As the number of students who are leveraging Dual Enrollment classes to decrease their time to degree/certificate completion increases, it is imperative that faculty are prepared to support these students, especially those students who may not see themselves as college-going. In this workshop, you'll learn the keys to forming an effective Dual Enrollment-specific program map and work with facilitators to create a foundational pathway to be leveraged in support of Dual Enrollment students within your very own program. Effective Dual Enrollment pathways can generate new opportunities for your program exposure to the ever-growing population of Dual Enrollment students, potentially leading to increased student enrollments in your courses.
