Clinical Experiential Learning course will allow working dental assistants to increase their understanding of their role in the dental practice by working toward goals and objectives to become a more valuable employee. Participants will be required to demonstrate working knowledge of sterilization, California Dental Practice Act, and Radiation Safety. They will be required to turn in weekly goals and objectives to their specific learning needs. Learners must provide their own dental office and the office must be certified by Chaffey College’s Dental Assisting program for this purpose.

**Class meetings to be determined by the hours of the dental practice**
**54 minimum hours required**

**Presenter:** Beverly Cox  
**Class:** #83578  
**Date:** 1/13 - 5/20/15  
**Time:** Varies  
**Fee:** $45
