## 2025-26 Chaffey College Commencement Facts

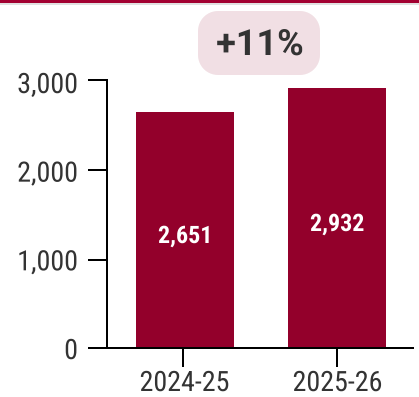

Overview: Every year prior to Commencement the Office of Institutional Research identifies degrees and certificates that have been conferred (summer and fall semesters) or are anticipated to be conferred (spring semester) in the current academic year. Verification of awards occurs throughout summer/early fall. Information Technology Services (ITS) submits the final MIS award file to the Chancellor's Office in September/October. The figures cited below will change as spring 2026 awards are verified, non-transcripted certificates are identified, and/or additional students apply for awards post-hoc. **Data retrieved: May 7, 2026**
