.
- Recognize the interconnectedness of humans with the natural world, develop an ethical perspective on environmental issues, acknowledge the disproportionate impact of climate change on lower socioeconomic communities, and actively contribute to sustainability efforts.
- Demonstrate respect and shared leadership by recognizing the skills of all participants and managing disagreements in a way that cultivates productivity.

Open Courses

It is the policy of the district that, unless specifically exempted by statute or regulation, every course, course section, or class, reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the College and who meets such prerequisites as may be established pursuant to regulations contained in sections 55003 and 58106 of division 6 of title 5 of the California Code of Regulations.

Probation

A student who has **attempted** at least twelve semester units at Chaffey College will be subject to:

Academic Probation – If earned cumulative grade point average is below 2.00.

A student who has **enrolled** in a total of at least twelve semester units at Chaffey College will be subject to:

Progress Probation – When the percentage of W, I, and/or NC grades reaches or exceeds 50% of all units in which the student has enrolled.

Dismissal

A student who is on academic probation shall be subject to **academic dismissal** if the student earns a cumulative grade point average of less than 2.00 in all units attempted in each of three consecutive semesters, excluding summer session.

A student who has been placed on progress probation shall be subject to **probation dismissal** upon receipt of recorded grades of W, I, and NC in 50% or more of all enrolled units during three consecutive semesters, excluding summer session.

Students receiving notice of dismissal as a result of fall grades will be dismissed the following fall semester, and for spring grades, will be dismissed the following spring semester.

Reinstatement

A student who has been dismissed may apply for readmission after one semester following the date of dismissal. Contact the Opening Doors to Excellence (ODE) office for more assistance at openingdoors.staff@chaffey.edu. A student may appeal a dismissal or apply for readmission by filing a petition for readmission. This petition will be reviewed by a scholastic standards committee.

A student readmitted after academic dismissal will remain on that status until the student's GPA reaches 2.00, or the percentage of units for which grades of W, I, or NC drops below 50%.

For the purpose of this section on academic dismissal, semesters are considered consecutive on the basis of student enrollment.

Rights And Privacy (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. These rights include:

- The right to inspect and review the student's education records within 15 days after the date Chaffey College receives a written request for access.
- The right to request amendment of education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.
- The right to direct the college to withhold release of directory information to persons not employed by or an agent of the Chaffey College District. Directory Information **may** include, but is not limited to: student's name, address, phone number, dates of attendance, major field of study, awards and degrees received, most recent institutions attended, participation in official college activities and sports, weight and height (for members of athletic teams), and part-time and/or full-time enrollment status. Directory information does not include your Social Security Number.

Contact the Admissions and Records Office at (909) 652-6600 or admissions@chaffey.edu for more information.

Section 504 - Rehabilitation Act

In accordance with Section 504 of the Rehabilitation Act, Chaffey College abides by the regulation that "no otherwise handicapped individual" shall be excluded from participation in programs and services offered by the College "solely by reason of the handicap." Jacob Peck serves as the 504/508/ADA Coordinator and may provide information and answer questions regarding access for students with disabilities. Send correspondence to Chaffey College, 5885 Haven Avenue, Rancho Cucamonga, CA 91737-3002; by phone at (909) 652-6126 or by email to jacob.peck@chaffey.edu.

Section 504/508 Complaint Procedure

If a student has a complaint under the provisions of Section 504 of the Rehabilitation Act, the complaining party should first discuss the complaint with the individual(s) involved or with the Chaffey College 504/508 and/or the ADA Coordinator. The 504/508/ADA Coordinator will contact all parties concerned, if appropriate, and attempt to reach resolution. Contact: (909) 652-6379, or dps.staff@chaffey.edu. If the complaint cannot be resolved within ten working days, the complainant may then proceed to file a formal complaint with the Office of Human Resources, Alisha Serrano, Interim Executive Director of Human Resources, at (909) 652-6531, or email alisha.serrano@chaffey.edu.

Sexual Harassment

It is the policy of the Chaffey Community College District to provide for all students and employees, an educational, employment, and business environment free of all forms of harassment, exploitation, intimidation, or unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct or communications of a sexual nature as defined and otherwise prohibited by the California Fair Employment and Housing Act, California Education Code, and State and Federal rules, regulations, statutes and laws prohibiting sexual harassment and retaliation.

The District is strongly opposed to sexual harassment and expressly forbids sexual harassment of its students and employees by faculty, managers, staff, students or members of the general public. The College will take whatever appropriate action to prevent, correct, and, if necessary, discipline inappropriate behavior.

Sexual harassment shall be immediately reported to the District's Compliance Officer, Dr. Tomeika Carter, Executive Director of Student Support Services, at (909) 652-6536, email tomeika.carter@chaffey.edu, or at Chaffey College, 5885 Haven Avenue, Rancho Cucamonga, CA 91737, or to any dean, director, or manager for immediate reporting to the District's Compliance Officer, or designee. Every effort will be made to ensure that confidentiality is maintained.

Smoking

Smoking of any form of tobacco or non-tobacco products is prohibited inside of any building, including restrooms and corridors; within 20 feet of a main exit, entrance, or operable window of any college-owned, leased, or operated buildings; and in any college-owned, leased, or operated vehicles.

Statement of Equal Opportunity/Non-Discrimination and Prohibition of Harassment

The Chaffey Community College District is committed to providing equal educational and employment opportunity. The District affirms its commitment with policies that include fair and equitable treatment of students and employees, and prohibits discrimination in its admission, access, and treatment in College programs and activities, and application for and treatment in College employment on the basis of race, religion, color, sex (including gender, gender identity, gender expression, pregnancy, and breastfeeding), sexual orientation, national origin, ancestry, marital status, age, medical condition, genetic characteristics or information, military and veteran status, physical or mental disability or the perception that a person has one or more of these perceived characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

In accordance with Title IX regulations, the District offers equal academic, occupational, and extracurricular opportunities regardless of the sex/gender of the individual. The Title IX Compliance Officer, Dr. Tomeika Carter, Executive Director of Student Support Services, may be contacted at (909) 652-6536 or email to tomeika.carter@chaffey.edu, or at 5885 Haven Avenue, Rancho Cucamonga 91737. The District, authorized under federal law to enroll non-immigrant and alien students, and, in accordance with title 5 regulations, affirms that the lack of English language skills will not be a barrier to admission and participation in the District's programs.

Persons who seek information and/or resolution of alleged acts of unlawful discrimination, retaliation, or harassment are directed to contact Alisha Serrano, Interim Executive Director of Human Resources, by phone at (909) 652-6531, or email to alisha.serrano@chaffey.edu.

Student Right-to-Know

In accordance with the Code of Federal Regulations, Title 34, Part 668, Sections 668.41 through 668.50 (the "Student Right-to-Know and Campus Security" Act), institutions participating in any Title IV, HEA program shall make available to current and prospective students and high school counselors the completion and transfer-out rates of first-time, full-time, degree seeking students who entered the institution on or after July 1, 1996. This information is posted on the Financial Aid webpage and available online at the California Community College's Student Right-To-Know Disclosure website. Annual campus security reports can be obtained online at Chaffey's Jeanne Clery Disclosure webpage.

How to Read the Schedule of Classes

Course Numbering

1-99: Lower-division transfer and baccalaureate degree level courses that are comparable to those offered in the first two years of a four-year college or university. Courses transferable to the California State University are marked **Transfer: CSU**; courses also transferable to the University of California are marked **Transfer: CSU; UC**. Some transferable courses have credit limitations at either CSU or UC (or both); students should consult a counselor for details on these limitations. Courses with "**CCN**" in the course number are part of the California Community Colleges' common course numbering system.

400-499: Associate degree level courses may be applied to the Associate in Arts and Associate in Science degrees, and certificates.

500-599: Non degree applicable foundational and college preparatory courses are not part of the associate degrees nor certificates, although they may be prerequisites to required courses. College credit is assigned and courses may be included in the student educational plan. These courses may be letter grade or pass/no-pass. If graded, the grades are not included in students' degree applicable grade point average computation.

600-699: Non-credit courses provide foundational, developmental, occupational, and general education opportunities. They do not earn unit credit and are not considered part of collegiate-level study. These courses may be letter grade, not graded, or have a pass/no-pass grading schema.

Common Course Numbering: Same course number. Every community college.

The Common Course Numbering (CCN) system makes it easier for students to transfer between California community colleges and to four-year institutions by standardizing course numbers across colleges. This system enhances credit mobility, promotes equitable transfer, and supports student success. Implementation of CCN will occur in phases over the next several years. Courses identified as common between California Community Colleges begin with a "C" in the course number (e.g., ENGL C1000).

Limitations on Enrollment

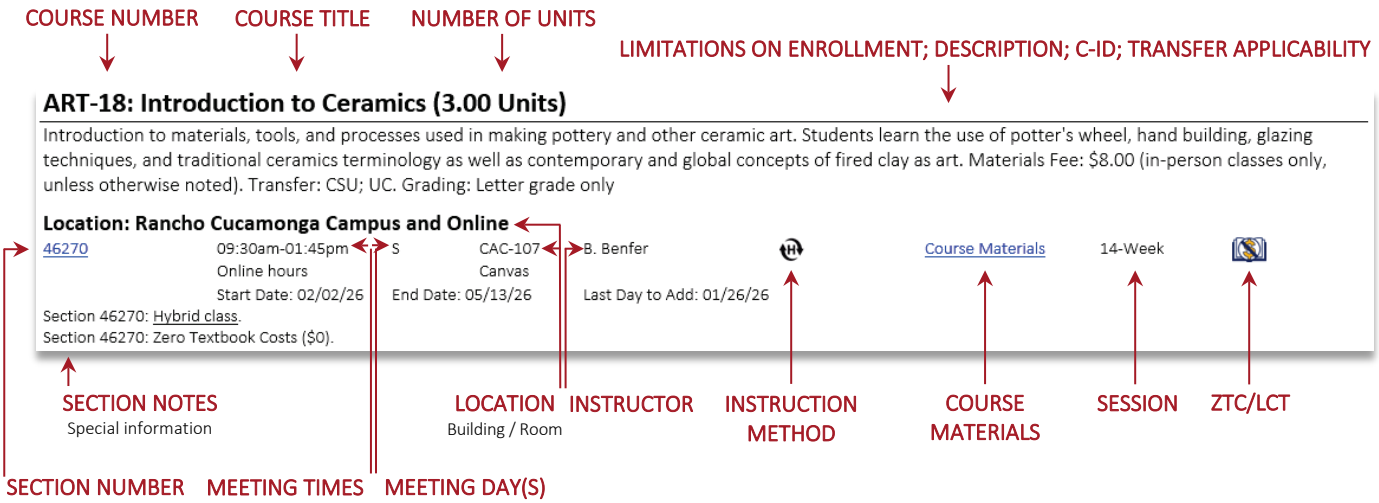

Some courses have limitations on enrollment. These limitations may require corequisites (concurrent enrollment in other courses), prerequisites (successful completion of other courses or specified placement for English, math, and/or English as a second language), performance criteria, health and safety conditions, or prior acceptance into specified programs. Students who do not fulfill these requirements may be unable to register for or may be dropped from any class for which requirements have not been met. See the "Limitations on Enrollment" section elsewhere in this Schedule of Classes for more information. Advisories are recommendations for courses or competencies that students are encouraged – but not required – to meet.

Instruction Methods: A key to understanding how classes are taught

On campus: The course always meets at a physical location with required meeting times, as displayed in the course schedule; Canvas (the college's online course management system) may be used as a resource for grades, handouts, submitting assignments, etc.

Online: The course takes place completely online in Canvas and all work is completed and submitted online. Some online courses have required live meeting times, as displayed in the course schedule. Online courses without required live meeting times will have weekly work and deadlines.

Hybrid: The course takes place partially online and meets partially on campus; attendance and participation in both are required. The on-campus portion will have required meeting times, as displayed in the course schedule.

Class offerings—including instructor assignment and location—are subject to change without notice after the publication of this schedule. The information provided here is current as of April 9, 2026. For the most up-to-date, real-time, and complete class details, visit the Schedule of Classes webpage, where you can access two convenient resources: *Search and Register for Classes* through the MyChaffey Portal and the *Current Status of Classes* list.

Zero Textbook Cost (ZTC): Course uses materials (textbooks, workbooks, articles, library resources, software/hardware, supplies, etc.) that are free to students. Total material costs for the course are $0.

Low-Cost Textbook (LCT): Course uses materials where the combined total cost of all required materials (textbooks, workbooks, articles, library resources, software/hardware, supplies, etc.) is $50 or less.

Accounting (ACCTG)

ACCTG-1A: Financial Accounting (4.00 Units)

Advisory: Completion of BUSTEC-63 or CIS-1. Development and communication of financial information that is useful to investors, creditors, and others to make decisions. Course material covered includes the accounting environment, accounting cycle, application of generally accepted accounting principles, ethics, financial statements, operating, investing, and financing activities. (C-ID ACCT 110) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

Anthropology (ANTHRO)

ANTHRO-1: Introduction to Biological Anthropology (3.00 Units)

Placement Level: Eligibility for ENGL-1A (CCN: ENGL C1000) as determined by the Chaffey College placement process. This course introduces the concepts, methods of inquiry, and scientific explanations for biological evolution and their application to the human species. Issues and topics will include, but are not limited to, genetics, evolutionary theory, human variation and biocultural adaptations, comparative primate anatomy and behavior, and the fossil evidence for human evolution. The scientific method serves as foundation of the course. (C-ID ANTH 110) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

Section 46691: Zero Textbook Costs ($0).

ANTHRO-3: Introduction to Social and Cultural Anthropology (3.00 Units)

Placement Level: Eligibility for ENGL-1A (CCN: ENGL C1000) as determined by the Chaffey College placement process. This course explores how anthropologists study and compare human culture. Cultural anthropologists seek to understand the broad arc of human experience focusing on a set of central issues: how people around the world make their living (subsistence patterns); how they organize themselves socially, politically and economically; how they communicate; how they relate to each other through family and kinship ties; what they believe about the world (belief systems); how they express themselves creatively (expressive culture); how they make distinctions among themselves such as through applying gender, racial and ethnic identity labels; how they have shaped and been shaped by social inequalities such as colonialism; and how they navigate culture change and processes of globalization that affect us all. Ethnographic case studies highlight these similarities and differences, and introduce students to how anthropologists do their work, employ professional anthropological research ethics and apply their perspectives and skills to understand humans around the globe. May be offered as an Honors course. (C-ID ANTH 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

46692	Online hours		Canvas	W. Nielson		Course Materials	Second 6-Week

Section 46692: Zero Textbook Costs ($0).

Art (ART)

ART-10: 2D Design: Concepts, Theory, and Practice (4.00 Units)

This is a problem-solving course that explores the concepts, applications, and historical contexts related to two-dimensional art and design. Emphasis on the visual elements and organizing principles of design, including shape, color, value, line, texture, and composition with emphasis on global perspectives. Development of visual literacy for critical analysis and creative expression. (C-ID ARTS 100) Transfer: CSU; UC. Grading: Letter grade only

Section 46408: Limited seats available. Primary enrollment designated to students enrolled through a high school partnership agreement.								
Section 46408: Zero Textbook Costs ($0).								

ARTGD-63: Introduction to Graphic Design (4.00 Units)

Formerly ART-63. An introduction to visual communications in the field of graphic design. The course includes: concept development, the creative design process, production, and presentation techniques through the development of design projects on various media using Adobe Photoshop and Illustrator. The course covers design and production skills, including beginning computer software skills. Students develop conceptual and technical abilities to amplify content through composition, image, typography, symbolism, and experimentation. Emphasis will be placed on the application of basic design principles to graphic design problems in visual communications. Design solutions will explore the potential of strategy, concept, and design, utilizing composition, layout, illustration, photography, typography, and symbology. Exercises emphasize the different aspects of analytical and creative design through typical media. For example: a brochure, poster, or billboard advertising. Topics include: Fundamental studies in the history, theories, techniques, and practices of professional graphic design, and developing graphic design projects for traditional and emerging technologies. (C-ID ARTS 250) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

Section 46383: Zero Textbook Costs ($0).

Astronomy (ASTRON)

ASTRON-26: Stars and Galaxies (3.00 Units)

Overview of the universe beyond our solar system. Understand progressively larger structures in Astronomy, such as stars, galaxies, and extra-galactic structures by understanding the processes that shape them. Use the scientific method, basic physical concepts, and observations (from telescopes, spacecraft, neutrino and gravity wave detectors, etc.) Briefly consider relativity, black holes, spacetime, and the history and fate of the universe. Transfer: CSU; UC. Grading: Letter grade only

Automotive Technology (AUTOTEC)

AUTOTEC-10: Service and Repair (4.00 Units)

Introduction to the automotive service industry. Basic principles of the operation of engines, transmissions, driveline, steering, suspension and braking systems, and heating and air conditioning systems. Scheduled and preventative automotive maintenance and minor services are performed. Transfer: CSU. Grading: Letter grade only

Location: Online

46354	Online hours		Canvas	J. Scott		Course Materials	8-Week	
	Start Date: 06/01/26	End Date: 07/24/26		Last Day to Add: 06/08/26				

AUTOTEC-407: Introduction to Hybrid Vehicles (2.50 Units)

Advisory: AUTOTEC-10 or AUTOTEC-450, and AUTOTEC-15 or AUTOTEC-455, or Other: 2 years or more of related professional work experience. An introduction to the operational theory, maintenance, and other service requirements for gasoline-electric hybrid vehicles. Safety requirements specific to hybrid vehicles are stressed. Grading: Letter grade only

Section 46528: Zero Textbook Costs ($0).								

BIOL-20: Human Anatomy (4.00 Units)

Placement Level: Eligibility for ENGL-1A (CCN: ENGL C1000) as determined by the Chaffey College placement process. A systematic study of the microscopic and macroscopic structures of the human body, from cellular to organ system levels of organization. Emphasis on cell structures, integumentary, skeletal, muscular, respiratory, cardiovascular, nervous, sensory, digestive, urinary, endocrine, and reproductive systems. Includes considerations of pathologies and disorders of these systems. This course is a CalState/UC transferable course which is intended for biology, general education, kinesiology and health related majors. (C-ID BIOL 110B) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

Business (BUS)

BUS-10: Introduction to Business (3.00 Units)

A survey in business providing a multidisciplinary examination of how culture, society, economic systems, legal, international, political, financial institutions, and human behavior interact to affect a business organization's policy and practices in the U.S. and within a global society. Demonstrates how the following influences impact a business' ability to achieve its organizational goals: organizational structure and design, leadership, human resource management, organized labor practices, marketing, organizational communication, technology, entrepreneurship, legality, accounting, financial practices, the stock and securities market. (C-ID BUS 110) Transfer: CSU; UC. Grading: Letter grade only

Business Technology (BUSTEC)

BUSTEC-40A: Beginning Computer Keyboarding (3.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Beginning course in computer keyboarding with mastery of the alphabetic and numeric keyboard and correct touch-typing techniques. Introduction to the personal computer, word processing, disk management, and formatting of basic business correspondence. Transfer: CSU. Grading: Letter grade only

Location: Online

46477	Online hours		Canvas	L. Zamora		Course Materials	First 6-Week	
	Start Date: 06/01/26	End Date: 07/10/26		Last Day to Add: 06/05/26				

California Institution for Men (CIM)

Registration for the following sections is restricted to CIM students.

CINEMA-25: Survey of World Cinemas (3.00 Units)

Historical introduction and development of motion pictures as an art form through the study and viewing of international works of cinema. Overview of early silent motion pictures and major cinematic movements: German Expressionism, Soviet Montage, Italian Neorealism, Postwar Japanese Cinema, French New Wave, and other culturally diverse and innovative cinemas across the world. Examines the semiotics of both the visual and sound elements portrayed in world cinema. Explores the representation and contribution of women and people of color, including significant producers, directors, writers, cinematographers, and actors, from diverse cultures and governmental systems. This course provides students with a global perspective on cinema history, complemented by A.I. analysis. Students will use A.I. algorithms to study international film movements and their impact on world cinema, gaining a deeper understanding of cultural influences. Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

46412	05:30pm-08:20pm	TTH	CIM	A. Day		8-Week
	Start Date: 06/02/26	End Date: 07/23/26				

Section 46412: Enrollment limited to students enrolled through the California Institution for Men (CIM).

COMSTD-4: Fundamentals of Interpersonal Communication (3.00 Units)

Advisory: Completion of ENGL-1A (CCN: ENGL C1000). In-depth exploration of the variables of the interpersonal communication processes as they occur in day-to-day, face-to-face human interaction. Current theories of interpersonal communication are analyzed and applied. (C-ID COMM 130) Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

46802	05:30pm-08:20pm	TTH	CIM	R. Montgomery		8-Week	
	Start Date: 06/01/26	End Date: 07/24/26					

Section 46802: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 46802: Zero Textbook Costs ($0).

COMSTD-14: Oral Interpretation of Literature (3.00 Units)

Theoretical and practical experience in the oral interpretation of prose, poetry, and dramatic literature. In-depth study of the oral and analytical skills required to perform literature and of the critical skills required to evaluate oral interpretation performance. Recommended for students of speech communication studies, theatre, English, and the teaching professions. (C-ID COMM 170) Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

46799	05:30pm-08:20pm	MW	CIM	G. Alatorre		8-Week	
	Start Date: 06/01/26	End Date: 07/24/26					

Section 46799: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 46799: Zero Textbook Costs ($0).

COMSTD-72: Logic and Argumentation (3.00 Units)

Prerequisite: ENGL-1A (CCN: ENGL C1000). The study of argumentation as an oral and written skill with an emphasis on the principles of critical thinking and sound reasoning. Examination of quality and types of evidence, identification of faulty and misleading arguments, and development of techniques for defending and refuting arguments. Social and political issues are the basis for research, analysis, and evaluation. (C-ID COMM 120) Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

46798	05:30pm-08:20pm	MW	CIM	K. Corpus		8-Week	
	Start Date: 06/01/26	End Date: 07/24/26					

Section 46798: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 46798: Zero Textbook Costs ($0).

COMSTD-74: Intercultural Communication (3.00 Units)

Identification and analysis of processes and problems of communication between people of different cultures. Effects of differences in attitudes, social organization, role expectations, language and nonverbal behavior and their interrelationships. Principles of communication theory as applied to an intercultural setting. May be offered as an Honors course. (C-ID COMM 150) Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

46801	05:30pm-08:20pm	TTH	CIM	R. Roque		8-Week	
	Start Date: 06/01/26	End Date: 07/24/26					

Section 46801: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 46801: Zero Textbook Costs ($0).

GUID-3: Career Exploration and Life Planning (3.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Career and life planning for students seeking direction in setting life, academic and career goals. Use of a psychological-social perspective highlights the person environment dynamics influential in the preparation for a fulfilling career and personal development. Topics include problem-solving approaches; evaluation of values, interests, abilities, skills, and personality characteristics; intensive career investigation; self-marketing skill development; psychological and social issues that impact career and life choices; academic learning strategies; college and life skills; diversity; and assessment of personal characteristics related to educational success. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: California Institution for Men

47087	05:30pm-08:20pm	MW	CIM	M. Durazo			8-Week	
	Start Date: 06/01/26	End Date: 07/22/26						

Section 47087: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 47087: Zero Textbook Costs ($0).

HIST-18: United States History from 1865 (3.00 Units)

Development of the United States from the Reconstruction Era through the present. Satisfies the California State University requirement in American History. May be offered as an Honors course. (C-ID HIST 140) Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

47024	05:30pm-08:20pm	TTH	CIM	F. Carranza			8-Week

Section 47024: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 47024: Zero Textbook Costs ($0).

PHOTO-1: History of Photography (3.00 Units)

History and appreciation of photographic imagery from a broad range of artists from around the world. Course includes the diverse role photography has played in the communication of social ideas. May be offered as an Honors course. Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

46423	05:30pm-08:20pm	TTH	CIM	W. Overby			8-Week	
	Start Date: 06/02/26	End Date: 07/23/26						

Section 46423: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 46423: Zero Textbook Costs ($0).

SOC-16: Marriage, Family, and Relationships (3.00 Units)

Sociological analysis of family as a social institution, including historical and recent changes, contemporary nature, and socio-cultural and economic forces shaping these changes. Topics include romantic love, mate selection, gender roles, communication, sexuality, parenting, divorce, single-parent families, remarriage, cohabitation, variations in relationships, changes in the definition of relationships over time, and abusive relationships. Emphasis on the application of theory, research and social factors that shape the familial experience. (C-ID SOCI 130) Transfer: CSU; UC. Grading: Letter grade only

Location: California Institution for Men

46708	05:30pm-08:20pm	MW	CIM	J. Simmers			8-Week	
	Start Date: 06/01/26	End Date: 07/22/26						

Section 46708: Enrollment limited to students enrolled through the California Institution for Men (CIM).
Section 46708: Low-Cost Textbooks (below $50).

California Institution for Women (CIW)

Registration for the following sections is restricted to CIW students.

COMSTD-4: Fundamentals of Interpersonal Communication (3.00 Units)

Advisory: Completion of ENGL-1A (CCN: ENGL C1000). In-depth exploration of the variables of the interpersonal communication processes as they occur in day-to-day, face-to-face human interaction. Current theories of interpersonal communication are analyzed and applied. (C-ID COMM 130) Transfer: CSU; UC. Grading: Letter grade only

Chemistry (CHEM)

CHEM-9: Health Science Chemistry (5.00 Units)

Placement Level: Eligibility for college-level Math course, as determined by the Chaffey College placement process. This course is for students completing a certificate program or associate degree in a health science such as Vocational Nursing, Radiological Technology, and Associate Degree Nursing. The course is an introduction to the principles of chemistry including inorganic chemistry, organic chemistry, and biochemistry. Topics covered include measurements, properties and classification of matter, atomic structure, bonding and nomenclature, chemical equations, stoichiometry, gas laws, solutions, acids, bases and pH, equilibrium, nuclear chemistry, and organic and biochemical structure and reactions. Laboratory work will provide hands-on activities to teach laboratory skills and support the concepts presented in the lecture. This course is not intended for science majors. Transfer: CSU; UC credit limitations. Grading: Letter grade only

CHEM-24B: General Chemistry II (5.00 Units)

Prerequisite: CHEM-24A. Second semester General Chemistry for Science and Engineering students. Topics include kinetics, equilibrium, acid/base/buffers, thermodynamics, electrochemistry, nuclear chemistry, descriptive chemistry, and organic chemistry. Laboratory provides hands-on activities to reinforce lecture concepts, develop chemical laboratory techniques, and use of the scientific method of inquiry. (C-ID CHEM 120S when combined with CHEM-24A) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

46558	04:00pm-05:50pm 12:30pm-03:35pm Start Date: 06/01/26	MTWTH TTH End Date: 07/23/26	ZH-123 CHEM-108	J. Hasenbein Last Day to Add: 06/08/26		Course Materials	8-Week	

CHEM-75A: Organic Chemistry I (5.00 Units)

Prerequisite: CHEM-24B. Formerly CHEM-76A. This is the first semester in a year-long course in organic chemistry designed for students majoring in science and engineering. Topics cover major classes of organic compounds: aliphatic hydrocarbons; alkyl halides; alcohols; and ethers. This includes nomenclature, structure and stereochemistry, properties, reactions, mechanisms, and spectroscopy. Laboratory provides hands-on activities on the basic techniques of organic chemistry including synthesis, separation, purification, and analysis by using various spectroscopic methods. (C-ID CHEM 150, and 160S when combined with CHEM-75B) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

46554	01:30pm-03:20pm 10:00am-01:05pm Start Date: 06/01/26	MTWTH MW End Date: 07/23/26	ZH-122 CHEM-103	S. Bernard Last Day to Add: 06/08/26		Course Materials	8-Week	

Child Development & Education (CDE)

CDE-1: Principles & Practices in Early Childhood Education (3.00 Units)

Other: Proof of a negative tuberculosis test within the past 12 months may be required for some site visits. Developmentally appropriate practices applied to programs and environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative, and intellectual development for all children. This course includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics, and professional identity. (C-ID ECE 120) Transfer: CSU. Grading: Letter grade only

Location: Online

46861	Online hours Start Date: 06/01/26	 End Date: 07/10/26	Canvas	R. Brewer Last Day to Add: 06/05/26		Course Materials	First 6-Week	

Section 46861: Zero Textbook Costs ($0).

CDE-2: Child Growth and Development (3.00 Units)

Other: Proof of negative tuberculosis test within the past 12 months may be required for some site visits. This introductory course examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development of various stages. (C-ID CDEV 100) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Online

CDE-3: Observation and Assessment (3.00 Units)

Other: Proof of a negative tuberculosis test within the past 12 months may be required for some site visits. This course focuses on the appropriate use of assessment and observation strategies to document development, growth, play, and learning to join with families and professionals in promoting children's success. Recording strategies, rating systems, portfolios, and multiple assessment tools are explored. (C-ID ECE 200) Transfer: CSU. Grading: Letter grade only

Chinese (CHIN)

CHIN-1: Elementary Mandarin Chinese I (4.00 Units)

Introduction to Mandarin Chinese, taught within the context of Chinese culture. Introduction to the customs, cultural practices, and geography of China through lectures, films, web activities, and reading assignments. Focus on the four major skills of language learning - listening comprehension, speaking, reading, and writing - and the grammar and vocabulary necessary to acquire these skills. This course may also require completion of lab assignments. This course corresponds to the first year of high school Chinese. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

46391	Online hours		Canvas	J. Liu		Course Materials	8-Week	
	Start Date: 06/01/26	End Date: 07/24/26		Last Day to Add: 06/08/26				

Section 46391: Limited seats available. Primary enrollment designated to students enrolled through a high school partnership agreement.
Section 46391: Zero Textbook Costs ($0).

Cinema (CINEMA)

CINEMA-25: Survey of World Cinemas (3.00 Units)

Historical introduction and development of motion pictures as an art form through the study and viewing of international works of cinema. Overview of early silent motion pictures and major cinematic movements: German Expressionism, Soviet Montage, Italian Neorealism, Postwar Japanese Cinema, French New Wave, and other culturally diverse and innovative cinemas across the world. Examines the semiotics of both the visual and sound elements portrayed in world cinema. Explores the representation and contribution of women and people of color, including significant producers, directors, writers, cinematographers, and actors, from diverse cultures and governmental systems. This course provides students with a global perspective on cinema history, complemented by A.I. analysis. Students will use A.I. algorithms to study international film movements and their impact on world cinema, gaining a deeper understanding of cultural influences. Transfer: CSU; UC. Grading: Letter grade only

CINEMA-26: Survey of American Cinema (3.00 Units)

Analysis and discussion of the portrayals of African Americans, Asians, Latinx, Native Americans, and other American national cultures including representations of class, gender, and issues of diversity, equity, and inclusion. Historical overview of the birth of American cinema, silent movie classics, silent comedies, and the story structure of the hero's journey. Areas of study include: the early women pioneers, such as Alice Guy Blaché, westerns, gangsters, musicals, science fiction, film noir, animation, American independent features and short movies. This survey course on American cinema history incorporates A.I. insights to enhance students' understanding of film evolution. A.I. analytics and content recommendation systems will be explored to uncover patterns and trends in American cinema over the years. Transfer: CSU; UC. Grading: Letter grade only

COMSTD-6: Fundamentals of Small Group Communication (3.00 Units)

This course focuses on oral communication principles in a variety of group contexts. Emphasis is placed on theory, application, and evaluation of group communication processes, including problem solving, conflict management, decision making, and leadership. Students will develop competence and confidence as a group member and leader through a combination of theoretical and practical application of small group principles in everyday life. Study and practice in various group activities. This course includes faculty-supervised, faculty-evaluated oral presentation in the presence of others (Physically or virtually). May be offered as an Honors course. (C-ID COMM 140) Transfer: CSU; UC. Grading: Letter grade only

COMSTD-8: Fundamentals of Speech Communication (3.00 Units)

This course provides a foundational introduction to Communication Studies. Students will practice speech-making in a democratic society and explore key communication theories and principles within public speaking, small group, and interpersonal contexts. The course equips students to ethically articulate ideas across diverse contexts and audiences. Students will learn to employ public speaking techniques (both informative and persuasive), use critical thinking to evaluate historical and contemporary public discourse, and engage effectively in interpersonal and group communication. This course is designed as an oral communication option to help students manage high levels of communication apprehension. (C-ID COMM 115 and COMM 180) Transfer: CSU; UC. Grading: Letter grade only

Criminal Justice (CJ)

CJ-1: Introduction to the Criminal Justice System (3.00 Units)

This course introduces students to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement, theoretical explanations of crime, responses to crime, components of the system, and current challenges to the system. The course examines the evolution of the principles and approaches utilized by the justice system and the evolving forces which have shaped those principles and approaches. Although justice structure and process is examined in a cross cultural context, emphasis is placed on the US justice system, particularly the structure and function of US police, courts, and corrections. Students are introduced to the origins and development of criminal law, legal process, and sentencing and incarceration policies. (C-ID AJ 110) Transfer: CSU; UC. Grading: Letter grade only

Dental Assisting (DENTAL)

DENTAL-635: Infection Control in Dentistry (0.00 Units)

Other: Students must provide proof of current Basic Life Support (BLS) certification by the first week of class to remain enrolled. This 8-hour certification course, approved by the Dental Board, is designed to meet the legal requirements for unlicensed dental assistants to work or volunteer in a dental office. The course is also designed to meet the minimum requirements for the 8-hour infection control course as mandated by the California Board of Dental Examiners and Cal-DOSH, in compliance with B&P Section 1756(b). Offered by Chaffey College through a hybrid learning model, the course combines online didactic instruction with an assessment and on-campus hands-on laboratory activities to earn certification. Students will develop the foundational competencies necessary to implement infection control protocols effectively and safely in a dental practice. Topics covered include the infectious disease process, microbiology, and methods of disease transmission, along with practical applications of disinfection and sterilization techniques. Emphasis is placed on compliance with OSHA standards, workplace ergonomics, dental waterline maintenance, and proper waste management. Non-credit. Grading: Ungraded

Emergency Medical Technician (EMT)

EMT-11: Emergency Medical Technician (7.00 Units)

Limitation on Enrollment: Student must be 18 years or older at the start of the course, and possess a current American Heart Association Health Care Provider CPR card. Prerequisite: EMT-405. Other: Students should possess good dexterity and have good physical condition with the ability to lift 150 pounds and work in confined areas and in different positions (e.g. on the ground or floor). This course will provide EMT students with training to recognize the signs and symptoms of illness and traumatic injuries, as well as instruction on how to perform life-saving skills. This course meets requirements as defined in the California Code of Regulations (CCR) Title 22, and is approved by the State of California EMS Authority, and local EMSA Inland Counties EMS Agency (ICEMA). This course includes lecture and laboratory experiences. Students must be a minimum of 18 years of age prior to beginning field experience. A minimum of 24 hours of field experience is included in the course, which consists of clinical rotation at Hospital, and/or ambulance ride along as required in CCR Title 22. Upon successful completion of the course, students are eligible to register for the National Registry licensing examination which is taken off campus at an approved testing site. Students upon successful completion of EMT 405 and EMT 11 may pursue the Emergency Medical Provider Certificate of Achievement. This Certificate prepares students for future entrance into a Paramedic Program. Transfer: CSU. Grading: Letter grade only

Location: Fontana Campus

47028	08:00am-04:50pm Start Date: 06/01/26	SSU	FNLC-120 End Date: 07/24/26	E. Cano & C. Cano Last Day to Add: 06/08/26		Course Materials	8-Week

Section 47030: 24 hours per term arranged field experience is included. Section 47030: Linked with EMT-405, section 47029.								

EMT-405: Emergency Medical Technician Preparation Services (3.00 Units)

Other: Students should possess good dexterity and physical condition, have the ability to lift and carry up to 150 pounds, and be able to work in confined spaces and different positions (e.g. on the ground or floor). This course provides students with a foundation in CPR, medical terminology, anatomy, physiology, legal issues, pharmacology, and patient assessment. This course is a prerequisite for EMT 11 - Emergency Medical Technician course, which fulfills California Code of Regulations Title 22 requirements. Emergency care knowledge and skills are required for Emergency Medical Technicians, Professional and Volunteer Firefighters, and Peace Officers. Course meets the American Heart Association CPR prerequisite and recommended preparation for admission to the EMT program, and is approved by the Inland County Emergency Medical Agency (ICEMA). Grading: Letter grade only

Engineering (ENGIN)

ENGIN-71: Circuit Analysis (4.00 Units)

Prerequisite: PHYS-46 and MATH-65B. Modeling and analysis of electrical networks, covering fundamental network theorems, current, voltage, power relationships, exploring sinusoidal steady state and transient analysis of RLC networks, and basic electronic devices such as diodes, transistors, and op-amps, sensors. The course further extends its focus to include sensors, sampling, data acquisition, and PID controllers, integrating simulation techniques and utilizing a basic microcontroller. The laboratory component involves hands-on investigations into Ohm's Law, voltage and current division, mesh, and nodal analysis, and Thevenin and Norton equivalents. Explore simple RL, RC, and RLC circuits, gaining a comprehensive understanding of phasors and their applications. Practical skills include use of multimeters, signal generators, oscilloscopes, and the Arduino microcontroller. Simulation techniques further enhance the understanding of sensors, sampling, data acquisition, and PID controllers using Arduino microcontroller. Transfer: CSU; UC. Grading: Letter grade only

Engineering Technology (EGTECH)

EGTECH-10: Introduction to Engineering Design/ Graphics (4.00 Units)

Survey of engineering graphics and the design process as applied to engineering and related fields. Emphasis is on use of 3-D Feature-Based, Parametric Solid modeling as the foundation of that process. Coursework is done using SolidWorks software. Additional topics include: interpreting ANSI standard engineering drawings, visualization, sketching, geometric relations, assembly modeling, and creating ANSI standard part and assembly drawings. Special emphasis is placed on understanding and developing sound Modeling Strategies/Plans based on 'best practices.' Students also are introduced to 3D-Printing technology and produce physical models from their own CAD models. Transfer: CSU; UC. Grading: Letter grade only

English (ENGL)

ENGL-1A: Academic Reading and Writing (CCN: ENGL C1000) (3.00 Units)

In this course, students receive instruction in academic reading and writing, including writing processes, effective use of language, analytical thinking, and the foundations of academic research. This course includes embedded support. May be offered as an Honors course. Incorporates texts that celebrate diverse identities, communities, and experiences, and that engage with difference, with the ultimate goal of preparing students to succeed in college and careers, and to participate in broader societal discourse. A minimum of 5,000 written words is required over the term. Three hours for supplemental learning through a Success Center that supports this course are required. (C-ID ENGL 100) Transfer: CSU; UC. Grading: Letter grade only

ENGL-1B: Critical Thinking and Writing (CCN: ENGL C1001) (3.00 Units)

Prerequisite: ENGL-1A (CCN: ENGL C1000). In this course, students receive instruction in critical thinking for purposes of constructing, evaluating, and composing arguments in a variety of rhetorical forms, using primarily non-fiction texts, refining writing skills and research strategies developed in ENGL-1A (CCN: ENGL C1000 Academic Reading and Writing) or similar first-year college writing course. This course is designed to develop critical thinking, reading, and writing skills beyond the level achieved in ENGL-1A (CCN: ENGL C1000 Academic Reading and Writing) to prepare students for upper division research and writing. This course will focus on the development of logical reasoning, analysis, argumentation, and information literacy through the use of primarily non-fiction texts. Students will write arguments using various types of rhetorical techniques and engage in academic discourse that explores diverse experiences and current issues. A minimum of 5,000 written words is required over the term. May be offered as an Honors course. (C-ID ENGL 105) Transfer: CSU; UC. Grading: Letter grade only

ENGL-1C: Introduction to Literature (3.00 Units)

Prerequisite: ENGL-1A (CCN: ENGL C1000). This course introduces representative works from major genres, develops students' close reading and analytical writing skills, and promotes appreciation and critical understanding of the cultural, historical, and aesthetic qualities of literature. Introduces the central literary genres: novel, short story, poem, and play. Close reading of the literature guides inexperienced readers toward greater understanding and appreciation of imaginative literature, and provides more experienced readers with new perspectives through the analysis of the techniques and purposes of specific writers. Students are taught how to organize and compose the literary essay. May be offered as an Honors course. (C-ID ENGL 120) Transfer: CSU; UC. Grading: Letter grade only

ETHN-6: Race, Ethnicity, and Politics in America (3.00 Units)

This course explores the role of race and ethnicity in modern American politics. It focuses on social science approaches to measuring the effects of race, both at the individual level and more broadly. Topics include race and representation, measurement of racial and ethnic identities, voting rights and electoral districting, protest and other forms of political participation, and the meaning and measurement of racial attitudes. An examination of United States institutions of social, political and economic power from the history and experiences of African Americans, LatinX, Native Americans, Women, Asian Americans, and Immigrants. Other emphases will be on diverse forms of political participation and how it influences U.S. institutions at the local, state and federal levels in movements towards building a diverse, just, and equitable society beyond the classroom, achieving social justice and a sense of self awareness. Industrial Electric Technology (IET)

IET-422: OSHA Safety Training (2.00 Units)

Industry safety and health standards, taught in accordance with Occupational Safety and Health Administration (OSHA) requirements. Course is targeted to entry-level workers. Upon successful completion, students can receive the OSHA (30-hour) card. Note: To earn an OSHA 30-hour card through the OSHA Outreach Training Program, participants must meet several key attendance and participation requirements. You must attend all scheduled class hours and complete all required topics to be eligible for the OSHA 30-hour card. Missing any portion of the training may disqualify you from receiving the 30-hour OSHA card. Grading: Letter grade only

Section 46978: Low-Cost Textbooks (below $50).

Kinesiology: Activity (KINACT)

Consent for Physical Fitness Program
General Statement of Program Objective and Procedures

I understand that this physical fitness program may include exercise to build cardio-respiratory system (heart and lungs), the musculoskeletal system (muscle endurance and strength, and flexibility), and to improve body, composition (decrease of body fat in individuals needing to lose fat, with an increase in weight of muscle and bone). Exercises may include aerobic activities (treadmill walking/running, bicycle riding, rowing machine exercise, group aerobic activity, swimming, and other such activities), calisthenics, and weight lifting may also improve muscular strength and endurance, and flexibility exercises to improve joint range of motion.

KINACT-28A: Beginning Yoga (1.00 Unit)

This course is designed for the beginning students who would like to learn the importance of breath, alignment of postures and relaxation techniques to improve health and fitness of the mind and body. The goal of the course is to improve flexibility, muscle strength, endurance, and coordination through the physical postures of yoga. Introduction to relaxation techniques will be incorporated for stress reduction and mental calm. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Online

47054	Online hours		Canvas	A. Henry		Course Materials	8-Week	
	Start Date: 06/01/26	End Date: 07/24/26		Last Day to Add: 06/08/26

KINTM-64A: Softball Strength and Conditioning for Athletes (0.50 Units)

Advanced sport-specific drills and exercises designed for softball athletes. Increased volume, intensity, frequency, and duration of specific activities improve strength, speed, flexibility, and overall conditioning to enhance athletic performance. Exercises are prescribed by the instructor and are tailored to the physical demands of the sport and individuals' capabilities. Instructor consent required for enrollment. May be taken 4 times. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

Student Success Centers

Chaffey's virtual and in-person student Success Centers provide free tutoring, workshops, conversation groups, and focused learning activities. Functioning as an "extension of the classroom," the Success Centers strategically design curriculum for every stage of the learning process.

Visit the Success Centers webpage for hours and more information.

Rancho Success Center
English, Language, Humanities, Business & Technology, STEM
Room BEB-101 • (909) 652-6452
Room LLC-130 • (909) 652-6180

Fontana Success Center
Room FNFC-122 • (909) 652-7430

Chino Success Center
Room CHMB-145 • (909) 652-8150

Mathematics (MATH)

MATH-25: College Algebra (4.00 Units)

Coordinate geometry and graphing techniques; conic sections; solutions to higher degree polynomial equations; functions; polynomial, rational, inverse, exponential and logarithmic functions; systems of nonlinear equations and inequalities; matrices and determinants; sequences and series; binomial expansion; mathematical induction; introduction to mathematical proof. There is a 1 hour supplemental learning requirement that can be satisfied through the success centers. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Online

Nutrition and Food (NF)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

NF-5: Nutrition for Life (3.00 Units)

Essentials of nutrition as they relate to diet, health and disease, risk-reduction, stress, and nutritional deficiencies. Topics include: developments and discoveries in the field of nutrition, nutrients essential for human health, disease consequence and prevention, eating disorders, obesity, dieting, nutritional fads and fallacies, vitamins and supplements, and changing nutritional needs across the lifespan. Use of sound consumer nutritional information in the development of an individual health plan. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47067	Online hours		Canvas	C. Hines-Tinsley		Course Materials	8-Week	
	Start Date: 06/01/26	End Date: 07/24/26		Last Day to Add: 06/08/26				

Section 47067: Limited seats available. Primary enrollment designated to high school students enrolled through a high school partnership agreement.

47068	Online hours		Canvas	C. Crocker		Course Materials	First 6-Week	
	Start Date: 06/01/26	End Date: 07/10/26		Last Day to Add: 06/05/26				

NF-15: Nutrition I: Introduction to Nutrition Science (3.00 Units)

Introduction to the science of nutrition and its implications for human health. Scientific concepts of nutrition related to the function of nutrients in basic life processes and current health issues with emphasis on individual needs. (C-ID NUTR 110) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47066	Online hours		Canvas	C. Hines-Tinsley		Course Materials	8-Week

	Start Date: 06/15/26	End Date: 07/24/26		Last Day to Add: 06/19/26				

Section 46989: Low-Cost Textbooks (below $50).

PHIL-72: Seminar in Ethics (3.00 Units)

Advisory: Completion of PHIL-70. Seminar for the study of ethics with emphasis on personal, social, and political values. May be offered as an Honors course. (C-ID PHIL 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

46990	Online hours		Canvas	R. Falcioni		Course Materials	First 6-Week	
	Start Date: 06/01/26	End Date: 07/10/26		Last Day to Add: 06/05/26				

Section 46990: Low-Cost Textbooks (below $50).

PHIL-75: Symbolic Logic (3.00 Units)

Prerequisite: ENGL-1A (CCN: ENGL C1000). Advisory: Completion of PHIL-76. An introduction to symbolic methods of reasoning, covering sentential logic, natural deduction, and predicate logic. Students will translate ordinary language sentences and arguments into symbolic form and will evaluate symbolized arguments using truth tables, truth trees, and natural deduction. (C-ID PHIL 210) Transfer: CSU; UC Grading: Letter grade only

Location: Online

47951	Online hours		Canvas	S. Hughes		Course Materials	First 6-Week	
	Start Date: 06/01/26	End Date: 07/24/26		Last Day to Add: 06/08/26				

Section 47951: Zero Textbook Costs ($0).

PHIL-76: Critical Thinking (3.00 Units)

Prerequisite: ENGL-1A (CCN: ENGL C1000). Exploration of the underlying structure of argument and the role of sound reasoning in the investigation of claims. Analysis of inductive and deductive argument reasoning, distinction of fact from opinion and belief from knowledge, identification of formal and informal fallacies, and application of learned skills to realistic life problems. A minimum of 5,000 written words is required over the term. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

46991	Online hours		Canvas	P. Rodriguez		Course Materials	First 6-Week	
	Start Date: 06/01/26	End Date: 07/10/26		Last Day to Add: 06/05/26				

Section 46991: Zero Textbook Costs ($0).

Photography (PHOTO)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

PHOTO-1: History of Photography (3.00 Units)

History and appreciation of photographic imagery from a broad range of artists from around the world. Course includes the diverse role photography has played in the communication of social ideas. May be offered as an Honors course. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

46424	Online hours		Canvas	D. Hill		Course Materials	8-Week	
	Start Date: 06/01/26	End Date: 07/24/26		Last Day to Add: 06/08/26				

Section 46424: Limited seats available. Primary enrollment designated to students enrolled through a high school partnership agreement.
Section 46424: Zero Textbook Costs ($0).

Physical Therapy (PTA)

PTA-11: Documenting Red Flags (1.00 Unit)

Limitation on Enrollment: The course is limited to those accepted and enrolled in the physical therapist assistant program. This lecture-only course builds on knowledge of pathophysiology to recognize and document normal and abnormal findings encountered in the clinical setting. Students will learn to review the medical record, produce defensible documentation, and develop critical thinking skills in observing and reporting clinical and psychosocial flags. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Online

46609	Online hours		Canvas	A. Rizvi		Course Materials	Short-Term	
	Start Date: 05/26/26	End Date: 07/30/26		Last Day to Add: 06/08/26				

Section 46609: Zero Textbook Costs ($0).

PTA-12: Patient Care (2.00 Units)

Limitation on Enrollment: The course is limited to those accepted and enrolled in the physical therapist assistant program. This lecture and laboratory course focuses on foundational principles and techniques to provide safe and effective patient care. It emphasizes patient and environment preparation and handling strategies to build a therapeutic relationship. Students will demonstrate an understanding of how to assess physiological status, create and maintain a safe and clean environment, and describe devices and equipment encountered in a clinical setting and for mobility and gait training. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Fontana Campus and Online

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Section 46618: Zero Textbook Costs ($0).

PHYS-44: Introduction to Motion (4.00 Units)

Placement Level: Eligibility for MATH-65A or higher as determined by the Chaffey College placement process. Prerequisite: MATH-61. Introduction to mechanics for students majoring in a physical science or engineering. Position, velocity, and acceleration of objects are described using vectors. Concepts of mass, force, Newton's Laws of Motion, momentum, and impulse are used to describe straight line motion, projectile motion, circular motion, collisions, and explosions. In the laboratory, microcomputers with motion detectors and force probes are used to study the concepts of velocity and acceleration, and Newton's Laws of Motion. Graphical representations of motion - velocity-time graphs, acceleration-time graphs, and force-time graphs - are emphasized. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Public Health (PH)

PH-10: Personal Health and Wellness (3.00 Units)

This course focuses on the exploration of major health issues and behaviors in the various dimensions of health. Emphasis is placed on individual responsibility for personal health and the promotion of informed, positive health behaviors through a biopsychosocial perspective. Topics include nutrition, exercise, weight management, mental health, stress management, violence, substance abuse, reproductive health, disease prevention, aging, healthcare, and environmental hazards and safety. (C-ID PHS 100) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

46510	Online hours		Canvas	J. Rocha Rangel		Course Materials	8-Week	
	Start Date: 06/01/26	End Date: 07/24/26		Last Day to Add: 06/08/26				

Section 46510: Enrollment limited to high school students enrolled through a high school partnership agreement.
Section 46510: Low-Cost Textbooks (below $50).

Section 46511: Zero Textbook Costs ($0).

PH-20: Introduction to Public Health (3.00 Units)

This course provides an introduction to the discipline of Public Health. Students will gain an understanding of the basic concepts and terminologies of public health, and the history and accomplishments of public health officials and agencies. An overview of the functions of various public health professions and institutions, and an in-depth examination of the core public health disciplines is covered. Topics of the discipline include the epidemiology of infectious and chronic disease; prevention and control of diseases in the community including the analysis of the social determinants of health and strategies for eliminating disease, illness and health disparities among various populations; community organizing and health promotion programming; environmental health and safety; global health; and healthcare policy and management. (C-ID PHS 101) Transfer: CSU; UC. Grading: Letter grade only

Radiologic Technology (RADTEC)

RADTEC-51: Radiographic Clinical Education III (4.75 Units)

Limitation on Enrollment: Successful completion of the 2nd semester of the Radiologic Technology Program and in good standing. Prerequisite: RADTEC-41. This course provides continued content and clinical practice experiences designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Using structured, sequential, competency-based clinical assignments, concepts of team practice, patient-centered clinical practice and professional development are discussed, examined and evaluated. Emphasis is on patient care and assessment, competent performance of radiologic imaging and total quality management. Students will focus on the well-being of the patient prior to, during and following radiologic procedures. Students perform under supervision as appropriate, adhering to all policies and procedures in the Radiologic Technology Student Handbook. Instructor signature required. Materials Fee: $26.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

Location: Clinical Location(s) to be Determined

46462	See note below			M. Soto, J. Cathcart, Y. Gomez, M. Batchelor, A. Dyer, D. Hernandez & R. Musharbash		Course Materials	Short-Term	
	Start Date: 05/22/26	End Date: 07/21/26		Last Day to Add: 05/30/26				

Section 46462: Instructor consent required
Section 46462: 228-256.5 hours per term arranged clinical.
Section 46462: Zero Textbook Costs ($0).

RADTEC-55: Fluoroscopy and Clinical Application (2.00 Units)

Limitation on Enrollment: Must be 2nd year student in the Radiologic Technology Program and in good standing. Prerequisite: RADTEC-34. This course provides a comprehensive study of the concepts and applications of fluoroscopy in medical imaging. It establishes the knowledge base required of radiographers in fluoroscopic equipment, design and operation in both conventional and digital systems. There will be study of local, state and federal regulatory principles and documents as they relate to radiation. A review of radiobiology is included, as applied to fluoroscopic exams and implications therein, with emphasis on public and occupational dose monitoring and limits and the effects of radiation on the human body. ALARA (As Low As Reasonably Achievable) is reinforced through the study of image quality versus dose. Class demonstrations and laboratory experiments complement the didactic portion of the course and provide opportunity for application and reinforcement of theories. Instructor signature required. Materials Fee: $25.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

Location: Rancho San Antonio Medical

RADTEC-82: Radiographic Clinical Education VI (4.00 Units)

Limitation on Enrollment: Successful completion of the 5th semester of the Radiologic Technology Program and in good standing. Prerequisite: RADTEC-71. This course provides terminal content and clinical practice experiences designed for sequential development, advanced application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Using structured, sequential, competency-based clinical assignments, concepts of team practice, patient-centered clinical practice and professional development are discussed, examined and evaluated. Emphasis is on patient care and assessment, competent performance of radiologic imaging and total quality management, with proficient skills assessment. Students will focus on the well-being of the patient prior to, during and following radiologic procedures with increasingly independent performance. Students perform under supervision as appropriate, adhering to all policies and procedures in the Radiologic Technology Student Handbook, for the purpose of assessing skills for employment. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Location(s) to be Determined

46463	See note below			M. Soto, J. Cathcart, Y. Gomez, D. Hernandez, S. Apprill & R. Musharbash		Course Materials	Short-Term

Section 46463: Instructor consent required.
Section 46463: 192-216 hours per term arranged.
Section 46463: Zero Textbook Costs ($0).

RADTEC-85: Radiographic Review and ARRT Preparation (2.00 Units)

Limitation on Enrollment: Must be a 2nd year student in the Radiologic Technology Program and in good standing. This course provides a comprehensive review of the Radiologic Technology curriculum, following the American Registry of Radiologic Technologists (ARRT) radiography exam specifications. It is intended to prepare the student for the radiography certification exam through the ARRT and the California Department of Public Health- Radiologic Health Branch (CDPH-RHB) licensure exam, creating the path to licensure and qualification to work as a Radiologic Technologist. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Social Science (SCSCI)

SCSCI-10: Statistics for Social Science (4.00 Units)

Placement Level: Eligibility for MATH-25 as determined by the Chaffey College placement process. Survey of methods used to analyze and interpret data generated by scientific investigation. Purpose and application of statistics, frequency distributions and graphing, central tendency, variability, percentiles, standard scores, the normal distribution, regression, correlation, probability, hypothesis testing, simple and two-factor analysis of variance, and non-parametric techniques. The use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-square and t-tests; and application of technology for statistical analysis, including the interpretation of the relevance of the statistical findings. Applications using data from disciplines including business, social sciences, psychology, life science, health science, and education. Use of computerized statistical packages (e.g. SPSS). (C-ID SOCI 125 and MATH 110) Transfer: CSU; UC credit limitations. Grading: Letter grade only

SPAN-3: Intermediate Spanish I (4.00 Units)

Prerequisite: SPAN-2 or two years of high school Spanish. This course teaches culture and facilitates language acquisition through listening, speaking, reading and writing. Students will continue to interact with authentic language in context. Content is expanded beyond "survival" needs of the immediate environment in order to express personal meaning and to apply different strategies and techniques to go beyond casual conversation and express opinions, make suggestions on familiar topics, as well as some abstract issues and plans. Students demonstrate an increased awareness of cultural norms, values, and culturally relevant appropriate customs and events. Accuracy becomes quite high for high frequency structures and vocabulary but more complex discourse is still developing and requires a somewhat sympathetic listener or reader. Students will demonstrate the ability to think critically by analyzing linguistic structures and reflecting on and making cross-cultural comparisons. This course is taught primarily in Spanish. This course may also require completion of supplemental assignments. (C-ID SPAN 200) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

Statistics (STAT)

STAT-10: Introduction to Statistics (CCN: STAT C1000) (4.00 Units)

Placement Level: Eligibility for STAT-10 (CCN: STAT C1000) as determined by the Chaffey College placement process. Advisory: Concurrent enrollment in STAT-510. This course is an introduction to statistical thinking and processes, including methods and concepts for discovery and decision-making using data. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-squared, and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Students apply methods and processes to applications using data from a broad range of disciplines. A specific statistical graphing & computing utility is required. See instructor before acquiring. May be offered as an Honors course. The Math department strongly recommends that any student wanting or needing extra support for this course to consider enrolling in STAT-510 to be taken concurrently with STAT-10 (CCN: STAT C1000). There is a 1-hour supplemental learning requirement that can be satisfied through a Chaffey College Success Center. (C-ID MATH 110) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Success Centers (SUCCESS)

SUCCESS-650 provides tutoring assistance to students currently enrolled in another Chaffey College credit or non-credit course. Enrollment in SUCCESS-650 may be accomplished during registration or at any time during the term in any Success Center. A current Chaffey student ID is required to access this service.

SUCCESS-650: Supervised Tutoring (0.00 Units)

Limitation on Enrollment: Referral by course instructor or academic counselor is required. Student must be enrolled in another Chaffey College course. Open-entry/open-exit supervised tutoring course that provides students assistance in understanding college course assignments. Individualized/small group tutoring and Supplemental Instruction (SI) sessions are conducted outside of class time in a learning assistance center and are structured to help students achieve specific course objectives or improve learning and study skills in specific subject matter. The content of this course varies according to the course for which tutoring is sought. May be repeated. Non-credit. Grading: Ungraded

Location: Campus Success Centers

ANTHRO-3: Introduction to Social and Cultural Anthropology (3.00 Units)

Placement Level: Eligibility for ENGL C1000 as determined by the Chaffey College placement process. This course explores how anthropologists study and compare human culture. Cultural anthropologists seek to understand the broad arc of human experience focusing on a set of central issues: how people around the world make their living (subsistence patterns); how they organize themselves socially, politically and economically; how they communicate; how they relate to each other through family and kinship ties; what they believe about the world (belief systems); how they express themselves creatively (expressive culture); how they make distinctions among themselves such as through applying gender, racial and ethnic identity labels; how they have shaped and been shaped by social inequalities such as colonialism; and how they navigate culture change and processes of globalization that affect us all. Ethnographic case studies highlight these similarities and differences, and introduce students to how anthropologists do their work, employ professional anthropological research ethics and apply their perspectives and skills to understand humans around the globe. May be offered as an Honors course. (C-ID ANTH 120) Transfer: CSU; UC. Grading: Letter grade only

ANTHRO-5: Introduction to Linguistic Anthropology (3.00 Units)

This introductory course serves as a foundation for understanding language from an anthropological perspective, addressing such core questions as how, what, when, where, why and with whom we communicate. This course surveys three core areas in linguistic anthropology--structural linguistics: phonetics, phonology, morphology and syntax, as well as the biocultural basis of language; historical linguistics: origins and evolution/change, dialects, and language families; and sociocultural linguistics: language acquisition in cultural context, emphasizing the relationship between language and culture, and issues of language conservation and loss. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

Arabic (ARABIC)

ARABIC-1: Elementary Modern Standard Arabic I (4.00 Units)

Introduction to the four basic language skills in functional modern Arabic - aural, oral, reading, and writing. Students learn the basics of Arabic script and pronunciation while building a foundational vocabulary. Arabic cultural norms, values, and customs are explored and serve as a basis for additional skill-building practice. This course may also require completion of supplemental assignments. Corresponds to the first year of high school Arabic. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

48584	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	L. Al-Aloom		Course Materials	14-Week	

Section 48584: Zero Textbook Costs ($0).

ARABIC-2: Elementary Modern Standard Arabic II (4.00 Units)

Prerequisite: ARABIC-1 or one year of high school Arabic. Continued presentation of the four basic language skills in functional modern Arabic - aural, oral, reading, and writing. Skills focus on the continuing practice of Arabic script, correct pronunciation, vocabulary expansion, and applying the rules of grammar and tense to simple declarative sentences and short conversations. Arabic cultural norms, values, and customs are explored and serve as a basis for additional skill-building practice. This course may also require completion of supplemental assignments. Corresponds to the second year of high school Arabic. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

Section 48585: Zero Textbook Costs ($0).

Art (ART)

ART-10: 2D Design: Concepts, Theory, and Practice (4.00 Units)

This is a problem-solving course that explores the concepts, applications, and historical contexts related to two-dimensional art and design. Emphasis on the visual elements and organizing principles of design, including shape, color, value, line, texture, and composition with emphasis on global perspectives. Development of visual literacy for critical analysis and creative expression. (C-ID ARTS 100) Transfer: CSU; UC. Grading: Letter grade only

ART-34: Intermediate Painting (4.00 Units)

Prerequisite: ART-16. Advisory: Completion of ART-10. Exploration of artistic concepts and techniques related to intermediate-level painting, focusing on complex subject matter and concepts using a variety of approaches. Students will build on fundamental painting skills to develop personalized approaches to content and materials. Study of Western and non-Western historical and contemporary approaches to painting. Students are encouraged to develop work for a portfolio. Materials Fee: $15.00 (in-person classes only, unless otherwise noted) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

47853	12:30pm-01:45pm 02:00pm-03:15pm Start Date: 08/17/26	MW End Date: 12/18/26	CAB-101	C. Balent		Course Materials	Full-Term	

ART-35: Intermediate Ceramics (3.00 Units)

Prerequisite: ART-18. Projects designed to further the student's ability to understand and manipulate clay and glazes at the intermediate level. Use of different types of kiln firings, as well as techniques and vessels appropriate for 2nd semester studies. This is primarily dealing with fabrication on the wheel, but also may include slip casting projects and beginning glaze experimentation/mixing. Continued study of Western and non-Western ceramic art techniques and history. Materials Fee: $15.00 (in-person classes only, unless otherwise noted) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

Section 47728: Hybrid class.

ARTGD-63: Introduction to Graphic Design (4.00 Units)

Formerly ART-63. An introduction to visual communications in the field of graphic design. The course includes: concept development, the creative design process, production, and presentation techniques through the development of design projects on various media using Adobe Photoshop and Illustrator. The course covers design and production skills, including beginning computer software skills. Students develop conceptual and technical abilities to amplify content through composition, image, typography, symbolism, and experimentation. Emphasis will be placed on the application of basic design principles to graphic design problems in visual communications. Design solutions will explore the potential of strategy, concept, and design, utilizing composition, layout, illustration, photography, typography, and symbology. Exercises emphasize the different aspects of analytical and creative design through typical media. For example: a brochure, poster, or billboard advertising. Topics include: Fundamental studies in the history, theories, techniques, and practices of professional graphic design, and developing graphic design projects for traditional and emerging technologies. (C-ID ARTS 250) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

ARTGD-73: Typography and Layout (4.00 Units)

Prerequisite: ARTGD-63 (formerly ART-63). Formerly ART-73. An Introduction to typography for visual communications in the graphic design industries. The class emphasizes the use of typography in the design process, including aspects of analytical and creative design through typical media. For example: a brochure, poster, or magazine ad. Considering typographic graphic design projects for traditional and emerging technologies. Students explore the evolution and classification of letterforms from ancient to contemporary, and feature the investigation of structure, format, legibility, and expression. Exercises include both hand and digital skills, with an emphasis on the application of typography. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

ARTGD-74: Identity System Design (4.00 Units)

Prerequisite: ARTGD-73 (formerly ART-73). Formerly ARTGD-474 and ART-474. The creation of visual identity programs, also known as branding, provides integrated graphic and typographic systems for identifying businesses and organizations in all media and communication contexts. It explains the formal and conceptual organizing considerations that effective branding systems are built on, from initial visual research and concept generation, to final implementation. This course is a final portfolio development class for the Graphic Design for Digital Media certificate and degree program. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

ARTGD-83: Web Design (4.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Prerequisite: ARTGD-63 (formerly ART-63). Advisory: Completion of ARTGD-82 (formerly ART-82). Introduction to design and production for the web and/or mobile devices using Figma. Topics include building prototypes, the use of Photoshop and Illustrator in UI production, principles of UX/UI design, dynamic user interaction, site/app development, and portfolio production for the web and mobile spaces. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47746	Online hours		Canvas	M. Lewis		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						

Section 47746: Zero Textbook Costs ($0).

ARTGD-84: Motion Graphic Animation (4.00 Units)

Prerequisite: ARTGD-82 (formerly ART-82). Formerly ART-84. Introduction to motion graphics animation and video for design production. The course will cover the use of Adobe After Effects and Premiere Pro as they apply to motion graphics, graphic design, visual effects, and animation. Topics include motion typography, stop motion, editing, reel production, timing, organization, and workflow management. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47747	Online hours		Canvas	J. Klasa		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						

Section 47747: Zero Textbook Costs ($0).

Art History (ARTH)

ARTH-C1100: Survey of Art from Prehistory to the Medieval Era (3.00 Units)

Note: ARTH C1100 replaced ARTH-3 beginning with the fall 2026 term. This course introduces students to visual art and architecture from prehistory to the medieval era with a focus on art from Europe, North Africa, and the near East. The course will further consider global interactions involving these regions. Analysis of how symbolism and artistic style reflect the daily life, philosophy, religion, values, and concerns of each culture and historical period. (C-ID ARTH 110) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47857	Online hours		Canvas	L. Ming		Course Materials	Early 14-Week	
	Start Date: 08/17/26	End Date: 11/20/26						

Section 47857: Zero Textbook Costs ($0).

47869	Online hours		Canvas	L. Ming		Course Materials	14-Week	
	Start Date: 09/08/26	End Date: 12/11/26						

Section 47869: Zero Textbook Costs ($0).

ARTH-C1200: Survey of Art from the Renaissance to Contemporary (3.00 Units)

Note: ARTH C1200 replaced ARTH-5 beginning with the fall 2026 term. This course provides an overview of art and architecture from the Renaissance to the contemporary period with a focus on art from Europe. The course will further consider global interactions involving this region. Analysis of how symbolism, visual concepts, and artistic style reflect the philosophy, religion, values, and concerns of each culture and historical period. (C-ID ARTH 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

ARTH-7: Arts of Africa, Oceania, and Indigenous North America (3.00 Units)

Survey of visual and material culture within the historical context of selected civilizations in the South Pacific islands, sub-Saharan Africa, and indigenous North America from ancient to modern times. (C-ID ARTH 140) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47834	Online hours		Canvas	M. Bond		Course Materials	Early 14-Week	
	Start Date: 08/17/26	End Date: 11/20/26						

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

ARTH-9: Art of the Ancient Americas (3.00 Units)

Survey of visual and material culture within the historical context of selected ancient American civilizations in Mexico, Central America, and South America up to European contact. (C-ID ARTH 145) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47872	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	C. Robertson		Course Materials	14-Week	

Section 47872: Low-Cost Textbooks (below $50).

ARTH-11: Survey of Asian Arts (3.00 Units)

Survey of the art, architecture, religion, and history of India, South and Southeast Asia, China, Korea, and Japan from prehistory to modern times. Art styles and characteristics unique to each culture and their function within the ideology of that society are considered. Problems involved in viewing Asian art outside of its original cultural context are discussed at length. (C-ID ARTH 130) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

47867	12:30pm-02:05pm Start Date: 08/18/26	TTH	CAA-211 End Date: 11/19/26	L. Ming		Course Materials	Early 14-Week	

Section 47867: Low-Cost Textbooks (below $50).

ARTH-19: Contemporary Art: 1945-Present (3.00 Units)

This course focuses on the major artistic developments in the United States and Europe from the end of World War II to the present. Tracing the shift away from traditional painting and sculpture to new mediums including performance, video, installation and photography, this course examines these art practices in the context of historical events and cultural phenomena including the Cold War and Vietnam Wars, the expansion of mass media and consumerism, the emergence of social liberation movements (including Civil Rights, Feminist, and Chicano), and the globalization of the world economies and art networks. Transfer: CSU; UC. Grading: Letter grade only

Artificial Intelligence (AI)

AI-1: Artificial Intelligence: Prompt Engineering and AI Systems (3.00 Units)

This course introduces students to the fundamentals of prompt engineering, practical use of generative AI tools, and foundational knowledge of the information systems and infrastructure that power AI technology. Students will survey various AI tools, produce effective prompts, evaluate AI outputs, and explore how these technologies are used across industries such as business, education, media, and creative fields. Students will be introduced to input/output processing, system components, various technology, networking, database queries, security, ethical considerations, and other topics. Students will gain hands-on experience designing, evaluating, and applying prompts to real-world tasks using leading AI tools. Transfer: CSU. Grading: Letter grade only

Location: Online

Section 47607: Hybrid class.
Section 47607: Low-Cost Textbooks (below $50).

AI-3: Ethics in AI and Technology (3.00 Units)

This course explores the ethical, social, and philosophical dimensions of artificial intelligence and emerging technologies. Students will examine how technologies such as machine learning, automation, robotics, data analytics, and generative AI impact privacy, employment, bias, surveillance, creativity, and human rights. Through case studies, debates, and critical analysis, the course challenges students to evaluate the moral responsibilities of technologists, policymakers, and organizations in designing and deploying AI systems. Topics include algorithmic fairness, data ethics, accountability and transparency, autonomous decision-making, intellectual property, and the future of human-machine relationships. Transfer: CSU. Grading: Letter grade only

Location: Online

Astronomy (ASTRON)

ASTRON-26: Stars and Galaxies (3.00 Units)

Overview of the universe beyond our solar system. Understand progressively larger structures in Astronomy, such as stars, galaxies, and extra-galactic structures by understanding the processes that shape them. Use the scientific method, basic physical concepts, and observations (from telescopes, spacecraft, neutrino and gravity wave detectors, etc.) Briefly consider relativity, black holes, spacetime, and the history and fate of the universe. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

47114	Online hours		Canvas	B. Hughes		Course Materials	Early 14-Week	
	01:00pm-02:50pm	M	PL-107					
	Start Date: 08/17/26	End Date: 11/20/26

	Start Date: 08/18/26	End Date: 11/19/26						

Section 47113: Zero Textbook Costs ($0).

ASTRON-27: Life in the Universe (3.00 Units)

Study of extraterrestrial life in the Universe. Includes scientific methods for finding extraterrestrial life, the conditions and processes relevant to life in the Universe, and the origin and evolution of life on Earth. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47135	Online hours		Canvas	E. Membreno		Course Materials	14-Week
	Start Date: 09/08/26	End Date: 12/11/26					

ASTRON-35: Planets and the Solar System with Lab (4.00 Units)

Study of planets, moons, and other bodies in our solar system and in extrasolar planetary systems. Using observations from telescopes and spacecraft, the scientific method and basic concepts from physics, geology, and other sciences to identify and explain formative processes and unique characteristics. Laboratory activities include formulating a scientific investigation, selecting the appropriate tools and methods of planetary science to image, measure, and/or observe phenomena, analyzing data, identifying error, and reporting results. Transfer: CSU; UC. Grading: Letter grade only

AUTOTEC-408: Electric Vehicle Systems and Diagnostics (4.50 Units)

Prerequisite: AUTOTEC-407. This intermediate course provides in-depth training in electric vehicle (EV) systems, emphasizing high-voltage safety, battery architecture, drive systems, and vehicle control modules. Students will develop diagnostic skills using scan tools, oscilloscopes, and other EV-specific equipment. Practical lab experience will focus on servicing and troubleshooting common EV components, preparing students for industry employment. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49326	08:30am-12:50pm Start Date: 08/17/26	TTH End Date: 12/18/26	ATL-121	Staff		Course Materials	Full-Term	

AUTOTEC-417: Brakes (4.00 Units)

Advisory: Completion of AUTOTEC-10 and AUTOTEC-15. Diagnosis, service, and repair of disc and drum brake systems and related hydraulic, mechanical, and electrical systems. Anti-lock brake operation is introduced. Course supports the Student Learning Outcomes of the Automotive Technology program by preparing students to take the Automotive Service Excellence (ASE) A5 Technician Certification exam. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

49122	08:30pm-09:45pm Online hours Start Date: 08/17/26	 TTH End Date: 12/18/26	ATL-121 Canvas	Staff		Course Materials	Full-Term	

Section 49122: Hybrid class.

AUTOTEC-422: Fuel, Ignition, and Emission Control Systems (5.00 Units)

Advisory: Completion of AUTOTEC-10 or AUTOTEC 450, and AUTOTEC 15. Operation and interrelationships of the fuel, ignition, emission control, and exhaust systems. Emphasis on the diagnosis of engine performance and related emissions. This course - together with Automotive Technology 423 - supports the Student Learning Outcomes of the Automotive Technology program by preparing students to take the Automotive Service Excellence (ASE) A8 Technician Certification exam, or the BAR California A8 Equivalent exam. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

Aviation Maintenance Tech (AMT)

AMT-15A: Introduction to Aviation Maintenance for Airframe and Powerplant (9.00 Units)

Introduction to Aviation Maintenance Technology (AMT). Subjects covered under the Federal Aviation Administration (FAA) Airman Certification Standards (ACS) for the certification of Airframe & Powerplant Technicians include: fundamentals of electricity and electronics, aircraft drawings and blueprints, weight and balance, hydraulics and pneumatics, aircraft materials, hardware, and processes, ground operations and servicing, cleaning and corrosion control, mathematics, regulations, maintenance forms, records, and publications, physics for aviation, inspection concepts and techniques, and human factors. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49180	08:00am-10:50am Start Date: 08/17/26	TWTH End Date: 12/18/26	AERO-1L	C. Byars		Course Materials	Full-Term	

Section 49180: Low-Cost Textbooks (below $50).

49329	03:15pm-05:05pm Start Date: 08/24/26	MTWTHF End Date: 12/18/26	AERO-1A	V. Tram		Course Materials	Short-Term	

Section 49329: Zero Textbook Costs ($0).

AMT-15C: Introduction to Aviation Maintenance for Airframe and Powerplant Laboratory (6.50 Units)

Corequisite: AMT-15A (may be taken previously). Formerly AMT-15B. Aerospace materials, hardware, manufacturing practices and safety, blueprint reading, inspection techniques, aircraft servicing, cleaning and corrosion control and FAA regulations as required for an FAA Airframe and/or Powerplant Technician's License. Includes aircraft mathematics, physics, aerodynamics and flight controls, weight and balance calculations and basic AC and DC electricity required for an FAA Airframe and/or Powerplant Technician's License. General Aeronautics laboratory hours are included to fulfill FAA practical aeronautical applications in aerodynamics, physics, weight and balance, FAA and manufacturers' publications, aircraft materials and processes, blueprint reading, aircraft servicing, electricity and mathematics. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

BIOL-2: Environmental Science (4.00 Units)

Introduction to environmental issues from a scientific perspective, focusing on physical, chemical, and biological processes within the Earth system, the interaction between humans and these processes, and the role of science in finding sustainable solutions. Topics include ecological principles, biodiversity, climate change, sustainability, renewable and non-renewable energy, water resources, air and water pollution, and solid waste management. (C-ID ENVS 100) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

BIOL-10: Concepts in Biology (3.00 Units)

Introduction to the major themes and principles of biology including energy flow and metabolism, structure/function relationships, inheritance patterns, ecology, evolution, and diversity of biological organisms. Students investigate these themes through topics at various levels of organization, ranging from molecules to ecosystems. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Online

47446	Online hours Start Date: 08/17/26	 End Date: 11/20/26	Canvas	S. Chamberlain		Course Materials	Early 14-Week

Section 47447: Zero Textbook Costs ($0).								

BIOL-12: Introduction to Human Genetics (3.00 Units)

General introduction to the fundamentals of human heredity. Topics include patterns of inheritance, DNA structure and function, the role of mutation in genetic diseases and cancer, the interaction between genes and the environment, and recent advances in biotechnology and its impact on society. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47451	Online hours Start Date: 09/08/26	 End Date: 12/11/26	Canvas	J. Chu		Course Materials	14-Week	

BIOL-20: Human Anatomy (4.00 Units)

Placement Level: Eligibility for ENGL C1000 as determined by the Chaffey College placement process. A systematic study of the microscopic and macroscopic structures of the human body, from cellular to organ system levels of organization. Emphasis on cell structures, integumentary, skeletal, muscular, respiratory, cardiovascular, nervous, sensory, digestive, urinary, endocrine, and reproductive systems. Includes considerations of pathologies and disorders of these systems. This course is a CalState/UC transferable course which is intended for biology, general education, kinesiology and health related majors. (C-ID BIOL 110B) Transfer: CSU; UC. Grading: Letter grade only

BIOL-22: Human Physiology (4.00 Units)

Prerequisite: BIOL-20, and CHEM-9, CHEM-10, or one year of high school chemistry. The dynamic nature of life processes in the human body, including the physiology of the cell and the functions and interrelations of the organ systems. The course includes the study of the physiological principles, function, integration and homeostasis of the human body at the cellular, tissue, organ, organ system, and organism level. The Lab emphasizes experimentation and scientific reasoning. (C-ID BIOL 120B) Transfer: CSU; UC. Grading: Letter grade only

BIOL-40: Introduction to Cell and Molecular Biology (4.00 Units)

Placement Level: Eligibility for college-level Math course, as determined by the Chaffey College placement process. An intensive course designed to prepare students for upper division courses in cell and molecular biology. This course covers the principles and applications of prokaryotic and eukaryotic cell structure and function, biological molecules, homeostasis, cell reproduction and its controls, molecular genetics, classical/Mendelian genetics, cell metabolism including photosynthesis and respiration, and cellular communication. The philosophy of science, methods of scientific inquiry and experimental design are foundational to the course. Laboratory includes experimental design, a variety of techniques (e.g. microscopy, spectrophotometry, electrophoresis), and data analysis. (C-ID BIOL 190, and 135 S when combined with BIOL-62) Transfer: CSU; UC. Grading: Letter grade only

Broadcasting (BRDCAST)

BRDCAST-3: Introduction to Electronic Media (3.00 Units)

Survey the history, structure, function, economics, content and delivery systems of radio, television, motion pictures, the Internet, streaming media systems, and other emerging digital formats. The study of the past and present socio-cultural, political, regulatory, ethical, technical, and occupational impacts of electronic media. Explore the past, present, and future representations of women, people of color, and other underrepresented groups. Examine issues of diversity, equity and inclusion in the media and entertainment industry. This survey course focuses on the evolution of electronic media, with a special emphasis on A.I. trends and innovations. Students will examine how A.I. has shaped electronic media content, distribution, and audience engagement. Transfer: CSU. Grading: Letter grade only

BRDCAST-60: Beginning Single Camera Production (3.00 Units)

Other: Knowledge of Macintosh computer keyboarding is recommended. The course provides an introduction to the theory, terminology, and operation of high definition single camera video production, including composition and editing techniques, camera operation, portable lighting, video recorder operation, audio control and basic editing. This course focuses on the aesthetics and fundamentals of scripting, producing, directing on location, postproduction, and exhibition/distribution. Overview of crew positions and production protocols for Electronic Field Production (EFP), and Electronic News Gathering (ENG), public service announcements, and short dramatic stories. In this course, students will explore the intersection of video production and artificial intelligence. They will learn how AI technologies can enhance various aspects of video creation, from automated video editing to real-time object recognition for creative effects. Students will gain hands-on experience in using AI tools to streamline video production processes and create innovative content that leverages the power of AI. (C-ID FTVE 130) Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

	Start Date: 08/17/26	End Date: 12/18/26						

Section 47749: Low-Cost Textbooks (below $50).

BRDCAST-62: Beginning TV Studio Production (3.00 Units)

Advisory: Possession of basic computer skills. This course introduces theory, terminology and operation of a simulated and virtual multi-camera television studio and control room. Topics include studio signal flow, directing, theory and simulated operation of virtual camera and audio equipment, including switcher operation, fundamentals of lighting, graphics, video control and video recording and virtual video production. Additional topics may include: simulated lighting board operation, video signal engineering, multi-camera line switching techniques for live broadcasts. Students coordinate cameras and on-screen performers, and collaborate with production crew members and master control-room personnel, to produce, direct, and edit virtual multi-camera studio productions. In this course, students will master the art of multi-camera studio production with the aid of A.I. systems. They will explore A.I.-driven camera tracking, automated shot selection, and real-time graphics, ensuring dynamic and professional studio productions. (C-ID FTVE 135) Transfer: CSU. Grading: Letter grade only

Section 47750: Hybrid class.

BRDCAST-67: Beginning Radio Production (3.00 Units)

Introductory course in the theory and application of live and recorded radio broadcast productions. Students gain a basic understanding of analog and digital audio equipment for live and/or pre-recorded radio broadcasts. Lab practicum includes: operation of various digital recording equipment, digital audio software and editing, radio programming formats, news writing and organizing radio program content for a live or pre-recorded weekly radio broadcast on the Chaffey College radio station. Application of radio production techniques in live audio board operation, mixing sound sources, production of Internet audio/radio streaming, multi-track recording, mixing and editing. Students examine and explore representations of race, gender, and culture in past and current radio programming. Develop vocal announcing skills. Create entrepreneurial content via a radio personality/program website. Produce diverse, multilingual, and culturally inclusive weekly radio broadcasts. Study of current FCC rules and regulations. This course delves into the world of radio production with a focus on A.I. integration. Students will discover how artificial intelligence can be applied to automate content creation, generate voiceovers, and even assist in program scripting. They will learn to harness the capabilities of A.I. to make radio production more efficient and creative. (C-ID FTVE 125) Transfer: CSU. Grading: Letter grade only

BRDCAST-70: Postproduction for Broadcasting & Cinema (3.00 Units)

Students assemble and edit various broadcasting and/or cinematic content. Broadcasting and cinema editing assignments may also include some of the following: found footage, bumpers/interstitials, music video, public service announcement, documentary and dramatic student projects. Other postproduction topics include editing workflows, audio sweetening, title sequences, keying, color grading, broadcast mastering standards, streaming video protocols, and basic visual transitions and effects. Postproduction editing is taken to the next level in this course, where students will leverage A.I. tools to enhance various editing skills. They will learn to use A.I. for tasks such as color correction, noise reduction, and automated scene tagging, improving the efficiency and quality of postproduction processes. Transfer: CSU. Business (BUS)

BUS-10: Introduction to Business (3.00 Units)

A survey in business providing a multidisciplinary examination of how culture, society, economic systems, legal, international, political, financial institutions, and human behavior interact to affect a business organization's policy and practices in the U.S. and within a global society. Demonstrates how the following influences impact a business' ability to achieve its organizational goals: organizational structure and design, leadership, human resource management, organized labor practices, marketing, organizational communication, technology, entrepreneurship, legality, accounting, financial practices, the stock and securities market. Business Technology (BUSTEC)

BUSTEC-40A: Beginning Computer Keyboarding (3.00 Units)

Beginning course in computer keyboarding with mastery of the alphabetic and numeric keyboard and correct touch-typing techniques. Introduction to the personal computer, word processing, disk management, and formatting of basic business correspondence. Transfer: CSU. Grading: Letter grade only

Location: Online

48166	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	L. Zamora		Course Materials	Fast-Track 2	

Location: Rancho Cucamonga Campus and Online

48264	09:00am-12:05pm Online hours Start Date: 08/17/26	T	BE-104 Canvas End Date: 10/09/26	L. Zamora		Course Materials	Fast-Track 1	

BUSTEC-40B: Computer Keyboarding: Speed and Accuracy Development (3.00 Units)

Advisory: Completion of BUSTEC-40A or equivalent experience (e.g., high school coursework or experience in a certain profession). Develop computer literacy. Analyze, evaluate, and improve keyboarding speed and accuracy using correct keyboarding techniques. Intense review of letters, numbers, symbols, and the creation of appropriately formatted business documents. Transfer: CSU. Grading: Letter grade only

Location: Online

48250	Online hours Start Date: 10/19/26		Canvas End Date: 12/11/26	H. Myers		Course Materials	Fast-Track 2	

BUSTEC-50: Filing and Records Management (3.00 Units)

Instruction and simulated work applications using basic filing principles, procedures, and systems defined by ARMA International. Emphasis is placed on information storage of multiple record types and retrieval systems. Also discussed are management aspects of records retention, disposition, and the operation of a records management program. Transfer: CSU. Grading: Letter grade only

Location: Online

48175	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	J. De Azevedo-Correa		Course Materials	14-Week	

BUSTEC-60A: Microsoft Office Word - Specialist (3.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Advisory: Completion of BUSTEC-40A. This module prepares students to use the current word processing application of business software. Students develop job skills while building a foundation for other software applications. Students will be able to create, edit, format and customize, save, print, and retrieve documents. Course helps prepare students for certification testing. Computer assignments are a required part of this course. Transfer: CSU. Grading: Letter grade only

Location: Online

48164	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	C. Ramos		Course Materials	Fast-Track 2	

BUSTEC-60B: Microsoft Office Word - Expert (3.00 Units)

Prerequisite: BUSTEC-60A, Word Specialist MOS Certification, or equivalent full-year high school course. Advisory: Completion of BUSTEC-40A. A hands-on approach to advanced formatting features of Microsoft Word: Customizing and streamlining using macros, building blocks, quick parts, autocorrect, themes, styles, and templates; creating multiple-page business documents using tabling features, indexes, page numbering, tables and charts, and reference citations; and using reviewing tools for adding comments and tracking in shared documents. Computer assignments are a required part of this course. Transfer: CSU. Grading: Letter grade only

Location: Online

48256	Online hours Start Date: 10/19/26		Canvas End Date: 12/11/26	C. Williams		Course Materials	Fast-Track 2	

BUSTEC-61: Microsoft Office PowerPoint (1.50 Units)

Advisory: Completion of BUSTEC-40A and BUSTEC-60A. A hands-on introduction to concepts, terminology, and features of a presentation software program to create electronic presentations for support personnel and business managers. Topics include formatting and animating slide texts, charts, tables, and graphics as utilized in business presentations and integration with other software programs. Transfer: CSU. Grading: Letter grade only

Location: Online

Section 48258: Hybrid class.

BUSTEC-64: Microsoft Office Access - Comprehensive (3.00 Units)

Advisory: Completion of BUSTEC-63. Hands-on introduction to the concepts and terminology used to create, use, and manage information contained in databases. Students design tables, queries, forms, and reports using the features of the current database software. Computer assignments are a required part of this course. Mastery of core features and introduction of advanced features of the current Microsoft Office Access database software application for working with databases, tables, reports, forms, and queries. Integration of Access data objects with the other Microsoft Office software. Transfer: CSU. Grading: Letter grade only

Location: Online

48253	Online hours Start Date: 10/19/26		Canvas End Date: 12/11/26	D. Thompson		Course Materials	Fast-Track 2	

BUSTEC-400: Job Search and Interviewing Techniques (1.50 Units)

Advisory: Completion of BUSTEC-60A. Strategies to organize a job search, prepare a marketable resume and cover, create a career portfolio, respond to frequently asked interview questions, and practice successful interviewing techniques. Grading: Letter grade only

Location: Online

48254	Online hours Start Date: 10/19/26		Canvas End Date: 12/11/26	N. Tuttle		Course Materials	Fast-Track 2	

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Section 48254: Zero Textbook Costs ($0).

BUSTEC-452: Administrative Financial Bookkeeping (3.00 Units)

Bookkeeping procedures to broaden the skills of the administrative professional in handling business financial records and other supporting documents relevant to the operation of a small business. Includes mastery of the business financial features of the 10-key display calculator with speed and proficiency. Grading: Letter grade only

Location: Online

48173	Online hours		Canvas	C. Williams		Course Materials	Early 14-Week	
	Start Date: 08/17/26	End Date: 11/20/26						

BUSTEC-455: Fundamentals of English for Business (3.00 Units)

Study and review of grammar, punctuation, vocabulary, and sentence structure to prepare students for employment and college-level business writing courses. Overview of sentence structure, paragraphs, business vocabulary, and basic communication skills. Practice in applying basic principles of communication and critical-thinking skills leading to understanding of effective business communications. Grading: Letter grade only

Location: Online

48232	Online hours		Canvas	S. Merendon		Course Materials	14-Week	
	Start Date: 09/08/26	End Date: 12/11/26						

BUSTEC-470: Office Systems and Procedures (3.00 Units)

Advisory: Completion of BUSTEC-60A. Coordination and refinement of the duties and responsibilities of the office professional, including the organization of those duties, the personal qualifications of the office professional, and business office ethics and etiquette in a diverse and global business environment. Emphasis on work procedures, technology in the office, stress- and time-management techniques, team work, customer service, event planning and business travel arrangements. Grading: Letter grade only

Location: Online

48251	Online hours		Canvas	J. Scott		Course Materials	Fast-Track 2	
	Start Date: 10/19/26	End Date: 12/11/26						

California Institution for Men (CIM)

Registration for the following sections is restricted to CIM students.

BIOL-10: Concepts in Biology (3.00 Units)

Introduction to the major themes and principles of biology including energy flow and metabolism, structure/function relationships, inheritance patterns, ecology, evolution, and diversity of biological organisms. Students investigate these themes through topics at various levels of organization, ranging from molecules to ecosystems. Transfer: CSU; UC credit limitations. Grading: Letter grade only

STAT-C1000: Introduction to Statistics (4.00 Units)

Placement Level: Eligibility for STAT C1000 (formerly STAT-10) as determined by the Chaffey College placement process. Advisory: Concurrent enrollment in STAT-510. Note: STAT C1000 replaced STAT-10 (CCN: STAT C1000) beginning with the fall 2026 term. This course is an introduction to statistical thinking and processes, including methods and concepts for discovery and decision-making using data. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-squared, and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Students apply methods and processes to applications using data from a broad range of disciplines. A specific statistical graphing & computing utility is required. See instructor before acquiring. May be offered as an Honors course. The Math department strongly recommends that any student wanting or needing extra support for this course to consider enrolling in STAT-510 to be taken concurrently with STAT C1000 (formerly STAT-10). There is a 1-hour supplemental learning requirement that can be satisfied through a Chaffey College Success Center. (C-ID MATH 110) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: California Institution for Women

48170	05:00pm-06:50pm	TTH	CIW	Staff			Full-Term

Chemistry (CHEM)

CHEM-9: Health Science Chemistry (5.00 Units)

Placement Level: Eligibility for college-level Math course, as determined by the Chaffey College placement process. This course is for students completing a certificate program or associate degree in a health science such as Vocational Nursing, Radiological Technology, and Associate Degree Nursing. The course is an introduction to the principles of chemistry including inorganic chemistry, organic chemistry, and biochemistry. Topics covered include measurements, properties and classification of matter, atomic structure, bonding and nomenclature, chemical equations, stoichiometry, gas laws, solutions, acids, bases and pH, equilibrium, nuclear chemistry, and organic and biochemical structure and reactions. Laboratory work will provide hands-on activities to teach laboratory skills and support the concepts presented in the lecture. This course is not intended for science majors. Transfer: CSU; UC credit limitations. Grading: Letter grade only

CHEM-12: Elementary Organic and Biochemistry (4.00 Units)

Prerequisite: CHEM-10. This course is primarily intended for transfer students pursing degrees in health science areas such as bachelor degrees in Nursing, Dental Hygiene, Dietitian, and other health science related degrees. The course is a survey of organic chemistry and biochemistry with a focus on biological applications and an emphasis on cellular and organism chemistry. Topics covered include organic functional groups, nomenclature, structure and reactions of organic compounds, structure and biological importance of carbohydrates, lipids, amino acids, proteins, nucleic acids, DNA, and RNA. Laboratory work will provide hands-on activities to teach laboratory skills and support the concepts presented in the lecture. This course is not intended for science majors. (C-ID CHEM 102) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus								
47319	05:00pm-06:50pm 01:00pm-04:50pm Start Date: 09/09/26	MW M End Date: 12/09/26	BL-107 CHEM-103	J. Tran		Course Materials	14-Week

CHEM-24A: General Chemistry I (5.00 Units)

Prerequisite: CHEM-10, or successful completion of one year of high school chemistry, and Algebra II, Integrated Math 3, or equivalent. First semester General Chemistry for Science and Engineering students. Topics include: atomic structure and periodic properties; types and structure of matter; thermochemistry; chemical reactions; stoichiometry; nomenclature; bonding models and theories; gas, liquid, solid, and solution properties. Laboratory with hands-on activities to

CHEM-75A: Organic Chemistry I (5.00 Units)

Prerequisite: CHEM-24B. Formerly CHEM-76A. This is the first semester in a year-long course in organic chemistry designed for students majoring in science and engineering. Topics cover major classes of organic compounds: aliphatic hydrocarbons; alkyl halides; alcohols; and ethers. This includes nomenclature, structure and stereochemistry, properties, reactions, mechanisms, and spectroscopy. Laboratory provides hands-on activities on the basic techniques of organic chemistry including synthesis, separation, purification, and analysis by using various spectroscopic methods. (C-ID CHEM 150, and 160S when combined with CHEM-75B) Transfer: CSU; UC. Grading: Letter grade only

CHEM-75B: Organic Chemistry II (5.00 Units)

Prerequisite: CHEM-75A (formerly CHEM-76A). Formerly CHEM-76B. This course is a continuation of CHEM 75A expanding the study of organic chemistry to include aromatic compounds, introduction to organometallic compounds, aldehydes and ketones, carboxylic acids and their derivatives, enolates, amines, and introduction to biochemistry. Topics include nomenclature, structure and stereochemistry, properties, reactions, and mechanisms. Laboratory work emphasizes the techniques of organic synthesis, purification, qualitative analysis, and analysis by using various spectroscopic methods. (C-ID CHEM 160S when combined with CHEM-75A) Transfer: CSU; UC. Grading: Letter grade only

Child Development & Education (CDE)

CDE-1: Principles & Practices in Early Childhood Education (3.00 Units)

Other: Proof of a negative tuberculosis test within the past 12 months may be required for some site visits. Developmentally appropriate practices applied to programs and environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative, and intellectual development for all children. This course includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics, and professional identity. (C-ID ECE 120) Transfer: CSU. Grading: Letter grade only

CDE-2: Child Growth and Development (3.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Other: Proof of negative tuberculosis test within the past 12 months may be required for some site visits. This introductory course examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development of various stages. (C-ID CDEV 100) Transfer: CSU; UC credit limitations. Grading: Letter grade only

CDE-7: Curriculum Development: The Creative Arts (3.00 Units)

Other: Proof of a negative tuberculosis test within the past 12 months may be required for some site visits. Introduction to the creative arts for young children. Storytelling, language, visual arts, drama, music, and dance are examined as an integral part of the child's world. Theories and techniques to develop children's creative abilities are explored. Emphasis on creative processes through appreciation of diversity in art and culture. Perspectives on values and problem solving that engage children's participation at all levels. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49091	09:30am-10:45am Start Date: 08/17/26	TTH	CD-124B End Date: 12/18/26	C. McPeck		Course Materials	Full-Term	

CDE-23: Introduction to Children with Special Needs (3.00 Units)

Prerequisite: CDE-2. Other: Proof of a negative tuberculosis test within the past 12 months may be required. Presentation of different types of physical and behavioral difficulties that interfere with normal cognitive, social, and emotional growth. Recognition of these difficulties, where to seek appropriate professional help, and how to work with children with special needs in the home and in the school. Transfer: CSU. Grading: Letter grade only

Location: Online

49056	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	C. Slepski		Course Materials	14-Week

CDE-28: Advanced Curriculum Theory (2.00 Units)

Limitation on Enrollment: Proof of a negative tuberculosis test within the past 12 months is required. Proof of an MMR, a TDap, and a current influenza immunization is also required. Prerequisite: CDE-27. Corequisite: CDE-28W. Formerly CDE-25. Advanced principles and practices of curriculum theory of early childhood growth and development and their application through student teaching. Emphasis on health and safety, language capability, cognitive development, and physical needs in the learning environment, as well as development of effective communication skills for teachers. Advanced curriculum planning and implementation of cognitive, physical, social, emotional, cultural, and creative and language arts lesson plans in developmentally appropriate environments, with focus on the creation of an unbiased curriculum and learning environment. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49060	06:00pm-07:50pm	M	CD-124B	R. Brewer		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						
Section 49060: Linked with CDE-28W, section 49061.								
Section 49060: Low-Cost Textbooks (below $50).								

CDE-28W: Practicum II: Supervised Occupational Work Experience (1.00 Unit)

Corequisite: CDE-28 (may be taken previously). Formerly CDE-25W. Advanced, supervised application of the principles of early childhood growth and development to student teaching. Emphasis on health and safety, language capability, cognitive development, and physical needs in the learning environment, as well as development of effective communication skills for teachers. Advanced curriculum planning and implementation of cognitive, physical, social, emotional, cultural, and creative and language arts lesson plans in developmentally appropriate environments, with focus on the creation of an unbiased curriculum and learning environment. Course requires 54 hours of supervised practicum in various community child development programs. Transfer: CSU. Grading: Letter grade only

Cinema (CINEMA)

CINEMA-20: Screenwriting - Cinema (3.00 Units)

Comprehensive overview of screenwriting for motion pictures and other cinematic formats. Students employ writing theory and critical analysis of classical literature to formulate story ideas, develop storytelling techniques, arrange narrative structures, and write polished screenplays. Various screenwriting software applications are utilized to format, chart, outline, storyboard, and write dynamic stories for motion pictures. Overview and examination of historically excluded cultures, ethnicities, gender, and persons of color that are disproportionate to the real-life U.S. population. This course combines the art of screenwriting with A.I. assistance. Students will explore how A.I. can aid in script analysis, idea generation, and even character development. They will gain insights into how to integrate A.I. into the creative screenwriting process while preserving the human touch. Transfer: CSU. Grading: Letter grade only

CINEMA-25: Survey of World Cinemas (3.00 Units)

Historical introduction and development of motion pictures as an art form through the study and viewing of international works of cinema. Overview of early silent motion pictures and major cinematic movements: German Expressionism, Soviet Montage, Italian Neorealism, Postwar Japanese Cinema, French New Wave, and other culturally diverse and innovative cinemas across the world. Examines the semiotics of both the visual and sound elements portrayed in world cinema. Explores the representation and contribution of women and people of color, including significant producers, directors, writers, cinematographers, and actors, from diverse cultures and governmental systems. This course provides students with a global perspective on cinema history, complemented by A.I. analysis. Students will use A.I. algorithms to study international film movements and their impact on world cinema, gaining a deeper understanding of cultural influences. Transfer: CSU; UC. CINEMA-26: Survey of American Cinema (3.00 Units)

Analysis and discussion of the portrayals of African Americans, Asians, Latinx, Native Americans, and other American national cultures including representations of class, gender, and issues of diversity, equity, and inclusion. Historical overview of the birth of American cinema, silent movie classics, silent comedies, and the story structure of the hero's journey. Areas of study include: the early women pioneers, such as Alice Guy Blaché, westerns, gangsters, musicals, science fiction, film noir, animation, American independent features and short movies. This survey course on American cinema history incorporates A.I. insights to enhance students' understanding of film evolution. A.I. analytics and content recommendation systems will be explored to uncover patterns and trends in American cinema over the years. Transfer: CSU; UC. Grading: Letter grade only

COMSTD-6: Fundamentals of Small Group Communication (3.00 Units)

This course focuses on oral communication principles in a variety of group contexts. Emphasis is placed on theory, application, and evaluation of group communication processes, including problem solving, conflict management, decision making, and leadership. Students will develop competence and confidence as a group member and leader through a combination of theoretical and practical application of small group principles in everyday life. Study and practice in various group activities. This course includes faculty-supervised, faculty-evaluated oral presentation in the presence of others (Physically or virtually). May be offered as an Honors course. (C-ID COMM 140) Transfer: CSU; UC. Grading: Letter grade only

COMSTD-8: Fundamentals of Speech Communication (3.00 Units)

This course provides a foundational introduction to Communication Studies. Students will practice speech-making in a democratic society and explore key communication theories and principles within public speaking, small group, and interpersonal contexts. The course equips students to ethically articulate ideas across diverse contexts and audiences. Students will learn to employ public speaking techniques (both informative and persuasive), use critical thinking to evaluate historical and contemporary public discourse, and engage effectively in interpersonal and group communication. This course is designed as an oral communication option to help students manage high levels of communication apprehension. (C-ID COMM 115 and COMM 180) Transfer: CSU; UC. Grading: Letter grade only

COMPSCI-4: Discrete Structures (3.00 Units)

Prerequisite: COMPSCI-1, COMPSCI-5 (formerly CISPROG-5), or ITIS-30 (formerly CISPROG-1). Fundamental topics for Computer Science, such as logic, proof techniques, set theory, introduction to computer programming, basic counting rules, relations, functions and recursion, graphs and probability trees. (C-ID COMP 152 and MATH 160) Transfer: CSU. Grading: Letter grade only

Location: Online

47923	Online hours Start Date: 08/17/26		Canvas End Date: 11/20/26	S. Solis		Course Materials	Early 14-Week	

COMPSCI-5: Programming Concepts and Methodology I (Python) (3.00 Units)

Note: COMPSCI-5 replaced CISPROG-5 beginning with the fall 2026 term. Beginning computer application design and construction concepts using Python programming language. Course includes fundamental concepts of control structures, data structures, and object-oriented programming. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47885	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	T. Kocher		Course Materials	Fast-Track 1	

Section 47885: Low-Cost Textbooks (below $50).

COMPSCI-6: Programming Concepts and Methodology II (Python) (3.00 Units)

Prerequisite: COMPSCI-5 (formerly CISPROG-5). Application of software engineering techniques to the design and development of large programs; data abstraction and structures and associated algorithms using Python. Transfer: CSU. Grading: Letter grade only

Location: Online

47949	Online hours Start Date: 10/19/26		Canvas End Date: 12/11/26	T. Kocher		Course Materials	Fast-Track 2	

COMPSCI-10: Introduction to Data Science (3.00 Units)

Introduction to data science for students with little to no experience in the subject. Topics include foundational programming concepts, problem-solving strategies and code design, and data science concepts such as table operations, exploratory data analysis, and basic probability. Students explore the data science lifecycle, including question formulation, data collection and cleaning, exploratory data analysis and visualization, statistical inference and prediction, and decision-making. The course focus is on transforming and analyzing data; machine learning methods, including regression, classification, and clustering; principles behind data visualizations; concepts of measurement error and prediction; and techniques for scalable data processing. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

47620	12:30pm-02:20pm Online hours Start Date: 08/17/26	M	BE-106 Canvas End Date: 11/20/26	S. Solis		Course Materials	Early 14-Week

Section 47621: Hybrid class.

COMPSCI-11: Python Data Analytics (3.00 Units)

Prerequisite: COMPSCI-5 (formerly CISPROG-5). Note: COMPSCI-11 replaced CISPROG-6 beginning with the fall 2026 term. This course provides students with experience in using Python as a tool to import, explore, condition, and analyze data. Students will develop ways to find meaning in data using Python tools and modules such as NumPy, Matplotlib, and Pandas. Topics include: production of plots and models for decision-making, import and manipulation of databases, data visualization, selection and application of statistical analyses, machine learning, and predictive modeling. Transfer: CSU. Grading: Letter grade only

Criminal Justice (CJ)

CJ-1: Introduction to the Criminal Justice System (3.00 Units)

This course introduces students to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement, theoretical explanations of crime, responses to crime, components of the system, and current challenges to the system. The course examines the evolution of the principles and approaches utilized by the justice system and the evolving forces which have shaped those principles and approaches. Although justice structure and process is examined in a cross cultural context, emphasis is placed on the US justice system, particularly the structure and function of US police, courts, and corrections. Students are introduced to the origins and development of criminal law, legal process, and sentencing and incarceration policies. (C-ID AJ 110) Transfer: CSU; UC. Grading: Letter grade only

CJ-4: Community and the Justice System (3.00 Units)

This course examines the relationship between multicultural communities and the justice system. It will explore the interactions between criminal justice practitioners and special populations, including LGBTQIA+, women, the elderly, children, the mentally ill, disabled, and immigrants. Analysis of appropriate actions when responding to special populations will be explored, along with alternatives to the use of force. Social skills, de-escalation tactics, relationship building, and collaborating with community partners will be reviewed. (C-ID AJ 160) Transfer: CSU; UC. Grading: Letter grade only

CJ-55: Crime and Delinquency (3.00 Units)

This course covers an analysis of theories of crime and delinquency with a focus on sociological factors. Sociological factors such as culture, social class, gender, education level, poverty, systemic racism, and minority status will be explored. The course will review the progression of causation theories attributed to crime and delinquency in the criminal justice system. The origin of crime classification will be examined. Transfer: CSU. Culinary Arts (CUL)

CUL-15: Sanitation, Safety, and Equipment Management (3.00 Units)

Safety, sanitation, and proper equipment management issues in the food service industry. In-depth coverage of industry-based sanitation and safety standards that prevent contamination and food-borne illness, forestall on-the-job accidents and injuries of workers, and preclude equipment misuse and damage. Disaster planning fire prevention, and basic first aid procedures are highlighted. Special emphasis on the local, state, and federal agencies and programs - such as OSHA, HACCP, and Serv-Safe - having regulatory oversight in food service workplaces. (C-ID HOSP 110) Transfer: CSU. Grading: Letter grade only

CUL-17: Principles of Food Preparation (3.00 Units)

Prerequisite: CUL-15. Principles and techniques in professional food preparation, including science and technology of the kitchen, food service safety and sanitation policies and procedures, recipe specifications, and kitchen equipment use and maintenance. This course also covers nutritional components of foods under review. These components include the digestion, absorption and metabolism of nutrients. Culinary concepts include mise en place, dry and moist cookery, appropriate use of produce, dairy and dry goods, and sustainability using local sourcing. Includes demonstrations of hands-on professional food preparation techniques and how they apply to a culinary team. CUL-440: Introduction to Baking (4.00 Units)

This course covers fundamental baking skills for students who intend to specialize in baking and pastry making for commercial production. Production of yeast and quick breads, cakes, cookies, pies, and pastries, as well as decorating and icings are undertaken. Baked goods from diverse communities will be explored. Gourmet baked items and pastries are produced in a time-restricted, quality-minded setting. This course is for students pursuing a career in culinary arts/culinary management. Materials Fee: $40.00 (in-person classes only, unless otherwise noted). Grading: Letter grade only

Location: Chino Campus

CUL-442: Professional Cooking (4.00 Units)

Prerequisite: CUL-17. Intermediate and advanced culinary techniques, including a historical and contemporary exploration of cultural cuisines from diverse cultures. Practical application of culinary theory and techniques that provide students with a realistic experience of professional cooking and kitchen culture. Focus on intermediate knife skills; foundations and principles of seafood, shellfish, crustacean, meat, & poultry fabrication and preparation; exploration of advanced sauces, stocks, and soups; vegetable and starch identification; study of Sous Vide, smoking, curing, and preserving techniques; focus on plating, palate development, tasting, menu planning and costing. An advanced exploration of braising, poaching, saute, roasting, stewing, stir fry, grill and frying techniques. Kitchen safety and sanitation rules are revisited and practiced. Materials Fee: $40.00 (in-person classes only, unless otherwise noted). Grading: Letter grade only

Location: Chino Campus

CUL-443: Artisan Breads (4.00 Units)

Advisory: Completion of CUL-440. Artisan Breads provides students with the information, tools, and instruction to gain proficiency in the preparation of a variety of artisan breads. This course will also focus on international breads with an evaluation of bread and yeast products from throughout the world. Emphasis is placed on learning to mix, ferment, shape, bake, and store hand-crafted breads. Students focus on traditional fermentation, as well as the science of the ingredients. Students learn the assembly and speed necessary to increase their proficiency in meeting production deadlines with quality products. Materials Fee: $40.00 (in-person classes only, unless otherwise noted). Grading: Letter grade only

DENTAL-445: Oral Radiology (2.00 Units)

Corequisite: DENTAL-405, DENTAL-415, DENTAL-415L, DENTAL-425, DENTAL-425L, DENTAL-435, and DENTAL-435L. Theory and basic principles of intraoral and extra oral radiographs; characteristics and methods of controlling radiation, hazards of radiation and biological effects and radiography anatomical landmarks and pathologies. Practical application in oral radiology preclinical, clinical and laboratory setting; radiographic exposures, process and evaluations on DXTRR and patients; infection control, health and safety rules and regulations, and the use of selected radiographic equipment and image software. This course is approved by the Dental Board of California for meeting the Radiation Safety requirements. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

49304	03:00pm-04:50pm Online hours Start Date: 08/17/26	M End Date: 12/18/26	HS-101 Canvas	Staff		Course Materials	Full-Term	

Section 49304: Instructor consent required.
Section 49304: Hybrid class. Class will meet face-to-face on 8/17, 8/24, 8/31, 9/14, 9/21, 9/28, 10/05, 12/7, 12/14.

DENTAL-445L: Oral Radiology Lab (1.50 Units)

Corequisite: DENTAL-405, DENTAL-415, DENTAL-415L, DENTAL-425, DENTAL-425L, DENTAL-435, and DENTAL-435L. Practical application in oral radiology preclinical, clinical and laboratory setting; radiographic exposures, process and evaluations on DXTRR and patients; infection control, health and safety rules and regulations, and the use of selected radiographic equipment and image software. This course is approved by the Dental Board of California for meeting the Radiation Safety requirements. Grading: Letter grade only

Location: Rancho Cucamonga Campus

Section 49310: Instructor consent required.

DENTAL-635: Infection Control in Dentistry (0.00 Units)

Other: Students must provide proof of current Basic Life Support (BLS) certification by the first week of class to remain enrolled. This 8-hour certification course, approved by the Dental Board, is designed to meet the legal requirements for unlicensed dental assistants to work or volunteer in a dental office. The course is also designed to meet the minimum requirements for the 8-hour infection control course as mandated by the California Board of Dental Examiners and Cal-DOSH, in compliance with B&P Section 1756(b). Offered by Chaffey College through a hybrid learning model, the course combines online didactic instruction with an assessment and on-campus hands-on laboratory activities to earn certification. Students will develop the foundational competencies necessary to implement infection control protocols effectively and safely in a dental practice. Topics covered include the infectious disease process, microbiology, and methods of disease transmission, along with practical applications of disinfection and sterilization techniques. Emphasis is placed on compliance with OSHA standards, workplace ergonomics, dental waterline maintenance, and proper waste management. Non-credit. Grading: Ungraded

Location: Rancho Cucamonga Campus and Online

Drafting (DRAFT)

DRAFT-20: Computer-Aided Drafting and Design (4.00 Units)

Introduction to Computer Aided Drafting and Design (CADD) technology, terminology, and application, using an industry-standard program. Drawing creation; detailing and dimensioning; management of drawing files; management of user environment; producing hardcopy output of drawings; introduction to parametric sketching; Emphasis on two-dimensional working drawings. Coursework will be completed using the AutoCAD software. Transfer: CSU. Grading: Letter grade only

Location: Online

DRAFT-21: Mechanical Design I (3.00 Units)

Prerequisite: EGTECH-10 or one year experience using SolidWorks or similar feature-based modeling software. Advisory: Completion of DRAFT-20. Engineering graphics for product design, manufacturing and construction. Emphasis on production of layouts and engineering drawings. Orthographic projection of primary views, section views, detail views and auxiliary views. Detailing of drawing views including dimensions, tolerancing, notes/labels and drawing formats. Assignments will be completed using the SolidWorks CAD software. Transfer: CSU. Grading: Letter grade only

Location: Online

49077	Online hours		Canvas	J. Iniguez		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						
Section 49077: Linked with DRAFT-41, section 49076.								

DRAFT-41: Mechanical Design and Drafting II (4.00 Units)

Prerequisite: EGTECH-10 or one year experience using SolidWorks. Advisory: Completion of DRAFT-21. Advanced mechanical design/drafting with an on interpretation and preparation of part and assembly drawings. Emphasis on application of ASME Y14.5 geometrical and positional tolerancing and Six-Sigma tolerance stacking/analysis practices. Additional topics will include techniques for automating and customizing application software. Coursework will be completed using the SolidWorks software. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49076	Online hours		Canvas	J. Iniguez		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						
Section 49076: Linked with DRAFT-21, section 49077.								

DRAFT-50: Architectural Design I (3.00 Units)

Advisory: Completion of DRAFT-20. Intro to Revit Architecture software. Projects of simple residential and commercial buildings will be employed. Student drawings will reflect the integration of topics concepts and the various plans needed for a complete set of working drawings, including floor plans, elevations, section views, schedules and other construction documents are covered. Hands-on exercises will be used to reinforce the functions of Revit. Coursework will be completed using REVIT Architecture software. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49070	05:15pm-06:05pm	MW	BE-100	S. Hall		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						
Section 49070: Linked with DRAFT-51, section 49069.								

DRAFT-51: Architectural Design II (3.00 Units)

Advisory: Completion of DRAFT-50. Design issues associated with more complex buildings and settings, including the impact of zoning, local codes, and challenging sites. Students will be using Revit Architecture software in order to help students master techniques used to develop and graphically convey architectural concepts, mainly using Revit Architecture. Students will progress an understanding of the design process related to space through digital media. Topics include: residential multiple story building, and small commercial design projects, green building design/materials, and environmental impact. Hands-on exercises will be used to reinforce the functions of Revit. Coursework will be completed using the Revit Architecture software. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49069	05:15pm-06:05pm			S. Hall		Course Materials	Full-Term	
	Start Date: 08/17/26							
Section 49069: Linked with DRAFT-50, section 49070.								

Earth Science (ESC)

ESC-1: Earth Science (3.00 Units)

Geology, oceanography, meteorology, and planetology aspects of the physical environment; designed for general education and earth science majors. (C-ID GEOL 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

Economics (ECON)

ECON-C2001: Principles of Microeconomics (3.00 Units)

Placement Level: Eligibility for MATH-542 or higher-level math course as determined by the Chaffey College placement process. Note: ECON C2001 replaced ECON-4 beginning with the fall 2026 term. An introductory course using microeconomic models to understand individual decisions by consumers and firms, market outcomes including market failure, elasticity, market structures, labor markets, inequality, and the impact of government policies. Additional topics include scarcity; specialization and trade; production and cost theory; factor markets; effects of taxes on individuals and businesses; income distribution and poverty; economics of race, gender, and culture; and market failure. May be offered as an Honors course. (C-ID ECON 201) Transfer: CSU; UC. Grading: Letter grade only

Education (ED)

ED-10: Introduction to Elementary Classroom Teaching (3.00 Units)

Limitation on Enrollment: Proof of a negative TB test within past 12 months and legal fingerprint clearance through the Chaffey College Human Resources Department are required for fieldwork placement. Prerequisite: CDE-2. Corequisite: ED-10W. Placement Level: Eligibility for ENGL C1000 as determined by the Chaffey College placement process. Course explores concepts and issues related to teaching diverse learners in today's schools, Kindergarten through grade twelve (K-12). Topics include teaching as a profession, historical and philosophical foundations of the United States education system, contemporary educational issues, and California's standards for both student curriculum and teacher performance. (C-ID EDUC 200) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

49092	08:00am-09:15am Online hours Start Date: 08/17/26	T	CD-124A Canvas End Date: 12/18/26	M. Alexander	H	Course Materials	Full-Term

Section 49092: Hybrid class.

49093	05:30pm-06:45pm Online hours Start Date: 08/17/26	M	CD-124A Canvas End Date: 12/18/26	M. Alexander	H	Course Materials	Full-Term

Section 49093: Hybrid class.

ED-10W: Introduction to Elementary Classroom Teaching Fieldwork (1.00 Unit)

Corequisite: ED-10. This course is designed to be taken concurrently with Education 10, Introduction to Elementary Classroom Teaching. The course requires 54 hours of structured fieldwork with a certificated teacher selected by the course instructor at schools within the district boundaries of Chaffey College. Transfer: CSU. Grading: Pass/No Pass only

Location: Location(s) to be Determined

49094	54 hours arranged work experience Start Date: 09/08/26			End Date: 12/11/26	M. Alexander	Course Materials	14-Week
49095	54 hours arranged work experience Start Date: 09/08/26			End Date: 12/11/26	M. Alexander	Course Materials	14-Week

Emergency Medical Technician (EMT)

EMT-11: Emergency Medical Technician (7.00 Units)

Limitation on Enrollment: Student must be 18 years or older at the start of the course, and possess a current American Heart Association Health Care Provider CPR card. Prerequisite: EMT-405. Other: Students should possess good dexterity and have good physical condition with the ability to lift 150 pounds and work in confined areas and in different positions (e.g. on the ground or floor). This course will provide EMT students with training to recognize the signs and symptoms of illness and traumatic injuries, as well as instruction on how to perform life-saving skills. This course meets requirements as defined in the California Code of Regulations (CCR) Title 22, and is approved by the State of California EMS Authority, and local EMSA Inland Counties EMS Agency (ICEMA). This course includes lecture and laboratory experiences. Students must be a minimum of 18 years of age prior to beginning field experience. A minimum of 24 hours of field experience is included in the course, which consists of clinical rotation at Hospital, and/or ambulance ride along as required in CCR Title 22. Upon successful completion of the course, students are eligible to register for the National Registry licensing examination which is taken off campus at an approved testing site. Students upon successful completion of EMT 405 and EMT 11 may pursue the Emergency Medical Provider Certificate of Achievement. This Certificate prepares students for future entrance into a Paramedic Program. Transfer: CSU. Grading: Letter grade only

Location: Fontana Campus

Section 49050: 24 hours arranged field experience is included.
Section 49050: This section is located at Chino Valley Adult School, 12970 3rd Street, Chino, CA 91710.

EMT-405: Emergency Medical Technician Preparation Services (3.00 Units)

Other: Students should possess good dexterity and physical condition, have the ability to lift and carry up to 150 pounds, and be able to work in confined spaces and different positions (e.g. on the ground or floor). This course provides students with a foundation in CPR, medical terminology, anatomy, physiology, legal issues, pharmacology, and patient assessment. This course is a prerequisite for EMT 11 - Emergency Medical Technician course, which fulfills California Code of Regulations Title 22 requirements. Emergency care knowledge and skills are required for Emergency Medical Technicians, Professional and Volunteer Firefighters, and Peace Officers. Course meets the American Heart Association CPR prerequisite and recommended preparation for admission to the EMT program, and is approved by the Inland County Emergency Medical Agency (ICEMA). Grading: Letter grade only

Engineering (ENGIN)

ENGIN-11: Introduction to Engineering (2.00 Units)

Introduction to the engineering profession. Exploration of the educational requirements for engineers and engineering programs available at four-year schools. Students examine the various engineering fields, along with the design standards, creativity, and professional ethics unique to the profession. Guest speakers and industry exposure provide first-hand accounts of the profession's scope and responsibilities. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

47147	01:00pm-02:50pm	F	PS-112	M. Tavakoli		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						

Section 47147: Zero Textbook Costs ($0).

ENGIN-26: Engineering Graphics and CAD (3.00 Units)

Prerequisite: MATH-31, or eligibility for MATH-61 as determined by the Chaffey College placement process. This course covers the principles of engineering drawings in visually communicating engineering designs and an introduction to computer-aided design (CAD). Topics include the development of visualization skills, orthographic projections, mechanical dimensioning and tolerancing practices, and the engineering design process. Assignments develop sketching and 2D and 3D CAD skills. Application of geometric tolerancing (ANSI Y14.5). The use of CAD software is an integral part of the course. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

	Start Date: 08/17/26	End Date: 12/18/26						

Section 47152: Hybrid class.

ENGIN-30: Engineering Applications of Digital Computation (3.00 Units)

Prerequisite: MATH-65A. Structured programming concepts applied to engineering problem types, such as center of mass, ballistics, column buckling, design, and reduction of experimental data. Structured approach used, with applications to flow charts and computer programming. Mathematical techniques include iterative solution, bisection, Raphson-Newton, statistics, and matrix operations. Computer techniques include formatted input and output, selection, loops, functions, pointers, arrays, and characters. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

Section 47167: Hybrid class.

ENGIN-50: Engineering Statics (3.00 Units)

Prerequisite: PHYS-45 and MATH-65A. Vector treatment of statics of particles and rigid bodies. Free body diagrams application to problems of equilibrium (two and three dimensions) with systems of forces in trusses, frames and machines. Principles of friction, distributed forces, centroid and centers of gravity, moments of inertia for area and mass, and shear and bending moment. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

47172	12:30pm-01:50pm	TTH	PS-102	Z. Aliyazicioglu		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						

Engineering Technology (EGTECH)

EGTECH-10: Introduction to Engineering Design/ Graphics (4.00 Units)

Survey of engineering graphics and the design process as applied to engineering and related fields. Emphasis is on use of 3-D Feature-Based, Parametric Solid modeling as the foundation of that process. Coursework is done using SolidWorks software. Additional topics include: interpreting ANSI standard engineering drawings, visualization, sketching, geometric relations, assembly modeling, and creating ANSI standard part and assembly drawings. Special emphasis is placed on understanding and developing sound Modeling Strategies/Plans based on 'best practices.' Students also are introduced to 3D-Printing technology and produce physical models from their own CAD models. Transfer: CSU; UC. Grading: Letter grade only

EGTECH-12: Principles of Engineering (4.00 Units)

Placement Level: Eligibility for MATH-25 as determined by the Chaffey College placement process. Exploration of technology systems and engineering processes that demonstrate the benefits of math, science, and technology. Topics include the design process, communication and documentation, engineering systems, statics, properties of materials, quality assurance, materials testing, and engineering for reliability. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus								
49066	06:10pm-09:50pm Start Date: 09/09/26	MW End Date: 12/09/26	AERO-03	S. Egli		Course Materials	14-Week	

EGTECH-30: Introduction to Additive Manufacturing - 3D Printing (4.00 Units)

Corequisite: EGTECH-10 (may be taken previously). Introduction to Additive Manufacturing (AM) with an emphasis on 3D printing. Students learn about the evolution of rapid prototyping to desktop 3D printing to Additive Manufacturing and beyond. Current AM technologies, capabilities, materials and applications are investigated by completing a number of hands-on projects by applying Design for Additive Manufacturing (DFAM) principles, creating CAD models, selecting materials, determining optimum build parameters, running parts on 3D printers, and measuring and performing other necessary operations. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

English (ENGL)

ENGL-C1000: Academic Reading and Writing (3.00 Units)

Note: ENGL C1000 replaced ENGL-1A (CCN: ENGL C1000) beginning with the fall 2026 term. In this course, students receive instruction in academic reading and writing, including writing processes, effective use of language, analytical thinking, and the foundations of academic research. This course includes embedded support. May be offered as an Honors course. Incorporates texts that celebrate diverse identities, communities, and experiences, and that engage with difference, with the ultimate goal of preparing students to succeed in college and careers, and to participate in broader societal discourse. A minimum of 5,000 written words is required over the term. Three hours for supplemental learning through a Success Center that supports this course are required. (C-ID ENGL 100) Transfer: CSU; UC. Grading: Letter grade only

ENGL-C1001: Critical Thinking and Writing (3.00 Units)

Prerequisite: ENGL C1000 (formerly ENGL-1A). Note: ENGL C1001 replaced ENGL-1B (CCN: ENGL C1001) beginning with the fall 2026 term. In this course, students receive instruction in critical thinking for purposes of constructing, evaluating, and composing arguments in a variety of rhetorical forms, using primarily non-fiction texts, refining writing skills and research strategies developed in ENGL C1000 Composition or similar first-year college writing course. This course is designed to develop critical thinking, reading, and writing skills beyond the level achieved in ENGL C1000 to prepare students for upper division research and writing. This course will focus on the development of logical reasoning, analysis, argumentation, and information literacy through the use of primarily non-fiction texts. Students will write arguments using various types of rhetorical techniques and engage in academic discourse that explores diverse experiences and current issues. A minimum of 5,000 written words is required over the term. May be offered as an Honors course. (C-ID ENGL 105) Transfer: CSU; UC. Grading: Letter grade only

ENGL-C1002: Introduction to Literature (3.00 Units)

Prerequisite: ENGL C1000 (formerly ENGL-1A). Note: ENGL C1002 replaced ENGL-1C beginning with the fall 2026 term. This course introduces representative works from major genres, develops students' close reading and analytical writing skills, and promotes appreciation and critical understanding of the cultural, historical, and aesthetic qualities of literature. Introduces the central literary genres: novel, short story, poem, and play. Close reading of the literature guides inexperienced readers toward greater understanding and appreciation of imaginative literature, and provides more experienced readers with new perspectives through the analysis of the techniques and purposes of specific writers. Students are taught how to organize and compose the literary essay. May be offered as an Honors course. (C-ID ENGL 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

ENGL-20: Introduction to Creative Writing (3.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

This seminar introduces students to the principles and practices of creative writing across multiple genres, with an emphasis on short stories, poetry, and creative nonfiction. Students read and analyze published works from diverse voices alongside their peers' writing to develop critical standards for evaluation, explore the craft of language and form, and practice techniques of revision and editing. Through writing exercises and workshops, students create original works in different genres to experience a range of literary expression before choosing more specialized creative writing courses. Transfer: CSU. Grading: Letter grade only

Ethnic Studies (ETHN)

ETHN-1: Introduction to Ethnic Studies (3.00 Units)

This survey course is a comparative and interdisciplinary examination of the lived-experiences and social struggles of African American, Arab American, Asian American, Chicanx/Latinx, Native American, and Pacific Islander American groups in the United States. The course will interrogate categories of identity and power such as race, ethnicity, class, gender, and sexuality and explore theoretical concepts and socio-historical processes, including colonization and immigration; the development of race as a social category; political conditions; economics, labor and the persistence of social inequalities; cultural expression and resistance; and social justice movements. Transfer: CSU; UC. Grading: Letter grade only

ETHN-2: Introduction to Native American Studies (3.00 Units)

This course provides an introduction to the study of Native American history, social and religious traditions, artistic expression, as well as the U.S. Government construction of settler states and policy toward Native Americans from an Ethnic Studies perspective. Special attention will be given to the Gabrielino-Tongva tribe as the aboriginal tribe of the Los Angeles Basin. Students will engage with text that confronts the structural genocide, regeneration, practices of resistance and resilience of Native people. Transfer: CSU; UC. Grading: Letter grade only

ETHN-5: Introduction to Asian American Studies (3.00 Units)

This course examines how U.S. institutions ideologically constructed the category of Asian-ness and materially engaged with people from East Asia, Southeast Asia, South Asia, Central Asia, West Asia (five regions of Asia), and the Pacific Islands within the United States and its territories. Ethnic Studies theory will be applied to describe critical events in Asian American histories, cultures, immigration experiences, settlement patterns and intellectual traditions including an examination of how "Asian" communities interact with each other and other racialized/ethnicized communities. This includes a focus on topics ranging from self-determination to imperialism in a move toward building a just and equitable society. Special attention will be given to major Asian communities in the Inland Empire (Filipinos, Cambodians, Laotians, Hmong, Indonesians, and Thai). Transfer: CSU; UC. Grading: Letter grade only

ETHN-6: Race, Ethnicity, and Politics in America (3.00 Units)

This course explores the role of race and ethnicity in modern American politics. It focuses on social science approaches to measuring the effects of race, both at the individual level and more broadly. Topics include race and representation, measurement of racial and ethnic identities, voting rights and electoral districting, protest and other forms of political participation, and the meaning and measurement of racial attitudes. An examination of United States institutions of social, political and economic power from the history and experiences of African Americans, LatinX, Native Americans, Women, Asian Americans, and Immigrants. Other emphases will be on diverse forms of political participation and how it influences U.S. institutions at the local, state and federal levels in movements towards building a diverse, just, and equitable society beyond the classroom, achieving social justice and a sense of self awareness. Transfer: CSU; UC. Grading: Letter grade only

Section 48373: Low-Cost Textbooks (below $50).

FASHD-61: Beginning Patternmaking (3.00 Units)

Corequisite: FASHD-40 (may be taken previously). This course introduces the fundamentals of pattern drafting using the flat pattern design method for ready-to-wear garments. Students will draft basic pattern blocks for standardized dress forms, construct selected samples using industrial equipment, and translate garment designs into accurate paper patterns. Emphasis is placed on testing patterns in muslin to evaluate design replication, fit, and precision following industry standards. Materials Fee: $20.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

Location: Chino Campus

48977	09:30am-11:20am 11:30am-02:20pm Start Date: 08/17/26	M M	CHCM-203 CHCM-203 End Date: 12/18/26	H. Kim		Course Materials	Full-Term	

Section 48977: Zero Textbook Costs ($0).

FASHD-72: Fashion Draping (2.00 Units)

Prerequisite: FASHD-40. Introduces the art of draping fabric directly onto a dress form to create three-dimensional garment designs. Students will develop their skills in design and garment construction through hands-on exploration, research, and conceptual development techniques. Emphasis is placed on draping with muslin and apparel textiles, as well as translating draped designs into hard patterns. Materials Fee: $20.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

Location: Chino Campus

48978	09:30am-10:20am 10:30am-01:30pm Start Date: 08/19/26	W W	CHCM-203 CHCM-203 End Date: 12/18/26	J. Green		Course Materials	Full-Term	

FASHD-470: Apparel Production (3.00 Units)

Advisory: Completion of FASHD-40 and FASHM-10. The design, development, pricing, sourcing, sample making, manufacturing, and marketing of a line of clothing. Materials Fee: $20.00 (in-person classes only, unless otherwise noted). Grading: Letter grade only

Location: Chino Campus

48964	12:00pm-02:50pm Start Date: 08/20/26	TH	CHCM-206 End Date: 12/18/26	L. Gomez		Course Materials	Full-Term	

Section 48964: Low-Cost Textbooks (below $50).

Fashion Merchandising (FASHM)

FASHM-10: Introduction to the Fashion Industry (3.00 Units)

This course provides an overview of career paths in the fashion industry, exploring roles in design, manufacturing, retail, merchandising, sales, and promotion. Students will examine job descriptions, industry expectations, and required education and training while considering their place within the global fashion landscape. Topics include raw materials, production, retailing, technology, and the impact of globalization on fashion careers. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

48428	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	T. Johnson		Course Materials	Short-Term	
48426	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	Y. Bahar		Course Materials	Short-Term	

Section 48426: Limited seats available. Primary enrollment designated to high school students enrolled through a high school partnership agreement.

FASHM-11: Fashion Retail Merchandising and Management (3.00 Units)

Advisory: Completion of FASHM-10. This course explores the principles of retailing and fashion merchandise management, including merchandise mix, vendor negotiation, pricing, visual displays, advertising, e-commerce, and inventory control. Students will examine apparel retail organization and management, consumer behavior, multi-channel strategies, store location, and retail marketing. Transfer: CSU. Grading: Letter grade only

Location: Online

48433	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	C. Davis		Course Materials	Short-Term	

Section 48433: Zero Textbook Costs ($0).

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

FASHM-12: Visual Merchandising (3.00 Units)

Principles of the core design strategies in visual merchandising and space planning to maximize sales in a retail environment. Use of techniques for windows, mannequins, and fixtures including lighting and signage. Transfer: CSU. Grading: Letter grade only

Location: Online

48441	Online hours Start Date: 10/19/26		Canvas End Date: 12/11/26	C. Davis		Course Materials	Short-Term	

Section 48441: Zero Textbook Costs ($0).

FASHM-60: Textiles (3.00 Units)

Study of the textile fibers, yarns, weaves, and finishes which give the consumer, the merchandiser, and the designer a background for intelligent selection, use, and care of modern fabrics. Transfer: CSU; UC. Grading: Letter grade only

Location: Chino Campus

49027	09:30am-11:05am Start Date: 08/18/26	TTH	CHCM-206 End Date: 11/20/26	T. Johnson		Course Materials	Short-Term	

Fire Technology (FIRETEC)

FIRETEC-1: Principles of Emergency Services (3.00 Units)

This course provides an overview to fire protection and emergency services; career opportunities in fire protection and related fields; culture and history of emergency services; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics; life safety initiatives. This course is identified by the National Fire Academy and FESHE as an approved course as listed in the National Fire Academy FESHE Model Curriculum Associate's document produced in 2011. Revised in 2014, 2016, and 2019. The course units are transferable into the CSULA Bachelors Program. (C-ID FIRE 100X) Transfer: CSU. Grading: Letter grade only

Location: Online

48026	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	J. Sloan		Course Materials	Fast-Track 1	
48016	Online hours Start Date: 08/17/26		Canvas End Date: 11/20/26	A. Respicio		Course Materials	Early 14-Week	
47990	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	J. Stapleton		Course Materials	14-Week	

Section 47990: Limited seats available. Primary enrollment designated to high school students enrolled through a high school partnership agreement.
Section 47990: Low-Cost Textbooks (below $50).

Location: Fontana Campus and Online

47972	05:30pm-08:50pm Online hours Start Date: 08/17/26	M	FNLC-120 Canvas End Date: 10/05/26	P. Overstreet-Murphy		Course Materials	Fast-Track 1	

Section 47972: Hybrid class.

FIRETEC-2: Fire Behavior and Combustion (3.00 Units)

This course explores the theories and fundamentals of fire causation, spread, and control. In-depth study of fire chemistry and physics, characteristics of combustible and flammable substances, unique dangers of hazardous materials, types of extinguishing agents, and fire control techniques. This course is identified by the National Fire Academy and FESHE as an approved course as listed in the National Fire Academy FESHE Model Curriculum Associate's document produced 2011, Revised 2014, 2016, and 2019. This course is included as part of the articulation between CSU and Community Colleges and by standardized CID numbers. The course units are transferable into the CSULA Bachelors Program. (C-ID FIRE 140X) Transfer: CSU. Grading: Letter grade only

Location: Online

48040	Online hours Start Date: 10/19/26		Canvas End Date: 12/11/26	A. Respicio		Course Materials	Fast-Track 2

Section 47975: Hybrid class.

FIRETEC-3: Fire Protection Systems (3.00 Units)

This course provides information relating to the design features and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection, and portable fire extinguishers. This course is identified by the National Fire Academy and FESHE as an approved course as listed in the National Fire Academy FESHE Model Curriculum Associate's document produced 2011, Revised 2014, 2016, and 2019. This course is included as part of the articulation between CSU and Community Colleges and by standardized CID numbers. The course units are transferable into the CSULA Bachelors Program. (C-ID FIRE 120X) Transfer: CSU. Grading: Letter grade only

Location: Online

Section 48043: Low-Cost Textbooks (below $50).

FIRETEC-4: Building Construction for Fire Protection (3.00 Units)

Components of building construction relating to firefighter and life safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies. Evolution of building and fire codes, developed in response to historical fires, in residential, commercial, and industrial occupancies. This course is identified by the National Fire Academy and FESHE as an approved course as listed in the National Fire Academy FESHE Model Curriculum Associate's document produced 2011, Revised: 2014, 2016, and 2019. This course is included as part of the articulation between CSU and Community Colleges and by standardized CID numbers. The course units are transferable into the CSULA Bachelors Program. Section 47976: Hybrid class.
Section 47976: Low-Cost Textbooks (below $50).

FIRETEC-5: Fire Prevention (3.00 Units)

The Fire Prevention course provides fundamental knowledge relating to the field of fire prevention. Topics include; history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use and application of codes and standards, plans review, fire inspections, fire and life safety education, and fire investigation. This course is identified by the National Fire Academy and FESHE as an approved course as listed in the National Fire Academy FESHE Model Curriculum Associate's document produced 2011, Revised 2014, 2016, and 2019. This course is included as part of the articulation between CSU and Community Colleges and by standardized CID numbers. The course units are transferable into the CSULA Bachelors Program. Section 48060: Low-Cost Textbooks (below $50).

FIRETEC-6: Fire Apparatus and Equipment (3.00 Units)

Introduction to the mechanized equipment operated by fire service personnel and the regulations pertaining to its use. Topics include: driving laws and techniques, construction and operation of pumping engines, ladder trucks, aerial platforms, specialized equipment, and apparatus maintenance. This course is identified by the National Fire Academy and FESHE as an approved course as listed in the National Fire Academy FESHE Model Curriculum Associate's document produced 2011, Revised 2014, 2016, and 2019. This course is included as part of the articulation between CSU and Community Colleges. The course units are transferable into the CSULA Bachelors Program. Transfer: CSU. Grading: Letter grade only

Section 47979: Hybrid class.
Section 47979: Low-Cost Textbooks (below $50).

FIRETEC-7: Strategies and Tactics (3.00 Units)

Prerequisite: FIRETEC-1. Principles of fire control, through utilization of personnel, equipment, extinguishing agents, and fire command and control procedures. Use of information on building construction types in fire control. Pre-fire planning and the organized approach to decision making on the fire ground. This course is identified by the National Fire Academy and FESHE as an approved course as listed in the National Fire Academy FESHE Model Curriculum Associate's document produced 2011, Revised 2014, 2016, and 2019. This course is included as part of the articulation between CSU and Community Colleges. The course units are transferable into the CSULA Bachelors Program. Transfer: CSU. Grading: Letter grade only

Location: Online

48033	Online hours Start Date: 08/17/26	End Date: 10/09/26	Canvas	N. Pheng		Course Materials	Fast-Track 1	

FIRETEC-9: Principles of Fire and Emergency Services Safety and Survival (3.00 Units)

Course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavioral change throughout the emergency services. This course curriculum is approved by the National Fire Academy (FESHE). Transfer: CSU. Grading: Letter grade only

Location: Online

48061	Online hours Start Date: 08/17/26	End Date: 10/09/26	Canvas	T. Morehead		Course Materials	Fast-Track 1	

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

FIRETEC-12: Occupational Safety and Health for Emergency Services (3.00 Units)

This course introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Topics include risk and hazard evaluation and control procedures for emergency service organizations. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

47930	08:00am-11:20am Online hours Start Date: 10/21/26	W	BE-102 Canvas End Date: 12/09/26	T. Morehead		Course Materials	Fast-Track 2	

Section 47930: Hybrid class.

French (FR)

FR-1: Elementary French I (4.00 Units)

A systematic presentation of language patterns and of the underlying cultural ideas necessary for communicating in the four basic skills of listening, speaking, reading, and writing. Students are introduced to the life, culture, and language of French-speaking populations. This course may also require completion of supplemental assignments. This course corresponds to the first year of high school French. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

48626	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	G. Mounioloux		Course Materials	14-Week	

Section 48626: Zero Textbook Costs ($0).

48627	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	Z. Chakhchir		Course Materials	14-Week	

Section 48627: Limited seats available. Primary enrollment designated to students enrolled through a high school partnership agreement.
Section 48627: Zero Textbook Costs ($0).

FR-2: Elementary French II (4.00 Units)

Prerequisite: FR-1 or one year of high school French. Continued systematic presentation of language patterns and of the underlying cultural ideas that lead to facility in the four basic skills of listening, speaking, reading, and writing. Reading selections introduce various aspects of life and culture in France and other Francophone communities. This course may also require completion of supplemental assignments. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

48628	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	P. Buffam		Course Materials	14-Week	

Section 48628: Zero Textbook Costs ($0).

Geography (GEOG)

GEOG-1: World Regional Geography (3.00 Units)

Survey of the world's culture regions and nations as interpreted by geographers, including physical, cultural, and economic features. Emphasis on spatial and historical influences on population growth, transportation networks, and natural environments. Identification and importance of the significant features of regions. Students will employ maps and regional analysis to interpret worldwide patterns in demography, economies, resources, religions, and languages, taking into account their connection to landforms and climate. Furthermore, the course addresses current global events within an international context. (C-ID GEOG 125) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47708	Online hours Start Date: 08/17/26		Canvas End Date: 12/18/26	S. Hayes		Course Materials	Full-Term	

47711	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	L. Pitts		Course Materials	14-Week	

Section 47711: Zero Textbook Costs ($0).

GEOG-2: Global Climate Change: An Introduction to Weather and Climate (3.00 Units)

This course provides a survey of the scientific and societal issues associated with weather and climate variability and change. The course will examine physical phenomena observed in the Earth's weather and climate. Topics include atmospheric structure and composition, solar radiation and energy balances, temperature, seasonal changes, atmospheric moisture, clouds and fog, precipitation, air pressure, winds, air masses and fronts, cyclones, weather forecasting, climate and climate change. The course will also review the current debate on climate change from a scientific point of view, with a focus on those aspects that have the largest potential impact on global society. (C-ID GEOG 130) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47712	Online hours Start Date: 08/17/26		Canvas End Date: 12/18/26	M. Bayle		Course Materials	Full-Term	

Section 47712: Zero Textbook Costs ($0).

GEOG-3: Geography of California (3.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

A thematic approach to the state's issues/climate change, processes and topics relevant to geography including climate, landforms, natural vegetation, water resources, cultural landscape, ethnic diversity, urban and agricultural regions, and the economy. This course explores the physical, and human landscapes that have evolved as a result of the human-environment interface. (C-ID GEOG 140) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47714	Online hours		Canvas	M. Bayle		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						

Section 47714: Zero Textbook Costs ($0).

GEOG-4: Physical Geography (3.00 Units)

This course is a spatial study of the Earth's dynamic physical systems and processes. Topics include: Earth-sun relationships, weather, climate, water, landforms, soil, and the biosphere. Emphasis is on the interrelationships among environmental and human systems and processes and their resulting patterns and distributions. Tools of geographic inquiry are also briefly covered; they may include: maps, remote sensing, Geographic Information Systems (GIS) and Global Positioning Systems (GPS). Broad-based course with an interdisciplinary outlook. (C-ID GEOG 110) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47722	Online hours		Canvas	L. Pitts		Course Materials	14-Week	
	Start Date: 09/08/26	End Date: 12/11/26

Section 47716: Zero Textbook Costs ($0).

GEOG-4L: Physical Geography Laboratory (1.00 Unit)

Corequisite: GEOG-4 (may be taken previously). Formerly GEOG-5. This course is designed to provide supplemental exercises in topics covered in Physical Geography lecture. Lab experience will include map analysis and interpretation, weather prognostication, landform processes and evolution, tectonics, biogeography, and habitat analysis. Field activities offer on-site interpretation of climate, soils, and ecosystems. Students explore natural earth processes, applying concepts and tools of physical geography. Practical exercises, data analyses, and computer applications enhance understanding of spatial patterns and distributions. The course covers locational reference systems, weather, climate, soils, vegetation, and landforms, potentially including field trips. The lab reinforces lecture concepts through practical applications. (C-ID GEOG 111) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47731	Online hours		Canvas	L. Pitts		Course Materials	14-Week	
	Start Date: 09/08/26	End Date: 12/11/26						

Section 47731: Zero Textbook Costs ($0).

	Start Date: 08/17/26	End Date: 11/18/26						

Section 47735: Zero Textbook Costs ($0).

GEOG-6: Environmental Geography (3.00 Units)

Global perspectives on environmental geography. Geographical approach to the biosphere: environmental principles, economics and environment, human impact, extinction and biodiversity, food/population crises, the social environment, global tampering, global climate change, and contemporary values in global environmental issues. Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47740	Online hours		Canvas	L. Pitts		Course Materials	14-Week	
	Start Date: 09/08/26	End Date: 12/11/26

GEOG-11: Human Geography (3.00 Units)

This course is a study of diverse human populations, their cultural origins, diffusion and contemporary spatial expressions. Topics include: demography, languages and religions, urbanization and landscape modification, political units and nationalism, and economic systems and development. Emphasis is on understanding spatial patterns and interactions between humans and the physical environment. The course includes critical areas of inquiry globally, examining social, political, and economic elements contributing to the evolution of cultural patterns. (C-ID GEOG 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47752	Online hours		Canvas	R. Woolford		Course Materials	14-Week	
	Start Date: 09/08/26	End Date: 12/11/26						

Section 47752: Zero Textbook Costs ($0).

Geology (GEOL)

GEOL-1: Physical Geology (4.00 Units)

An introduction to the principles of geology with an emphasis on Earth processes. This course focuses on the internal structure and origin of the Earth and the processes that change and shape it. The laboratory component focuses on the identification of rocks and minerals, topographic and geologic map exercises demonstrating the work of water, wind, ice and gravity, and the effects of tectonic activity. (C-ID GEOL 101) Transfer: CSU; UC. Grading: Letter grade only

Gerontology (GERO)

GERO-11: Introduction to Gerontology (3.00 Units)

Interdisciplinary overview of the diverse characteristics, strengths, and needs of the increasing number of older persons. Topics include aging services and community resources, occupations and career preparation in gerontology, information on aging and old age, laws and regulations governing work with the elderly, and ethical and policy issues. Transfer: CSU. Grading: Letter grade only

Location: Online

GERO-18: The Social, Cultural, and Policy Issues of an Aging Society (3.00 Units)

The scientific study of the social, cultural, and policy issues for an aging society from a gerontological perspective. Through gerontological research, study diversity in the aging process: cultural, economic, gender, and racial/ethnic differences. Study aging as a social construct including life-long age status and role expectations based on a gerontological perspective. Emphasis on society's response and the subsequent effects on individuals and their family/friends. Transfer: CSU; UC credit limitations. Grading: Letter grade only

GUID-507: Opening Doors to Student Effectiveness (3.00 Units)

Designed for returning and continuing students to address the academic and personal challenges of student effectiveness. Various assessment tools are employed to identify and evaluate student preparation and attitude for a successful college experience. Positive growth and self-motivation strategies are explored, with a special focus on developing an educational plan and life goals. Students address previously employed learning skills and methods to evaluate their effectiveness. New and improved methods of study, time management, and the utilization of college support programs are mastered and applied. This course is designed for students in the Opening Doors to Excellence program. Not degree applicable. Grading: Letter grade only

HVACR-602: HVAC Electrical Systems (0.00 Units)

This course introduces students to the electrical concepts commonly used in the HVAC trade. This curriculum aligns with NCCER HVACR Curriculum. Non-credit. Grading: Pass/No Pass

Location: Chino Valley Adult School

48947	08:00am-11:20am	MTWTH	CVAS-TC	A. Caceres Jr.		Course Materials	Short-Term	
	11:50am-03:10pm	MTWTH	CVAS-TC					
	Start Date: 09/21/26	End Date: 10/14/26						

Section 48947: Zero Textbook Costs ($0).
Section 48947: This section is located at Chino Valley Adult School, 12970 3rd Street, Chino, CA 91710.

HVACR-604: Refrigerants, Recovery, Vacuum, and Charging (0.00 Units)

This course introduces students to refrigerants, leak detection, evacuation, recovery and charging components commonly used in the HVACR trades. Non-credit. Grading: Pass/No Pass

Location: Chino Valley Adult School

48951	08:00am-02:40pm	MTWTH	CVAS-TC	A. Caceres Jr.		Course Materials	Short-Term	
	Start Date: 10/15/26	End Date: 11/02/26						

Section 48951: Zero Textbook Costs ($0).
Section 48951: This section is located at Chino Valley Adult School, 12970 3rd Street, Chino, CA 91710.

HVACR-605: HVAC Heat Pumps and Basic Troubleshooting (0.00 Units)

This course introduces students to air cooled heat pumps and basic troubleshooting. Non-credit. Grading: Pass/No Pass

Location: Chino Valley Adult School

48956	08:00am-02:40pm	MTWTH	CVAS-TC	A. Caceres Jr.		Course Materials	Short-Term	
	Start Date: 11/03/26	End Date: 11/18/26

Section 48956: This section is located at Chino Valley Adult School, 12970 3rd Street, Chino, CA 91710.

HVACR-606: HVAC Air Distribution, Installation, Flues and Ducts (0.00 Units)

Advisory: Completion of HVACR-605. This course introduces students to duct installation, air distribution, and air balance. Non-credit. Grading: Pass/No Pass

Location: Chino Valley Adult School

48958	08:00am-01:45pm	MTWTH	CVAS-TC	A. Caceres Jr.		Course Materials	Short-Term	
	Start Date: 11/19/26	End Date: 12/02/26						

Section 48958: Zero Textbook Costs ($0).
Section 48958: This section is located at Chino Valley Adult School, 12970 3rd Street, Chino, CA 91710.

HVACR-612: Intermediate Refrigeration (0.00 Units)

This class prepares students for an in-depth view into Evaporators, Condensers, Compressors, and Metering Devices. Non-credit. Grading: Pass/No Pass

Location: Chino Valley Adult School

48961	08:00am-02:50pm	MTWTH	CVAS-TC	A. Caceres Jr.		Course Materials	Short-Term	
	Start Date: 12/03/26	End Date: 12/10/26						

Section 48961: Zero Textbook Costs ($0).
Section 48961: This section is located at Chino Valley Adult School, 12970 3rd Street, Chino, CA 91710.

History (HIST)

HIST-C1001: United States History to 1877 (3.00 Units)

Note: HIST C1001 replaced HIST-17 beginning with the fall 2026 term. This course is a historical survey of the United States, from Indigenous North America to the end of Reconstruction. The course also introduces students to historical reasoning skills. May be offered as an Honors course. (C-ID HIST 130) Transfer: CSU; UC. Grading: Letter grade only

	Start Date: 08/18/26	End Date: 10/19/26						

Section 49113: Zero Textbook Costs ($0).

HOTFS-21: Purchasing, Cost Controls, and Menu Planning (3.00 Units)

Analyzing and managing: food, beverage, labor and other costs within a hospitality operation. Emphasis on problem solving, applying cost control techniques to maximize profits while managing expenses. Topics include: establishing standards, cost-volume-profit-analysis, forecasting, purchasing and storage controls, menu costing and pricing, theft prevention and labor control. Principles, policies, and procedures associated with the procurement and conveyance of food and beverages in the food service industry. Deals with markets, federal and trade grades, government regulations, packaging, comparative versions of price buying, yields and quality control. Focus on systems for selecting product, appropriate receipt and storage, inventory controls, menu item specification development, commercial menu costing strategies, and descriptive menu design and marketing. Fundamentals of menu writing, types of menus, layout, design, and food merchandising. Analyze menus for effectiveness. (C-ID HOSP 120) Transfer: CSU. Grading: Letter grade only

HOTFS-482: Industry Internship: Hospitality Management (1.00 Unit)

Limitation on Enrollment: Consent of instructor is required prior to registration. Prerequisite: HOTFS-10 or CUL-15. This work experience course is designed to prepare students for a career in a hotel, restaurant, or commercial kitchen (includes front office, housekeeping, marketing and kitchen experience). In collaboration with the instructor, each student will select learning outcomes to facilitate the successful development of skills appropriate in their externship/internship. Students must have an externship/internship placement prior to the start of the course and are required to complete a minimum of 54 externship/internship hours during the semester. Grading: Letter grade only

Location: Location(s) to be Determined

Industrial Electric Technology (IET)

IET-400: Introduction to Workplace Safety (2.00 Units)

This course provides knowledge of industrial safety practices including industry safety and health standards related to Occupational Safety and Health Administration (OSHA). Students will examine safety issues surrounding installation of electrical and mechanical systems, personal protective equipment (PPE), and safe work practices. Lockout/tagout, confined spaces, workplace hazards, as well as tools of the trade are covered. Grading: Letter grade only

Location: Chino Information Tech Center

IET-411: Programmable Logic Controllers (3.00 Units)

Advisory: Completion of IET-407, or two or more years of field related work experience and basic computer skills. This course will develop relevant and critical skills for the modern industry in automation and controls using CompactLogix controllers and Studio 5000 software. In this course we cover what a PLC is used for and how to set up communications between the controller and a computer along with wiring, reading and writing ladder logic, and operation of the programmable

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

logic controller (PLC). Students will connect, configure and program ladder logic for PLC applications. The course gives a foundation of applications for formatting modules, defined tag names and program operations. Students will be able to describe the function and operation of Input/Output diagrams, as well as monitor the operation of Input and Output instructions. Students will program operations, create, download and run a PLC project that uses digital "Examine If Closed" (XIC) and "Examine If Open" (XIO) and OTE output instructions. Grading: Letter grade only

Section 49207: Low-Cost Textbooks (below $50).

IET-413: Intermediate Programmable Logic Controllers (3.00 Units)

Prerequisite: IET-411. Other: Two or more years of field related work experience including basic knowledge in PLCs. This course covers programmable logic controller (PLC) programming and operation. Students will learn advanced ladder diagram operations and common block program instructions of the PLC which include editing, programming of timers, counters, compare instructions, master control relays, math functions, move (MOV) and jump instructions using Studio 5000 software. Students will create event sequencing and continuous cycle logic by using event-driven sequencing programming fundamentals. Students will learn the concepts of a reciprocating actuator, and design a reciprocating PLC project to control a traverse axis. Students will also learn to diagnose faults, troubleshoot and force PLC discrete inputs and outputs. Students will set up communications between devices using an unmanaged switch on an Ethernet IP network. Grading: Letter grade only

Location: Chino Information Tech Center

Section 49153: Low-Cost Textbooks (below $50).

IET-420: Fundamentals of Control Systems Technology (4.00 Units)

Advisory: Completion of IET-407 or two or more years of field related experience that includes knowledge of static devices. This course covers the fundamental knowledge and practical skills on a broad basis of industrial control systems. Students learn the competencies necessary to wire, program / configure, and maintain standard industry controls and instrumentation. Control systems include servo robotics, move functions, and basic programming instruction. Includes instruction on the following concepts of process control: calibration, piping and instrumentation diagram (P&ID) basics, project start-up, loop checking, evaluation of loop performance, Proportional-Integral-Derivative (PID) and International Society of Automation (ISA) standards. Students perform wiring of closed and open-loop systems for flow, level, and pressure using a variety of wiring diagrams. Smart devices and digital controllers, as well as the calculation and configuration of smart transmitters, are covered. Grading: Letter grade only

Location: Chino Information Tech Center

Section 49150: Low-Cost Textbooks (below $50).

IET-422: OSHA Safety Training (2.00 Units)

Industry safety and health standards, taught in accordance with Occupational Safety and Health Administration (OSHA) requirements. Course is targeted to entry-level workers. Upon successful completion, students can receive the OSHA (30-hour) card. Note: To earn an OSHA 30-hour card through the OSHA Outreach Training Program, participants must meet several key attendance and participation requirements. You must attend all scheduled class hours and complete all required topics to be eligible for the OSHA 30-hour card. Missing any portion of the training may disqualify you from receiving the 30-hour OSHA card. Grading: Letter grade only

IETMECH-403: Robotics Operations and Programming (2.00 Units)

This course covers robotics handling tool operations and programming of servo-robotic assembly systems. This course also covers the safe operation of robot systems including: setup, frames, motion instructions, understanding pendent, creating a program, as well as I/O (Inputs and Outputs) and interfacing. Students will learn to power up and jog the robot, execute production operations and create, modify, and execute a material handling program. A student can earn a Fanuc CERT - Robotics Handling Tool Operations and Programming Certificate. Grading: Letter grade only

ITIS-14: Windows Operating System Administration (3.00 Units)

Note: ITIS-14 replaced CIS-4 beginning with the fall 2026 term. Essentials of installing, configuring, and managing the Windows operating system. Key topics include Windows installation, network configuration, mobile computing, system imaging, application management, and system monitoring and maintenance. Students will also explore Windows device and user management, system access, system protection, hardware management, resource sharing, and threat protection. By the end of the course, students will be prepared for the TestOut Client Pro and Microsoft MD-102 certifications, ensuring they are equipped to effectively administer and protect Windows client devices in diverse environments. Transfer: CSU. Grading: Letter grade only

ITIS-16: Internet Technologies and Security (3.00 Units)

Note: ITIS-16 replaced CIS-68 and CIS-420 beginning with the fall 2026 term. A detailed introduction to the Internet and security issues affecting individual computers and Internet access. Topics include Web tools, access, hardware, software, protocols, security, communication, e-communities, e-commerce, search tools, power searching, cloud services, Internet of Things (IoT), other current and emerging Internet and Web technologies, and verification of information, privacy, and other legal and societal issues. Protection strategies from viruses, Trojan-Horse programs, e-mail attacks, and other forms of intrusion. Selection, installation, and use of anti-virus software. Transfer: CSU. ITIS-40: Computer Hardware and CompTIA A+ Certification Preparation (3.00 Units)

Prerequisite: AI-1, or ITIS-10 (formerly CIS-1). Note: ITIS-40 replaced CISHDSP-40 beginning with the fall 2026 term. This course provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level ICT professionals. The fundamentals of computer hardware and software as well as advanced concepts such as security, networking, and the responsibilities of an ICT professional will be introduced. Provides current and relevant computer technical skills required for entry level PC Technician positions and/or preparation for computer industry certification. Topics include basic analysis of microcomputers and related equipment including computer hardware installations, configuring (upgrading) computers, troubleshooting techniques and the interaction between computer hardware and software. Preparation for the CompTIA A+ certification exams. Transfer: CSU. Grading: Letter grade only

ITIS-45: IT Project Management (3.00 Units)

Prerequisite: ITIS-10 (formerly CIS-1). In this course students will learn the concepts and skills that build the foundations of project management-project integration, scope, time, cost, quality, human resources, communications, risk, and procurement-within an information technology (IT) environment. This course specifically builds project management skills in the information technology field and helps to prepare students for project management certifications exams, such as CompTIA Project+ or Certified Associate in Project Management (CAPM). Section 48174: Low-Cost Textbooks (below $50).

ITIS-50: Introduction to Computer Networks (3.00 Units)

Prerequisite: ITIS-10 (formerly CIS-1), COMPSCI-1, or COMPSCI-5 (formerly CISPROG-5). Note: ITIS-50 replaced CIS-50 beginning with the fall 2026 term. This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP (Internet Protocol) addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for further study of computer networks. It uses the OSI (Open Systems Interconnection) and TCP (Transmission Control Protocol) layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. Preparation for the CompTIA Network+ certification exam. (C-ID ITIS 150) Transfer: CSU. Grading: Letter grade only

ITIS-51: Cisco Internetworking I (4.00 Units)

Advisory: Completion of ITIS-10 (formerly CIS-1) or equivalent experience. Note: ITIS-51 replaced CISCO-1 beginning with the fall 2026 term. First in a three-course sequence that qualifies students to take the Cisco Certified Entry Networking Technician (CCENT) and the more advanced Cisco Certified Network Associate (CCNA) examinations. Topics include: PC hardware/software review, Local Area and Wide Area Networks (LAN's and WAN's), network devices, the Open System Interconnect (OSI) model, media, cable installation, network design, routing, switching, addressing, security, documentation, and basic wireless. Meets latest CCNA certification requirements. Transfer: CSU. Grading: Letter grade only

ITIS-55: Introduction to the Linux Operating System (3.00 Units)

Prerequisite: ITIS-50 (formerly CIS-50) or ITIS-51 (formerly CISCO-1). Note: ITIS-55 replaced CISNTWK-435 beginning with the fall 2026 term. This course will provide a student with the knowledge and skills required to maintain reliable computer systems in a multi-user environment. The student will learn about system hardware, software, storage, best practices, disaster recovery, and troubleshooting, with additional coverage of virtualization, cloud technologies, security, and scalability. Instruction is designed to support preparation for the CompTIA Linux+ certification. Transfer: CSU. Grading: Letter grade only

Location: Online

47933	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	D. Nimri		Course Materials	14-Week	

ITIS-56: Microsoft Network Server (3.00 Units)

Prerequisite: ITIS-50 (formerly CIS-50) or ITIS-51 (CISCO-1). Note: ITIS-56 replaced CISNTWK-11 beginning with the fall 2026 term. In-depth study of Microsoft network server software and the administration of a network. Topics include: installation and configuration, active directory, file system management, and security. Helps prepare students for the Microsoft Certified Professional (MCP) and Microsoft Certified Systems Engineer (MCSE) exams. Transfer: CSU. Grading: Letter grade only

ITIS-65: Digital Forensics Fundamentals (4.00 Units)

Prerequisite: ITIS-10 (formerly CIS-1) and ITIS-14 (formerly CIS-4). Note: ITIS-65 replaced CISCYBR-2 beginning with the fall 2026 term. This course is an introduction to the methods used to properly conduct a digital forensics investigation beginning with a discussion of ethics, while mapping to the objectives of the International Association of Computer Investigative Specialists (IACIS) certification. Topics covered include an overview of computer forensics as a profession; the computer investigation process; understanding operating systems boot processes and disk structures; data acquisition and analysis; technical writing; and a review of familiar digital forensics tools. Transfer: CSU. Grading: Letter grade only

Section 47644: Low-Cost Textbook Costs (below $50).

ITIS-70: Virtualization, Cloud Essentials and Amazon Web Services (AWS) (4.00 Units)

Prerequisite: ITIS-55 (formerly CISNTWK-435). Note: ITIS-70 replaced CISNTWK-70 beginning with the fall 2026 term. Using lecture and hands-on labs, this course introduces students to the various cloud models and technologies used in public, private and hybrid clouds. Topics include cloud deployment methods, service models, cloud infrastructure, and key considerations in migrating to cloud computing. Amazon AWS will be the focus for the public cloud model as AWS has revolutionized IT infrastructure and students will be able to spin up actual AWS resources. For the private cloud and hybrid cloud portions of the course, students will setup hardware, networking, hypervisors and virtual machines. This course will cover various cloud technologies and essential domains including compute, storage, networking, security, applications, databases, Infrastructure as a Service, Platform as a Service, and Software as a Service. This course prepares students for multiple certifications including the AWS Academy Cloud Practitioner and the CompTIA Cloud+ exams. Transfer: CSU. Grading: Letter grade only

ITIS-80: Introduction to Database & Database Management Systems (3.00 Units)

Prerequisite: AI-1 or ITIS-10 (formerly CIS-1). Note: ITIS-80 replaced CIS-15 beginning with the fall 2026 term. An introduction to the core concepts of data and information management focusing on modern database technologies and techniques. Emphasis on the core skills of identifying organizational information requirements, using conceptual data modeling techniques, converting conceptual data models into relational data models and verifying structural characteristics with normalization techniques, and implementing a relational database using an industrial-strength database management system and language. Includes coverage of basic database administration tasks and key concepts of data quality and data security. Develops an understanding of the dependence of large-scale packaged systems on the use of Database Management Systems (DBMSs). Introduction to data and information management technologies that provide decision-support capabilities under the broad business intelligence umbrella. (C-ID ITIS 180) Transfer: CSU. Grading: Letter grade only

Location: Online

47892	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	T. Kocher		Course Materials	Fast-Track 1	

ITIS-82: Web Page Development and Publishing (3.00 Units)

Advisory: Completion of ITIS-16 (formerly CIS-68 and CIS-420). Note: ITIS-82 replaced CISIWEB-72 beginning with the fall 2026 term. Basic web page development using HTML (Hypertext Markup Language) and CSS (Cascading Style Sheets). Topics include web site planning, responsive Web page creation, hyperlinks, formatting, graphics, multimedia, tables, scripting, dynamic page creation, and Web publishing. Transfer: CSU. Grading: Letter grade only

Location: Online

47941	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	Staff		Course Materials	14-Week

ITIS-425: Social Media Technology and Publishing (3.00 Units)

Advisory: Completion of ITIS-16 (formerly CIS-68 and CIS-420). Note: ITIS-425 replaced CIS-421 and CISIWEB-424 beginning with the fall 2026 term. Social Media technologies enable individuals to create, collaborate, and share information with audiences of all sizes. Students will explore the possibilities and limitations of social media in the business and Career and Technical Education environments and will gain hands-on experience with several forms of social media technology. Students will learn to use social media effectively, have a framework for understanding and evaluating new tools and platforms, and develop a website using the

ITIS-468: Certified Information Systems Security Professional (CISSP) Certification Examination Preparation (4.00 Units)

Prerequisite: ITIS-60 (formerly CISCYBR-1) and ITIS-65 (formerly CISCYBR-2). Note: ITIS-468 replaced CISCYBR-404 beginning with the fall 2026 term. The CISSP exam is the gold standard of certifications for security professionals and is aligned to (ISC)² standards. This certification is internationally recognized as the highest professional certification sought after by government agencies, businesses, and cybersecurity organizations. This course will help students prepare to take the CISSP exam, develop expertise in designing, building, and maintaining a secure information system, and learn appropriate countermeasures for security situations. The course approaches the CISSP from the lens of an organization that wishes to secure its operations, while also providing the student with the basic knowledge required to prepare for the CISSP certification. Section 48443: Zero Textbook Costs ($0).
Section 48443: Limited seats available. Primary enrollment designated to high school students enrolled through a high school partnership agreement.

ID-14: Fundamentals of Design for Interiors (3.00 Units)

Exploration of the fundamental design elements and principles as they relate to interior spaces. Topics are presented in a systematic approach to the creative process of solving interior design problems. Formal visual properties of line, shape, form, pattern, texture and color are studied in their relationship to the organizational systems and unifying principles that create balanced designs. Emphasis will be focused on the use of color and modern day color theories as they relate to historic, cultural and aesthetic use in successful interior design solutions. Students will complete beginning level studio design projects consisting of 2D drawings and 3D model building. Transfer: CSU. Grading: Letter grade only

	Start Date: 09/08/26	End Date: 12/11/26						

Section 48444: Zero Textbook Costs ($0).

ID-15: Architectural Drafting for Interior Designers (3.00 Units)

A beginning course focusing on 2D drafting methods used in architecture and interior design including manual drafting and 2D AutoCAD. Emphasis is placed on drafted line quality, lettering, proper drafting techniques, and methods. Students will learn to identify building systems in drawings and learn basic requirements for creating floor plans, furniture plans, elevations, sections, detailing, dimensions, schedules, lighting plans, electrical layouts, and reflected ceiling plans. Students will complete a set of interior working drawings by hand or in AutoCAD, 2020 Design, or other industry-specific drafting programs. Transfer: CSU. Grading: Letter grade only

ID-21: Space Planning (3.00 Units)

Advisory: Completion of ID-10, ID-14, and ID-15. Other: Familiarity with AutoCAD or other computer drafting programs, interior floor plans, and design fundamentals. This course provides fundamental skill development in space planning for interiors. Students will investigate the design process, human factors, accessibility, universal design, spatial relationships, sustainability, codes, and aesthetic considerations for interior layouts. Students will practice the programming of spaces using adjacency studies and diagramming of factors such as circulation, light, and air to meet user needs. This course examines how culture is represented globally and how those representations can affect the design of residential and non-residential projects. Transfer: CSU. Grading: Letter grade only

Location: Online

48464	Online hours		Canvas	L. Monk		Course Materials	Full-Term	
	Start Date: 09/08/26	End Date: 12/11/26

ID-22: Interior Design Materials (3.00 Units)

Advisory: Completion of ID-10 and ID-15. Materials and treatments used in interior design for commercial and residential installations, including "green" resources. This course is a study of the technical specifications of finishes, furnishings, and equipment needed to complete a variety of interior environments. Emphasis is placed on sustainability. The interior designer's role in the environmental and social impacts of material specifications is investigated. Product knowledge, available resources, industry procedures, and terminology are incorporated. Liabilities and regulations as they pertain to the professional interior designer are covered. Finishes, furnishings, and equipment are estimated and specified and are graphically designated on drafted plans and elevations. This course is designed for students majoring in interior design. Transfer: CSU. Grading: Letter grade only

Location: Chino Campus

49071	09:00am-11:50am	F	CHCM-201	D. Hutson		Course Materials	Short-Term	
	Start Date: 09/11/26	End Date: 12/11/26		Last Day to Add: 09/25/26				

ID-27: Computer Drafting & Design for Interiors (3.00 Units)

Advisory: Completion of ID-15 or ID-21. Other: Student should possess beginning level knowledge of 2D drafting methods and familiarity with the typical drawings used to present Interior Design, Architecture, or Engineering projects. Computer-aided drafting & design using the professional software, AutoCAD, Revit, and Chief Architect. Other software may be introduced. This course focuses on 3D and BIM software programs typically used in the Interior Design industry. Students will learn the basic skills needed for 3D modeling, digital rendering, and the production of 2D floor plans, furniture layouts, elevations, lighting plans, and perspective views for client presentations. Use of various rendering software, scanners, printers, and plotters will be covered. Transfer: CSU. Grading: Letter grade only

Location: Online

Kinesiology: Activity (KINACT)

Consent for Physical Fitness Program
General Statement of Program Objective and Procedures

I understand that this physical fitness program may include exercise to build cardio-respiratory system (heart and lungs), the musculoskeletal system (muscle endurance and strength, and flexibility), and to improve body, composition (decrease of body fat in individuals needing to lose fat, with an increase in weight of muscle and bone). Exercises may include aerobic activities (treadmill walking/running, bicycle riding, rowing machine exercise, group aerobic activity, swimming, and other such activities), calisthenics, and weight lifting may also improve muscular strength and endurance, and flexibility exercises to improve joint range of motion.

KINACT-1: Beginning Tennis (1.00 Unit)

Emphasis on court etiquette, history, and fundamental skills for tennis including singles and doubles play, so that students may participate in a lifetime activity. Fundamental instruction includes serving, forehand, backhand, volley shots, and game strategy. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48834	09:30am-10:50am	TTH	G-TEN/CRT	R. Baiz		Course Materials	Full-Term	
	Start Date: 08/18/26	End Date: 12/17/26						

Section 48334: Zero Textbook Costs ($0).

KINACT-2: Advanced Tennis (1.00 Unit)

This course will emphasize the rules, court etiquette, history, and advanced skills of tennis. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48837	09:30am-10:50am	TTH	G-TEN/CRT	R. Baiz		Course Materials	Full-Term	
	Start Date: 08/18/26	End Date: 12/17/26						

Section 48337: Zero Textbook Costs ($0).

KINACT-6: Beginning Pickleball (1.00 Unit)

Emphasis on court etiquette, history, and fundamental skills for pickleball, including singles and doubles play, so that students may participate in a lifetime activity. Fundamental instruction includes serving, return of serve, dink, lob, volley, smash, and game strategy. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

49325	11:00am-12:20pm	TTH	G-TEN/CRT	P. Peoples		Course Materials	Full-Term	
	Start Date: 08/18/26	End Date: 12/17/26						

Section 49325: Zero Textbook Costs ($0).

KINACT-9: Swimming (1.00 Unit)

Basic skills and safety precautions for swimming. Several different strokes are taught according to skill levels. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48869	11:00am-12:20pm	MW	G-POOL	J. Ellis		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/15/26						

Section 48869: Zero Textbook Costs ($0).

KINACT-16: Volleyball (1.00 Unit)

Course will emphasize rules, strategy, and basic volleyball skill development such as setting, digging, serving, spiking and team strategies. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Section 48835: Zero Textbook Costs ($0).

KINACT-17: Advanced Volleyball (1.00 Unit)

Other: Previous volleyball experience is recommended. The course will include teaching of the advanced skills of volleyball with emphasis on strategy, skills and complex offensive and defensive schemes. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48836	11:00am-12:20pm	TTH	G-GYM	A. Henry		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/17/26						

Section 44836: Zero Textbook Costs ($0).

KINACT-20: Basketball (1.00 Unit)

Rules, court etiquette, basic offensive and defensive positions, and basic passing and dribbling techniques of basketball. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48838	11:00am-12:50pm	MW	G-GYM	A. Henry		Course Materials	14-Week	
	Start Date: 09/09/26	End Date: 12/09/26						

Section 48338: Zero Textbook Costs ($0).

KINACT-25: Spinning for Fitness (1.00 Unit)

Use of an indoor cycling bike for improving overall physical fitness and health. Students develop a safe and efficient spinning program designed to meet their fitness goals. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48842	08:00am-09:20am	TTH	MOD-2	R. Hadaway		Course Materials	Full-Term	
	Start Date: 08/18/26	End Date: 12/17/26						

Section 48842: Zero Textbook Costs ($0).

KINACT-26: Beginning Pilates Matwork (1.00 Unit)

This course is an introduction to Pilates mat work. Pilates is a form of mind-body exercise that improves flexibility and endurance while building strength. An emphasis will be placed on strengthening the core, which consists of muscles in the abdomen, low back, and hips. Students can expect to improve coordination and balance in daily activities or for fitness and sport. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48843	05:30pm-06:50pm	TTH	G-203	L. Harlow		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/15/26						

Section 48843: Zero Textbook Costs ($0).

KINACT-28A: Beginning Yoga (1.00 Unit)

This course is designed for the beginning students who would like to learn the importance of breath, alignment of postures and relaxation techniques to improve health and fitness of the mind and body. The goal of the course is to improve flexibility, muscle strength, endurance, and coordination through the physical postures of yoga. Introduction to relaxation techniques will be incorporated for stress reduction and mental calm. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Kinesiology: Lecture (KINLEC)

Consent for Physical Fitness Program
General Statement of Program Objective and Procedures

I understand that this physical fitness program may include exercise to build cardio-respiratory system (heart and lungs), the musculoskeletal system (muscle endurance and strength, and flexibility), and to improve body, composition (decrease of body fat in individuals needing to lose fat, with an increase in weight of muscle and bone). Exercises may include aerobic activities (treadmill walking/running, bicycle riding, rowing machine exercise, group aerobic activity, swimming, and other such activities), calisthenics, and weight lifting may also improve muscular strength and endurance, and flexibility exercises to improve joint range of motion.

KINLEC-2: Introduction to Athletic Training (3.00 Units)

This course will cover concepts of prevention, recognition, emergency care, evaluation, management, treatment and rehabilitation and reconditioning resulting from physical activity and athletics. Legal and ethical issues, professionalism, organization and administration of a sports medicine facility. This course is focused on preparing those interested in becoming Athletic Trainers and Coaches. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

48890	08:00am-09:30am Online hours Start Date: 08/21/26	F	G-134 Canvas End Date: 11/20/26	J. Galeazzi-Pimentel		Course Materials	Early 14-Week	

Section 48890: Hybrid class.
Section 48890: Zero Textbook Costs ($0).

KINLEC-11: Theory and Digital Analysis of Football (2.00 Units)

Comprehensive video review of football techniques. Video tape from four-year colleges, community colleges, and high schools will be reviewed and analyzed. Theories of football plays, strategies, positioning, and techniques. For kinesiology majors who want to coach football. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

48870	12:40pm-01:30pm Online hours Start Date: 08/17/26	M	MOD-3 Canvas End Date: 12/14/26	B. Buys		Course Materials	Full-Term

Start Date: 08/17/26 End Date: 12/09/26 Last Day to Add: 11/10/26
Section 48722: Instructor consent required.
Section 48722: Zero Textbook Costs ($0).

KINTM-48I: Intercollegiate Cross Country, Men (3.50 Units)

Limitation on Enrollment: Enrollment is restricted to student athletes who meet both skill and eligibility requirements. Opportunity for men to compete at the intercollegiate level in cross country. Advanced training techniques, strategies, and conditioning developed for successful participation. Instructor consent required for enrollment. May be taken 4 times. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48725 G-TRACK E. Guadalupe-Garcia Course Materials Short-Term

Start Date: 08/17/26 End Date: 12/11/26 Last Day to Add: 11/12/26
Section 48725: Instructor consent required.
Section 48725: Zero Textbook Costs ($0).

KINTM-49I: Intercollegiate Cross Country, Women (3.50 Units)

Limitation on Enrollment: Enrollment is restricted to student athletes who meet both skill and eligibility requirements. Opportunity for women to compete at the intercollegiate level in cross country. Advanced training techniques, strategies, and conditioning developed for successful participation. Instructor consent required for enrollment. May be taken 4 times. Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48726 G-TRACK E. Guadalupe-Garcia Course Materials Short-Term

Start Date: 08/17/26 End Date: 12/11/26 Last Day to Add: 11/12/26
Section 48726: Instructor consent required.
Section 48726: Zero Textbook Costs ($0).

KINTM-54I: Intercollegiate Soccer Team, Men (3.50 Units)

Limitation on Enrollment: Enrollment is restricted to student athletes who meet both skill and eligibility requirements. Opportunity for men to compete at the intercollegiate level in soccer. Instructor consent required for enrollment. May be taken 4 times. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48728 G-SC/FIELD C. Araya Course Materials Short-Term

Student Success Centers

Chaffey's virtual and in-person student Success Centers provide free tutoring, workshops, conversation groups, and focused learning activities. Functioning as an "extension of the classroom," the Success Centers strategically design curriculum for every stage of the learning process.

Visit the Success Centers webpage for hours and more information.

Rancho Success Center
English, Language, Humanities, Business & Technology, STEM
Room BEB-101 • (909) 652-6452
Room LLC-130 • (909) 652-6180

Mathematics (MATH)

MATH-4: Mathematical Concepts for Elementary School Teachers (4.00 Units)

Focuses on the development of quantitative reasoning skills through in-depth, integrated explorations of topics in mathematics, including real number systems and subsystems. Comprehension and analysis of mathematical concepts and applications of logical reasoning are emphasized. Designed for students preparing to teach elementary school mathematics. (C-ID MATH 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

47345	05:00pm-06:50pm	MW	PS-121	T. Jenkins		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26

	Start Date: 08/17/26	End Date: 12/18/26						

MATH-25: College Algebra (4.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Coordinate geometry and graphing techniques; conic sections; solutions to higher degree polynomial equations; functions; polynomial, rational, inverse, exponential and logarithmic functions; systems of nonlinear equations and inequalities; matrices and determinants; sequences and series; binomial expansion; mathematical induction; introduction to mathematical proof. There is a 1 hour supplemental learning requirement that can be satisfied through the success centers. Transfer: CSU; UC credit limitations. Grading: Letter grade only

MATH-31: Plane Trigonometry (4.00 Units)

Trigonometric functions including definitions of the circular functions. Radian measure, graphs, inverse trigonometric functions, trigonometric equations and identities, solution of right and oblique triangles, applications, vectors, complex numbers, polar coordinates and graphs, equation of conics, and rotation of axes. Transfer: CSU. Grading: Letter grade only

Location: Online

47337	Online hours Start Date: 08/17/26		Canvas End Date: 11/20/26	M. Khou		Course Materials	Early 14-Week	

MATH-45: Explorations in Quantitative Reasoning (4.00 Units)

Placement Level: Eligibility for MATH-45 as determined by the Chaffey College placement process. Advisory: Concurrent enrollment in MATH-545. Skills and techniques for problem solving using mathematical methods and quantitative reasoning. Topics include: elementary logic; set theory; combinatorics and probability; statistics; and finance math. For non-STEM students who do not need Trigonometry, Calculus, or Statistics as part of their major requirement. Transfer: CSU; UC. Grading: Letter grade only

MATH-81: Linear Algebra (4.00 Units)

Prerequisite: MATH-75. This course develops the techniques and theory needed to solve and classify systems of linear equations. Solution techniques include row operations, Gaussian elimination, and matrix algebra. Investigates the properties of vectors in two and three dimensions, leading to the notion of an abstract vector space. Vector space and matrix theory are presented including topics such as inner products, norms, orthogonality, eigenvalues, eigenspaces, and linear transformations. Selected applications of linear algebra are included. (C-ID MATH 250) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

MUSIC-5: Music Theory and Musicianship I (4.00 Units)

Advisory: Concurrent enrollment in MUSIC-35. This course, through guided composition, analysis, and cultural inquiry, incorporates the following concepts: rhythm and meter; basic properties of sound; intervals; diatonic scales and triads; diatonic chords; basic cadential formulas and phrase structure; dominant seventh; figured bass symbols; and non-harmonic tones; music as science, mathematics, and philosophy in Ancient Greek culture; musical form in the context of poetic, artistic, and architectural form. Students explore the history and evolution of music notation in the context of the growth of European vernacular literacy, and development of skills in handwritten notation is expected. In addition, the musicianship component of this course applies and develops the rhythmic, melodic, and harmonic materials of the first semester of Music Theory through ear training, sight singing, analysis, and dictation, drawing from and examining musicals sources from European art music, traditional/folk music from American, European, and non-European cultures, and American popular music. (C-ID MUS 120 and MUS 125) Transfer: CSU; UC. Grading: Letter grade only

MUSIC-7: Music Theory and Musicianship III (4.00 Units)

Prerequisite: MUSIC-6. Advisory: Concurrent enrollment in MUSIC-37. This course expands on concepts from Music 6, Music Theory and Musicianship II. In addition, through writing and analysis, the course will include: introduction to chromatic harmony; secondary/applied chords; modulation; borrowed chords; introduction to Neapolitan and augmented-sixth chords; analysis and composition of music in the popular style. Applies and develops the rhythmic, melodic, and harmonic concepts through ear training, sight singing, analysis, and dictation. (C-ID MUS 140 and MUS 145) Transfer: CSU; UC. Grading: Letter grade only

MUSIC-18: Introduction to Pro Tools (3.00 Units)

Theory and operation of Pro Tools software. Software configuration, operation, and features are covered with the help of hands-on sessions from setup to final mixing. Students build skills that include audio and MIDI recording, mixing, editing, effects processing, external controllers, and the use of virtual instruments. Students use Pro Tools in a variety of contexts from music and video post-production. This course also prepares students for the optional Avid Certified User: Pro Tools exams in Pro Tools 101 and 110. The certification exams are taken as a part of the course. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

MUSIC-58: Applied Music (0.50 Units)

Limitation on Enrollment: Audition is required. Corequisite: MUSIC-75, 76, 77, or 78. This course consists of individualized study of the appropriate techniques and repertoire for the specific instrument/voice being studied. Emphasis is on the progressive development of skills needed for solo performance. Progress is evaluated through a juried performance. There are 9 hours dedicated to individual instruction on the student's primary instrument. May be taken four times. (C-ID MUS 160) Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48225	02:30pm-03:45pm	W	CAE-102	P. Aranda		Course Materials	14-Week	
	Start Date: 09/08/26	End Date: 12/11/26		Last Day to Add: 11/17/26				
Section 48225: 9 hours per term arranged.								
Section 48225: Zero Textbook Costs ($0).								

MUSIC-75: Concert Choir (1.00 Unit)

Limitation on Enrollment: Audition may be required during the first week of class to verify ability to match pitches, sing in tune, and perform simple rhythms. Other: Previous choral experience is desirable. Study and performance of a wide variety of choral music, mostly accompanied with some a cappella. Primary focus is classical, with significant secondary focus on American vernacular and non-European repertoire. Some basic vocal and musical skills are required, but course emphasis is on the development of the ability to perform parts independently as well as key choral performance skills including phrasing, interpretation, diction, breathing, blend, and vocal control. Participation in on- and off-campus public performances and/or activities may be required. May be taken four times. (C-ID MUS 180) Transfer: CSU; UC. Grading: Letter grade only

Section 48240: 7 hours per term arranged.								
Section 48240: Zero Textbook Costs ($0).								

MUSIC-76: Chamber Choir (1.50 Units)

Limitation on Enrollment: Audition may be required the first week of class to determine basic music reading ability, tonal memory, independence in carrying an assigned part, and ability to blend with other voices. Other: Previous significant choral singing experience is desirable. Advanced study and performance of varied choral music, with a focus on a cappella art, folk, and popular music. Requires established vocal and musical skills, including basic music reading, vocal technique, and choral rehearsal practice. Participation in on- and off-campus public performances and/or activities may be required. May be taken four times. (C-ID MUS 180) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48233	11:00am-12:40pm	MW	CAE-101	D. Rentz		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26

Section 48233: Zero Textbook Costs ($0).								

MUSIC-77: Community Concert Band (1.00 Unit)

Limitation on Enrollment: Students may pre-register, but their ability to play a musical instrument will be assessed by instructor on first day of class. Instrumental music group specializing in training and experience in a wide variety of band repertoire, through rehearsals and performance. Student must provide their own instrument, though some instruments may be available on loan through the Music Department. Participation in and/or attendance at on- and off-campus public performances and/or activities may be required. May be taken four times. (C-ID MUS 180) Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48234	07:00pm-09:50pm	W	CAE-102	P. Aranda		Course Materials	Full-Term	
	Start Date: 08/17/26	End Date: 12/18/26						
Section 48234: Zero Textbook Costs ($0).								

MUSIC-78: Jazz Band (1.00 Unit)

Limitation on Enrollment: Intermediate to advanced proficiency on one's musical instrument, together with the ability to read music is required. Students may pre-register in class, but instructor will assess students' ability to play musical instrument on first day of class. Audition on the first day of class on the following instruments: trumpet, trombone, saxophone, bass and bass guitar, keyboards, drums, guitar, and auxiliary percussion. Instrumental studio/performing group, emphasizing reading, improvisation and stylistic concepts as they apply to the intermediate/advanced jazz player. In most instances, student is expected to supply their own instrument, though some may be available on loan from the Music Department. Participation in on- and off-campus public performances and/or activities may be required. May be taken four times. (C-ID MUS 180) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48235	07:00pm-09:50pm	M	CAE-102	P. Aranda		Course Materials	Full-Term

NURADN-3L: Transition in Nursing Laboratory (0.50 Units)

Limitation on Enrollment: Must be a graduate of a Vocational Nursing School with an active LVN license. Corequisite: NURADN-3 (may be taken previously). Application of basic nursing skills in the nursing-skills lab. Transfer: CSU. Grading: Pass/No Pass only

Location: Rancho Cucamonga Campus

49160	12:00pm-02:10pm	M	HS-132	J. Renteria		Course Materials	Short-Term
	Start Date: 08/17/26	End Date: 11/02/26					

Section 49160: This section requires that you also register in the linked credit class, NURADN 3, section 49158.

NURADN-6: Clinical Nursing Skills (1.50 Units)

Limitation on Enrollment: Admission to the Nursing A.D.N. Program. This course focuses on the knowledge and skills needed to provide safe, quality care. The theoretical foundation for basic assessment and nursing skills is presented, and the student is given an opportunity to demonstrate these skills in a clinical laboratory setting. An introduction to the nursing process provides a decision-making framework to assist students in developing effective clinical judgment skills. Transfer: CSU. Grading: Letter grade only

NURADN-49: Mental Health Nursing (2.00 Units)

Prerequisite: NURADN-35. Other: Course may be taken anytime it is offered in the 4th semester of the program either before or after NURADN-47. This course focuses on the care of patients across the lifespan experiencing cognitive, mental, and behavioral disorders. Emphasis is placed on management of patients facing emotional and psychological stressors as well as promoting and maintaining the mental health of individuals and families. Concepts of crisis intervention, therapeutic communication, and coping skills are integrated throughout the course. Clinical experiences provide the student an opportunity to apply theoretical concepts and implement safe patient care to patients in selected mental health settings. Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Clinical Location(s)

NURADN-403: Pathophysiology for Nursing (3.00 Units)

Advisory: Completion of BIOL-22. Mechanisms of disease processes, the resultant structural and functional changes, and the effects of these dysfunctional changes on the body as they relate to nursing practice. The use of the Nursing Process in prevention, evaluation, and treatment of disease outcomes within the scope of nursing practice. This course is recommended for students actively completing the pre-requisites for the Associate Degree Nursing (ADN) or a similar health science program. Grading: Letter grade only

Location: Online

NURADN-482: Cooperative Education: Nursing A.D.N. (1.00 Unit)

Prerequisite: NURADN-15. Work experience in cooperation with clinical agencies. Provides expanded learning opportunities directly related to the student's clinical experience. Course requires 54 clinical hours. The Nursing program developed this course in which previously learned nursing theory and clinical skills are applied because a student must have acquired clinical competence in these skills. A list of skills competencies is provided to the clinical agency (work-study site). No new skills may be taught during this course and the hours of instruction for the course follow the formula per CCR section 1426(g)(2). In this course, the faculty of record is available and is responsible for ongoing communication with students and agency and monitoring of student progress. The Nursing program develops an agreement with a clinical agency with which it has a contract, to provide a work-study course for which a student receives academic credit. Compensation of the student by the practice site is encouraged. The clinical agency agrees to the objectives of the course and provides mentors or preceptors for direct supervision of students. The instructor and agency mentors meet at regular intervals to discuss student progress and jointly share in the evaluation of the student. The course instructor has the final responsibility to evaluate and grade students and their mastery of the course objectives. Grading: Pass/No Pass only

Location: Location(s) to be Determined

49266	See note below Start Date: 08/17/26	End Date: 12/18/26		T. DePonte		Course Materials	Full-Term

Nursing: Vocational (NURVN)

NURVN-403: Fundamentals of Nursing (3.00 Units)

Limitation on Enrollment: Acceptance into the Vocational Nursing Program. Corequisite: NURVN-403L. Fundamental principles and techniques necessary for the beginning vocational nursing student to provide basic nursing care to patients. Leadership focus on the VN role, responsibilities, and skills in extended-care clinical and home settings. Students select and use appropriate components of the nursing process and Maslow's Hierarchy of Needs to promote health, hygiene, nutrition, rest/sleep, safety, relief of pain, and meet the mobility, bowel/bladder, respiratory, sexual, spiritual, psychosocial, and self-esteem needs of adult and geriatric patients. Study of loss/grief concepts, health and disease, stress adaptation, and therapeutic communication styles is included. Includes 12 hours of related pharmacology content. Instructor signature required. Note: Students must achieve a minimum grade of C in NURVN-403 and pass NURVN-403L to meet course and program requirements. Materials Fee: $3.00 (in-person classes only, unless otherwise noted). Grading: Letter grade only

Location: Chino Campus

Physical Science (PHSCI)

PHSCI-10: Survey of Chemistry and Physics (4.00 Units)

Placement Level: Eligibility for college-level Math course, as determined by the Chaffey College placement process. Introduction to the principles of physics and chemistry. Topics include: motion, forms of energy, electricity, magnetism, waves, electromagnetic radiation, atomic structure, bonding, phases of matter, pH and nuclear chemistry, acids and bases, and solutions. Course is recommended for liberal studies majors and future teachers. (C-ID CHEM 140 and PHYS 140) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

47395	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	M. Micklich		Course Materials	14-Week	
47398	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	M. Micklich		Course Materials	14-Week	
47399	Online hours Start Date: 09/08/26		Canvas End Date: 12/11/26	M. Micklich		Course Materials	14-Week	

Physical Therapy (PTA)

PTA-1: Introduction to Physical Therapy (3.00 Units)

This lecture-only course introduces the history, organizational structure, and principles (moral, legal, ethical) of evidence-based physical therapy practice in a multicultural society. Students will learn the knowledge, skills, behaviors, and competencies, along with the personal and professional characteristics needed by a physical therapist assistant to be a safe, effective, and efficient healthcare team member. Transfer: CSU. Grading: Letter grade only

Location: Online

49048	Online hours Start Date: 08/17/26		Canvas End Date: 10/09/26	A. Rizvi		Course Materials	Fast-Track 1

Section 49134: Zero Textbook Costs ($0).								

PTA-21: Professionalism and Ethics (1.00 Unit)

Limitation on Enrollment: The course is limited to students who have successfully completed the first semester of the physical therapist assistant program. This lecture-only course addresses professional, ethical, legal, and social issues encountered by a physical therapist assistant. Students will explore topics related to personal and professional career development, patient advocacy, quality assurance, administrative, fiscal, and legal applications, implications, and limitations of physical therapy practice. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Online

49135	Online hours Start Date: 08/17/26		Canvas End Date: 12/18/26	Staff		Course Materials	Full-Term	
Section 49135: Zero Textbook Costs ($0).								

PTA-22: Therapeutic Exercise (3.00 Units)

Limitation on Enrollment: The course is limited to students who have successfully completed the first semester of the physical therapist assistant program. This lecture and laboratory course addresses the pathological and physiological considerations for the integration, modification, and progression of therapeutic exercise. Students will demonstrate an understanding of the knowledge, skills, and abilities to implement therapeutic exercise for movement-related disorders and for health and wellness. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Fontana Campus and Online

PTA-23: Acute Care (3.00 Units)

Limitation on Enrollment: The course is limited to students who have successfully completed the first semester of the physical therapist assistant program. This lecture and laboratory course addresses psychosocial and other special considerations, management, and physical therapy interventions for individuals with acute and complex conditions. Students will demonstrate an understanding of the knowledge, skills, and abilities to implement interventions, tests, and measures within the scope of practice in intra and interprofessional practice settings. Instructor signature required. Transfer: CSU. Grading: Letter grade only

PTA-24: Neuromotor Development (3.00 Units)

Limitation on Enrollment: The course is limited to students who have successfully completed the first semester of the physical therapist assistant program. This lecture and laboratory course describes normal and abnormal neuromotor development related to the aging process. Students will demonstrate an understanding of the knowledge, skills, and abilities needed to manage neuromuscular and nervous system disorders. Transfer: CSU. Grading: Letter grade only

Location: Fontana Campus and Online

PHYS-20A: Algebra/Trigonometry College Physics I (4.00 Units)

Placement Level: Eligibility for MATH-61 or higher level math as determined by the Chaffey College placement process. Prerequisite: PHYS 5. Other: In place of the PHYS-5 prerequisite, one year of high school physics is acceptable. Course is designed for students majoring in a life or medical science, or engineering technology, whose university major does not require calculus-based physics. Position, velocity, and acceleration of objects are described using vectors. The concepts of mass, force, Newton's Laws of Motion, momentum, impulse, work, energy, and power are used to describe straight-line motion, projectile motion, circular motion, collisions, explosions, and vibration. Rotational motion includes torque, moment of inertia, angular momentum, and static equilibrium. Simple harmonic motion, wave mechanics, and fluid mechanics are also covered. (C-ID PHYS 105, and 100 S when combined with PHYS-20B) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Online

47178	Online hours Start Date: 08/17/26		Canvas End Date: 12/18/26	K. Osorno		Course Materials	Full-Term	

PHYS-35: Calculus Based Physics I (4.00 Units)

Prerequisite: PHYS-5, or one year of high-school physics. Corequisite: MATH-65A (may be taken previously). Formerly PHYS-30A. This course is designed for students majoring in chemistry, life science, medical science, or engineering technology, whose university major requires calculus-based physics. Position, velocity, and acceleration of objects are described using vectors. The concepts of mass, force, Newton's Laws of Motion, momentum, impulse, work, energy, and power are used to describe straight line motion, projectile motion, circular motion, collisions, and explosions. The unit on rotational motion includes torque, moment of inertia, angular momentum, and static equilibrium. Simple harmonic motion, wave mechanics, and fluid mechanics are also covered. (C-ID PHYS 105, and 100 S when combined with PHYS-36) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

47182	11:00am-12:20pm 07:45am-10:35am Start Date: 08/17/26	MW W	HS-143 PS-120 End Date: 12/18/26	J. Martinez		Course Materials	Full-Term	

PHYS-36: Calculus Based Physics II (4.00 Units)

Prerequisites: PHYS-35 (formerly PHYS-30A) and MATH-65A. Formerly PHYS-30B. This course is designed for students majoring in chemistry, life science, medical science, or engineering technology, whose university major requires calculus-based physics. Electricity and magnetism, including electric force and field, electric potential energy, potential, capacitance, resistance, electromotive force, magnetic force and field, and Faraday's Law are presented. Basic tools of circuit analysis, including Kirchhoff's laws are covered. The laws of thermodynamics, as well as interference, diffraction, and geometric optics of light waves are also covered. (C-ID PHYS 110, and 100 S when combined with PHYS-35) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Location: Rancho Cucamonga Campus and Online

47184	07:45am-10:35am Online hours Start Date: 08/17/26	M	PS-122 Canvas End Date: 12/18/26	G. Fathi-O'shay		Course Materials	Full-Term	

Section 47184: Hybrid class.

PHYS-44: Introduction to Motion (4.00 Units)

Placement Level: Eligibility for MATH-65A or higher as determined by the Chaffey College placement process. Prerequisite: MATH-61. Introduction to mechanics for students majoring in a physical science or engineering. Position, velocity, and acceleration of objects are described using vectors. Concepts of mass, force, Newton's Laws of Motion, momentum, and impulse are used to describe straight line motion, projectile motion, circular motion, collisions, and explosions. In the laboratory, microcomputers with motion detectors and force probes are used to study the concepts of velocity and acceleration, and Newton's Laws of Motion. Graphical representations of motion - velocity-time graphs, acceleration-time graphs, and force-time graphs - are emphasized. Transfer: CSU; UC credit limitations. Grading: Letter grade only

Political Science (POLS and PS)

POLS-C1000: American Government and Politics (3.00 Units)

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

Advisory: Completion of ENGL C1000 (formerly ENGL-1A). Note: POLS C1000 replaced PS-1 (CCN: POLS C1000) beginning with the fall 2026 term. This course is an introduction to government and politics in the United States and California. Students examine the constitutions, structure, and operation of governing institutions, civil liberties and civil rights, political behaviors, political issues, and public policy using political science theory and methodology. May be offered as an Honors course. (C-ID POLS 110) Transfer: CSU; UC. Grading: Letter grade only

PS-2: Introduction to Political Science (3.00 Units)

Advisory: Completion of ENGL C1000 (formerly ENGL-1A). Use of methods and concepts to analyze political institutions, behavior, cultures, and ideologies. Various political systems (American and non-American) and the factors that lead to stability, change, and revolution. (C-ID POLS 150) Transfer: CSU; UC. Grading: Letter grade only

Location: Online								
48909	Online hours Start Date: 08/17/26	 End Date: 12/18/26	Canvas	M. Carter		Course Materials	Full-Term	
Section 48909: Zero Textbook Costs ($0).								

PS-3: California Politics and Culture (3.00 Units)

Advisory: Completion of ENGL C1000 (formerly ENGL-1A). Study of state, county, and municipal governments with an emphasis on California's unique heritage, culture, people, and politics. Issues such as economic and class conflict, immigration and ethnic-cultural influences, and problems in urban government in the 21st century are examined. Transfer: CSU. Grading: Letter grade only

Location: Online								
48910	Online hours Start Date: 08/17/26	 End Date: 12/18/26	Canvas	K. Cameron		Course Materials	Full-Term	

PS-4: Political Theory (3.00 Units)

Advisory: Completion of ENGL C1000 (formerly ENGL-1A). Introduction to the philosophical underpinnings of historical and contemporary political systems. Analysis of theoretical concepts including the nature of justice, power, freedom, and democracy. Views of theorists such as Plato, Machiavelli, and Marx, as well as non-Western sources are examined. (C-ID POLS 120) Transfer: CSU; UC. Grading: Letter grade only

Location: Rancho Cucamonga Campus								
48551	11:00am-12:15pm Start Date: 08/17/26	TTH End Date: 12/18/26	SS-104	K. Cameron		Course Materials	Full-Term	

PS-7: International Relations (3.00 Units)

Advisory: Completion of ENGL C1000 (formerly ENGL-1A). An introduction to international relations theory with an examination of national, international, transnational, and sub-national actors and their institutions, interactions and processes as they relate to global issues. Examination of key IR theories and research methodologies, international security, the global economy, international law and organizations (e.g. UN, WTO), and non-traditional issues of human security - global poverty, pandemics, environment and resource management, and NGOs. Emphases on the foreign policies of major states, areas of conflict and tension, and various aspects of globalization. (C-ID POLS 140) Transfer: CSU; UC. Grading: Letter grade only

Location: Online

PS-32: Law and Society (3.00 Units)

Advisory: Completion of ENGL C1000 (formerly ENGL-1A). Analysis of law, its functions, cultural variations, legal theories of justice, and law as a tool of social change. A comparative analysis of Western and Third World legal systems will also be made. Transfer: CSU; UC. Grading: Letter grade only

Location: Online								
48911	Online hours Start Date: 08/17/26	 End Date: 12/18/26	Canvas	M. Carter		Course Materials	Full-Term	

Psychology (PSYC and PSYCH)

PSYC-C1000: Introduction to Psychology (3.00 Units)

Placement Level: Eligibility for college-level writing (C-ID ENGL 100) and reading (a course with an existing skill of ability to read a college level text).

Note: PSYC C1000 replaced PSYCH-1 (CCN: PSYC C1000) beginning with the fall 2026 term. This course is an introduction to psychology, which is the study of the mind and behavior. Students focus on theories and concepts of biological, cognitive, developmental, environmental, social, and cultural influences; their applications; and their research foundations. May be offered as an honors course. (C-ID PSY 110) Transfer: CSU; UC. Grading: Letter grade only

Radiologic Technology (RADTEC)

RADTEC-10: Anatomy and Radiographic Positioning I (3.00 Units)

Limitation on Enrollment: Admission to the Radiologic Technology Program. Corequisite: RADTEC-10L. This course provides a comprehensive study of radiographic positioning of the upper extremity, shoulder, lower extremity, pelvic girdle, bony thorax, respiratory system, and abdomen. There will be an emphasis on associated anatomy, radiographic image evaluation, communication, patient care, and safety. Consideration is given to radiation protection and safety practices, and the production of images of optimal diagnostic quality. Laboratory experience complements the didactic portion. This course provides the knowledge base and cognitive skills necessary to perform standard and special radiographic procedures, with both cultural and physical conditions addressed. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Rancho San Antonio Medical

48066	12:00pm-02:50pm Start Date: 08/17/26	M End Date: 12/18/26	RSAM-01	J. Cathcart		Course Materials	Full-Term

RADTEC-16: Patient Care for Radiologic Technologists (3.00 Units)

Limitation on Enrollment: Admission to the Radiologic Technology Program. Corequisite: RADTEC-16L. This course provides a comprehensive study of the role of the Radiologic Technologist in the health care team and the health care delivery system including history, ethics, appropriate terminology, effective communication and interactions, scope of practice, patient evaluation, infection control, and radiation safety practices. Special considerations for the following populations will be addressed: neonatal, pediatric, geriatric, and trauma. Emphasis will be placed on ethics, communication and patient education, the Radiologic Technologist's role and scope, and use of contrast agents in radiology. This course will provide education and skills required for use of and care for various medical devices and supplies including venipuncture materials, various tubes, lines and catheters, isolation, vital signs, enema administration, and patient transfer. Safety, including both patient and radiographer safety, will be addressed throughout. Laboratory experience complements the didactic portion. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Online

48079	Online hours Start Date: 08/17/26	 End Date: 12/18/26	Canvas	M. Soto		Course Materials	Full-Term	

Section 48079: Instructor consent required.

RADTEC-16L: Laboratory for Patient Care for Radiologic Technologists (1.00 Unit)

Limitation on Enrollment: Admission to the Radiologic Technology Program. Corequisite: RADTEC-16. This course provides a comprehensive study of the applications of the Radiologic Technologist's role in the health care team and the health care delivery system. It will include discussion, application, role-play, and timed simulated evaluations of the medical procedures and techniques commonly used in radiology departments, including pediatric, geriatric, and trauma patients. Demonstration and application of drug administration, enema administration, acquisition of vital signs, patient transfer and movement, medical and

surgical aseptic techniques, and infection control measures will be performed, with emphasis on safety, patient care, communication, and the importance of documentation. Medical and surgical aseptic technique will be studied in depth. Cultural and physical conditions will also be addressed. Instructor signature required. Materials Fee: $20.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

RADTEC-20: Radiologic Science and Protection (3.00 Units)

Limitation on Enrollment: Admission to the Radiologic Technology Program. Corequisite: RADTEC-20L. This course establishes a basic knowledge of the fundamental properties of radiation, x-ray production, and interaction of photons with matter. The operation of radiographic equipment and digital imaging systems is covered. Appropriate radiographic exposure factors required to produce quality radiographic images is introduced, including their influence on the production and recording of images. Computed radiography and direct capture image receptors are compared for methods of image acquisition, processing, delivery, storage, display, archiving, and retrieval is introduced. An introduction to radiobiology and the effects of radiation on living systems including response is included. Emphasis is placed on basic radiation measurement, attenuation and absorption of radiation within the human body, and the associated health effects. Principles of radiation protection and safety for patients and staff are introduced and correlated to state and federal radiation control legislation. The use of radiographic equipment and accessories is explored; laboratory experiments complement didactic instruction. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Rancho San Antonio Medical

RADTEC-20L: Laboratory for Radiologic Science and Protection (1.00 Unit)

Limitation on Enrollment: Admission to the Radiologic Technology Program. Corequisite: RADTEC-20. This course establishes a basic knowledge of the applications of fundamental properties of radiation, x-ray production, and interaction of photons with matter. Theoretical and applied concepts are correlated with laboratory results in a series of experiments conducted in on-campus live radiography laboratory. Through a process of discussion, demonstration, return demonstration, group sharing, and demonstration evaluation, students correlate concepts with production of radiographic images. Experiments demonstrate applications of production of x-rays, facilitating student acquisition of competency and skill in the use of radiographic equipment and accessories. Calculation and implementation of appropriate exposure factors is employed for digital imaging systems, including both computed radiography and direct-capture radiography systems. Emphasis is placed on equipment manipulation (including mobile and stationary units), image receptors, ionization and exposure, beam intensity, and radiation protection. Radiographic image evaluation and critiques are performed to assist students in utilizing digital imaging systems. Instructor signature required. Materials Fee: $10.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

SECTION	HOURS	DAYS	LOCATION	INSTRUCTOR	INSTR. METHOD	COURSE MATERIALS	SESSION	ZTC/LCT

RADTEC-31: Radiographic Clinical Education I (2.00 Units)

Limitation on Enrollment: Admission to the Radiologic Technology Program. This course provides an introduction to content and clinical practice experiences for sequential development, application, critical analysis, and integration of the concepts and theories in the performance of radiologic procedures, in conjunction with topics presented in the on-campus Radiologic Technology courses. Using competency-based assignments, the student first observes and then assists with (under direct supervision) patient care and radiographic procedures. Emphasis will be on familiarizing the student with the clinical education setting, patient-centered clinical practice, professional development and working relationships with other health care professionals. Competency and outcome measurement ensure the well-being of the patient prior to, during and following procedures. Students follow all policies and procedures outlined in the current Radiologic Technology Student Handbook. Instructor signature required. Materials Fee: $26.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

Location: Rancho Cucamonga Campus

48085	08:00am-11:50am	F	HS-133	J. Cathcart, M. Soto & A. Dyer		Course Materials	Short-Term	
	12:20pm-03:10pm	F	HS-133					
	See note below		CLIN					
	Start Date: 08/21/26	End Date: 12/04/26						

Section 48085: Instructor consent required.
Section 48085: Classroom meetings in HS-133: 8/21, 8/28 & 9/4.
Section 48085: 96-108 hours per term arranged clinical.
Section 48085: Zero Textbook Costs ($0).

RADTEC-61: Radiographic Clinical Education IV (8.00 Units)

Limitation on Enrollment: Must be a 2nd year Radiologic Technology student in good standing. Prerequisite: RADTEC-51. This course provides continued content and clinical practice experiences designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Using structured, sequential, competency-based clinical assignments, concepts of team practice, patient-centered clinical practice and professional development are discussed, examined and evaluated. Emphasis is on patient care and assessment, competent performance of radiologic imaging and total quality management. Students will focus on the well-being of the patient prior to, during and following radiologic procedures. Students perform under direct and indirect supervision as appropriate, adhering to all policies and procedures in the Radiologic Technology Student Handbook. Instructor signature required. Materials Fee: $25.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

Location: Clinical Location(s) to be Determined

Section 48091: 384-432 hours per term arranged clinical.
Section 48091: Zero Textbook Costs ($0).

RADTEC-67: Anatomy and Radiographic Positioning III (2.50 Units)

Limitation on Enrollment: Must be a 2nd year student in the Radiologic Technology Program and in good standing. Prerequisite: RADTEC-25. Corequisite: RADTEC-67L. This course provides a comprehensive study of radiographic procedures and positioning of the skull, facial bones, nasal bones, orbits/optic foramina, zygomatic arches, mandible, temporomandibular articulations (TMJ), and paranasal sinuses to perform standard imaging procedures, including trauma and pediatric considerations. An introduction to interventional radiology and computed tomography (CT) is included, with a prominence on cross-sectional anatomy of the skull. There will be an emphasis on associated anatomy, radiation protection, patient communication, effective patient interaction, and radiographic image evaluation. Cultural and physical conditions will also be addressed. Laboratory experience complements the didactic portion. Instructor signature required. Transfer: CSU. Grading: Letter grade only

Location: Online

48092	Online hours		Canvas	R. Musharbash		Course Materials	Short-Term

Section 48092: Instructor consent required.
Section 48092: Zero Textbook Costs ($0).

RADTEC-67L: Laboratory for Anatomy and Radiographic Positioning III (0.75 Units)

Prerequisite: RADTEC-25L. Corequisite: RADTEC-67. This course provides a comprehensive study of applications of radiographic positioning of the skull, facial bones, nasal bones, orbits/optic foramina, zygomatic arches, mandible, temporomandibular articulations, and paranasal sinuses to perform standard imaging procedures, including trauma and pediatric considerations. Cultural and physical conditions will also be addressed. There will be an emphasis on associated anatomy, radiation protection, appropriate communication, effective patient interaction, and radiographic image evaluation. Positioning skills will include skull lines, skull landmarks, tube angle, entrance or exit, patient position, and patient care. Identification of radiographic quality will be assessed and evaluated. This course includes simulated patient positioning and exposure of radiographic phantoms. Instructor signature required. Materials Fee: $10.00 (in-person classes only, unless otherwise noted) Transfer: CSU. Grading: Letter grade only

RADTEC-472L: Lab for Pharmacology and Venipuncture for Imaging Professionals (0.50 Units)

Limitation on Enrollment: Must be a 2nd year Radiologic Technology student in good standing. Corequisite: RADTEC-472. The course provides a comprehensive study of the applications of pharmacology and venipuncture associated with medical imaging, with focus on venipuncture techniques. Application of skills, skills-building, and reinforcement of theory is included. There will be demonstration of the anatomy and physiology of venipuncture sites, instrumentation, saline intravenous solutions, and proper use of associated equipment. Students will first execute simulated demonstrations, then perform a minimum of ten successful venipuncture sticks on simulated patients (mannequin arms). Patient care aspects of venipuncture are emphasized, with extensive skills-building in effective communication and proper documentation. Instructor signature required. Materials Fee: $14.00 (in-person classes only, unless otherwise noted). Grading: Letter grade only

Social Science (SCSCI)

SCSCI-10: Statistics for Social Science (4.00 Units)

Placement Level: Eligibility for MATH-25 as determined by the Chaffey College placement process. Survey of methods used to analyze and interpret data generated by scientific investigation. Purpose and application of statistics, frequency distributions and graphing, central tendency, variability, percentiles, standard scores, the normal distribution, regression, correlation, probability, hypothesis testing, simple and two-factor analysis of variance, and non-parametric techniques. The use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-square and t-tests; and application of technology for statistical analysis, including the interpretation of the relevance of the statistical findings. Applications using data from disciplines including business, social sciences, psychology, life science, health science, and education. Use of computerized statistical packages (e.g. SPSS). (C-ID SOCI 125 and MATH 110) Transfer: CSU; UC credit limitations. Grading: Letter grade only

SPAN-3: Intermediate Spanish I (4.00 Units)

Prerequisite: SPAN-2 or two years of high school Spanish. This course teaches culture and facilitates language acquisition through listening, speaking, reading and writing. Students will continue to interact with authentic language in context. Content is expanded beyond "survival" needs of the immediate environment in order to express personal meaning and to apply different strategies and techniques to go beyond casual conversation and express opinions, make suggestions on familiar topics, as well as some abstract issues and plans. Students demonstrate an increased awareness of cultural norms, values, and culturally relevant appropriate customs and events. Accuracy becomes quite high for high frequency structures and vocabulary but more complex discourse is still developing and requires a somewhat sympathetic listener or reader. Students will demonstrate the ability to think critically by analyzing linguistic structures and reflecting on and making cross-cultural comparisons. This course is taught primarily in Spanish. This course may also require completion of supplemental assignments. (C-ID SPAN 200) Transfer: CSU; UC. Grading: Letter grade only

SPAN-3SS: Spanish for Heritage Speakers I (4.00 Units)

Prerequisite: SPAN-2 or department-determined equivalency (visit https://www.chaffey.edu/acc/acd/acd-academic/spanish-3ss.php to provide evidence to challenge this prerequisite). This course is designed for heritage speakers of Spanish or other linguistically qualified students. It provides instruction that builds upon the existing reading, writing, speaking, and listening skills and the cultural heritage and knowledge of these students. The course will increase awareness of linguistic registers and correct diacritical marks and their correct uses. This course introduces the student to the geography, history, and culture of the Spanish-speaking world and encourages students to analyze and appreciate the important literary, philosophical, and historical texts to build global cultural competence. This course is conducted entirely in Spanish. (C-ID SPAN 220) Transfer: CSU; UC. Grading: Letter grade only

SPAN-9: Cultures of the Spanish Speaking World (3.00 Units)

Prerequisite: SPAN-2 or department-determined equivalency. Spanish 9 survey found here: https://www.chaffey.edu/acc/acd/acd-academic/spanish.php. This course is designed to improve Spanish comprehension skills and enhance cultural awareness for those students who have a degree of proficiency in Spanish or are heritage speakers. The course promotes a greater awareness of the nuances of the Spanish language through discussions and readings centering on the history, politics, and the society and culture of the Spanish speaking world. The course prepares students to be global citizens through self-reflection and thoughtful exploration of Hispanic cultures and communities in the U.S. and abroad. The course will be conducted in Spanish. Transfer: CSU. Grading: Letter grade only

Statistics (STAT)

STAT-C1000: Introduction to Statistics (4.00 Units)

Placement Level: Eligibility for STAT C1000 (formerly STAT-10) as determined by the Chaffey College placement process. Advisory: Concurrent enrollment in STAT-510. Note: STAT C1000 replaced STAT-10 (CCN: STAT C1000) beginning with the fall 2026 term. This course is an introduction to statistical thinking and processes, including methods and concepts for discovery and decision-making using data. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-squared, and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Students apply methods and processes to applications using data from a broad range of disciplines. A specific statistical graphing & computing utility is required. See instructor before acquiring. May be offered as an Honors course. The Math department strongly recommends that any student wanting or needing extra support for this course to consider enrolling in STAT-510 to be taken concurrently with STAT C1000 (formerly STAT-10). There is a 1-hour supplemental learning requirement that can be satisfied through a Chaffey College Success Center. (C-ID MATH 110) Transfer: CSU; UC credit limitations. Grading: Letter grade only

Success Centers (SUCCESS)

SUCCESS-650 provides tutoring assistance to students currently enrolled in another Chaffey College credit or non-credit course. Enrollment in SUCCESS-650 may be accomplished during registration or at any time during the term in any Success Center. A current Chaffey student ID is required to access this service.

SUCCESS-650: Supervised Tutoring (0.00 Units)

Limitation on Enrollment: Referral by course instructor or academic counselor is required. Student must be enrolled in another Chaffey College course. Open-entry/open-exit supervised tutoring course that provides students assistance in understanding college course assignments. Individualized/small group tutoring and Supplemental Instruction (SI) sessions are conducted outside of class time in a learning assistance center and are structured to help students achieve specific course objectives or improve learning and study skills in specific subject matter. The content of this course varies according to the course for which tutoring is sought. May be repeated. Non-credit. Grading: Ungraded

Audition Workshop in the Theatre on the Rancho Cucamonga campus on Wednesday, August 19th, 2026. Auditions in the Theatre on the Rancho Cucamonga campus will be held Tuesday, August 25, 2026 to Thursday, August 27, 2026, from 4:00pm-6:00pm. Performance dates will be November 19 through November 22, 2026. Subject to change.

Hybrid & Online Distance Education

Canvas is the course management system used by faculty at Chaffey College for the delivery of both hybrid and online classes.

canvas

BE TECH READY

- Frequent and extended access to either a desktop or laptop computer, or a tablet that is equipped to support varied usage of software is ideal.
- Reliable and extended access to the internet is necessary to complete course work.
- The latest versions of Google Chrome, Mozilla Firefox, and Safari are all compatible with Canvas.

GET FAMILIAR WITH CANVAS

- Students have access to the Student Support Hub, where they can connect with Student Support Services, and access a Canvas self-paced course. This course contains tutorials and instructions to help prepare students on how to use Canvas at Chaffey College. Visit the course at the link below.

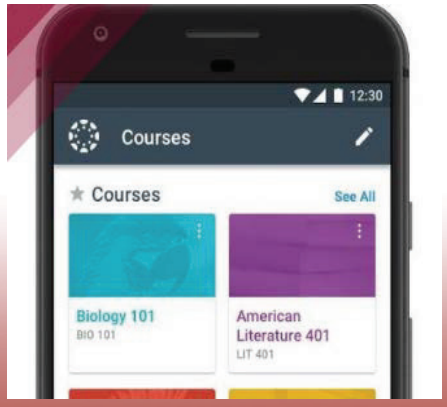

STUDENT SUPPORT HUB

ACCESS YOUR HYBRID OR ONLINE COURSE

- Students enrolled in a hybrid or online class will be granted immediate access to Canvas.
- Students will have access to their class(es) in Canvas on the first day of instruction.

Online education offers a flexible learning environment with on-demand embedded support.

Learn More Here

DOWNLOAD THE CANVAS STUDENT APP!

The Canvas Student App allows students to access their courses and groups using a mobile device. Students can submit assignments, participate in discussions, view grades and course materials. The app also provides access to course calendars, To Do items, notifications, and Conversations messages. You can download the app from the Apple App Store or Google Play Store. Search for Canvas Student.

Honors Program

Fall 2026

What are the benefits to joining the Honors Program?

- Challenging curriculum and small classes
- Priority access to designated Honors courses
- Preferred registration
- Participation in local, state, and national research conferences
- Access to university libraries and invitations to special events
- Transcript annotation indicating honors credit and grade
- Increased probability of transfer (twice the average) coupled with Honors transfer agreements with designated universities guaranteeing priority consideration/acceptance

Who may enroll in an Honors course?

- A student who is a member of the Chaffey College Honors Program
- or, a student who has obtained special permission from the Director of the Honors Program, the Dean of Public Service, Culture, and Society, or the instructor of the course.

Honors Program Office

Dr. Julie Song, Honors Director
Helen Leung, Honors Counselor
Susie Haynes, Administrative Assistant II

Phone: (909) 652-6263
Email: Honors.Program@chaffey.edu
Online: Honors Program webpage
Hours: M-TH: 7:30am-2:00pm
F: 10:00am-1:00pm

Download the Honors Program application from the Honors Program webpage or pick up a copy in the Honors Office or the Counseling Center. Contact us with questions at Honors.Program@chaffey.edu.

There are 2 ways to achieve Honors credit for a course.

1. Take an Honors course section in the fall:

CAMPUS	COURSE	SECTION	START - END DATE	FACULTY	HOURS	DAYS	LOCATION
RANCHO	ENGL-C1000	47206	8/17/26 - 12/17/26	H. Leonor	11:00am-12:15pm	MW	LA-100
RANCHO	SOC-15	48346	9/8/26 - 12/10/26	J. Song	9:30am-11:20am	TTH	SS-100
ONLINE	STAT-C1000	47985	8/17/26 - 11/20/26	S. Khair	Online hours		Canvas

2. Do an Honors Program Contract after meeting with the counselor and mapping out your plan. All transfer-level courses may earn Honors credit through an Honors contract, contingent upon agreement by the individual instructor. Students must be accepted into the Honors Program to be eligible for Honors contracts.

Full-Term Final Exam Schedule: Fall 2026

Notes for Full-Term Classes:

- Lab-only classes do not require scheduled finals.
- Lecture/Lab combination classes generally hold finals based on when the lecture portion is scheduled.
- Classes that meet 2 hours per week or less (including hybrids and 1-2 unit courses) hold their final either during the last regular class meeting, or online as appropriate; please consult your instructor.
- If your class regularly meets 3 or more days per week, has TBA or arranged hours, is not listed above and the notes above do not apply, OR you have a conflict, please confirm the exam time with your instructor.
- If you have any questions regarding the time of your final exam, please consult your instructor. Modifications to the final exam schedule are subject to approval by the appropriate Dean.

Notes for Short-Term Classes:

- All classes scheduled less than full term (including Fast Track and 14-week) hold finals during the last regular class meeting.

Notes for Fully Online Classes:

- Fully online classes may have different timeframes for final exams. Please consult with your instructor for more information.
