

# THE PATH

TO GUIDED PATHWAYS AT CHAFFEY COLLEGE

## Faculty Lecture Day FLEX Workshop: Meta-majors Demystified

To develop meta-majors, Chaffey's programs of study were aligned to six distinctive communities based on job families from ONET (career), Holland Code (interest areas), and curricular similarities (academic). We chose to move from "meta-major" to a more descriptive name, Academic and Career Communities (ACC). Academic and Career Communities are collections of academic majors that have related courses and interests. Our Academic and Career Communities will help students navigate their experience by providing structure for undecided students to explore careers and opportunities within a general field of study.

Future work on ACCs will include conversations among discipline and counseling faculty to design a first semester in each area that will allow students to make progress towards several related degrees, while engaging in intentional career exploration to help them ultimately choose a specific program path. In addition, discussions are underway about how to organize future support and engagement opportunities around our Academic and Career Communities.

## Foundation Guided Pathways Mini-Grants

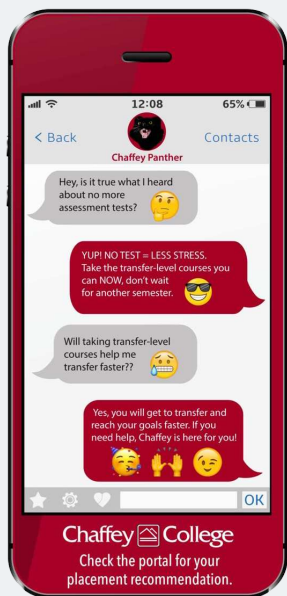

The 2019-20 Chaffey College Foundation will carry a Guided Pathways theme, focusing on work that supports student success. Grants will range from \$250-\$2,500 and all faculty and staff qualify to apply with the approval of their dean, director, and/or program coordinator.

**Applications are due August 23, 2019!**

### AB705

AB705 will fundamentally change opportunities & experiences for our students in English & Math. Be on the lookout for the marketing campaign around AB705!

## Modified GP PSR 2019: Highlights

### Curriculum & Equity

- Curriculum Office, English, Math, & Counseling faculty, & Student services collaborated to redesign curriculum and modify placement processes related to AB705 implementation.
- Distance Education focused on improving the quality of teaching and learning in online classes through DE Hub, supporting courses, Poe the Panther Librarian, FSC professional learning, and online counseling.
- Astronomy increased access for students through DE, Turning Point, Dual Enrollment, Zero Cost Textbooks & collaborated with other disciplines to host Planetarium shows to promote STEM student engagement.

### Student Engagement & Sense of Belonging

- Counseling collaborated with different programs/areas at all campuses to coordinate "Welcome Day" to orient new and prospective students and families to Chaffey.
- Fontana Dean's Office increased outreach to the Fontana Community developing partnerships to enhance the student experience (e.g. Fontana High Schools, Fontana Adult School, Fontana Chamber of Commerce, Wells Fargo).
- The Student Success Centers & Supplemental Instruction collaborated to provide tutor & SI leader training that included metacognition & specific strategies to enhance students' sense of belonging.

### Focus on Careers

- The Business & Applied Technology Dean's Office & the Office of Economic Development have each engaged in community collaborations/partnerships to more effectively connect students to careers through CTE curriculum and internship opportunities.
