Framework for Standard Updates

The Academic Senate stated in their Equity, Diversity, Inclusion, and Anti-racism Statement that they "will actively promote equity mindedness and diversity in all areas within its purview" (April 2021). Curriculum is a critical component of faculty purview. As a result, the Curriculum Committee and the Curriculum Office have created guides to help you incorporate Diversity, Equity, and Inclusion (DEI), where relevant and applicable, in your curriculum. These guides are designed to show you where DEI could possibly be included in your curriculum proposal. It is within faculty purview to determine where DEI components are applicable to their curriculum.

Please click on our Diversity, Equity, and Inclusion for Standard Updates PowerPoint for more details and instructions on how to complete the updates and incorporate DEI opportunities.

Please also utilize our streamlined Faculty Guide for Courses and Faculty Guide for Programs to assist as well.
