

## **Environmental Science**

### **DUAL ENROLLMENT ACADEMIC AND CAREER PATHWAYS**

#### **Introduction to the Major and Career Field**

Are you fascinated by nature and passionate about conservation? Environmental science students focus on real-world problems relating to natural resources, pollution, and climate change, and how environmental issues intersect with history and politics. Our environmental science program prepares you for transfer to a four-year institution and ultimately, to pursue a career in environmental toxicology, public health, environmental law, education, environmental economics, soil and water science, restoration ecology, environmental landscaping, environmental management, or urban planning.
