- **ACD (CTE)**
- **MIT PCS (CTE)**
- **HWA (CTE)**
- **STEM**
- **NONE (Follow ups as needed)**

For the 2023-2024 Catalog, all curriculum submissions should take place **between January 1, 2022 to March 31, 2022**. Please do not submit curriculum earlier than this launch period.

All departments/disciplines in **MIT, PCS, and HWA** must submit **all of their courses and programs** for review by March 31, 2022 for the 2023-24 Catalog. If you have submitted proposals recently, you will still be required to submit the proposals for this deadline to ensure we are on a consistent and predictable timeline.

- The Curriculum Committee will reach out to faculty in these areas this fall to prepare faculty for the launch period beginning January 1, 2022 and ending March 31, 2022. Please contact your **Curriculum Representative** and the Curriculum Office for any questions.

Faculty who are not in the ACCs due for review are still encouraged/welcomed to submit curriculum changes as needed during the launch period. Please note, you will still be required to submit all curriculum during your standard update cycle.

**ALL FACULTY**

- Updates Due Spring 2022
- **MIT PCS HWA**

Each ACC listed must submit all of their courses/programs in CurriQunet META for the standard update process required by Title 5.
