Representing Chaffey College Faculty in All Academic and Professional Matters

Creative Works and Professional Accomplishments

STAN HUNTER

Full Time Faculty, Ceramics
Visual and Performing Arts

Stan Hunter's work will be featured in an exhibit called **Abstract Link Mixed Media** at the City Gallery of San Diego City College. The exhibit will run from March 14 through April 16, 2020.

City Gallery is located at 1508 C Street, SD, CA 92101.

Gallery Hours:

Tuesday – Thursday 1-5 pm

Individual Creative Works and Professional Activities

STEPHEN CALEBOTTA

Full Time Professor, English,
Language Arts

Professor Calebotta teaches English 79, Native American Literatures. During his sabbatical work during the 2017-2018 academic year, he gathered material that he uses in English 79 and turned the content into an open educational resource, which is now available on merlot.com for other instructors that teach classes on Native American Literatures. While this material is geared toward other teachers, the material may be useful to students as well.

JOHN FAY

Full Time Professor, Mathematics,
Math & Science

Math professor John Fay attended the world's largest mathematical gathering known as the Joint Mathematics Meetings, which were held in Denver Colorado from January 15-18, 2020. Jon was honored to serve as a judge for the Undergraduate Poster Session. He also attended dozens of other presentations, panels, and receptions, as well as less formal networking opportunities in the wider mathematical community.

RESOLUTION

INFORMATION TECHNOLOGY FAILURES

Spring 2020

Whereas, (1) effective access to significant information technology resources such as the portal, Canvas, registration, email, adds and drops, census, and Internet access are critical to the College's vision of "Improving lives through education" and its mission to inspire "hope and success by improving lives and our community in a . . . supportive . . . environment of educational excellence . . .;" and (2) repeated failures of these resources hinder the faculty's ability to successfully achieve the College's mission;

Whereas, within the last several years the College hired an information technology consulting group to evaluate the College's human and technical infrastructure, which identified multiple problem areas relating to the 3rd party Infrastructure Report (the "red light – yellow light" report);

Whereas, (1) information technology failures have occurred repeatedly over several years; (2) the Faculty Senate has been informed repeatedly that the College was working to resolve these issues; and (3) based on the information provided to Faculty Senate during the current school year, the Faculty Senate lacks confidence in the College's ability to solve these problems or to prepare for emergencies caused by significant information technology failures;

Whereas, over the past several years, (1) Chaffey College has experienced multiple Information Technology failures, including portal shutdown, the collapse of the email system, inability of students to register, inability of faculty to add students to their rosters, inability to access the College's learning management system, inability to access the Internet, and other similar technology-related issues; and (2) the Faculty Senate is extremely disappointed in the College's failure to develop and disseminate an emergency plan for responding to a significant information technology failure;

Resolved, that the administration of Chaffey College provide a formal plan for an emergency response in the event of a system failure, such plan to include, but not be limited to, communicating the failure to students and faculty, enabling students and faculty to obtain printed copies of their schedules and/or rosters at predetermined on-campus locations, and a user end backup plan for registering students, enabling them to add classes during the system outage.

Resolved, that the administration of Chaffey College address the aforementioned issues and provide a formal plan, including a timeline, for resolution of identified information technology issues to the Faculty Senate by April 1st, 2020 at which time the Faculty Senate will readdress these issues and determine whether further Senate action is necessary.

**Passed by Faculty Senate
February 18, 2020**
