**4.2. Curriculum Specialist:** The Specialist expressed her sincere gratitude to the Curriculum Chair for her partnership, leadership, and collaboration over the years. She shared that it has been a true privilege to work alongside her and to engage in meaningful curriculum work together. Through their partnership, they navigated complex processes, supported positive change, and kept students at the center of the work. The Specialist noted her deep appreciation for the thoughtfulness and care the Curriculum Chair consistently brought to the role, and shared that the work they accomplished together and the relationships built will always be deeply valued.

The Specialist wanted to take a moment to thank the curriculum committee for the past ten years of partnership. Their trust, collaboration, and commitment made this work both possible and meaningful. ## GERONTOLOGY PACKAGE

Revised to align more closely with current workforce demand and evolving educational pathways in health sciences and aging-related fields. While prior iterations of the certificate reflected earlier labor-market data and training models, the updated structure emphasizes a streamlined, competency-based approach that allows students to gain recognized aging expertise efficiently and apply it directly within healthcare, social services, and allied health settings. This redesign improves accessibility, strengthens workforce relevance, and supports students seeking timely entry into aging-focused roles or complementary credentials that enhance their primary field of study.
