

April 27, 2021

Dear Parents,

I hope all is well with you, the children, and your families. I am writing to inform you that the Chaffey College Community College District has made the difficult decision that the Child Development Center will remain CLOSED while the District monitors the changing conditions and evaluates a potential future reopening. The District is closely following the information from the CDC and public health authorities.

In the meantime, to protect the health and safety of the children, staff, and families, the Child Development Center will be working on the implementation of new safety regulations and obtaining necessary safety equipment and supplies to provide safe child care services to be prepared for a future potential reopening.

As individuals slowly return to work and public schools, I understand that this decision will have a big impact in your daily routine. I would like you to know that Chaffey College is committed to the well-being and learning of your child.

As noted above, due to the ongoing safety precautions, the Chaffey College Child Development Center will remain closed. You should have received an interest letter for potential future reopening.

Should you need subsidized or low-cost child-care services, please contact the Resource and Referral for San Bernardino County:
