

# International Education Week

Engaged • Resilient • Global

## Events for International Education Week:

**Tunes from Around the World** – Every human culture has music, just as each has language. Music is an expressive language of culture and is a universal feature of the human experience. Check out the Tunes from Around the World page as we feature the Chaffey College community's favorite international music through our Chaffey International Education Week 2021 Spotify Playlist!

**Tastes from Around the World** – Food brings people together and it functions as an expression of cultural identity. Throughout history humans have brought the food of their countries with them wherever they go and cooking traditional food is a way of preserving their culture when they move to new places. Check out the Tastes from Around the World page as we feature the Chaffey College community's favorite international food through our Chaffey International Digital Cookbook!

**Images from Around the World: Photo Contest** – The saying goes that "every picture tells a story" and storytelling is the cultural practice of sharing stories with others. While photography is an artform, it is become an integral part of storytelling too.
