### Q# | Question | Answer
--- | --- | ---
1 | During the Rancho Cucamonga site walk, meter, switchgear, and other electrical information was not located. It was mentioned by the NAM representative that current and accurate information would be provided to the contractors, such as a map with location of meter, meter #s, voltage, amperage, and images if available. Can you please provide this information? | See additional files added to the DropBox folder in the Addendum 3 folder in the Attachment A.3 sub-folder. |
2 | During the Chino site walk, the switchgear information could not be found at meter on the southwest of the campus, V345N-000861. Can you please provide this information? | See additional files added to the DropBox folder in the Addendum 3 folder in the Attachment A.3 sub-folder. |
3 | Can we get technical specifications on the MACC shade structure so we can put a design together and verify that it can withstand the weight of the proposed solar array? | The MACC shade structure has been removed from the project scope. |

---

NOTICE TO CONTRACTORS: Chaffey College has provided as much information as it has available at this time, with respect to the questions posed. When a Contractor is selected for the project, access to all information needed to design the system will be provided. If Contractors feel that information is still missing in order to provide accurate pricing, then the Customer asks that assumptions be made and clearly stated, and any deviations will be addressed during contact negotiations.
